Capital Projects Overview

The Commonwealth's capital projects program for the Executive Branch for the 2006-2008 biennium is presented in this single volume – Volume II of the <u>Budget of the Commonwealth</u>. This overview section of the volume focuses on the capital projects priorities, policies, and fund sources for the next two years.

Total Bonded Indebtedness - Capital Project Vetoes by the Governor

The General Assembly's enacted budget included a total of \$2,380,824,000 in debt financing. Governor Fletcher vetoed \$370,296,000 incorporating 43 capital projects, reducing the total debt budgeted to \$2,010,528,000. This action represented the first time a Governor vetoed a capital

project in an Appropriations Act. The Governor's veto messages are published in the <u>Budget in Brief</u> volume of the <u>Budget of the Commonwealth</u> publication. The \$2.0 billion still represents the highest level of debt ever appropriated in a biennial budget.

The \$2,010,528,000 in budgeted debt includes \$1,392,991,000 in bond funded capital projects supported from the General Fund, \$350,000,000 in Highway bonds supported from the Road Fund, and \$267,537,000 in bond funded capital projects to be financed from Restricted Funds.

Bond Financed Capital Policy Emphasis -Bonds for Education and Economic Development and Infrastructure

By far, the largest proportion of new bond-financed project activity, \$952.3 million (47 percent), is directed to education purposes, elementary and secondary and postsecondary education. Of that amount, \$714,235,000 is appropriated for postsecondary education purposes; the largest amount ever in a biennial budget.

Bond Project Implementation Timing Limitations

The <u>Budget of the Commonwealth</u> provides authorization in fiscal year 2007 for all General Fund-supported bond financed projects, but provides limits on the timing of the implementation of the projects resulting from the appropriation of less than a full-year's debt service for the majority of projects. The <u>Budget of the Commonwealth</u> provides a half-year's debt service in fiscal year 2007 and a full year's debt service in fiscal year 2008 for just four bond financed projects. Those projects will be able to be implemented during any part of fiscal year 2007. For eight bond financed projects (this includes the two Infrastructure for Economic Development pools and the Community Development pool), a full year's debt service is provided in fiscal year 2008; those projects will be able to be implemented after January 1, 2007. For the remaining 46 General Fund-supported bond financed projects, only a half-year's debt service is provided in fiscal year 2008; those projects will be able to be implemented after July 1, 2007.

Postsecondary Education

Collectively, the postsecondary education system received \$479,898,000 in new General Fundsupported bonds as well as \$234,337,000 in Restricted Fund-supported bonds for a total of \$714,235,000 in bonded indebtedness. The agency bond total represents the third consecutive budget with appropriations far in excess of recent historical standards. A continued and significant emphasis has been placed on facilities that support research. These facilities complement the significant research initiative launched as a part of the Postsecondary Improvement Act from the 1997 Special Session. Both the University of Kentucky and the University of Louisville received state support for their top projects - the completion phase of the Biological/Pharmaceutical Complex at the University of Kentucky (\$79.9 million in addition to the \$40 million appropriated by the 2005 General Assembly) and the Health Sciences Center Research Facility - Phase IV at the University of Louisville (\$69.7 million in addition to the \$39 million appropriated by the 2005 General Assembly). These projects were the highest research and economic development capital project priorities of the Council on Postsecondary Education. Major funding was also provided for eleven Kentucky Community and Technical College (KCTCS) projects, including: the Advanced Manufacturing Technology project at Gateway Community and Technical College (\$28 million), the Emerging Technology Center at the West Kentucky Community and Technical College in Paducah (\$16.5 million), the Science/Allied Health building at Jefferson Community and Technical College (\$25.6 million), the Allied Health/Technical Education Building at the Laurel Campus of the Somerset Community College (\$14 million), the third phase of the new campus of the Ashland Community and Technical College (\$17.6 million in addition to the \$18 million previously appropriated, an expansion of the Central Regional Postsecondary Education Center in Elizabethtown (\$20 million), a new community and technical college facility in Washington County (\$14.5 million), an expansion of the facility in McCreary County (\$6.5 million). Other major postsecondary capital investments include: the Center for Health Education and Research at Morehead State University (\$23 million), a joint effort with the St. Claire Regional Medical Center, the Center for Informatics at Northern Kentucky University (\$35.5 million), the new Science building at Eastern Kentucky (\$54.1 million), support to complete the Hathaway Hall project at Kentucky State University related to the long-standing U.S. Office of Civil Rights agreement (\$4.9 million), phase three of the Science complex at Murray State University (\$15 million), and a new College of Education building at Western Kentucky University (\$35 million).

Other Postsecondary Education projects receiving agency bond appropriations include the remaining financing of the new Hospital Patient Bed Tower at the University of Kentucky (\$150 million in agency bonds), the completion of the Student Union Building (\$17.4 million), a new Parking Structure to support the Regional Special Events Center (\$15.4 million) at Northern Kentucky University, the construction of a New Residential College at Murray State University (\$13.1 million), the remaining funds necessary to completely renovate the Academic/Athletic #2 Complex at Western Kentucky University (\$25.5 million), and University of Louisville's Center for Predictive Medicine (\$13 million) which will match a \$22 million federal grant the University received from the National Institutes of Health for a Level 3 Regional Biosafety Laboratory.

Elementary and Secondary Education

The third largest commitment of support is for local school construction. The School Facilities Construction Commission (SFCC) was authorized by the 2005 General Assembly to make offers of assistance to local school districts for new construction and renovation projects. The 2006-2008 Budget of the Commonwealth recommends \$100 million in new bonds to honor these offers of assistance to local school districts. The 2006-2008 Budget of the Commonwealth also appropriated an additional \$50 million for additional offers of assistance.

Education Technology

The 2006-2008 <u>Budget of the Commonwealth</u> provides \$50 million for the K-12 school districts to provide new workstations to support instructional activities. It also supports a major advancement in the modernization of the Commonwealth's education information technology systems by providing \$8.9 million in bond funds and \$22 million in the operating budget to finance the Kentucky Education Network (KEN), providing a faster and higher volume transfer of data and electronic resources to schools connecting local school districts, universities and colleges, and other education agencies together in a single network; the establishment of a learning systems repository accessible electronically to share instructional content modules across all education agencies; and a data repository that allows comprehensive education information to be shared among agencies to better inform policy and decision making. Over \$15 million is provided to Kentucky Educational Television to convert to digital technology the master control, studio, and production capabilities.

Economic Development

Economic Development bond appropriations include \$17.5 million in new Economic Development bond funds and a \$20 million pool for the Commercialization and Innovation program's High Tech Construction and Investment Pool. Both of these efforts are underwritten by General Fund debt service. The \$17.5 million in bonds will recapitalize the Economic Development Bond pool that will be used to leverage state investments against private investments to promote the economic

development of the Commonwealth. The High Tech Construction and Investment Pool supports the growth of innovation-based business and industry in Kentucky by targeting new economy niche areas where Kentucky might gain a competitive edge in the emerging technology economic sectors.

The 2006-2008 Budget of the Commonwealth proposes significant investments in tourism and quality of life projects including \$75 million in General Fund-supported bonds for a new Louisville Arena. This will provide partial funding to support a new Arena in downtown Louisville. The total anticipated cost of the arena complex will be approximately \$349 million. It will be paid for from 15 different sources of revenue, including naming rights, seat premiums, parking, and incremental tax dollars that occur due to the creation of the arena complex. The University of Louisville men's and women's basketball teams will be the primary tenants in the arena complex; concerts, family shows, and other major functions will be held as well. The arena is proposed to have 22,000 seats, 70 luxury suites, a practice facility, and the ability to convert the facility into an ice rink for a minor league hockey team and family skating shows. The 2006-2008 Budget of the Commonwealth proposes funding for a New Indoor Arena project at the Kentucky Horse Park (\$36.5 million in bonds). This project includes the construction of a new climate controlled indoor arena with seating for up to 6,000 people, enabling the Kentucky Horse Park to host the World Equestrian Games in 2010. This event has never been held outside of Europe. The Indoor Arena will bear fruit prior to 2010 by enabling the addition of equine events, expanding its show season and pursuing leading national championship equine shows that it has been unsuccessful attracting with its current facilities.

Infrastructure Development and Community Development

The <u>Budget of the Commonwealth</u> provides two Infrastructure for Economic Development pools: a \$150,000,000 bond funded pool for Non-Coal Producing Counties, and a \$100,000,000 bond funded pool for Coal-Producing Counties, the debt service for which is funded from coal severance revenues within the General Fund. These two pools will finance nearly 560 individual projects, most of which are water and sewer related projects. A Community Development pool financed with \$73,958,000 in bond funds and \$29,103,800 from the General Fund, a total of \$103,061,800, is appropriated to finance 298 community projects throughout the Commonwealth.

The Kentucky River Authority was budgeted a \$37.8 million pool (\$33.2 million in agency bonds and \$4.6 million in Restricted Funds) for critically needed repairs to several dams on the Kentucky River. Funding is provided to construct a new Dam 9 in Jessamine County, to provide the 20 percent state match for Federal Funds to replace Dam 10 near Boonesboro, and authorization to reconstruct Lock and Dam 3 in Owen County, and the Lock at Dam 4 in Franklin County.

Information Technology

Another significant investment is proposed for information technology programs and upgraded business systems. In contemporary society, governments, businesses, and individual citizens are dependent upon and daily users of information technology (IT) systems. State government IT systems need to keep pace. The IT system replacements recommended in this budget replace IT systems dating back ten, twenty, or more years. These include the remaining phases of the public safety communications infrastructure known as KEWS (Kentucky Emergency Warning System), which was developed in the wake of the 1974 tornadoes that rampaged through Kentucky (\$13 million in bonds plus \$16.2 million in Federal Funds); the first phase of a Comprehensive Tax System (\$23.2 million), the last of the Commonwealth's enterprise-wide legacy business systems to be replaced; and the completion of the TWIST system to safeguard children at risk (\$3.1 million matched by the same amount of Federal Funds).

Reduction of Leased Space

The 2006-2008 <u>Budget of the Commonwealth</u> includes funding to finish the renovation of the State Office Building (\$13.6 million) which will enable the Commonwealth to vacate 375,000 square feet of leased property. Design funding is recommended for the renovation of the Capital Plaza Tower which is necessary for the life of the building and will continue the progress of reducing the amount of leased space in Frankfort (\$4.9 million).

Maintenance Projects

The <u>Budget of the Commonwealth</u> also includes funding for maintaining and restoring state owned assets, and to protect existing investments in important facilities. Maintenance Pools finance construction projects costing less than \$600,000 each and keep minor problems from escalating into more costly major maintenance or renovation needs. The 2006-2008 <u>Budget of the Commonwealth</u> provides a limited amount of bonds (\$10 million) for state agency maintenance pools. The Commonwealth's ongoing maintenance requirements need to be financed with cash sources (\$12 million). The cash funding is critical to enable the hundreds of small maintenance projects to be executed without the limitation that bonding imposes to fund only those projects with a useful life of at least 20 years. The Capital Planning Advisory Board endorses the emphasis on cash funding for maintenance. The bond funded maintenance pools include just a 10-year term to allow agencies to direct these funds to appropriate maintenance needs. Other key maintenance investments are: the Replacement of Chillers at the Oakwood mental retardation facility (\$2 million), the Pavilion Roof project at the Kentucky Fair and Exposition Center (\$1.2 million), and the next phase of the Capitol Complex Infrastructure improvements (\$1.1 million).

Life Safety-Protection of the Public

The <u>Budget of the Commonwealth</u> includes capital projects that protect life safety and improve the general welfare of Kentuckians, including: Upgrading Fire Safety at the Morehead Youth Development Center (\$1.5 million), Flood Control and Dam Repair projects (\$1.6 million), additional funding for Drinking Water and Wastewater Revolving Loan funds within the Kentucky Infrastructure Authority's budget (\$8 million in bonds, \$40 million in Federal Funds), security upgrades at the Kentucky History Center.

Other Notable Projects

The 2006-2008 <u>Budget of the Commonwealth</u> includes funding to acquire 4,291 acres of currently leased property at the Department of Military Affairs' Wendell H. Ford Regional Training Center in Muhlenberg County. The current leaseholder plans to sell this property and its acquisition is critical to the Department's ability to maintain this area as a major military training center (\$4.5 million). Funding is also included to construct the Commonwealth's fourth and fifth Veterans' cemetery, the Northeastern Kentucky State Veterans' Cemetery, in Greenup County, with over \$8 million in Federal Funds, and a Veterans' cemetery in Southeast Kentucky, with \$6 million in Federal Funds.

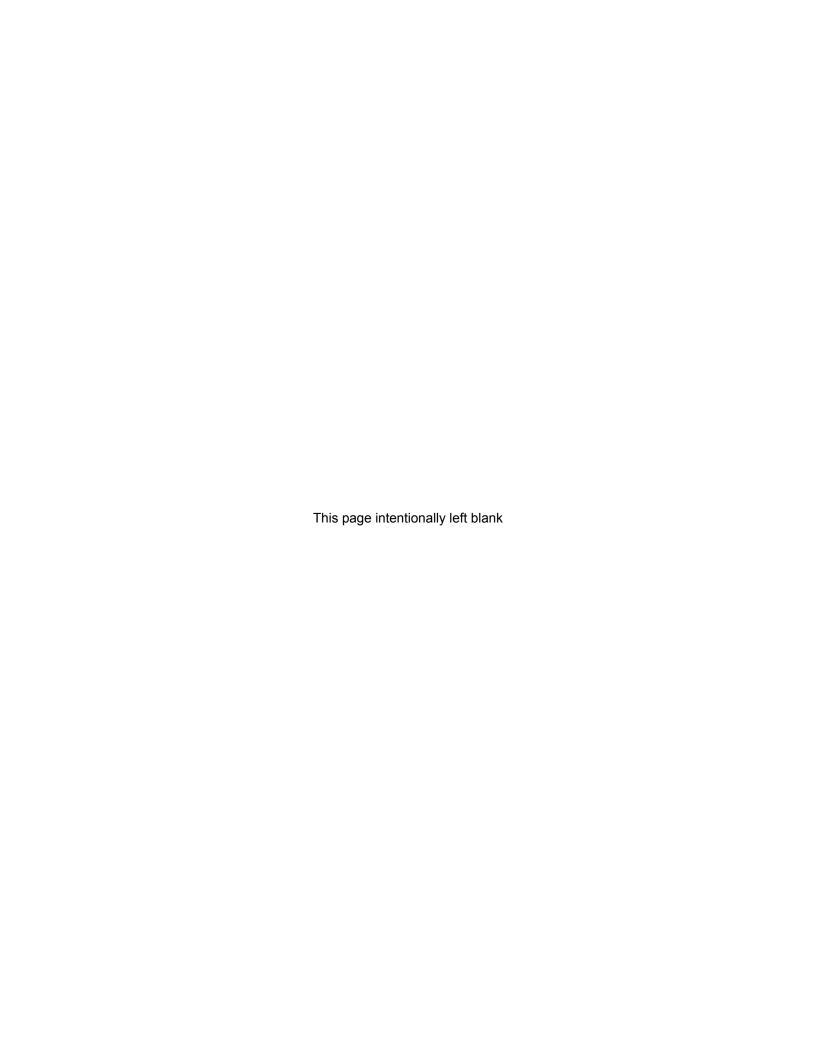

NOTE: The preceding discussion does not include reference to the second phase of a bond program begun in the 2004-2006 biennium for interstate highway construction. This \$290 million GARVEE bond program is discussed in Volume I of the <u>Budget of the Commonwealth</u> documents in the Kentucky Transportation Cabinet description.

Capital Projects

General Government	Fiscal Year 2005-2006	Fiscal Year 2006-2007	Fiscal Year 2007-2008
Veterans' Affairs			
W Ky. Veterans' Center-Alzheimer's-Gen Care Unit		1,757,000	
This project will expand the existing Western Kentucky Veterans' Center (WK	VC).		
The expansion will add approximately 40 beds to the current 120 beds in an e	=		
reduce the number of veterans on WKVC's waiting list. Historically, an average			
sixty-two (62) veterans have been on WKVC's waiting list at any given time, a	ind		
approximately two-thirds of the veterans on WKVC's waiting list have been sp	ecial		
care/Alzheimer's patients. In addition, the expansion will include all storage a	ınd		
administrative spaces necessary to provide proper care to the additional patie	ents.		
Bond Funds		1,757,000	
Construct State Veterans Cemetery-Northeast KY		395,000	8,300,000
The Northeastern Kentucky State Veterans' Cemetery project will procure			
approximately 60 acres of land in Northeastern Kentucky, which will provide 2	25,000		
gravesites to serve Kentucky's veterans. The project will also include a 3,600			
foot administration building and a 4,400 square foot equipment storage and	•		
maintenance building. This will be the fourth Veterans' cemetery authorized by	by the		
General Assembly to serve Kentucky's approximately 370,000 veterans in all	regions		
of the Commonwealth.			
General Fund		395,000	
Federal Funds			8,300,000
Construct State Veterans' Cemetery-Southeast KY			6,200,000
The Southeastern Kentucky State Veterans' Cemetery project will procure			
approximately 60 acres of land in Southeastern Kentucky, which will provide 2	25,000		
gravesites to serve Kentucky's veterans. The project will also include a 3,600) square		
foot administration building and a 4,400 square foot equipment storage and			
maintenance building. This will be the fifth Veterans' cemetery authorized by	the		
General Assembly to serve Kentucky's approximately 370,000 veterans in all	regions		
of the Commonwealth.			
General Fund			200,000
Federal Funds			6,000,000
Maintenance Pool		100,000	100,000
The Kentucky Department of Veterans Affairs (KDVA) maintains and operates	s three		
nursing homes and a State Veterans Cemetery and has another two cemeters	ies		
scheduled to open in the upcoming biennium. The KDVA's recurring mainten	ance		
pool preserves and protects the Commonwealth's investment in its facilities. T	These		
funds are expended for various maintenance and renovation projects under			
\$400,000. Investment Income		100 000	100.000
investment income		100,000	100,000

Kentucky Infrastructure Authority			
Infrastructure for Econ. DevNon-Coal Counties		150,000,000	
This debt authorization will provide funding for projects that maintain and expan	d		
local economies. There are 349 individual line-item projects identified in Part II.	,		
Section O of House Bill 380, as modified by House Bill 557. Projects include			
investments in public health and safety, economic development, education, public	olic		
water and wastewater development and roads.			
Bond Funds		150,000,000	
Infrastructure for Econ. DevCoal Counties		100,000,000	
This debt authorization will provide funding for projects that maintain and expan	d		
local economies. There are 210 individual line-item projects identified in Part II,			
Section N of House Bill 380, as modified by House Bill 557. Projects include			
investments in public health and safety, economic development, education, public	olic		
water and wastewater development and roads.			
Bond Funds		100,000,000	
KIA Fund F-Drinking Water Revolving Loan Program		24,000,000	
The Fund F (Federally Assisted Drinking Water Revolving Loan Fund Program)			
finances local drinking water facilities that qualify under U.S. Environmental			
Protection Agency requirements. Funds are provided by the United States			
Environmental Protection Agency through capitalization grants of 83.33 percent	of		
the total project. The state matches these funds with 16.67 percent of the total			
project through issuance of General Fund-supported debt. Four percent of the			
capitalization grants are reserved for the program's administrative costs. The fe	ederal		
funds for this program are appropriated in the operating budget to comply with t	he		
Federal Cash Management Act.			
Federal Funds		20,000,000	
Bond Funds		4,000,000	
KIA Fund A-Federally Assisted Wastewater Program		24,000,000	
The Fund A (Federally Assisted Wastewater Revolving Fund Program) finances	s local		
wastewater treatment and collection facilities that qualify under U.S. Environme	ntal		
Protection Agency requirements. Funds are provided by the United States			
Environmental Protection Agency through capitalization grants of 83.33 percent	of		
the total project. The state matches these funds with 16.67 percent of the total			
project through issuance of General Fund-supported debt. Four percent of the			
capitalization grants are reserved for the program's administrative costs. The fe			
funds for this program are appropriated in the operating budget to comply with t	he		
Federal Cash Management Act.

Bond Funds		258,000,000	

	iscal Year 005-2006	Fiscal Year 2006-2007	Fiscal Year 2007-2008
Military Affairs			
Acquire Land for WHFord Regional Training Center		4,500,000	
This project will procure approximately 4,291 acres of land currently leased by			
Military Affairs from Peabody Coal Company for military live-fire range safety are	eas at		
the Wendell H. Ford Regional Training Center (WHFRTC). Acquisition of this			
property is essential to the continued growth and the training conducted at WHF	RTC,		
which is itself essential to preparing troops for active combat. The source of			
Restricted Funds for this project are proceeds from the sale of natural resources	,		
primarily timber and coal slurry, from state owned land at WHFRTC.			
Bond Funds		4,500,000	
Construct Joint Use Readiness Center Paducah		11,400,000	
This project will construct a new armory and field maintenance shop located in			
Paducah. The present facility and location do not meet the current needs of the	units		
assigned to the armory and there is not adequate land at the current site for			
expansion of the facility. The new facility will be approximately 41,843 square fe	et		
and will be located on approximately 10 acres. This project will replace the curre			
armory and field maintenance shop currently located in downtown Paducah.			
Federal Funds		11,400,000	
Bluegrass Station Facility Maintenance Pool		2,500,000	2,500,000
This maintenance pool funds projects under \$400,000 for the repair and/or		,,	,,
improvement of World War II-era buildings and infrastructure at Bluegrass Static	n.		
Bluegrass Station is a self-sustaining, semi-commercial economic development			
operation located at the old Avon Army Depot in Fayette County. Projects to be			
funded by the pool are necessary because of safety, code enforcement, and/or			
tenant concerns. Classifications of projects will include, but not be limited to,			
emergency roof or other structural repairs, repair of water lines, upgrade of elect	rical		
wiring, upgrade of sprinkler or heating systems, and maintenance and repair of			
roadways. Bluegrass Station currently leases 2,123,929 square feet of space.			
Restricted Funds		2,500,000	2,500,000
Upgrade DMA Statewide Radio System		3,000,000	
This project continues the development of a digital two-way radio system capable	e of	, ,	
future technological upgrades and expansion. It will also meet the federal manda			
contained in the re-channeling plan of the National Telecommunications and			
Information Administration. This mandate is that by January 2008 radio systems	must		
convert to narrow band digital or lose the ability to communicate. The source of			
Federal Funds for this project is expected to be grants from the Department of			
Homeland Security.			
Federal Funds		3,000,000	

	scal Year 05-2006	Fiscal Year 2006-2007	Fiscal Year 2007-2008
Military Affairs			
Maintenance Pool		860,000	860,000
This maintenance pool funds maintenance and renovation projects under \$400,00	00		
to protect and lengthen facility life spans. The Department of Military Affairs has			
1,822,000 square feet of facility space located statewide. Classifications of project	cts		
include, but are not limited to, emergency roof repairs or replacements, HVAC and	d		
electrical upgrades, code compliance, and maintenance and repair of roadways.			
Investment Income		860,000	860,000
Construct Warehouse - Bluegrass Station		1,500,000	
This project will build a 20,000 square foot warehouse to store aircraft parts remove	ved		
from helicopters during the repair process. This warehouse will support the helico			
modification hangar currently under construction at Bluegrass Station and the airc	=		
modification building soon to be under construction. Both of these projects were			
authorized by the 2005 session of the General Assembly. The aircraft repaired at	t		
this facility have seen use in the war on terrorism and are being repaired for return	n to		
service. The federal funding for this project will be received from the Special			
Operations Forces Support Activity Division of the Army.			
Restricted Funds		375,000	
Federal Funds		1,125,000	
Aircraft Maintenance Pool		500,000	500,000
The Division of Air Transport in the Department of Military Affairs currently operate	es		
five fixed-wing aircraft and five helicopters which are used for state agency			
transportation support and counter-drug operations. This Maintenance Pool			
performs all maintenance of agency-owned aircraft according to Federal Aviation			
Regulations. Maintenance items include, but are not limited to, engine overhauls	and		
replacement of components such as transmissions, tail rotors, avionics, and			
gearboxes.

Warren County Fiscal Court-Transpark-Rail Spur This debt authorization will provide the funding necessary to bring rail service to Kentucky Transpark, a high-tech commerce and business park located in Bowlin Green. The mix-use park is located less than a mile from I-65 provides tenants state-of the-art communication infrastructure and on-site training facilities. The addition of access to rail transportation, the Transpark will facilitate the "Just in needs found in many of today's businesses.	ng with	4,500,000	
Bond Funds		4,500,000	
Flood Control Matching Fund This program is authorized by KRS 151.560 which established the Flood Control Advisory Board. The need to continue to assist local governments with the match requirements of the federal agencies is paramount to flood prevention in many communities. Without the assistance from this fund, most local governments call afford the matching requirements. The customary federal participation in these projects is 95 percent inasmuch as most of the Commonwealth's projects are in counties with high poverty rates. The state match is derived from a portion of the Local Government Economic Development Fund allocation of Coal Severance revenues. The Governor's recommended budget moves the state owned damn money historically budgeted in the Department for Natural Resources to this act to provide a greater leveraging of the financial resources. Any state-owned dam repair project is eligible to participate in this pool of funds.	ch annot ne Tax repair count	2,000,000	2,000,000

Agriculture			
PACE-Agricultural Enhancement Fund		3,600,000	3,600,000
The Purchase of Agriculture Conservation Easements (PACE) Program was			
originally authorized by the 1994 General Assembly and codified in KRS			
262.900-262.920. The program provides for the acquisition of easements to	ensure		
that lands currently in agricultural use will remain available for agriculture use	in the		
future.			
Federal Funds		3,600,000	3,600,000
Fuels/Pesticides Testing Lab			1,650,000
This project will establish an Engine Fuels and Pesticides Testing Laboratory.			
The agency is mandated to assure quality in motor fuels and safety in pesticion	des		
storage and usage. The proposed laboratory will enable the Department to e	xecute		
its fuel and pesticides testing program more timely and possibly at a lower co	st. The		
agency now uses contract vendors and the costs of these outside tests, partic	cularly		
for fuels, have been rising dramatically. By operating its own lab, the Departr	nent		
can avoid delays and provide an elevated level of service and protection to the			
general public and to firms who face unfair competition from those operating	outside		
of the legal standards.			
General Fund			1,650,000
Large Scale Test Truck		175,000	
This vehicle is used by the Department's Division of Regulation and Inspectio	n for		
the enforcement of the provisions of KRS 363.520 to 363.850, which pertain t	:0		
weights and measures. The vehicle is more specifically described as a 25,00	00		
pound scale test truck, referring to the total amount of test weights it carries for	or the		
purpose of testing or calibrating large weigh scales. This unit will replace an	existing		
vehicle that has excessive age and mileage.			
Capital Construction Surplus		175,000	
Forage Testing Van		115,000	
This project will provide a new mobile hay testing vehicle capable of providing	g quality		
analysis of forage in a field setting. This vehicle will replace an existing unit the	hat is		
currently in service but has more than 308,000 miles. Forage quality analysi	s is		
crucial to efficient livestock production, as forages are usually the most efficie	ent		
source of nutrients for farm animals. Knowing the nutrient content of forages	is an		
integral part of a farmer's production practices.			
Capital Construction Surplus		115,000	
Franklin Co - Lease			
This lease is located at the Fair Oaks Complex in Frankfort. This lease provide			
office space for the Office of the State Veterinarian and the Office of Agricultu	ire		
Marketing and Product Promotion.

Fiscal Year Fiscal Year Fiscal Year Commerce 2005-2006 2006-2007 2007-2008 **Horse Park Commission** 42,680,000 **Construct New Indoor Arena** This project authorizes the construction of a new climate controlled indoor arena with seating for up to 6000 people. The new indoor arena will allow the Park to add equine events by expanding its show season and pursuing leading national championship equine shows that it has been unsuccessful attracting with its current facilities. In addition, this new indoor arena will allow the Park to compete with new equestrian facilities in neighboring states as well as offer a new venue for other medium sized special events. The Commonwealth of Kentucky was awarded the bid by the Federation of Equine International (FEI) to host the World Equestrian Games (WEG) in 2010. This event has never been held outside of Europe and is the equivalent in the equine sport world as the Olympics are to human competition. The WEG will cover 10 days in September 2010 and attract up to 300,000 people and will have an estimated \$90 million impact to the Commonwealth. The completion of this new climate controlled indoor arena is an essential element of hosting the WEG. Other Funds 6,180,000 **Bond Funds** 36.500.000 **Construct Hotel/Conference Center** 27,500,000 The Finance & Administration Cabinet, on behalf of the Kentucky Horse Park and the Commerce Cabinet, issued a request for proposal (#S-04474325) on July 9, 2004 from private, third-party, developers who will develop, construct, operate, and maintain a hotel and associated facilities at the Kentucky Horse Park. One party has responded to the bid and currently negotiations are under way. This hotel will provide enhanced and expanded recreational activities at the Park and increase revenue to the Park through direct commissions and through increased visitation. The hotel is another key element in the Kentucky Horse Park being awarded the World Equestrian Games to be held in September, 2010. Other Funds 27,500,000 **Maintenance Pool** 575.000 575.000 The Park's recurring maintenance pool preserves and protects the Commonwealth's investment in the Kentucky Horse Park's facilities. These funds are expended for various maintenance and renovation projects under \$400,000. The Maintenance Pool is a vital resource that allows the Park to be consistently well maintained, protects the investment in the infrastructure, and insures that it remains aesthetically pleasing. This will be increasingly important in the next few biennia as the Kentucky Horse Park prepares to host the World Equestrian Games in September, 2010. Investment Income 575,000 575,000 **Construct Permanent Seating Stadium Jump Area** This project proposes to construct permanent seating around the equine jumping complex and will be funded entirely through donations to the Kentucky Horse Park Foundation. The permanent seating will replace and expand the current temporary bleachers that are becoming old and inadequate. This project proposes to meet the

increasing demand for seating currently experienced by the ever more popular equine competition events as well as encourage new events that will increase agency revenue. This is a reauthorization of an existing appropriation.

State Fair Board			
Replace Roof for the Pavilion		1,250,000	
This facility was constructed in the late 1960s. It was used as an open-air far until the Pavilion was built. It is approximately 79,000 square feet. The roof his patched until it can no longer be repaired. The deck board has asbestos and contractor will have to remove it. The foam roof is not watertight and thus the roof, insulation and deck have water damage. In short, the Pavilion roof has completely failed. The replacement is both a facility improvement but also refor life safety.	nas been I the e entire		
Bond Funds		1,250,000	
Maintenance Pool		1,500,000	1,500,000
Maintenance projects costing less than \$400,000 are needed to keep the ag facilities located at both the Kentucky Fair and Exposition Center and Kentuc International Convention Center in a sound state of repair and readiness for existing and potential future clients. The maintenance needs of the Fair Boar facilities recently have exceeded the funds available to address them. To ad this situation, maintenance projects are identified and prioritized annually by Board at its June meeting.	cky both rd's dress		
Restricted Funds		1,500,000	1,500,000

Replace Paving from Gate 1 to Gate 2

Subsurface soil movement has damaged the asphalt pavement from inside Gate 1 to inside Gate 2 at the Kentucky Fair and Exposition Center. This soil movement has caused the asphalt to crack and open up the topcoat, thus allowing the penetration of moisture into the asphalt and road base over the years. The annual freeze and thaw cycle has also caused additional deterioration. This project will resurface the pavement using the Transportation Cabinet's specification for a heavily used road with large truck capacity. This project reauthorization is contingent upon fund availability.

Renovate KICC Pedway System

As the Kentucky International Convention Center has grown in size and usage there has been sustained increased traffic on the 2 pedestrian pedways. These pedways connect to other buildings in Louisville. The pedways have plexiglass sidewalls and ceilings that have made them very difficult to heat and cool. This project will remove the old walls and ceilings and renovate the structure. This project reauthorization is contingent upon fund availability.

New Economy High-Tech Construct/Investment Pools		20,000,000	
The High-Tech Construction and Investment Pools are part of an overall economic development strategy set forth in the Kentucky Innovation Act (HB 572) of the 2000 Regular Session of the Ky. General Assembly; KRS 154.12-278(4). The New Economy Investment/Construction Pool project investments support the growth of innovation-based business and industry in Kentucky. Pool investments target new economy niche areas where Kentucky might gain a competitive edge in the emerging 21st Century economy. These niche areas are identified in the New Economy Strategic Plan published in 2002 Kentucky. New Economy Pool projects support the development of a strong R&D infrastructure, the development of a high-tech workforce, and increase the access to risk capital for fledgling, high-potential

Maintenance Pool		300,000	300,000
The Education Cabinet's recurring maintenance pool preserves and protects the	he		
Commonwealth's investment in 26 facilities located throughout the Commonw	ealth.		
These buildings contain approximately 573,000 gross square feet and are curr	rently		
valued at \$44.9 million. The average age of these facilities is approximately 4	2		
years. These funds are expended for various maintenance and renovation pro	jects		
under \$400,000 such as updates for life-safety issues and ADA, as well as ne	eding		
new mechanical equipment. The exterior repairs will require the replacement	of		
doors and single pane windows with insulated units. Also, the exterior facade	in		
several locations requires repairs and/or upgrading. This needs to be accomp	lished		
in order to provide a positive image that will attract employers, as well as clien	ts who		
may require the services of those offices. The exterior surfaces (walls and			
foundations) of several facilities need to be repaired so that moisture doesn't r	nigrate		
into the interior spaces.

Louisville Arena 75,000,000

This project will provide partial funding to support a new Arena to be located in downtown Louisville, Jefferson County. The total anticipated cost of the arena complex will be approximately \$349 million. It will be paid for by a variety of different sources. There are 15 different revenue streams. They include naming rights, seat premiums, parking and incremental tax dollars that occur due to the creation of the arena complex.

The University of Louisville men's and women's basketball teams will be the primary tenants in the arena complex, although concerts, family shows and other major functions will be held as well. Initial plans call for the arena complex to be approximately 669,000 square feet. A task force convened by Governor Fletcher recommended that the arena have 22,000 seats, 70 luxury suites, a practice facility and the ability to convert the facility into an ice rink for a minor league hockey team and family skating shows. The rest of the complex should contain a restaurant, hotel, parking garage and retail shops.

The Louisville Arena Authority has been established as a 501(c)(3) corporation and will be able to buy and hold property, negotiate and sign contracts. They also will sell bonds to pay for the arena complex and manage day to day operations of the arena complex.

Renovate Ky State Office Building

This authorization will allow the New State Office Building renovation project originally authorized by the 1994 and 1996 General Assembly to proceed. The 2005 session of the General Assembly provided \$35 million to continue the progress on this major renovation. This project is for a total renovation of the Ky State Office Building including HVAC, electrical, sprinkler, fire alarm, telecommunications, window replacement, exterior tuck pointing, roof replacement, ADA upgrades, elevator upgrades, new exterior wall insulation and finishes, new ceiling systems, new floor coverings and new modular furniture. The building will be tied into the new central utilities plant that was appropriately sized to support this renovation. The building cannot be reoccupied without completion of this renovation project. This project will provide for more usable, rentable office space for state government agencies and help reduce the reliance upon leased space in Franklin County. It is also consistent with the Department's mission to maintain the Commonwealth's office buildings in a safe, modern, efficient, and desirable working condition while keeping operating costs to a minimum.

13,600,000

13,600,000

Statewide Repair, Maintenance and Replacement

Bond Funds

This bond funded project supports projects for major repair and maintenance of state facilities in the following Cabinets: Commerce Cabinet, Finance and Administration Cabinet, and Justice Cabinet. The character of these agency's maintenance pool projects will necessarily continue the policy begun by the 2005 General Assembly due to the use of bonds to fund the fiscal year 2006-2007 and fiscal year 2007-2008 maintenance pools. In contrast to historical policy, the individual projects approved by the agencies, the Finance and Administration Cabinet, and the Office of the State Budget Director must be of a more permanent nature, i.e. roofs, HVAC systems, windows, etc. with a useful life that approximates the life of the bonds (10 years). Previously, the agencies were limited by statute to funding projects from their maintenance pools costing \$400,000 or less. The General Assembly inserted language in HB 267 (Part 2; General Provisions; Item # 6 pages 148 and 149) that effectively temporarily suspends this limitation for those maintenance pools funded by the issuance of bonds. The Governor is recommending to continue this policy. This will provide the above agencies with the flexibility to identify a project or projects costing in excess of \$400,000 to be appropriately funded with bonds. Projects identified from this fund source are also subject to IRS expenditure rules for tax-exempt bonds. This means, in general, that any project that is identified must be

Included in the above Statewide Repair, Maintenance, and Replacement Pool are the following Bond Fund supported projects and related appropriations in fiscal year 2007:

- (a) Parks, Maintenance Pool, \$1,250,000;
- (b) Facilities and Support Services Maintenance Pool, \$3,750,000; and in fiscal year 2008:

completed or substantially completed (95%) within 2 years.

- (a) Justice and Public Safety Cabinet, Corrections Management, Maintenance Pool, \$1,850,000
- (b) Facilities and Support Services Maintenance

Commonwealth Office of Technology

Public Safety Comm. Infrastructure - KEWS

The 1976 Kentucky General Assembly authorized the Kentucky Emergency Warning System (KEWS) as a result of the inability of first responders to communicate after the devastation left by tornadoes that struck the Commonwealth in 1974. KEWS is a highly survivable and redundant statewide analog microwave based communication system providing network inter-connectivity carrying radio control, low speed data, video, and emergency voice traffic for public safety and emergency agencies. Since its service was initiated in 1979, KEWS has evolved and expanded its communication services to serve not only the Commonwealth agencies such as the Kentucky State Police, Department of Military Affairs, Kentucky Educational Television, Department of Fish and Wildlife Resources, Kentucky Transportation Cabinet, Natural Resources and Environmental Protection Cabinet, Kentucky Emergency Management, and the University of Kentucky, but also Federal and Local agencies such as Federal Bureau of Investigations, National Weather Service, and numerous Local-County Emergency Medical Services.

Because the KEWS microwave infrastructure is over 25 years old with replacement parts that are not available and network failures that were impacting the various communication systems riding on KEWS network the 2005 General Assembly appropriated \$13,768,000 for the first phase of the KEWS upgrade. With the modern digital upgrade, KEWS will evolve again to provide a secure, highly survivable and redundant wireless digital Pubic Safety Communication system that is critical for the protection of life and property in the Commonwealth.

Federal Funds 16,166,000 **Bond Funds** 13,000,000 **Data Center Readiness** 1,400,000 The existing Cold Harbor building, presently housing the central operations of COT, requires various repairs and upgrades to protect investment and accommodate the evolving and expanding mission of COT to provide data services to the Commonwealth. This project will repair or replace the deteriorating roof, upgrade the heating, cooling, electrical, and telecommunications/data systems, and provide for alteration of interior spaces to accommodate the operational needs of COT. **Bond Funds** 1,400,000 Ky Information Highway Expansion 06-08 1,975,000 1,975,000 The Kentucky Information Highway (version 2) (KIH-2) is a network infrastructure built on modern transport technologies that allows the Commonwealth Office of Technology (COT) to extend network resources to every agency in every county in the state. KIH-2 also allows COT to deploy new service offerings that were previously unavailable because of technological constraints. These new technologies will increase available bandwidth and save \$3 to \$4 million in operating costs annually. Restricted Funds 1,975,000 1,975,000

2006-2007

Commonwealth Office of Technology

Franklin Co - Lease Genesco Bldg Warehouse

This lease is located at Myrtle Avenue in Frankfort, Ky and is commonly referred to as the Geneseco Building Warehouse. The lease provides operational space for the Division of Printing in the Commonwealth Office of Technology. This space has been leased for this operation since 1979. The annual cost of the lease is \$216,400. The Division of Real Properties identifying number is PR02323.

Franklin Co - Lease 100 Fair Oaks

This lease is located at 100 Fair Oaks in Frankfort, Ky. The leased property is the primary location of the Commonwealth Office of Technology's (COT) Office of Application Development. COT has leased this space since June of 1995. The annual cost is \$374,700. The Division of Real Properties identifying number is PR03463.

Disk Storage Upgrade

This project will enhance the Commonwealth Office of Technology's (COT) disk storage system. Disk storage equipment consists of large-scale disk storage arrays, storage area networks, cache memory for buffering data, device controllers, and interfaces to computing platforms that range from large mainframe computers to much smaller Intel-based processors. The disk storage infrastructure must be upgraded periodically to provide additional capacity. This project consists of capital equipment projects needed to provide high-capacity disk storage that is shared between various enterprise server platforms and architectures. This is a reauthorization of an existing appropriation.

Enterprise Storage Solution

The Commonwealth Office of Technology (COT) provides data storage and safekeeping for all major statewide applications. This project will upgrade mainframe storage (z/OS), open-systems (AIX UNIX, SUN UNIX, and Microsoft Windows) and desktop support. Storage solutions will include a large storage area network (SAN), potential small storage area networks (SAN LETs), network-attached storage (NAS) and stand-alone storage boxes. This equipment is essential to disaster recovery for mission-critical systems. It will also expand existing storage devices, platforms and upgrades to provide a cost effective measure of technology maintenance. This is a reauthorization of an existing appropriation.

Enterprise Server Complex Upgrade

The Commonwealth Office of Technology maintains a computing facility that has been shared by all state agencies for over twenty years. This large shared computing facility is known as the Commonwealth Data Center and is located on Cold Harbor Drive in Frankfort. This facility houses computer servers that perform the computing required by Kentucky's most important enterprise applications. The servers that support these critical enterprise applications are called enterprise servers, and are collectively referred to as the enterprise server complex.

The enterprise server complex is a key component of the state's computing infrastructure. This equipment consists of central processing units, memory, and supporting hardware scaled for both large-scale general purpose mainframe platforms and smaller specialized mid-range computing platforms. The enterprise server complex upgrade consists of a pool of capital equipment projects to provide increased computational power for various computing architectures to meet the

Fiscal Year 2007-2008

needs of growing enterprise computing workloads. This is a reauthorization of an existing appropriation.

Enterprise Unix Server Consolidation

With the proliferation of single applications being deployed on independent servers or server farms, the Commonwealth Office of Technology (COT) must plan for consolidating computing resources. The COT provides strategic and operational support for all major statewide applications, as well as agency specific applications. Included in this support is hardware and software infrastructure needs to successfully manage these enterprise applications.

Without an enterprise approach to the computing requirements each and every application will endure equipment technology refreshment. True economies of scale can be recognized through sharing state-of-the-art technology built to sustain multiple applications on one hardware platform. The Commonwealth Data Center should supply the appropriate hardware and support structure to minimize recurring maintenance and operational costs. This is a reauthorization of an existing appropriation.

Statewide Digital Orthoimagery Basemap Update

This initiative will continue the effort to build a shared basemap that can meet the needs of its users at the state, federal, local, and regional level. A common basemap reduces the cost of developing GIS applications and promotes data sharing. Access to the basemap is made available in the public domain. The initial orthoimagery coverage was created from aerial photography flown from 1992 through 1998 (with some very limited coverage from 1999). The oldest imagery (east of 84 degrees longitude) was updated in 2001 and 2002. This represents approximately one-fourth of the state. The remaining area needs to be updated. This project will provide significant savings to governments and the private sector in using a common basemap, avoiding duplication, and encouraging standardization of Geographic Information Systems (GIS) assets. This is a reauthorization of an existing appropriation.

Enterprise Messaging

Enterprise messaging services provide electronic e-mail (Intranet and Internet), calendaring, contacts and other personal information management (PIM) functions to messaging subscribers. Currently, approximately 35,000 state and local government employees, libraries, constitutional offices and commissions utilize the services. Approximately another 80,000 Education Cabinet employees, non-participating Executive Branch agencies, and others depend on enterprise messaging for routing of messages among their individual sites. Enterprise messaging processes approximately 1 million messaging transactions a day.

Add-on features to enhance the users' ability to communicate include desktop fax and wireless messaging via the Blackberry handheld devices. Also, Enterprise Messaging assists the desktop virus protection program by discovering and quarantining infected messages and files as they enter the enterprise. This is a reauthorization of an existing appropriation.

Commonwealth Office of Technology

KY Info Highway Upgrade Exp

The Kentucky Information Highway (version 2) (KIH-2) is a network infrastructure built on modern transport technologies that allows the Commonwealth Office of Technology (COT) to extend network resources to every agency in every county in the state. KIH-2 also allows COT to deploy new service offerings that were previously unavailable because of technological constraints. These new technologies will increase available bandwidth and save \$3 to \$4 million in operating costs annually. This is a reauthorization of an existing appropriation.

Enterprise Infrastructure Security

The Commonwealth Office of Technology (COT) provides the infrastructure and related support for the Commonwealth's computing and communications environment. As part of the infrastructure support, COT also provides security applications and systems in order to reduce risk and better protect state government resources. COT currently provides enterprise firewall support, virtual private networking (VPN) services and intrusion detection systems (IDS) to attempt to protect applications, systems and networks. Providing a secure infrastructure is critical to protecting the resources of the Commonwealth and maintaining public confidence. COT has reviewed and investigated over 2,000 security-related incidents in the past twelve months. In order to better protect resources, additional systems need to be implemented. These systems will include additional firewalls and IDS devices, e-mail filtering systems, Public Key Infrastructure (PKI) systems, web filtering systems, security content management systems and various host and network security devices. This is a reauthorization of an existing appropriation.

Disaster Recovery Phases I & II

The Commonwealth Office of Technology (COT) provides strategic and operational support for all major statewide applications, as well as agency specific applications. COT also provides and manages the network communications infrastructure that provides connectivity for applications, users and locations across the Commonwealth. During fiscal year 2002-2003, COT awarded and managed the contract for Disaster Recovery Planning services for all applications supported by COT and deemed critical by the responsible state agency. Once the planning phase is completed, COT will begin implementation of recommendations from the planning process based on budget availability. Many of the recommendations for disaster recovery improvements will require substantial unplanned expenditures. This is a reauthorization of an existing appropriation.

Implement a Comprehensive Tax System - Phase I		23,250,000	
The Department of Revenue's various tax information systems need upgraded replacement. Most of the Department of Revenue's systems were implement the 1980's and are not easy to modify or maintain. There is a real danger of failure due to lack of experience in COBOL and other outdated programming languages. These systems were simply not designed to work with the technologies. The new comprehensive system will use web-based technologies and be flexible enough to allow adaptation to new technologies future.	nted in f systems g nologies	, ,

Oakwood-Replace Chillers, Heating & Cooling Lines	2,131,000	
This project will replace the two, one hundred and fifty-ton (150) chillers and the	_,,	
heating and cooling lines for the 18 cottages. The current chillers use freon 113		
which is no longer manufactured and will be prohibited from use after 2008 in		
accordance with EPA standards. The heating and cooling lines are original to the		
facility built in 1972 and also need to be updated to licensure requirements.		
Bond Funds	2,131,000	
Maintenance Pool	1,500,000	1,500,000
The Department for Mental Health and Mental Retardation recurring maintenance		
pool preserves and protects the Commonwealth's investment in its facilities. These		
funds are expended for various maintenance and renovation projects under \$400,000		
It provides support for approximately 189 buildings, several of which are over 150		
years old. Investment Income	1,500,000	1,500,000
Roof Pool	700,000	
The Department for Mental Health and Mental Retardation (MH/MR) recurring roof	700,000	
maintenance pool preserves and protects the Commonwealth's investment in its		
facilities. These funds are expended for various roof replacement and renovation		
projects under \$400,000. It provides support for approximately 189 buildings,		
ranging in age from 21 to 150+ years old. KRS 210.040 provides certain		
requirements for the custody, maintenance, care and medical/psychiatric treatment of		
the residents of the facilities operated by the Cabinet. It is the ongoing policy of the		
Cabinet to maintain facilities which are safe, comfortable and adequate to meet		
programmatic needs and standards. The facilities of MH/MR provide unduplicated		
direct care services to 8,582 psychiatric and mental retardation individuals on a		
yearly basis.		
Capital Construction Surplus	700,000	
Chiller Pool	400,000	
Included in the Governor's recommended budget is a transfer of \$400,000 in Federal		
Funds in fiscal year 2006-2007 from the Energy Efficiency in State Government		
Buildings federal grant to this capital project in the Cabinet for Health and Family		
Services. The Department for Mental Health and Mental Retardation (MH/MR)		
recurring chiller maintenance pool preserves and protects the Commonwealth's		
investment in its facilities and reduces the operating costs through energy efficiency.		
These funds are expended for various chiller replacement projects under \$400,000.		
This pool provides support for approximately 189 buildings, ranging in age from 21 to 150+ years old. This pool of funds allows MH/MR to maintain adequate heating and		
cooling as specified by licensure requirements to the individuals housed within its		
residential facilities. KRS 210.040 provides certain requirements for the custody,		
maintenance, care and medical/psychiatric treatment of the residents of the facilities		
operated by the Cabinet. It is the ongoing policy of the Cabinet to maintain facilities		
which are safe, comfortable and adequate to meet programmatic needs and		
standards. The facilities of MH/MR provide unduplicated direct care services to		
8,582 psychiatric and mental retardation individuals on a yearly basis.

General Operations

Franklin Co - Lease

The Personnel Cabinet's principal location is 200 Fair Oaks Lane pursuant to Lease PR-3876. The lease houses most of the General Operations Appropriation Unit of the Cabinet and a small, separate Appropriation Unit, the Commonwealth's Self-Insured Workers' Compensation Program. The current lease is for office space and includes a computer room and specialized space necessary for applicant counseling and testing. Historically the lease has been for 45,496 square feet, but the Cabinet increased the lease to 48,897 square feet in FY 2006 to accommodate the \$26 million capital project for a new HRIS system (Replace the Commonwealth's Personnel-Payroll System). The cost of the lease increased because of the additional square footage and because of a bid price increase from \$8.83 per square foot to \$10.50. The total annual cost is now \$513,418.50.

General Operations Summary

Personnel Summary

Purchase KYVUKYVL Electronic Data Bases The Kentucky Virtual library (KYVL) provides electronic library services for all Kentuckians. KYVL enables every citizen to have the same access to information regardless of where they live. This request is designed to enhance and expand the electronic databases that receive almost 9 million searches a year. Restricted Funds The project will upgrade or replace the current library management software. KYVL provides a common library management system to access Kentucky libraries and the selective electronic resources on the Internet. The system will provide upgraded and new integrated library yestem (LIS) software to provide a unified interface and database for purchasing, acquiring, processing, cataloging, lending, and tracking of books, journals, recorded media, digital media, and other information sources. Restricted Funds A,000,000 Purchase Interactive Television (ITV) System This project will refresh the ITV technology at the institutions, to acquire servers sufficient to handle the volume of activity through the institutions, and to acquire hardware and software sufficient to support the postsecondary education ITV activity. The Kentucky state supported postsecondary education institutions all have extensive course offerings delivered through Interactive Television (ITV). Construct KY Mountain Crafts Center		5,434,000	
The KY Mountain Craft Center (KMCC) would market, promote, and sell traditional			
contemporary Appalachian crafts and regional art to tourists and area residents.			
Restricted Funds		5,434,000	
Construct Law Enforcement Complex		5,215,000	
This project is for construction of a 20,000 sq. ft. facility located at a portal to the			
MoSU campus. The facility would serve as a Law Enforcement Complex housing the	е		
MoSU Police Department, Morehead City Police Department, and the Rowan County	y		
Sheriff Department. These agencies are currently housed in facilities that cannot			
support the technology and new federal guidelines from the Office of Homeland			
Security. The facility would replace three separate facilities lacking in space to			
provide the public safety services of the respective communities. It is not feasible to			
expand the existing facilities that currently house these agencies. In addition to			
providing up-to-date facilities for each agency, the center would provide meeting and workshop/conti	d		
Federal Funds		5,215,000	
Upgrade Instruct. PCs/LANS/Peripherals		5,000,000	
The University has aggressively integrated the use of information technology into the	9		
classroom. This creates an on-going need to develop and maintain modern			
instructional technology equipment. This project would provide for upgrades,			
replacement and expansion of desktop microcomputers, portable microcomputers,			
printers, LAN file servers, OCR and image scanners, printers, smart boards, mass			
storage media and backup peripherals used in classrooms, labs and/or other			
instructional support areas.			
Restricted Funds		5,000,000	
Enhance Network/Infrastructure Resources		4,750,000	
The University continues to have a great need to maintain modern, technologically			
up-to-date networking/infrastructure equipment for transmission of voice, data, and			
video signals. This project includes multiple items/systems related to the			
maintenance and improvements to the campus network infrastructure and systems.			
Restricted Funds		4,750,000	
Renovate McClure Pool Area		4,715,000	
McClure Pool was constructed in 1981. Although the pool is in good condition,			
measures need to be taken to stay in compliance with standards and regulations and	d		
maintain an uncontaminated and clean environment. This project is for installation o	f		
an HVAC and circulatory system that will prevent environmental risk factors for all			
users.			
Restricted Funds		4,715,000

Renovate John Sonny Allen Field		4,166,000	
John Sonny Allen Field was designed and constructed in the 1920's. A feasibile	ity		
study in 2002 identified the following improvements for this facility: Reconfigure	e		
existing outfield, improve drainage on existing infield, repair running track, wate			
structure, renovate and upgrade interior space, address ADA accessibility issue			
expand press box, and renovate and upgrade exterior structure.			
Restricted Funds		4,166,000	
Replace Power Plant Pollution Control System		3,540,000	
The project is the replacement and upgrading of the Heating Plant's bag house			
pollution control system. The current capacity of the bag house is 20% remova			
particulates which is below the level needed to assure our emissions meeting			
regulations. The capacity of the new bag house should be 100% removal of			
particulates. The Plant is currently under a Division of Air citation for exceeding			
particulate emission standards.			
Restricted Funds		3,540,000	
Capital Renewal Pool - E&G		3,480,000	
Minor capital renewal and maintenance projects vary from year-to-year and are)		
completed as funds are available.			
Restricted Funds		3,480,000	
Renovate Button Auditorium		3,000,000	
	Hon	3,000,000	
Effective institutional management necessitates the proposed renovation of But Auditorium in order to extend the useful life of the facility. Numerous campus ar			
community groups frequently use this instructional facility for various purposes.			
Button Auditorium houses the Military Science Department, a 1,267-seat audito	mum,		
and an 8,900 square foot drill room. Restricted Funds		3,000,000	
Ipgrade Administrative Office Systems		2,500,000	
The University must continue to develop and maintain modern, competitive			
administrative technology support systems. This project would provide upgrade			
replacement and expansion of desktop microcomputers, portable microcomputers			
printers, LAN file servers, web servers, OCR and image scanners, printers, sma			
boards, smart-card readers/printers, IVR equipment, mass storage media, print			
duplication technology, and backup peripherals used in administrative offices a	nd		
service areas.		0.500.000	
Restricted Funds		2,500,000	
Acquire Land Related to Master Plan		2,000,000	
This project includes purchasing properties adjacent to the main campus pursu			
the University's Campus Master Plan. Acquisitions will provide additional land to			
campus development and expansion to include parking, recreational areas and			
potential classroom sites.			
Restricted Funds		2,000,000

Construct New Science Complex - Phase III		15,000,000	
The New Science Complex - Phase III project will provide \$15,000,000 to consthe Physics building. This facility will complete the replacement of the 55 year Blackburn Science Building. Phase I which was authorized for the 2000-2002	old		
biennium, provided \$13,000,000 to construct the Biology building. The second of this facility only contains shell space. This area will be completed during the Phase II - Chemistry building project at an estimated amount of approximately			
\$1,000,000.			
Phase II was authorized for the 2004-2006 biennium in the amount of \$15,000, This project will complete the second floor shell space in the Biology building at construct the Chemistry building.			
Bond Funds		15,000,000	
New Residential College		13,077,000	
This authorization will allow the construction of a new student housing facility to replace Richmond Hall/College. The new construction of student housing will for on facilities designed to complement the Residential College concept of studenthousing/living. Replacing the 45 year old building with a new 91,042 square for building will result in the modernization and improvement of the student housing environment.	ocus t ot	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	
Agency Bonds		13,077,000	
Capital Renewal E&G Pool		12,457,000	
This project pool will allow Murray State University to upgrade or replace facility systems that have exceeded at least 90 percent of their useful life at various Education and General (E&G) buildings. Each of these projects has an estimation of less than \$400,000.			
Restricted Funds		12,457,000	
Administrative Enterprise Resource Planning Syst The University's existing Administrative System (SCT Plus) is both limited and approaching the end of its useful technical life. A new version of the system macquired in 2006.	ust be	8,000,000	
Restricted Funds		8,000,000	
Capital Renewal H&D Pool		5,445,000	
This project pool will allow Murray State University to upgrade or replace facility systems that have exceeded at least 90 percent of their useful life at various Ho and Dining (H&D) buildings. Each of these projects has an estimated cost of lethan \$400,000.	ousing	, ,	
Restricted Funds		5,445,000

Relocate Master Plan Infrastructure		6,130,000	
The 2000 Master Plan recommends a project to relocate the towers and the			
overhead high voltage transmission lines which cross the campus. These tow	vers		
were installed on University property prior to its acquisition in 1968-1971 for the			
Highland Heights campus.			
Restricted Funds		6,130,000	
Acquire Land/Campus Master Plan		6,000,000	
The purpose of this project is to allow the University to take advantage of real		-,,	
property acquisition opportunities during the 2006-2008 biennium to support			
educational programs and campus development.			
Restricted Funds		6,000,000	
		<u> </u>	
Construct Track and Field Stadium		5,500,000	
A new Track & Field Facility is needed for intercollegiate track & field competit			
This new venue would be constructed on University property south of Johns H			
Road, across the street from the Albright Health Center. The track stadium we			
include spectator seating for 1,000, restrooms, a concession area, field lighting	g, a		
small parking lot and an access road.			
Other Funds		5,500,000	
Construct Soccer Stadium		5,500,000	
A new soccer stadium is needed for intercollegiate soccer. The University's so	occer		
teams currently rent off-campus facilities for practice and competition, at a sign	nificant		
annual cost. The soccer stadium would be constructed on University land soc	uth of		
Johns Hill Road, across the street from the Health Center. The soccer stadiur	m		
would include spectator seating, competition/practice fields, artificial field surfa-	ace,		
locker rooms, restrooms, concession area, fencing, field lighting, a small parki	ing lot		
and an access road.			
Restricted Funds		5,500,000	
Major Item of Equipment Pool		5,410,000	
This Major Item of Equipment Pool provides authorization for equipment items	s that		
cost in excess of \$100,000 each. The University will report monthly to the Fina			
and Administration Cabinet and to the Legislative Research Commission's Ca			
Project and Bond Oversight Committee on the purchase of each major item of	=		
equipment.	•		
Restricted Funds		5,410,000	
Reconstruct Central Plaza Phase II			
The 2000 Master Plan recommends as a high priority a project to redesign the	2	4,900,000	
Central Plaza, the central academic core space connecting five academic buil	-		
the Library and the existing University Center. The project will soften this span			
new gathering areas, pathways and landscaping to create inviting places of vi	wancy,		
fostering student interaction and community.		4 000 000

Northern Kentucky University			
Replace Admin Application System Phase II		2,000,000	
This project is intended to extend the functional value of the University's new			
business systems that will begin to come on line in July 2006, with a July 2007			
completion. Additional modules, not originally anticipated, will add valuable			
functionality to the University's enterprise resource systems.			
Restricted Funds		2,000,000	
Construct Intramural Fields		1,900,000	
This project involves construction of new intramural fields on University propert	ty		
south of Johns Hill Road. Existing intramural fields are inadequate to meet the	-		
University's need for outdoor recreational activity. In addition, the I-275 to AA			
Highway Connector Road will bisect the existing intramural field area, potential	lly		
resulting in the loss of one-half of the field area. New Intramural locations are			
identified in the 2005 Sports Complex Master Plan.			
Restricted Funds		1,900,000	
Replace E&G Fire Alarm Systems		1,400,000	
The fire alarm systems in BEP, AS&T, Fine Arts, Steely Library and Ceramics	need		
to be replaced with new addressable type systems. Existing fire alarm systems	s in		
these buildings are very difficult to service and do not meet requirements of the	9		
current building code.			
Restricted Funds		1,400,000	
Relocate Early Childcare Center		1,000,000	
This project involves relocation of the University's Early Childcare Center from	the		
Business Education and Psychology (BEP) Center, an academic building, to an	n		
existing building on the edge of campus. This move frees 4,000 square feet of	much		
needed academic space in the BEP Center that will be renovated as part of this	S		
project. About 6,000 square feet will be renovated for the Childcare Center in a	a		
building formerly used as a small business incubator.			
Restricted Funds		1,000,000	
Replace Elevators Landrum Hall/Lucas Admin Ctr		990,000	
The elevators in Landrum Hall and Lucas Administrative Center are at the end	of		
their useful life and need to be replaced.			
Restricted Funds		990,000	
Replace Air Handlers		980,000	
Numerous air handlers around campus are in need of replacement. Energy			
efficiency, improved occupant comfort and elimination of annoying noise and			
vibration will result.			
Restricted Funds		980,000	

Postsecondary Education	Fiscal Year 2005-2006	Fiscal Year 2006-2007	Fiscal Year 2007-2008
Northern Kentucky University			
Restore Albright Health Center Roof		680,000	
The roof on the Albright Health Center can be restored through preventative			
maintenance to prolong its life. The high cost is due to the unusually large am	nount of		
roofing (81,000 square feet) on this building.			
Restricted Funds		680,000	
Replace Business, Educ & Psychology Center Roof		680,000	
The Business, Education and Psychology Center's roof is 24 years old and in	need of		
replacement.			
Restricted Funds		680,000	
Enhance Softball Field		600,000	
The University's existing softball field would be enhanced with additional seati	ng,		
public restrooms, and field lighting to allow evening use. Upgrading the field v	vould		
allow the University to host KHSAA district, regional and sectional as well as s	state		
competitions.			
Restricted Funds		600,000	
Renovate University Center		600,000	
This project involves renovation of the existing University Center to house nur	nerous		
new and expanded functions of an academic support and/or instructional natu	re.		
About 32,000 assignable square feet will be renovated. The building's HVAC	system		
will be modernized, its energy efficiency improved and the electrical system up	ograded		
to current life safety standards.			
Restricted Funds		600,000	

Kenton Co - Lease

The mission of METS is to enhance the economic and workforce development of the entire tri-state region by being a broker of training and training-related services in the Midwest. In addition to its brokerage role, METS offers a number of direct services to area employers including performance/needs assessment especially electronic or print surveys and interview and focus group protocols, program assessment and general organizational development consulting. It also offers or sponsors its own training and development programs.

The lease for the METS Center was effective February 1, 2003; it has a value of \$700,000. The leased premises total 43,600 square feet.

Guaranteed Energy Savings Performance Contracts

Energy audits will be conducted at the University's facilities to establish the need for Performance Contracting. Performance Contracting would then be used to replace inefficient equipment, and the source of payments for the performance contracts will be energy savings generated by the improvements which are budgeted within the operating budget. The Guaranteed Energy Performance Projects Pool serves as a central project pool for Guaranteed Energy Savings Performance Contracts in any University-owned building. These contracts will function as lease-purchase procurements, using energy savings as payment for improvements, as provided by KRS 56.770 to 56.784.

Expand Ambulatory Care Facilities - Hospital		20,000,000	
The project is for the construction of an additional clinic space for the growing			
ambulatory care programs of the medical center.			
Restricted Funds		20,000,000	
Construct New Alumni Center		17,344,000	
The project is a new alumni center of approximately 32,000 GSF that would prov	vide		
facilities on campus to accommodate meetings, conferences, classes, luncheons			
receptions, banquets and other events for up to 500 people for the University?s			
colleges, faculty, staff, students and alumni.			
Other Funds		17,344,000	
Construct Primary Care Ctr II - Hospital		17,237,000	
The project seeks to construct a 45,000 gross square feet freestanding facility		, ,	
providing primary care to the citizens of Kentucky. The functions include minor			
treatment spaces, ancillary support spaces, and staff offices.			
Restricted Funds		17,237,000	
Replace Air Handling Unit I - Hospital		16,165,000	
This project will replace an existing air handling unit in the Hospital with a new un	nit		
with new DDC (direct digital controls) controls. The existing unit is over 40 years			
and has exceeded its useful life.			
Restricted Funds		16,165,000	
Construct Patient Care Fac II - Hospital		15,909,000	
The facility involves the construction of approximately 33,000 gross square feet t	for		
the consolidation and expansion of existing services and will be freestanding or			
attached to an existing medical structure. The facility may possibly be a center w	/hich		
will include the capacity for invasive or non-invasive diagnostic and therapeutic			
procedures, imaging services, rehabilitation services, clinical laboratory services	,		
screening services, and faculty offices in disciplines relevant to the services in the facility.	iis		
Restricted Funds		15,909,000	
Acquire Land		15,000,000	
This project will allow land acquisition in accordance with the University's Physic	al		
Development Plan. Authorization of this project will allow the University to purch			
properties within the proposed boundaries of the University as such properties			
become available.			
Restricted Funds		15,000,000	

Postsecondary Education	Fiscal Year 2005-2006	Fiscal Year 2006-2007	Fiscal Year 2007-2008
University of Kentucky			
Construct Facilities Support Bldg - Hospital		14,728,000	
This project will construct a new facility for the Medical Center support function	ons such	, ,	
as the Physical Plant Division. Demolition of existing structures for construct			
new research, health care and educational buildings will necessitate the need	d for the		
Facilities Support Building.			
Restricted Funds		14,728,000	
Medicine/Dentistry Building - Design		14,000,000	
This project will design a new, 500,000 gross square feet, College of Medicin	e and		
College of Dentistry Building. The new building will house classrooms, admir			
offices, faculty offices, student support spaces, study spaces, meeting rooms			
student lounges, student locker rooms, food service, student recreational spa	ice,		
research labs, lab support spaces, and the Med Center Library.			
Restricted Funds		14,000,000	
Construct Remote Cancer Clinic - Hospital		12,880,000	
Build an outpatient clinic in other markets around the state to provide better,	more		
convenient patient care to those areas. There is no clear dominant provider i	in these		
cancer markets.			
Restricted Funds		12,880,000	
Construct Cancer Urgent Treatment Fac - Hospital		12,728,000	
This project will construct a dedicated building/floor, approximately 20,000 sq	ft to		
providing urgent care treatments, wound dressing, I.V.s, pheresis, and labs.	Patients		
need to be treated in urgent situations by cancer physicians and cancer nurse	es to		
ensure the highest quality of care for their specific illnesses.			
Restricted Funds		12,728,000	
Lease Purchase Telephone Switch Convergence		12,000,000	
Replace the existing telephone system with the next generation to provide, vo	oice,		
data and video for the Lexington campus and remote sites. This system will	replace		
the old, limited system currently provided by our vendor.			
Restricted Funds		12,000,000	
Construct Outpt Care Fac II - Hospital		11,157,000	
This project addresses the need to provide expanded outpatient services in a	25,000		
gross square foot facility to support the Medical Center's teaching and service	е		
missions. The project seeks to provide a limited range of services such as an	1		
outpatient surgery/procedure center or diagnostic and imaging services.			
Restricted Funds		11,157,000	
Construct Outpatient Svs III - Hospital		10,775,000	
The project seeks to construct a 20,000 gross square feet space to provide			
outpatient services such as exam rooms, diagnostic or treatment modalities,			
pharmacy or clinical labs. The project will provide a freestanding facility sepa	rate		
from or attaching to the Hospital.			
Restricted Funds		10,775,000	

	Fiscal Year 2005-2006	Fiscal Year 2006-2007	Fiscal Year 2007-2008
University of Kentucky			
Construct Cancer Infusion Suites - Hospital		10,688,000	
This project will build infusion suites in rural areas that partner with the community hospital of the region. We need to partner, not compete, with Kentucky's rural providers of cancer care.	nity	, ,	
Restricted Funds		10,688,000	
Construct Digital Technologies Building - Design		10,610,000	
This project will design a new facility of approximately 120,000 gross square feet the Department of Computer Science and the Department of Electrical and Comengineering, in order to accommodate emerging technologies in high-speed computing, digital signals and nanotechnology.			
Restricted Funds Other Funds		4,200,000 6,410,000	
Construct Imaging Facility - Hospital		10,079,000	
The project seeks to construct 10,000 sq ft of imaging services in a freestanding building separate from or attached to the Hospital or incorporating existing space keep pace with other facilities that are competing for OP business.	-		
Restricted Funds		10,079,000	
Lease-Purchase Pollution Controls		10,000,000	
The Kentucky Department for Environmental Protection (DEP) has issued a "No of Violation" for the Central Heating Plant and two boilers for particulate matter exceeding DEP guidelines. This project will install equipment necessary to mee air quality standards.		, ,	
Restricted Funds		10,000,000	
Upgrade/Modify Coldstream Facilities The Coldstream Research Campus anticipates that its University owned facilities (roofs, roads, grounds, utilities, or other infrastructure elements) will require upgrading/modification to meet the needs of the Research Campus' commercial occupants lease property, facilities or space from the University.		10,000,000	
Restricted Funds		10,000,000	
Renovate Lab & Support Space in Med Science This project will renovate approximately 20,000 net square feet of labs in the Med Sciences Building. The renovation will also upgrade offices, lab support space, a classroom.		9,500,000	
Restricted Funds		9,500,000	
Renovate Lab for Coatings & Surface Inspection This project will renovate space in the Coldstream Center for the Center for Coa & Surface Inspection. The space will include labs, offices, and support spaces.	•	8,000,000	
Restricted Funds		8,000,000

Upgrade Critical Care Center HVAC - Hospital		7,649,000	
This project will upgrade the HVAC systems in the Critical Care Center building of the	he	, ,	
UK Hospital.			
Restricted Funds		7,649,000	
Construct Bio-Medical Research Building - Design		7,600,000	
This project will design a new Bio-Medical Research Building of approximately			
200,000 gross square feet and will house bio-medical research and graduate			
education.			
Restricted Funds		7,600,000	
Construct Track and Field Facility		7,139,000	
Construct new Track and Field Facility, with locker/showers and storage for team			
use, and concession/rest room facilities for spectators.			
Other Funds		7,139,000	
Install Steam Line BBSRB - Old Main Gate Pit		6,865,000	
Install steam and condensate piping system in shallow trench with pits and necessa	ary		
valves, traps, etc. as identified by the Steam Study Master Plan.			
Restricted Funds		6,865,000	
Install Steam Line-Taylor to Transportation Bldg		6,725,000	
Install steam and condensate piping for northwest section of campus with a tunnel			
under Limestone at Transportation Bldg and North behind Taylor Bldg.			
Restricted Funds		6,725,000	
Upgrade the Vivarium in Sanders Brown Building		6,720,000	
This project will upgrade approximately 4,000 square feet of vivarium space in the			
Sanders Brown Building. The renovation will include reconfiguring of spaces and			
upgrades to finishes and building support systems.			
Restricted Funds		3,360,000	
Federal Funds		3,360,000	
Lease Purchase High Performance Research Comp.		6,500,000	
It will be necessary to upgrade or replace the the current high performance research	h		
computer system within the next two years in order to maintain and enhance the			
University's research computing capability. This environment is changing rapidly an	d		
enhancing large scale research computing provides the high speed parallel and			
cluster computing facilities required to solve today's research problems.			
The modernization of the current computer facility is addressed in an additional			
request that will provide any additional power and cooling required.			
Restricted Funds		6,500,000

Fit-up Gill Bldg Ground Floor - Hospital	6,500,000	
This project will fit up the shelled space on the first floor of the Gill Building to accommodate imaging equipment in the Gill Building. The scope reflects the full scope of the required work including equipment. The next stage of the Gill Heart Center renovation includes completion of the Cardiac Imaging Center including state of the art MRI, CT Scanner, Nuclear Medicine Cameras, and related support space. UK HealthCare recently recruited new faculty to lead this new initiative beginning this summer.		
Restricted Funds	6,500,000	
Construct Library Depository Facility	6,415,000	
Construct a shared, fee-based, depository storage facility that would house and service University library materials that are seldomly used yet valuable for research purposes. It would also house University Archives and other University departmental documents and collections. This facility would be owned and administered by UK Libraries, but use of its space and services would be extended to other UK and non-UK departments and libraries for a fee.		
Restricted Funds	2,915,000	
Federal Funds	3,500,000	
Renovate-Expand Boone Faculty Center This project will renovate the original 19,561 square feet of the Boone Faculty Center on the Lexington Campus which was new in 1986 and construct an addition of approximately 3,300 square feet. Other Funds	6,200,000 6,200,000	
Expand Emergency Services - Hospital The project will involve the renovation of sections of the 18,400 square foot Emergency Room and may involve the annexation and renovation of space inside the existing Critical Care Center or construction of new space in the courtyard next to the Emergency Room. Restricted Funds	6,100,000 6,100,000	
Renovate Facade - Agriculture Building North Replace Ag. North facade and solar screen. The existing Ag. North solar screen deteriorated and is in need of replacement. Replacement with a new solar screen is required for energy conservation. Restricted Funds	6,100,000 6,100,000	
Construct Radiation Medicine Facility - Hospital The project seeks to construct Radiation Medicine services in a freestanding 7,500 square foot building separate from or attached to the Hospital or incorporating existing space. Radiation Medicine's volume and services has outgrown its current environment and its current location is not customer friendly. Restricted Funds	6,069,000 6,069,000

Fayette Co Health Affairs Office Lease 3			
The University Hospital requires space to house its administrative and busines	SS		
offices to support the Clinical Enterprise and allow for expansion of clinical and	d		
research functions on campus. The program for this leased space may be bot	th new		
and relocated business and administrative functions and dry lab research. The	ne		
leased space will be located in Lexington. The space will be approximately 50	0,000		
square feet. Funding for the lease will come from revenues generated from pa	tient		
fees. The leased space will include offices, clerical, dry lab research, and sup	port		
space. The annual cost of the lease will be approximately \$1,000,000.			

University of Kentucky

Fayette Co - Lease Administrative Office

The University and University Hospital require space to house a data center to support the academic, research and clinical missions and allow for expansion of growing academic, research and clinical functions on campus. The leased space will be located in Lexington. The space will be approximately 100,000 square feet. Funding for the lease will come from institutional funds including revenues generated from patient fees. The leased space will include a data center and support space. The annual cost of the lease will be approximately \$2,000,000.

Fayette Co - Lease Health Affairs Office #2

The University Hospital requires space to house its administrative and business offices to support the Clinical Enterprise and allow for expansion of clinical and research functions on campus. The program for this leased space may be both new and relocated business and administrative functions and dry lab research. The leased space will be located in Lexington. The space will be approximately 50,000 square feet. Funding for the lease will come from revenues generated from patient fees. The leased space will include offices, clerical, dry lab research, and support space. The annual cost of the lease will be approximately \$1,000,000.

Fayette Co - Lease Health Affairs Office

The University Hospital requires space to house its administrative and business offices to support the Clinical Enterprise and allow for expansion of clinical and research functions on campus. The program for this leased space may be both new and relocated business and administrative functions and dry lab research. The leased space will be located in Lexington. The space will be approximately 30,000 square feet. Funding for the lease will come from revenues generated from patient fees. The leased space will include offices, clerical, dry lab research, and support space. The annual cost of the lease will be approximately \$600,000.

Fayette Co - Lease Blazer Parkway

The College of Medicine requires space to house an off-campus clinic similar to KY Clinic South. The leased space will be located in Lexington. The space will be approximately 30,000 gross square feet. Funding for the lease will come from revenues gererated from patient fees. The leased space will include clinical, offices, clerical, and support space. The annual cost of the lease will be approximately \$500,000.

Fayette Co - Lease Med Center Contract

The Med Center requires space to house contract sponsored programs. The leased space will be located in Lexington within a reasonable distance from the main campus. The space will be approximately 15,000 gross square feet. Funding for the lease will be realized by the contracts. The leased space will include offices, clerical, support and research space. The annual cost of the lease will be approximately \$225,000.

University of Kentucky

Fayette Co - Lease Med Center Off-Campus Fac

The Med Center requires space to house an off-campus patient facility. The leased space will be located in Lexington within a reasonable distance from the main campus. The space will be approximately 17,000 gross square feet. Funding for the lease will be generated from patient fees. The leased space will include clinical, offices, clerical, and support space. The annual cost of the lease will be approximately \$255,000. Currently this space is not available on campus and the University must seek leased space off-campus.

Fayette Co - Lease Med Center Grant Projects

The Med Center requires space to house research grant projects. The leased space will be located in Lexington within a reasonable distance from the main campus. The space will be approximately 20,000 gross square feet. Funding for the lease will come from the grants. The leased space will include offices, clerical, support, and research space. The annual cost of the lease will be approximately \$300,000.

Fayette Co - Lease Pharmacy Contracted Program

The College of Pharmacy requires space to house contracted programs. The leased space will be located in Lexington within a reasonable distance from the main campus. The space will be approximately 25,000 gross square feet. Funding for the lease will come from the contract. The leased space will include offices, clerical, support, and research space. The annual cost of the lease will be approximately \$375,000.

Fayette Co - Lease Med College Off-Campus Clinic

The Med center requires space to house an off-campus clinic similar to KY Clinic South. The leased space will be located in Lexington. The space will be approximately 50,000 gross square feet. Funding for the lease will come from revenues generated from patient fees. The leased space will include clinical, offices, clerical, and support space. The annual cost of the lease will be approximately \$800,000.

Fayette Co - Lease Kentucky Utilities Building

The University requires space to house overcrowded units. The leased space is located in Lexington within a reasonable distance from the main campus. The space is approximately 49,026 gross square feet. It includes offices, clerical, support, and instructional space. The annual cost of the lease will be approximately \$295,000.

Fiscal Year

University of Kentucky

Guaranteed Energy Savings Performance Contracts

Energy audits will be conducted at the University's facilities to establish the need for Performance Contracting. Performance Contracting would then be used to replace inefficient equipment, and the source of payments for the performance contracts will be energy savings generated by the improvements which are budgeted within the operating budget. The Guaranteed Energy Performance Projects Pool serves as a central project pool for Guaranteed Energy Savings Performance Contracts in any University-owned building. These contracts will function as lease-purchase procurements, using energy savings as payment for improvements, as provided by KRS 56.770 to 56.784.

Renovate - Chemistry Fume Hood Redesign, Ph II		76,000	

This project will address the second phase of life/safety improvements to the ventilation system in the Chemistry Building, including: replacement of 105 existing fume hoods, installation of an additional 40 hoods for organic laboratories, replacement of the two remaining air handling units, installation of a building VAV control system, energy recovery system, and related ductwork improvements. Upon completion of this work, the building ventilation will have been completely refurbished.

Restricted Funds 76,000

Jefferson Co - Lease

This lease is located at 501 East Broadway in Louisville, KY. The lease originated in April, 2001 and was renewed in July of 2001. The term of the agreement is July 10, 2001 through July 31, 2006. The University has the option to extend the term for one (1) additional five (5) year period with 180 days prior written notice. The University of Louisville occupies 35,086 square feet at \$14.13 per square foot. The lease costs \$495,713.16 annually with an additional \$41,040 annually for parking. The School of Medicine occupies the space.

Guaranteed Energy Savings Performance Contracts

Energy audits will be conducted at the University's facilities to establish the need for Performance Contracting. Performance Contracting would then be used to replace inefficient equipment, and the source of payments for the performance contracts will be energy savings generated by the improvements which are budgeted within the operating budget. The Guaranteed Energy Performance Projects Pool serves as a central project pool for Guaranteed Energy Savings Performance Contracts in any University-owned building. These contracts will function as lease-purchase procurements, using energy savings as payment for improvements, as provided by KRS 56.770 to 56.784.

Purchase - Real Estate Near HSC & Renov Offices

This project is reauthorized at a scope of \$20,500,000. This project will purchase property adjacent to the Health Sciences Campus. University of Louisville will purchase, should it become available, 3.38 acres that currently have a 106,428 gross square foot office building. The existing building will house offices for faculty and staff in the School of Medicine.

Expand - Ambulatory Care Bldg. Academic Addit

This project is reauthorized at a scope of \$43,061,800. This 198,005 gross square foot addition to the Ambulatory Care Building (ACB) will house most of the clinical departments for the School of Medicine and educational and administrative offices for the UofL Hospital. The School of Medicine has not built educational facilities since 1972 and the clinical departments' faculty numbers have more than doubled in the interim. This will allow University Medical Center, Inc. (lease UofL Hospital) to renovate the Ambulatory Care Center to become a more efficient and effective outpatient care center.

Funds are provided to design a manufacturing learning center targeted at, but it	not		
limited to, the automotive industry and to acquire a suitable site in the			
Georgetown/Scott County area. The new facility, when constructed, will provide			
customized training for all of the automotive-based manufacturing companies le	ocated		
in Kentucky, along with other manufacturing companies in Central Kentucky.			
Bluegrass Community and Technical College will partner with Scott County Sci			
to offer education in multiple career pathways that revolve around manufacturing	ng. In		
addition, the center will provide the opportunity for Bluegrass Community and			
Technical College to expand traditional academic certificate, diploma, and degl	ree		
programs to the Georgetown/Scott County community.			
Bond Funds		1,500,000	
Major Item of Equipment Pool		22,717,000	
This Major Item of Equipment Pool provides authorization for equipment items	that		
cost in excess of \$100,000 each. The University will report monthly to the Final	nce		
and Administration Cabinet and to the Legislative Research Commission's Cap	pital		
Project and Bond Oversight Committee on the purchase of each major item of			
equipment.			
Restricted Funds		22,717,000	
Capital Renewal Pool		15,000,000	
The intent of this project is to provide the Kentucky Community and Technical			
College System (KCTCS) a source of funds with which to address the replacen	nent of		
building systems, i.e. roofs, HVAC systems, electrical systems, that have reach	ned or		
exceeded their expected useful lives. These projects are known as capital ren	ewal.		
In addition, the pool will be used to fund major maintenance projects that have	not		
exceeded expected useful lives but which must be replaced or repaired because	se		
funding to maintain the systems over the course of their lives has been deferre	d		
causing premature system failure. Finally, the pool will be used to fund project	s that		
must be undertaken to achieve compliance with ADA guidelines, life safety cod	les,		
environmental codes, and other government mandates.			
Restricted Funds		15,000,000	

Postsecondary Education Fiscal 2005-2		
Kentucky Community and Technical College System		
Complete Acquisition of System Off & Expansion	10,00	0,000
The purpose of this project is to complete the acquisition of the KCTCS System Office by paying off the lease-purchase agreement with the City of Versailles and to expand into unfinished areas of the building for additional office, conference and training space. By acquiring the facility KCTCS will have control of maintenance and		
operation of the building and will free up bonding capacity for the city to complete other needed projects. In the short period the building has been in operation the training and conference areas have been heavily utilized, not only by our own staff but by the local community and other state agencies and groups. Additional conference space is already in demand and we expect that demand to increase.		
Restricted Funds	10,00	0,000
Land Acquisition Pool	5,50	0,000
Create a pool of funding that KCTCS can use to purchase property parcels adjacent to college campuses as they come on the market, or other properties deemed essential for future expansion of college activities. Acquisition of such parcels provides a vehicle for campus expansion when needed. These parcels can also provide short-term relief for parking shortages currently being experienced at virtually all KCTCS campuses as enrollments continue to increase.

Kentucky Community and Technical College System

Madisonville Postsecondary Educ. Center-Design

Funding is provided to plan and design a postsecondary education center to be located on the main campus of Madisonville Community College. The Center will provide facilities to expand associate, baccalaureate and graduate level programming, primarily through Madisonville Community College and Murray State University, although other providers of such programming will be accommodated as needed. The size of the building will be determined during the planning phase;

General Fund 300,000

Scott Co - Lease

square feet.

This space is needed in Scott County to provide customized training in manufacturing processes for all of the automotive-based manufacturing companies located in Kentucky. Until such time as the Automotive Manufacturing Center facility requested in the 2006-08 biennium is authorized and constructed. Toyota Motor Manufacturing Kentucky, located in Georgetown, has requested that KCTCS operate a community-based manufacturing learning center for their benefit as well as for the benefit of other area manufacturers. Toyota has agreed to donate \$1.6 million worth of industrial training equipment to be used in the facility. In order to begin this training initiative as quickly as possible, KCTCS desires to lease space in Scott County until the new facility can be constructed. It is estimated that somewhere between 25,000 and 45,000 square feet of space will need to be leased, making it very possible that this will be a capital lease.

however, it is estimated that the facility will encompass approximately 50,000 gross

Woodford Co - Lease Purchase

This is a lease-purchase agreement with the City of Versailles, whereby the City secured \$6.3 million of funding to renovate a vacant manufacturing building located at 300 North Main Street in downtown Versailles to create office space for the KCTCS System Office, which was previously located in four separate buildings in two locations in Fayette County. In turn, KCTCS agrees to repay the City for its costs in acquiring and renovating the property over 20 years at which time KCTCS will assume ownership of the property. The annual cost of the lease-purchase will be approximately \$677,000 for the entire term of the agreement inclusive of maintenance and operations costs but not including utilities. No additional state funding is being requested to fund this lease-purchase.

Jefferson Co - Lease

This lease encompasses approximately 62,244 square feet of office, service and storage space in downtown Louisville adjacent to the Downtown Campus of Jefferson Community & Technical College. The leased space has been used to relocate and consolidate all student service functions for the college. Previously those functions had been dispersed among several buildings on multiple campuses. This was very inefficient for college staff and extremely inconvenient for students. The space vacated in other buildings has, in most instances, been converted back into instructional space; in other instances it has permitted other departments to expand into more suitable and less cramped quarters.

Kentucky Community and Technical College System

Henderson Co - Lease

This lease encompasses approximately 26,000 gross square feet of classroom and laboratory space in downtown Henderson for use by Henderson Community College in the delivery of technical training programming that is currently in high demand by the region's business and industry community. The training that is offered in this facility includes Manufacturing Technology and Industrial Maintenance Technology. The college does not have suitable space on its campus to house these types of training programs.

KCTCS Information Tech Infrastructure Upgrade

The intent of this project is to secure funding to build a system applications expansion to the current KCTCS information technology infrastructure. These infrastructure improvements are necessary to expand higher education, promote economic development in communities, and provide access to local, statewide, national and international resources.

KCTCS network infrastructure is anchored in the Kentucky Postsecondary Education Network (KPEN). KCTCS currently utilizes the connectivity provided by KPEN to provide converged services that supports an integrated and centralized telephone system and video conferencing for both administrative and academic (distance education) use, and insuring secure and efficient data networks. This is a reauthorization of an existing project.

Guaranteed Energy Savings Performance Contracts

Energy audits will be conducted at the University's facilities to establish the need for Performance Contracting. Performance Contracting would then be used to replace inefficient equipment, and the source of payments for the performance contracts will be energy savings generated by the improvements which are budgeted within the operating budget. The Guaranteed Energy Performance Projects Pool serves as a central project pool for Guaranteed Energy Savings Performance Contracts in any University-owned building. These contracts will function as lease-purchase procurements, using energy savings as payment for improvements, as provided by KRS 56.770 to 56.784.
