INTRODUCTION

NOTE – Each agency must be acquainted thoroughly with these new arrangements and instructions prior to preparation of their budget requests. Any agency request which does not conform to the format and instructions contained within this Manual shall be returned for correction and compliance. A copy of any supplemental or implementing guidelines issued by a branch budget office or other administrative agency must be transmitted to the Legislative Research Commission, Office of Budget Review, Capitol Annex, Rm. 136, 702 Capital Ave., Frankfort, KY 40601.

BACKGROUND – The 2024-2026 biennial Branch Budget Request Manual is issued pursuant to KRS 48.040 as the standard guideline to be used by all agencies in the Executive, Judicial, and Legislative Branches for development of their 2024-2026 biennial budget requests.

The primary objectives of Kentucky's budget preparation process are:

1. To enable elected and appointed agency heads to present a complete financial plan based upon an explicit need for governmental services.
2. To inform branch heads and members of the General Assembly about services, financial requests, and priorities based upon established legal authority and documented analysis of conditions and activities.
3. To arrange and submit budget request information in a uniform and comparative format which facilitates branch heads' budget recommendations to the 2022 General Assembly.

The ultimate purpose of these budget guidelines is to identify, organize, and present useful information that permits elected budget policy-makers to make decisions in the context of revenue conditions for the 2024-2026 fiscal biennium. The statutory budget calendar is printed in Appendix A. Branch heads may impose a more restrictive schedule within this time period.

THE eMARS BUDGET SYSTEM – The format and manner in which the budget requests will be prepared and submitted for the 2024-2026 biennial budget request process is using the eMARS (Management, Administrative and Reporting System) Budget System, called KBUD. The majority of the required budget request information defined in this Branch Budget Request Manual will be entered and submitted using KBUD. That information, in combination with information prepared electronically outside of KBUD, shall represent each agency’s biennial budget request in electronic form. Detailed instructions for utilizing KBUD will be provided and your agency will be notified about available training.

The Manual specifies the information required for each agency’s biennial budget request. The records included in this Manual are representations of agency budget request requirements. The actual reports in KBUD will be designed to appear much like the records represented here, with very few differences.

AGENCY REQUEST SUBMISSION – Each agency head shall communicate to the Legislative Research Commission (LRC) and to the Office of State Budget Director, Governor’s Office for Policy and Management (GOPM) a formal statement of biennial budget request submission. This is an important procedural step to ensure the simultaneous access by both LRC and GOPM of an agency’s biennial budget request. This statement of submission shall be authorized by the appropriate agency head. Until that statement of submission is received by the Executive Branch’s KBUD Administrator, and unless specific technical assistance is required to assist the requesting agency, neither GOPM nor LRC budget staff will be allowed access to the electronic version of an agency’s 2024-2026 biennial budget request. Upon receipt of that statement of submission, the necessary procedures will be executed to result in the transmission of the agency budget request information to LRC and the granting of security access to the agency’s biennial budget request to the budget staff of GOPM and LRC Office of Budget Review.

One complete set of the printed record, one searchable PDF version of the request, and all of the completed KBUD data, which serves as most of an electronic record of the agency budget request, shall be submitted to GOPM by all budget units in the Executive Branch; to the Chief Justice by budget units in the Judicial Branch; and to the director of the LRC by budget units in the Legislative Branch. Three complete sets of the printed record and one set of the electronic record of the agency budget request must be transmitted to the LRC Office of Budget Review, simultaneously with the

agency's submission to GOPM. The Budgeted Positions Record: A-6 shall be submitted in electronic form. It does not have to be submitted in printed form.

The submission of electronic personnel data supporting the Budgeted Positions Record shall include the data reflected on the A-6 "Baseline Budget: Budgeted Positions Record" and the personnel data report may be submitted by the agency or by the Branch Budget Office.

STRATEGIC PLAN SUBMISSION – KRS 48.810 includes a requirement to submit a four-year Strategic Plan with the 2024-2026 biennial agency budget requests. For the 2024-2026 budget request process, please submit this plan by October 1, 2023 as a separate document from the budget request. Each of the program cabinets within the Executive Branch and other independent agencies shall submit a four-year Strategic Plan with their budget requests. For those cabinets/agencies submitting a Strategic Plan, two complete sets of the printed record must be transmitted to the LRC's Office of Budget Review and one copy to GOPM. The electronic version of the Strategic Plan shall be transmitted to GOPM within the Office of State Budget Director and posted on their website: <https://osbd.ky.gov>.

BUDGET REQUEST GUIDELINES

NOTE – Not later than August 1, 2023, agencies are required to initiate requests for any interim appropriations increases for FY 2023-24, which may be anticipated for inclusion in the 2024-2026 biennial budget request. The financial and programmatic basis for the biennial request shall be the FY 2023-24 appropriation as revised.

AGENCY REQUEST STRUCTURE – Each agency must prepare its budget unit request at the lowest service unit level for which discrete fiscal and program records can be developed for financial planning/budgeting purposes. Generally, the lowest level at which budget request materials would be submitted is the program level. The 2023-2024 Budget of the Commonwealth changes to the budget request structure of an Executive Branch agency must be approved by GOPM. GOPM will transmit any changes to LRC’s Office of Budget Review. All budgetary information, whether generated for official budget submission or internal purposes, should be prepared in a consistent format.

BUDGET REQUEST STRUCTURE AND CHART OF ACCOUNTS RELATIONSHIP – The relationship between each agency’s budget request structure and certain accounting system accounts for FY 2023-24, 2024-25, and 2025-26 is included within KBUD. This relationship is necessary to set up KBUD prior to each agency receiving access to the 2024-2026 biennial budget request forms, reports and records. Appendix D defines the appropriation structure to be used by agencies in submitting their budget requests. Any deviation from the appropriation structure identified in Appendix D for Executive Branch agencies must be approved by GOPM and explained with documentation provided to LRC’s Office of Budget Review.

BUDGET RECORDS – Governmental activities and services which are statutorily effective during the 2024-2026 biennium comprise the basis upon which agencies are to prepare their 2024-2026 budget requests. Moreover, in addition to current operations, agencies must consider the fiscal impacts of such services and activities previously authorized by the General Assembly, although the implementation date may have been deferred or suspended. Agencies which administer statutory programs having appropriations which are dependent upon specific tax

revenue receipts must submit such 2024-2026 budget requests based upon the preliminary revenue estimates issued by the Office of State Budget Director by September 30 pursuant to KRS 48.120.

The completed program documentation/financial information records for FY 2021-22 and FY 2022-23 will satisfy the financial and program reporting requirement under KRS 48.800 and no separate status report to LRC is necessary for compliance.

Budget request materials are organized into two separate sets of budget records – Operating Budget Request Records and Capital Budget Request Records. Operating budget requests must reflect all financial and service effects of requested capital projects on agency operations during the budget period.

BUDGET REQUEST LEVELS

Baseline Budget Requests – For agencies currently receiving General Fund, Tobacco Settlement-Phase I Funds, Road Fund, Restricted Funds, and/or Federal Funds appropriations, the 2024-2026 budget request submission shall contain a Baseline Budget Request submission.

The Baseline Budget Request submission outlines at the program/subprogram level, both financially and programmatically, for each year of the 2024-2026 biennium, a straight-lined budget based on the FY 2023-24 enacted budget as revised and supports the continuation of currently conducted activities, services delivered, and/or programs to the extent possible. The Baseline Budget Request budgeted expenditures shall be the enacted FY 2023-24 appropriations, as revised. Primary revisions to the FY 2023-24 appropriations that must be taken into account include, **but are not limited to**, the 2022-2024 biennial budget bills, FY 2023-24 budget adjustments enacted by the 2023 Regular Session of the General Assembly, reorganizations confirmed by the General Assembly, appropriation increases, appropriation reductions, discontinued programs and activities, including one-time grant allocations, adjustments for debt service that will be reported in the Finance and Administration Cabinet, and nonrecurring mandated allotments. The FY 2023-24 funding level shall be adjusted for the Baseline Budget in each respective fiscal year of the 2024-2026 biennium to reflect the types of changes noted above in all funds.

An agency which proposes to reduce or eliminate any existing programs, services, or activities during the 2024-2026 biennium must fully explain and document such actions on an attachment,

titled "**Proposed Fiscal Biennium 2024-2026 Program Funding Reductions or Elimination.**"

The statutory authority for such program operations must be cited and the FY 2023-24 funding level must be noted. Included in this attachment is a reconciliation of the FY 2023-24 enacted appropriation, as revised by the General Assembly, and the FY 2023-24 budget, as revised in the Budget Request.

The Baseline Budget shall not include any moneys to support any rate or cost increase based on any (statutory, federal mandates, inflationary, contractual, etc.) factors that apply to agency programs/activities or for any other reason.

The basis for determining a budget unit's Baseline Budget Request is the FY 2023-24 enacted appropriations, **as revised**. Agencies shall NOT shift appropriations from any fund source between appropriation units.

Agency managers may align personnel levels, expenditures, and programmatic activities as necessary within an appropriation unit for which they are requesting funds, except as otherwise directed. The amounts by fund source within Baseline Budgets for each year of the next biennium shall not exceed the enacted FY 2023-24 budget as revised by the parameters noted in previous paragraphs of this section. The guidelines for the Baseline Budget shall apply to all funds utilized in the enacted FY 2023-24 budget.

Baseline Budget Requests continue to require thorough review and evaluation of existing programs. Please identify any changes planned in developing the budget request that would affect the costs of delivering services such as contracting inside and outside of state government, outsourcing, etc. to improve service delivery and costs.

Any request for General Fund or Road Fund support to finance activities currently funded with Federal or Restricted Funds must be submitted on Additional Budget Request records and supported by documented evidence of such Federal and/or Restricted Funds reduction or withdrawal.

Defined Calculations Budget Requests – The Defined Calculations Budget Request shall be submitted at the same level as the Baseline Budget Request, both financially and programmatically, for each year of the 2024-2026 biennium. Each Defined Calculations Budget Record starts with

the letters "DCB." The Defined Calculations Budget Request's purpose is to identify mandated rate increases that are beyond the discretionary control of state agencies.

All Defined Calculation elements shall be compiled into a single Defined Calculations Budget Request. The Defined Calculations shall include only the value of the increased cost for:

- Employer Retirement Contributions;
- Employer Social Security Rates;
- Health Insurance Premiums;
- Life Insurance Costs;
- Worker Compensation Premiums;
- Personnel Board Assessments;
- Facilities and Support Services charges for state-owned space;
- Telecommunications Charges;
- Computer Services, Rated Services, and Enterprise Assessment Charges;
- Motor Pool Rental Charges;
- Facilities Security Charges;
- State Fire and Tornado Fund Premiums; and
- Governmental Services Center Charges.

No additional personnel positions or any new or expansion items may be requested on the Defined Calculations Budget Request (DCB) records. The DCB request shall not be prioritized and will be considered on a collective basis as the Cabinet/Independent agency's number one priority for all Additional Budget Request records. **All DCB records must be ranked as priority one.** If the expenditure requirements imposed by the Defined Calculation requirements exceed the revenue estimates of Restricted or Federal funds, then do not artificially inflate estimates from those sources. Instead, request additional General Fund (or Road Fund for the Transportation Cabinet). The DCB records shall not contain any additional money (from any fund source) that is projected to be needed to meet any expected increases in demands for services and/or activities. This budget request level is a direct complement to the Baseline Budget Request and should not be used to support increased demands on a program/activity.

Each Executive Branch agency shall provide for the costs outlined in Calculations Guidelines (Appendix B). The Calculations Guidelines (Appendix B) contain instructions for preparing budget requests for salaries, fringe benefits, general and specific operating expenses, grants and other

assistance payments, and capital outlay items. Agency requests must comply with these guidelines in developing their Defined Calculations Budget Requests.

Additional Budget Requests – For agencies currently receiving General Fund, Tobacco Settlement-Phase I Funds, Road Fund, Restricted Funds, or Federal Funds appropriations, or for agencies wishing to receive appropriations for the first time, the 2024-2026 budget request submission may contain Additional Budget Requests.

The Additional Budget Request details at the program/subprogram level, both financially and programmatically, the requested budget for that unit for each year of the 2024-2026 biennium for:

- A) Growth budget requests;
- B) New or expanded activities and programs or levels of services; and
- C) General Fund or Road Fund support to replace or sustain existing levels of services and operations currently supported by Federal Funds or Restricted Funds.

Each Additional Budget Request must contain a cabinet-wide, as applicable, and an appropriation unit priority ranking assigned by the appropriate authority. In addition, those agencies wishing to request additional funding (i.e., current year appropriation) for FY 2023-24 should display such requests as Additional Budget Request items. Such requests will receive critical review as to their necessity and appropriateness. Complete justification and documentation must accompany all such requests in order to be considered for funding.

BUDGETARY FUNDS

Requests for public funds must conform to the budget fund classification described in KRS 48.010(15).

Public funds are resources available by law to an agency for use in accomplishing statutory services, activities, operations, and purposes.

General Fund – State tax revenue collected by the Commonwealth under general tax laws and appropriated by the General Assembly to finance activities of state government.

Tobacco Settlement - Phase I Funds – Allocations from Tobacco Settlement payments.

Road Fund – Money derived from excise or license taxation relating to gasoline and other motor fuels, and moneys derived from fees, excise or license taxation relating to registration, operation, or use of vehicles for use on public highways.

Federal Funds – All federal revenue and non-revenue receipts, available to a state agency pursuant to statutory authority and appropriated by the General Assembly. Federal Funds estimates must be projected on the basis of the latest federal budget treatment for the federal assistance program by Congress.

Restricted Funds – All receipts from revenue and non-revenue sources of a budget unit restricted as to purpose by statute, including budget acts. The restricted purpose may be broad and general or specific and narrow. The permissible use of these budget resources may be discretionary and unrestricted as to obligation. Restricted Funds include the following financial accounting system fund types which are appropriated by the General Assembly: Agency Revenue Funds; Enterprise Funds; Internal Services Funds; Insurance Administration and Risk Management Funds; and selected Expendable Trust Funds. Restricted Funds sources include fees, service charges, sales and rental income, tuition and mandatory fees, donations, and grants or receipts from private sources or other governmental jurisdictions, which may be applied toward the public purposes of the budget unit. Restricted Funds include fiduciary funds, which are held by state agencies in a trustee capacity and are appropriated by the General Assembly.

Highway Bonds – The proceeds of bonds issued by the Kentucky Turnpike Authority and made available to the Transportation Cabinet.

Capital Construction Fund – Money earned by capital fund assets or receipts allocated from other budgetary fund classes and appropriated by the General Assembly for capital construction, equipment purchase, and information technology projects under KRS Chapters 45 and 48.

The budget request information record distinguishes between revenue and non-revenue receipts as defined in KRS 48.010(17). Revenue receipts are current-year resources in a particular fund initially received by a budget unit for services rendered, products sold, or grants received from the federal government. Nonrevenue receipts are funds transferred from another state budget unit which was the initial recipient agency within state government, or other collections of the budget unit which did not result from a revenue producing activity, such as refunds or casualty loss reimbursements. For the Restricted Funds and Federal Funds, all cash transactions which did not affect budgetary balances, such as cash transfers, will be included with the non-revenue receipts. This distinction between types of receipts is intended to depict a more accurate presentation of total unduplicated state budget resources.

2024-2026 PERSONNEL BUDGET SUMMARY – The 2024-2026 budget process will provide for a definitive record of Full-Time, Part-Time, and Other positions. For Executive Branch agencies, the number of personnel positions that may be requested as a part of the Baseline Budget Request is limited to the revised number of positions established through the FY 2023-2024 appropriations, as revised, attached as Appendix E.

BUDGETED POSITIONS RECORD - The Budgeted Positions Record will produce salary and fringe benefit costs for the 2024-2026 biennium for all personnel complements as defined above for each branch and are to be included in each agency's Baseline, Defined Calculations and Additional Budget Request – Growth Category requests. All positions within the personnel target as defined above and exclusive of any salary enhancements (salary increment, other pay raises, and other employer benefit rate increases) shall be placed in the Baseline Budget Request. All projected personnel cost increases based on the Baseline Budget Request personnel position numbers shall be placed in the Defined Calculations Budget Request level. All positions above the personnel target shall be placed in the Additional Budget Request – Growth Category forms. The Budgeted Positions Record shall display the current (FY 2023-24) personnel cost and related specific benefit costs and additional personnel costs and related specific benefit costs in each of the next two fiscal years. Only such authorized positions are to be identified and must be recorded separately by position categories for each budget unit. Vacant positions must be listed separately from filled positions. Costs for part-time Board members will be excluded from the Budgeted Positions Record, but these costs should be provided on the Baseline Budget Request: Expenditure Detail Record.

Agencies whose program/subprogram (the level of presentation of the budget request) does not match the organizational structure of the Budgeted Positions Record as generated by the branch personnel agency must reformat their Budgeted Positions Record to match their program/subprogram and enter the information as required on the A-6 Budgeted Positions Record. For Executive Branch agencies, the Office of the State Budget Director will provide the personnel target information, along with increased personnel costs for each fiscal year to facilitate agency completion of Baseline Budget and the Defined Calculations Budget levels.

ELECTRONIC PERSONNEL DATA – Each branch head shall submit for agencies under their organizational umbrella, the data supporting the Budgeted Positions Record in an Excel spreadsheet. At a minimum, the personnel data should include all characteristics of the position that are required to calculate the annual cost of that position, including but not limited to the following:

- Position Number;
- Employee Name or “Vacant;”
- Employee Type (full-time, part-time, and other);
- Job Class Code;
- Job Title;
- Pay Grade;
- Retirement System Code;
- Increment Month;
- Annual Base Pay;
- Annual FICA;
- Annual State Retirement Contribution;
- Annual State Health Insurance Contribution; and
- Annual Life Insurance Contribution.

BUDGET REQUESTS FOR INFORMATION SYSTEMS – Any Budget Request for hardware, software, communications, and operating costs for information technology must be consistent with the standards issued by the Chief Information Officer within the Commonwealth Office of Technology.

BUDGET PRIORITIES – Every budget system compels managers and officials to establish priorities for the allocation of limited resources to competing demands and needs. The initial opportunity to establish budget priorities occurs during the budget request phase of the process by agency heads that are most familiar with the continuing needs and desirable improvements in agency activities and operations. **(The Baseline Budget must be the top priority for the agency, followed by the Defined Calculations Budget Requests. All Defined Calculations Budget Requests carry a priority ranking of one. Each separate request in the Additional Budget Request must be assigned an agency numerical priority ranking by the agency head starting at two. Cabinet-level officials will rank consolidated cabinet-wide priorities relative to Additional Budget and Capital Budget. The omission of the ranking number on the request record will indicate no priority value.**

AGENCY BUDGET REQUEST OVERVIEW REPORT – LINKAGE TO CABINET/AGENCY STRATEGIC PLAN – Agency heads should attach, *at the highest aggregated level*, an Overview Report with their budget unit requests. This Report should present an overview of the agency's budget request in narrative form. The purpose of this Report is to summarize for the branch head, branch budget agency, and the Legislature the major budget issues addressed in the Operating Budget and the Capital Budget, and outline the proposals in the requests which address these issues. Major budget issues may be due to previous or current resource constraints, needs assessments, program assessments, inappropriate service delivery arrangements, or consequences of federal budget policy, or administrative or judicial orders.

The record shall include how Cabinet/Agency Strategic Plans relate to the major budget issues and proposals within each agency's budget request.

Contingent Matters – For any agency/cabinet which is affected, the Overview Report must identify any contingent matters which could have a significant adverse impact on the Commonwealth's financial condition in the 2024-2026 biennium. The dollar threshold of a contingent matter to be addressed is one million dollars or more. The potential liability may relate to a legal proceeding, federal assistance program compliance, or other statutory commitment or obligation. Agency heads should state the subject and nature of the contingent matter, the major issues to be resolved, the status of any legal or administrative proceeding, and the estimated fiscal impact on state General Fund (including Phase I Tobacco Settlement dollars) or Road Fund expenditures or revenues.

OPERATING BUDGET REQUEST

Baseline Budget Request

Financial Record: (Operating Budget Record A-1/A-2)

Agencies must include an individual Baseline Budget Request: Financial Record (A-1/A-2) at the Program/Subprogram level, Appropriation/Agency level, and Cabinet/Function level (where applicable). This record identifies the current year (FY 2023-24) budgeted amounts as revised, and the total baseline costs (as defined in Section II) relating to existing program/service activities.

BUDGETED – FY 2023-24 – In the budgeted FY 2023-24 column for Baseline Budget Request, agencies must identify the budgeted amounts for the current fiscal year, as revised. Accordingly, revenue and expenditure figures recorded in this column represent the agency's current revised budget plan for FY 2023-24 based upon total available resources and total appropriated expenditures.

NOTE – Prior to August 1, 2023, agencies shall initiate requests for any interim appropriations increases for FY 2023-24, which may be anticipated for inclusion in the 2024-2026 biennial budget request.

Primary revisions to the FY 2023-24 appropriations that must be taken into account include, **but are not limited to** the 2022-2024 biennial budget bills, budget adjustments enacted by the 2023 Regular Session of the General Assembly, reorganizations confirmed by the General Assembly, appropriation increases, appropriation reductions, mandated expenditure reductions, discontinued programs and activities, including one-time grant allocations, adjustments for debt service that will be reported in the Finance and Administration Cabinet, and nonrecurring mandated allotments.

BASELINE BUDGET REQUESTS – The FY 2024-25 and FY 2025-26 Baseline Budget could be less than the FY 2023-24 enacted budget, as revised, depending on nonrecurring costs, discontinued or reduced programs.

Baseline Budget Requests shall support, for each year of the 2024-2026 biennium to the extent possible, a continuation of currently conducted activities, services delivered, and/or programs that

are in effect in the current year FY 2023-24. The Baseline Budget Request shall reflect the same budgeted amounts (for all funds) to continue to support programs/activities at the currently provided level of services to the extent possible.

The Baseline Budget Requests are considered the budget unit's top priority activities. Agency heads must critically examine each component service and each essential cost element within their budget. **Requests for General Fund or Road Fund replacement funding to finance any activities currently supported by Federal Funds or Restricted Funds shall be requested as an Additional Budget Request.**

The purpose of Baseline Budget Requests is to identify specific fund sources and general types of fund receipts, to record Expenditures by Class, and to record Expenditures by Fund Source.

Actual financial information from the two prior fiscal years, 2021-22 and 2022-23, will be passed from eMARS Financial Management Reporting Database to the eMARS Budget System. Any variances made by an agency to the amounts transferred from the eMARS Financial Management Reporting Database for FY 2021-22 or FY 2022-23 must receive prior approval from the Governor's Office for Policy and Management, and shall be identified and explained in the exhibit **in the agency eMARS Financial Management Reporting Database crosswalk**.

SOURCE OF FUNDS

The Source of Funds section details fiscal year information for actual, budgeted and requested General Fund and Road Fund appropriations, and summary revenue/receipt information for Restricted Funds and Federal Funds.

The following definitions apply to the General Fund and/or Road Fund (Documentation must be provided for each applicable funding mechanism identified.)

Regular Appropriation is the amount included in Part I of the regular biennial branch budget bills for the two historical years and the current year.

Tobacco Settlement – Phase I is the amount of the Tobacco Settlement funds as appropriated and revised in accordance with the State/Executive Branch Budget Bill for the 2022-2024 biennium and requested for the 2024-2026 biennium.

Surplus Expenditure Plan is the amount for FY 2023-24, FY 2024-25, and FY 2025-26 which has been authorized for expenditure for designated purposes.

Current Year Appropriation is the amount originating from a Regular Session of the General Assembly in a branch bill for the current fiscal year. These appropriations occur biennially in even-numbered fiscal years. **For Executive Branch agencies, requests for current year appropriations for FY 2023-24 must be submitted as an Additional Budget Request with prior approval by the branch budget director.**

Special Appropriations are appropriations contained in enacted bills other than the biennial budget bills.

Continued Appropriations are prior year unexpended General, Road, or Tobacco Settlement – Phase I appropriations that have been authorized by statute or budget bill language to not lapse at the end of the fiscal year. Cite the statutory or Appropriations Act authority for each continued appropriation on the Program Narrative/Documentation Record (A-4). **(NOTE: Continued Tobacco Settlement – Phase I Funds, are to be identified separately from regular General Fund dollars.)**

Mandated Expenditure Reduction is the amount of General Fund spending reductions required to balance the budgets as enacted (allotment reduction).

Budget Reduction is the amount of appropriation reduction due to the implementation of a General Fund or Road Fund Budget Reduction Plan.

Reorganization Adjustments represent **increased or decreased** appropriation amounts resulting from reorganization executive orders affecting an agency and its service units. The sums must reflect the revisions for the full year. Historical fiscal year records must also be adjusted for comparative presentation. Cite the reorganization order number on the Program Narrative/Documentation Record (A-4).

Mandated Allotments are appropriations from unbudgeted General Fund sources which are made to meet unbudgeted expenses as specified in any Appropriation Act, Kentucky Revised Statute, or court order. Cite the authority for the allotment mandate on the Program Narrative/Documentation Record (A-4). Each Mandated Allotment must be identified and documented.

Postsecondary Performance Fund is the amount for FY 2021-22, FY 2022-23, and FY 2023-24 allocated to applicable appropriation units.

Other is a category utilized for historical data and for FY 2023-24 appropriation adjustments required during the execution of the budget that do not fit into any of the above categories. Cite authority and purpose on the Program Narrative/Documentation Record (A-4).

The following definitions apply to Restricted Funds and/or Federal Funds:

Current Receipts are moneys received by the budget unit in the first instance for services rendered, products sold, or grants received from the federal government.

Non-Revenue Receipts include funds transferred from another state government budget unit, reimbursements for casualty losses, or refunds relating to prior year operations and cash transfers.

Revenue for Restricted Funds predicated upon existing rates and types should be recorded in the row designated "Existing Structure" on the Restricted Funds Record (E). New or additional revenue for Restricted Funds due to a change in rate values or different and new sources, should be recorded in the row designated "Revised Structure." Revenue from revised structures must be submitted in the Additional Budget Request.

Any Restricted Funds resources resulting from changes in rate values not incorporated in the enacted 2022-2024 Biennial Budget must be documented and explained. Request for utilization of any new Restricted Funds, resulting from proposed changes in rate values during the 2024-2026 biennium should be displayed at the Additional Funding Request level (Report B-1/B-2) for new and expansion items.

If revenue for Federal Funds is due to anticipated receipts under existing federal programs, record figures in the row designated "Existing Programs" on the Federal Assistance Program Record (G). If revenue for Federal Funds is anticipated based upon a new federal program source, record figures

in the row designated “New Programs.” Revenue from new programs must be submitted in the Additional Budget Request.

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEAREST \$100.

OPERATING BUDGET REQUEST

Baseline Budget Request

Expenditure Detail Record: (Operating Budget Record A-3)

The Baseline Budget Request: Expenditure Detail Record (A-3) must be completed whenever a Baseline Budget Request: Financial Record (A-1/A-2) is submitted. (NOTE: Total Expenditures on the Expenditure Detail Record (A-3) must agree with the Total Expenditures reported on Financial Record (A-1/A-2).)

These instructions continue the effort to provide the most relevant expenditure detail information. Some detail below the object type code level may still be required. Agencies must consult their GOPM Budget Analyst and LRC Fiscal Analyst to determine whether specific object codes are required. KBUD provides the ability to enter and report any specific expenditure object code.

FY 2021-22 and FY 2022-23 expenditure amounts **must** match the appropriate **on-budget figures** contained in the Kentucky Annual Comprehensive Financial Report (ACFR) and respective Supplementary Information. If figures are not comparable, a reconciliation statement **must** be attached to explain the difference, unless variance is due to rounding figures.

PERSONNEL COSTS – Personnel Costs for FY 2024-25 and FY 2025-26 are limited to the annualized value of increments granted in the FY 2023-24 budget, as revised by the Personnel Target as previously defined, excluding the value of budgeted vacancies. To calculate the value of budgeted vacancies, agencies should use the appropriate expected annual salary and appropriately allocate the costs to the fund source(s) which would be used to fund the vacancy. Baseline Budget Request should include personnel costs up to the Personnel Target necessary to support personnel costs as well as other related expenses for operating; grants, loans and benefits; debt service; and capital outlay. In the event that the Baseline Budget level will not support up to the full cost of the Personnel Target, including necessary supporting costs, these costs may be requested in an Additional Budget Request. Health insurance, retirement, and FICA rate increases shall not be included on the Baseline Budget A-3 Record, but shall be included in the Defined Calculations Budget (DCB-3 Records). Regular Salaries and Wages (E111) cover the normal costs recorded for this minor object code. Other Salaries and Wages include the remaining salary and wage expenses – overtime and compensatory time, seasonal, occasional, per-diem, and differentials. Several fringe

benefit costs are itemized: FICA (E121), retirement (E122), and health and life insurance (E123 and E124). For the two historical years, any salary and fringe benefit costs that were posted to an object code outside of the E111-E124 object codes due to cost allocation processes must be displayed using the E111-E124 object codes. Other Fringe Benefits include disability coverage (E127) and employee related insurance (E128). Workers' compensation (E131) requirements should be specifically recorded.

OPERATING EXPENSES – Operating expense items are specified at the object code or summary level except for any lower level detail required by GOPM Policy and Budget Analyst or LRC Fiscal Analyst. Consult your analysts to determine any applicable specified object expense items. No operating related rate increases shall be requested on the A-3 Record.

GRANTS/LOANS/BENEFITS – Grants, loans, or benefits costs must be based on rates, recipient loads, and component variables identified on the Program Narrative/Documentation Record (A-4). Grants/Benefit items are specified at the object code class or summary level except for any lower level detail required by GOPM Policy and Budget Analyst or LRC Fiscal Analyst. Consult your analysts to determine any applicable specified object expense items. No Grants, Loans, and Benefits related to rate increases or program growth shall be requested on the A-3 Record.

DEBT SERVICE – All currently authorized General Fund debt service costs in the CURRENT and each fiscal year of the 2024-2026 biennium will be budgeted in the Finance and Administration Cabinet, with the exceptions of the School Facilities Construction Commission, the Teachers' Retirement System, the Department for Behavioral Health, Developmental and Intellectual Disabilities for the Eastern State Hospital project, and Universities for University-issued Consolidated Educational Buildings debt. This means that the total General Fund appropriation displayed in the FY 2023-24 column for appropriation units with new debt service in FY 2023-24 will be less than the enacted appropriation. No entry shall be made by any other agency for General Fund debt service costs on the Baseline Budget Request Expenditure Detail Record (A-3). All currently authorized non-General Fund debt service costs will be budgeted by other specific fund source by agencies in the historical, current, and each fiscal year of the next biennium.

CAPITAL OUTLAY – Capital Outlay costs shall be projected for routine replacement items and minimal normal requirements. Additional information may be requested by the branch budget office regarding updated agency equipment replacement schedules. Any Capital Outlay

expenditures which are not specifically identified should be recorded as "Other Capital Outlay" [Minor Object Code (E609)]. Each agency shall attach a copy of the replacement schedules of Capital Outlay items.

CONSTRUCTION – The Construction Costs expenditure class is reserved for the recording of Operating Budget transfers to the Capital Construction Fund for expenditure, for the recording of highway construction expenditures by the Transportation Cabinet, and for Abandoned Mine Land Reclamation expenditures by the Energy and Environment Cabinet. Amounts for transfers from the Operating Budget Request to the Capital Budget Request must agree with the amounts reported on the Capital Project Record (CBR-02), Capital Equipment Record (CBR-03), and/or Capital Information Technology System Record (CBR-04).

TOTAL EXPENDITURES – Total Expenditures by Fund Source must equal Total Expenditures Detail in each fiscal year displayed. Total expenditures in FY 2024-25 and FY 2025-26 shall not exceed the 2023-24 appropriations as revised. Expenditures for the purpose of expanding or establishing new programs or activities or level of services delivered are **not** to be included in the Baseline Budget Request.

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEAREST \$100.

OPERATING BUDGET REQUEST

Baseline Budget Request

Program Narrative/Documentation Record: (Operating Budget Record A-4)

The Baseline Budget Request: Program Narrative/Documentation Record (A-4) must be completed whenever Financial Record (A-1/A-2) is used.

IMPORTANT: This record is open-ended and should be as lengthy as the Agency thinks necessary in order to justify a particular program's current existence and continued funding. This should be considered a vital part of the budget request.

This record should, at a minimum, include Specific Legal Citations, Fiscal Justification for Program, and **Program Performance with Efficiency, Output and Outcome Measures**, where available. The legal citations must be a detailed and comprehensive list of constitutional provisions, state statutes, federal statutes, rules, regulations, and administrative or judicial orders. Agencies are encouraged to **use quantitative data wherever applicable**, and any other information which explains the program's purpose and justification for expenditures. In completing this narrative, the agency should assume that the reader has NO knowledge of the program, i.e., why and under what authority it exists, who it serves, and how its resources are allocated and expended.

“Section I, Program/Results Documentation” must be completed if any of the following questions are answered affirmatively:

- Does the budget unit **provide direct services** to patients, clients, beneficiaries, recipients, parolees, customers, inmates, applicants, employees, or students?
- Does the budget unit **engage in direct law enforcement or regulatory activity** (e.g., issue citations, arrest public offenders, certify nursing homes)?
- Does the budget unit **process or review forms on a regular basis** (e.g., audit tax returns, issue mining permits, issue birth certificates)?
- Was the budget unit **appropriated funds for expanded or new services/activities or personnel by the 2020 or 2021 General Assembly?**

Quantitative data that indicates the service/performance levels and anticipated outcomes and outputs for the program must be provided. This information should contain the necessary criteria for measuring the accomplishments and/or performance of the program or service activities in the event funding is approved by the General Assembly. Agencies must also state the total funding level associated with individual programs or activities if sub-program/unit funding amounts are different than the total funding figures on the companion Financial Record (A-1/A-2).

Agency budget requests that do not comply with this aspect of the Branch Budget Request Manual will be returned to ensure completion of this critical program information.

Agencies which received additional appropriations in fiscal biennium 2022-2024 for new or expanded services/activities or personnel, as identified in the 2022-2024 enacted branch budget bills or Budget of the Commonwealth **must identify** the item(s) and provide appropriate data which indicates the level of activities/services or personnel that was budgeted with the additional funds as well as the level of activities/services or personnel that has been accomplished or delivered in comparison with the budget plan.

Any significant changes (i.e., reorganizations and contract practices) that have occurred, or will occur, must be identified by fiscal year. These changes should include, but are not limited to, any current activities or services, which are abolished, restructured, or substantially altered in the Baseline Budget. These changes should include any funding request recorded on Financial Record (A-1/A-2) which finances different activities or service arrangements for either fiscal year of the 2024-2026 biennium.

Budget units and programs/subprograms which function primarily as administrative agencies are required to submit quantitative information which depicts the nature and volume of administrative duties provided. Consult your GOPM analyst(s) for application of “administrative agencies.” Quantitative data for FY 2021-22 and FY 2022-23 must be provided, if available.

Completion of this record will satisfy the financial and program reporting requirement under KRS 48.800, and no separate status report to LRC is necessary for compliance.

In “**Section II, Program Description/Purpose,**” an agency’s program narrative should state concisely the statutory purposes and objectives of the program or subprogram, service delivery

arrangements, and note the legal citations (statutes, rules, regulations, and administrative or judicial orders) which affect activities. **Explain the implementation status of FB 2020-2022 additional appropriation items and the impact of the additional dollars in accomplishing their purpose.**

Under “**Section III, Program Results/Fiscal Justification,**” identify and explain the following:

Any significant variances in Operating Expenses in FY 2024-25 and FY 2025-26 over FY 2023-24 must be justified in detail by individual programs. State the rationale as to how the requested dollars are derived.

Any increases and significant variances in Grants/Benefits in FY 2024-25 and FY 2025-26 over FY 2023-24 must be justified in detail by individual programs. Note the application of any adjustment factor due to normal changes in client or utilization levels and state the rationale as to how the requested dollars were derived. **(Note: Increases in client levels must be identified as an Additional Budget Request – Growth item. Increases in rates that are paid to clients must also be identified as an Additional Budget Request – Growth item.)** Identify the key components and unit values in individual grants and benefits programs and the relative values of intergovernmental match rates. Agencies should include any and all information, which is meaningful in justifying the agency's request.

Any significant variances in Capital Outlay in FY 2024-25 and FY 2025-26 over FY 2023-24 must be justified in detail by individual programs. State the rationale as to how the requested dollars are derived.

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEAREST \$100.

OPERATING BUDGET REQUEST

Baseline Budget Request

Personnel Budget Summary Record: (Operating Budget Record A-5)

The Baseline Budget Request: Personnel Budget Summary Record (A-5) must be completed as a part of each full set of Baseline Budget Request Records. The Personnel Budget Summary Record (A-5) includes FY 2023-24 through FY 2025-26.

Information on three categories of personnel and related costs are requested: **Full-Time, Part-Time, and Other Positions (to include Federally Funded Time-Limited (FFTL), and Interim Positions)**. The number of personnel positions that may be requested as a part of the Baseline Budget Request is limited to the personnel target established through the biennial branch budget bills, as revised, attached as Appendix E. Positions above the personnel target may be included in an Additional Budget Request record.

The number of positions in the FY 2021-22 and FY 2022-23 columns should be the average number of filled positions for the budget unit in the Full-Time, Part-Time, and Other categories for the respective fiscal year.

For Executive branch agencies, the number of personnel positions that may be requested in FY 2024-25 and FY 2025-26 as a part of the Baseline Budget Request is limited to the number of positions established through the biennial branch budget bills, as revised, attached as Appendix E. Positions above the personnel target may be included in an Additional Budget Request record.

In the event that the Baseline Budget level will not support the full cost of Personnel Target, including necessary supporting costs, these costs may be requested in an Additional Budget Request. No new positions above the FY 2023-24 levels may be included on the A-5 record. Those projected new personnel positions may be included in an Additional Budget Request - New/Expansion record if the need can be justified. Personnel costs due to any cost drivers relative to personnel positions approved for FY 2023-24, shall not be placed in the Baseline Budget A-5 record, but shall be placed on the Defined Calculations Budget Request records.

For interim and federally funded time-limited positions, incremental fringe benefit costs must be calculated only for eligible position categories and be based upon standard employer rate schedules provided in these instructions, unless officially revised by the appropriate authority. Part-time Board member positions shall be excluded.

The Source of Funds section should exclude any overtime and compensatory time salary costs and associated fringe benefits. Any significant differences in the fund source distribution for these costs should be explained on the Operating Budget Record A-4, Fiscal Justification section.

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEAREST \$100.

OPERATING BUDGET REQUEST

Baseline Budget Request

Budgeted Positions Record: (Operating Budget Record A-6)

NOTE: The Budgeted Positions Record (A-6) is exhibited in this Manual in a sample format style indicating the types of information required. This Record will be created for each agency after publication of this Manual.

The Budgeted Positions Record (A-6) is a budget request record that projects the salary, wage and fringe benefit costs for FY 2023-24, FY 2024-25, and FY 2025-26 based upon the assumptions included in the 2020-2022 Branch Budget Request Manual.

Agencies which do not participate in the branch central personnel operations must prepare a comparable Budgeted Positions Record (A-6) consistent with this position class format and utilize standard compensation rate factors applicable to their employment categories. All other Executive branch agencies must use the Budgeted Positions Record (A-6) provided by the GOPM.

The Budgeted Positions Record (A-6) covers three categories of personnel: Full-Time, Part-Time, and Other Positions, for FY 2023-24 and both fiscal years of the 2024-2026 biennium. The costs for part-time Board members will be excluded from the Budgeted Positions Record, but these costs should be provided on the **Baseline Budget Request: Expenditure Detail Record**. Listings for each budget unit must be subdivided and subtotaled according to the funded positions complement, as revised, as of July 1, 2023, within the Personnel Target, within each category as defined in Section II. Calculations for each category must conform to these instructions. Probationary positions shall be considered the same as Full-Time Positions. **All revisions to the enacted positions complement must be identified and reason(s) for the revisions explained.**

FULL-TIME AND PART-TIME POSITIONS – For the Legislative and Judicial Branches, the appropriate branch personnel agency will generate the original record for this report. For the Executive Branch agencies that participate in the Kentucky Human Resources Information System, GOPM will generate the original record for this report. To prepare an accurate record of the request for enacted position targets, as revised, the original detail record must be certified by the branch budget office to eliminate any position for which no funding is requested in the 2024-2026

biennium. Agencies are responsible for ensuring that all applicable positions and appropriate costs are covered in this record.

No pay grade adjustments shall be factored in this record.

The number of positions and projected costs for these categories shall be reflected on the Personnel Budget Summary Record (A-5).

OTHER POSITIONS – The number of positions and projected costs for this employment category shall be reflected on the Personnel Budget Summary Record (A-5). Other Positions includes Interim Positions and Federally Funded Time-Limited Positions. For all other positions, no increment will be provided for purposes of calculating salary costs for agency personnel runs generated by GOPM.

The Budgeted Positions Record (A-6) for the Executive Branch will be generated based on the current agency organizational structure down to the division level, and may be generated based on the primary labor distribution code for filled positions based on information in the state's payroll system. Modifications of these two record formats for Executive Branch agencies may be requested of GOPM when the level of presentation of an agency's budget request is not consistent with the organizational structure of the agency.

Legislative Branch and Judicial Branch agencies whose program/subprogram does not match the organizational structure of the Budgeted Positions Record (A-6) as generated by the branch personnel agency may reformat their Budgeted Positions Record (A-6) to match their program/subprogram as long as the basic guidelines for applicable positions are followed. Such agencies may not exceed the total position costs and the numbers of applicable positions as reflected in the branch personnel's final, official Budgeted Positions Record (A-6). Any modifications must be done with the consultation of the appropriate branch budget office.

Incremental fringe benefits costs shall be calculated on the basis described in the Calculations Guidelines (Appendix B).

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEAREST \$100.

Federal Funds estimates must be projected on the basis of the latest available federal budget treatment of the federal assistance program by Congress. If Federal Funds revenues are due to anticipated receipts under existing federal programs, record figures in the row designated “Existing Programs” (Record G Operating Budget: Federal Assistance Program Record), for each affected year in fiscal biennium 2024-2026. If federal revenues are anticipated based upon a new federal program source, record figures in the row designated “New Programs” on Record G.

If Restricted Funds or Federal Funds are budgeted on this record (Defined Calculations Record DCB-1/B-2), these resources must be cross-referenced with the appropriate funding source record document (E or G).

EXPENDITURES BY CLASS – Object code expenditure assumptions, calculations and recordings are identical to the instructions contained in the Baseline Budget Request unless otherwise noted.

Defined Calculations Budget Records and Instructions

Expenditure Detail Record: (Operating Budget Record DCB-3)

The Defined Calculations Budget Request: Expenditure Detail Record (DCB-3) must be completed whenever a Defined Calculations: Financial Record (DCB-1/B-2) is submitted. **Related totals must match.**

Object code titles on Record DCB-3 must conform to the standard expenditure object record in the statewide financial system unless otherwise specified. Agencies, which do not participate in the state central financial system, must format expenditure object figures in a comparable arrangement to the extent feasible.

All agencies shall use the Calculations Guidelines (Appendix B) in completing the Defined Calculations Budget Request. All agencies shall use these standard growth factors where applicable. Agencies must critically examine the cost, value, and requirements for all projected expenditure items for requests for FY 2024-25 and FY 2025-26.

All statutory expense allowances should be extended at the current legal rates (Note: legal rates should only appear in the Defined Calculations Budget request if the legal rates were raised) or as specified in the Calculations Guidelines (Appendix B).

PERSONNEL COSTS – The incremental values associated with rate increases above should be recorded in their appropriate object codes. Regular Salaries and Wages (E111) cover the normal costs recorded for this object code. Personnel costs should relate to the personnel expenditures included in the Baseline Budget Request: Expenditure Detail Record (A-3).

Examples

- a) Incremental fringe benefit costs must be calculated only for eligible personnel positions in the Baseline Budget Request and be based upon standard employer rate schedules provided in these instructions, unless officially revised by the appropriate authority;
- b) Health Insurance rate increases; and
- c) Retirement rate increases.

NOTE: There is no Record B-5 at the Defined Calculations Budget Request level. The additional costs reflected at this level are for baseline budgeted positions and the breakdown of these positions will appear on the Baseline Budget Request Record A-5: Personnel Budget Summary Record.

OPERATING EXPENSES – Operating expense items are specified for State-Owned Building Rental (E222) and Fire and Tornado Insurance Premiums (E254). **Other operating expenses should be detailed for specific object codes specified in the Defined Calculations instructions.**

GRANTS/LOANS/BENEFITS – No Grants/Loans/Benefits should appear in the Defined Calculations Budget Request.

DEBT SERVICE – No new or existing debt service should appear in the Defined Calculations Budget Request.

CAPITAL OUTLAY – No capital outlay should appear in the Defined Calculations Budget.

OPERATING BUDGET REQUEST

Additional Budget Records and Instructions

Financial Record: (Operating Budget Record B-1/B-2)

Additional Budget Request Records shall be completed when requesting budget authority from any budgetary fund source in excess of the Calculations Guidelines provided in the Baseline Budget Request and the Defined Calculations Budget Request.

Requests for additional funding beyond the Baseline Budget Request and the Defined Calculations Budget Request for each agency must be submitted on Additional Budget Request Records. Appropriation units shall include an Additional Budget Request for the funds required to finance a one-percent annual salary increment in each fiscal year. This Additional Budget Request shall be ranked as the number two priority request for all cabinets and appropriations units, after the Defined Calculations Budget Requests. Requests for current year appropriations for FY 2023-24 must be submitted as an Additional Budget Request. For Executive branch agencies prior approval by the State Budget Director is required for current year appropriation requests. Additional funding requests fall into four categories:

1. **Growth** – Requests for additional funding to support the higher costs of the current scope of programs/activities or higher caseloads and workloads, beyond the Baseline Budget Request and the Defined Calculations Budget Request. This type of request includes:

Funds required to maintain and continue the FY 2023-24 levels of mandated services and activities that the agency has demonstrated as necessary and has documented its inability to accommodate necessary funding within the Baseline Budget Request and the Defined Calculations Budget Request.

Funds required to finance a one percent annual salary increment each fiscal year. Using a one percent provides the necessary financial information to determine the additional costs of various salary increment percentage rates.

Funds to finance necessary operational capacity in existing operations, programs, and activities; increases in level of services delivered in existing operations, programs, and activities; increases necessitated by changing conditions; annualized costs for Executive Branch programs and services which contain part-year funding and were opened for operations in FY 2023-24.

Growth ABRs are not allowed for funds to finance expenditures that are accommodated in the current fiscal year's revised budget. Only the marginal expenditure increases due to higher caseloads or workloads or inflation are permitted.

2. **Expansion** – Funds required to finance proposed expanded agency activities, services, or programs.
3. **New** – Funds required to finance new operations, programs, and activities; and increases in new services to be delivered.
4. **Fund Source Replacement** – Funds required to replace the loss of or reduction in Federal and Restricted Funds.

Each discrete request for additional budget authority shall be submitted on a separate Additional Budget Request: Financial Record (B-1/B-2). **Example: A request to replace Restricted Funds with General Fund support and a request to increase the number of clients served are two distinct requests and would require completion of two distinct sets of Additional Budget Request Records.** Each Additional Budget Request must contain a cabinet-wide and an agency priority ranking assigned by the appropriate authority, starting at priority ranking THREE behind the Defined Calculations Budget Request (priority one). Omission of a ranking will indicate the absence of priority value.

If requested funding relates to a legislative proposal, note and attach a draft copy of the legislative proposal to the Program Narrative/Documentation Record (B-4).

In the Request Type section on the record, check the **most appropriate type**, which applies to the request.

SOURCE OF FUNDS – Requests for a FY 2023-24 General Fund or Road Fund Appropriation should be identified as a Current Year Appropriation and identified in the Growth category. Any request for a FY 2023-24 Current Year Appropriation which results in recurring costs in any year in the 2024-2026 fiscal biennium must include the associated figures for the affected fiscal year in the 2024-2026 biennium in the same complete set of Additional Budget Request records.

If revenue for Restricted Funds is predicated upon existing rates and types, record figures in the row designated "Existing Structure" (on Record E Operating Budget: Restricted Funds Record) for each affected year in fiscal biennium 2024-2026. If revenue for Restricted Funds is anticipated due to a change in rate values or different and new sources, record these figures in the row designated "Revised Structure."

Federal Funds estimates must be projected on the basis of the latest available federal budget treatment of the federal assistance program by Congress. If Federal Fund revenues are due to anticipated receipts under existing federal programs, record figures in the row designated "Existing Programs" (on Record G Operating Budget: Federal Assistance Program Record) for each affected in year in fiscal biennium 2024-2026. If federal revenues are anticipated based upon a new federal program source, record figures in the row designated "New Programs" on Record G.

If Restricted Funds or Federal Funds are budgeted on this record (B-1/B-2), these resources must be cross-referenced with the appropriate funding source record document (E or G).

EXPENDITURES BY CLASS – Object code expenditure assumptions, calculations and recordings are identical to the instructions contained in the Baseline Budget Request unless otherwise noted.

PERSONNEL POSITIONS – Information for the Budgeted Positions by Position Type and by Fund Source will be identified on this record (B-1/B-2).

Each Additional Budget Request must contain a cabinet-wide and an agency priority ranking assigned by the appropriate authority. Omission of the rankings will indicate the absence of priority value.

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEAREST \$100.

OPERATING BUDGET REQUEST

Additional Budget Request Records and Instructions

Expenditure Detail Record: (Operating Budget Record B-3)

The Additional Budget Request: Expenditure Detail Record (B-3) must be completed whenever a Financial Record (B-1/B-2) is submitted. **Related totals must match.**

Object code titles on Record B-3 must conform to the standard expenditure object record in the statewide financial system unless otherwise specified. Agencies, which do not participate in the state central financial system, must format expenditure object figures in a comparable arrangement to the extent feasible.

Agencies must use the same basis contained in the Calculations Guidelines (Appendix B) for calculating specific expenditure items.

PERSONNEL COSTS – Regular Salaries and Wages (E111) cover the normal costs recorded for this object code. Other Salaries and Wages include the remaining salary and wage expenses – seasonal, occasional, per-diem, and differentials. Overtime (E115) and compensatory time payments (E119) should be specified and recorded as Other Salaries and Wages. Several Fringe Benefit costs are itemized: FICA (E121), retirement (E122) and health and life insurance (E123 and E124). Other Fringe Benefits include disability coverage (E127) and employee related insurance (E128). Workers' compensation (E131) requirements should be specifically recorded.

OPERATING EXPENSES – Operating expense items are specified for State-Owned Building charges (E222) and Utilities and Heating Fuels (E210). Other operating expenses should be detailed for specific object codes identical to and consistent with the object coding structure contained on the Baseline Budget Request: Expenditure Detail Record (A-3).

GRANTS/LOANS/BENEFITS – Grants, Loans, or Benefits costs are to be projected on the basis of rates, recipient loads, and the component variables identified on the Additional Budget Request: Program Narrative/ Documentation Record (B-4). Grants/Benefits items should be specified at the object or object class codes identical to and consistent with coding structure contained on the Baseline Budget Request: Expenditure Detail Record (A-3).

DEBT SERVICE – Debt Service costs should reflect only requested new debt, or additional debt for a currently authorized project. Cost information is entered for the appropriate fund source(s). A spreadsheet template is available from GOPM to aid in debt service calculations. Enter the new/additional Debt Service in the Debt Service line(s) associated with the applicable requested fund source. Include all new Debt Service on one single Additional Budget Request record.

CAPITAL OUTLAY – Any Capital Outlay expenditures which are not specifically identified should be recorded as "Other Capital Outlay" [Object Code (E609)].

CONSTRUCTION – The Construction Costs expenditure class is reserved for the recording of Operating Budget transfers to the Capital Construction Fund for expenditure, for the recording of highway construction expenditures by the Transportation Cabinet, and for Abandoned Mine Land Reclamation expenditures by the Energy and Environment Cabinet. Amounts for transfers from the Operating Budget Request to the Capital Budget Request must agree with the amounts reported on the Capital Project Record (CBR-02), Capital Equipment Record (CBR-03), and/or Capital Information Technology System Record (CBR-04).

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEAREST \$100.

OPERATING BUDGET REQUEST

Additional Budget Records and Instructions

Program Narrative/Documentation Record: (Operating Budget Record B-4)

The Additional Budget Request: Program Narrative/Documentation Record (Record B-4) must be completed for each discrete budget request in excess of the Baseline Budget Request. This narrative should be considered as the most important part of the budget request.

Record B-4 is not required for Defined Calculations Budget Requests.

Program detail which is factual, comprehensive, and meaningful is required to support each Additional Budget Request. In the current fiscal environment, state agencies face substantial competition for additional revenue. Inadequate programmatic information could unnecessarily jeopardize serious consideration of Additional Budget Requests. In completing the narrative, the agency should assume the reader has NO knowledge of the proposed program area.

Executive Branch agencies must provide a brief discussion in the narrative on how this particular Additional Budget Request relates to the Cabinet/Agency Strategic Plan.

Quantitative data indicating the service/performance levels and anticipated outcomes for the program must be provided. This information should contain the necessary criteria for measuring the accomplishments and/or performance of the program or service in the event funding is approved by the General Assembly. Agencies must also state the total funding level associated with these activities if sub-program/unit funding amounts are different than the total funding figures on the companion Financial Record (B-1/B-2).

Programs which function primarily as administrative agencies are required to complete the quantitative documentation information which depicts the nature and volume of administrative duties provided.

Agencies must state whether anticipated receipts from Restricted Funds are derived from: (1) anticipated revenues projected under existing sources, legal rate structures, or operations; or (2) are based upon a change in identified administrative or statutory rates. Agencies should explain how

request figures for operating expenses, grants/benefits, and capital outlay costs are derived. The key components and unit values in individual grants and benefits programs must be explained.

If the Additional Budget Request necessitates a change in legislation, it must be identified that legislation is required to accomplish the intended change.

If the Additional Budget Request necessitates a change to an Administrative Regulation, it must be identified that a new or revised Administrative Regulation is required to accomplish the intended change.

Agencies should review the instructions for the Baseline Budget Request: Program Narrative/Documentation Record (A-4).

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEAREST \$100.

Position Detail Record: (Operating Budget Record B-5)

An Additional Budget Request: Position Detail Record (B-5) **shall be completed** whenever new positions are being filled as a result of an Additional Budget Request presented on the companion Additional Budget Request: Financial Record (B-1/B-2). When multiple positions are being created that have the same anticipated start date and are otherwise identical, only a single line is used with the number of positions indicated. The starting salary shall be expressed as an hourly rate, semi-monthly salary, or per diem as indicated by the pay type code. The Fund Source must reflect which budgetary fund source will be used to pay for the costs of the positions. If multiple fund sources are anticipated, the amount for each fund must be indicated. (Reminder: Requests for General Fund support may include Tobacco Settlement Phase I dollars and must be identified as applicable.)

OPERATING BUDGET REQUEST

Operating Budget Summary Records and Instructions

Financial Summary and Expenditure Detail Records:

(Operating Budget Record C-1/C-2)

(Operating Budget Record C-3)

Figures for the Total Request: Financial Summary Record (C-1/C-2), and Total Request: Expenditure Detail Summary Record (C-3), will be automatically generated from corresponding figures on the Baseline Budget, Defined Calculations, and Additional Budget records. These records represent the summary information of the Total Operating Budget Request.

The Total Request: Financial Summary Record (C-1/C-2) and Total Request: Expenditure Detail Summary Record (C-3) accumulate the Baseline Budget, Defined Calculations, and Additional Budget Request records for: (1) agencies within a branch/function/cabinet; (2) division or equivalent service units within agencies; and (3) sub-units within the division or its equivalent service unit.

The detail level for completing these records depends upon corresponding records for the Baseline Budget, Defined Calculations, and the Additional Budget.

The highest aggregate levels at which these records would be completed is the standard appropriation unit, and summarized at the cabinet/agency unit.

Budget level totals on these records will equal the sum of the totals on the corresponding financial records for the Baseline Budget, Defined Calculations, and the Additional Budget for the respective budget unit. The Expenditures by Unit section on the Total Request: Financial Summary Record (C-1/C-2) must accumulate and report all subordinate program/subprogram which have discrete budget requests records completed within the summarized level. The Expenditures by Unit section must equal the Total Expenditures by Class, Total Expenditures by Budget Level, and the Total Expenditures by Fund Source.

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEAREST \$100.

OPERATING BUDGET REQUEST

Operating Budget Summary Records and Instructions

Priority Ranking Summary Record: (Operating Budget Summary Record P)

Each item for which funding above the Baseline Budget is requested, must be ranked in priority order by the Cabinet or independent agency officer on the Operating Budget Request: Priority Ranking Summary Record (P) as defined in the previous paragraph.

The Cabinet/Independent Agency Priority Ranking on this record must correspond to the numbers indicated for the identical item in the Additional Budget Requests: Financial Record (B-1/B-2).

Rank numbers will be ordered in priority sequence as described in the above paragraph. **Each Additional Budget Request must have a discrete sequential priority ranking number.** Omission of a rank number for an item will indicate the absence of priority value.

Since all Defined Calculations Budget Request records (DCB Records) must carry the designation as the **number one priority, summarize all of them into single entries** on the Priority Ranking Summary displayed at the top of this listing. One entry at the Cabinet level and one entry at the appropriation unit level. The Additional Budget Request for the one-percent annual salary increment shall be designated as the number two priority. Other Additional Funding Request items shall start at the number **THREE** at both the appropriation unit level and cabinet level when prioritizing individual request items.

OPERATING BUDGET REQUEST

Operating Budget Summary Records and Instructions

Off-Budget Accounts Exhibit: (Operating Budget Exhibit-1)

Agencies which have Off-Budget Accounts established, or anticipate doing so, shall complete an Off-Budget Exhibit (Exhibit-1), as a separate attachment at the Appropriation Unit Level, to record **each** Off-Budget Account assigned to an agency.

If necessary, agencies may use a different report if approved in advance by GOPM and LRC.

Section I – Fund Source Data

- Account (Fund) Number;
- Account Title;
- Authority for the Account (including, but not limited to, Kentucky statutes, judicial or administrative orders, etc.).

Section II – Fund Description

Provide the Source of Receipts (for example, Provider Tax receipts in the Medicaid Program, or unclaimed lottery prize funds) and specific types of activities funded with the receipts. Indicate restricted purposes for the receipts. Agencies are encouraged to provide as much detail as necessary to fully explain the purpose for the establishment of the Account and any limitations that may be assigned to the Account as it relates to its usage. Agencies should identify any significant obligations or commitments of the year-end balances that are not apparent by reviewing the purposes or restrictions to the usage of the account.

The Fund Description should identify any Off-Budget funds that have been utilized, or are projected to be utilized to support or supplant On-Budget Funds, including identification of amounts, purposes, and the related On-Budget Fund account. In addition, all On-Budget Funds that were transferred or are anticipated to be transferred, to an Off-Budget Account **must** be identified by amount and authority for the transfer.

Section III – Restricted Funds Budget Summary

- Actual or estimated receipts and expenditures for each fiscal year
- Actual or estimated balance forward for each fiscal year

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEAREST \$100.

CAPITAL BUDGET REQUEST

Capital Budget Records and Instructions

Each capital project must be requested as part of the Capital Budget Request. A Capital Project, regardless of the source of funds, whether in cash or other consideration, is defined by KRS 45.750 (1)(f) as:

1. Any capital construction item, as that term is defined at KRS 45.750(1)(b), or any combination of capital construction items necessary to make a building or utility installation complete, estimated to cost one million dollars (\$1,000,000) or more in cash or other consideration.
2. Any lease, as that term is defined at KRS 45.750(1)(c), of real property space with an annual rental cost exceeding two hundred thousand dollars (\$200,000);
3. The use allowance paid by the Judicial Branch for a real property space pursuant to KRS 26A.090(2) and 26A.115 when the use allowance for the space exceeds two hundred thousand dollars (\$200,000) on an annual basis;
4. Any item of equipment, as that term is defined at KRS 45.750(1)(d), estimated to cost two hundred thousand dollars (\$200,000) or more in cash or other consideration;
5. Any lease of an item of movable equipment if the total cost of the lease, lease-purchase, or lease with an option to purchase is two hundred thousand dollars (\$200,000) or more; and
6. Any new acquisition, upgrade, or replacement of an information technology system, as that term is defined at KRS 45.750(1)(e), estimated to cost one million dollars (\$1,000,000) or more in cash or other consideration.

It is important that each agency be thoroughly familiar with the provisions of KRS 45.750 – 45.818 prior to beginning the Capital Budget Request process. A copy is reprinted in Appendix F.

REQUEST STRUCTURE – All Capital Budget Requests must be submitted at the appropriation unit level.

CAPITAL REQUESTS LESS THAN \$1,000,000 – If the proposed project is less than \$1,000,000, the project may still be requested for specific authorization in the Capital Budget Request, or it may be requested as part of a pool. If appropriate, it may be requested in the Operating Budget under Capital Outlay Expenses.

PUBLIC-PRIVATE PARTNERSHIPS (P3s)

There is a new requirement that any capital project > \$25m must include an explicit statement if it is to be authorized as a P3 project, per KRS 45A.077(8). That provision is newly applied to FY 2022-23 and beyond:

"Beginning July 1, 2024, in the case of any public-private partnership for a capital project with an aggregate value of twenty-five million dollars (\$25,000,000) or more, the project shall be authorized by the General Assembly, by inclusion in the branch budget bill or by any other means specified by the General Assembly, explicitly identifying and authorizing the utilization of a public-private partnership delivery method for the applicable capital project. The authorization of a capital project required by this subsection is in addition to any other statutorily required authorization for a capital project."

RELATIONSHIP BETWEEN CAPITAL AND OPERATING BUDGETS – If resources in the Operating Budget are proposed for any Capital Project Request, these fund sources **must** be clearly cross-referenced.

If any Operating Budget program change is requested which may affect any Capital Project Request, the corresponding budget records **must** note the relationship.

GENERAL INSTRUCTIONS

Facilities and Support Services Review

Capital Planning-Budgeting

Please note that any capital project listed in the Capital Budget Request **must** also have been included in the 2024-2030 Six-Year Capital Plan submitted by the agency. If a capital item is requested and is not in the Plan, the Plan must be amended to reflect this item. (See 2024-2030 Six-Year Capital Planning Instructions.)

All Executive Branch agencies are directed to furnish a copy of each Capital Project Request estimated to cost \$1,000,000 or more to the Finance and Administrations Cabinet's Department for Facilities and Support Services for review and analysis. Projects should be submitted to the Department for Facilities and Support Services no later than August 1, 2023, to provide sufficient time for review of cost estimates for inclusion in each agency's Capital Budget Request, unless agencies have already conferred with the Department during the Capital Planning process. Projects are reviewed to provide realistic project cost estimates and for consultation regarding the availability of feasible alternatives such as an existing state-owned structure or property suitable for the project purpose. Requested projects costing less than \$1,000,000 do not require this review, but agencies are still urged to consult with Facilities and Support Services.

Agencies should identify any idle or surplus buildings, property, or major equipment in its possession, and furnish such listings to the Department for Facilities and Support Services, and the branch budget office for review.

Project requests must include all estimated costs associated with the projects, i.e., site acquisition, utilities and design, construction, movable equipment and furnishings, service roads, and price contingency allowances.

Commonwealth Office of Technology Review

Capital Planning-Budgeting

Please note that any capital project listed in the Capital Budget Request **must** also have been included in the 2024-2030 Six-Year Capital Plan submitted by the agency. If a capital item is requested and is not in the Plan, the Plan must be amended to reflect this item. (See 2024-2030 Six-Year Capital Planning Instructions.)

All Executive Branch agencies are directed to furnish a copy of the finalized detailed project plan for each Information Technology (IT) Capital Project Request to the Commonwealth Office of Technology (COT) for review and approval, irrespective of the IT Capital Project Review Committee's score and/or approval. COT's review and approval is required in order to ensure full compliance with the technical architecture, the KY Information Technology Standards (KITS), KY Enterprise Data Architecture (KEDA), and all CIO Enterprise IT Policies (<https://technology.ky.gov/policy/Pages/policies.aspx>), as well as analysis of practical alternatives should the proposed project deviate from current IT standards.

The financial section will include a projection for Total Cost of Ownership across the project life-span. This includes, but is not limited to, vendor MA/Contract quotes for hardware and software, services for data transfer/cleanup/conversion, services for installation and configuration, consulting services, modification of facilities to accommodate staffing expansion, total staffing FTE costs, training and education, annual maintenance and support in the out-years, useful life models, project timelines, etc.

Projects should be submitted to COT no later than August 1, 2023, to provide sufficient time for review prior to inclusion in each agency's official Capital Budget Request, unless agencies have already conferred and received documented approval from COT during the Capital Planning process.

Expiration of Capital Authorizations – (When is Reauthorization Not Required?)

State and/or Postsecondary Institution Administered Capital Construction Projects

A construction contract for the project has been awarded or is expected to be awarded by June 30, 2024.

A debt financed (bond) capital construction item is properly authorized and does not require further action by the 2024 General Assembly if either permanent or short-term line of financing has been obtained provided that an initial draw has been made on the short-term line of financing within the biennium immediately subsequent to the original authorization.

Grant or loan agreements have been or are expected to be finalized and properly signed by all parties by June 30, 2024.

Equipment purchase authorizations, excluding executed lease or lease/purchase agreements, expire on June 30, 2024. If no purchase order will be executed by that date, the equipment must be requested as a new authorization to the 2024 General Assembly. (Equipment purchase reauthorizations are not allowed.)

Other Capital Projects

All other capital project authorizations expire on June 30, 2024. All funds, except bond funds, remaining in a maintenance pool will lapse at the end of the biennium and may not be reauthorized.

If a Project has Been Reauthorized – Request as New Project

Capital Request Requirement – Any project that has been appropriated by the General Assembly for two consecutive biennial budgets shall not be requested again as a reauthorized project. It shall be requested as a new project which shall not rely on past appropriations. Example: a capital project that was reauthorized in the 2022-2024 biennial budget, was also appropriated in the 2020-2022 biennial budget. If that capital project will expire due to insufficient project activity on June 30, 2024, then that capital project shall not be requested in the 2024-2026 agency budget request to be reauthorized. It shall be requested as a new project. No changes to the 2024-2030 Six-Year Capital Plan are needed to comply with this new requirement.

Capital Project Record (CBR-02)

Capital projects defined under KRS 45.750(1)(f)1. and 3. (see definitions in Appendix F) must be requested on the Capital Budget Request: Capital Project Record (CBR-02).

Agencies are encouraged to provide additional narrative if the Capital Project Record is not sufficient to include all of an agency's description or justification. Agencies must identify any potential new projects, which may be required pursuant to judicial or administrative order from the state or federal government.

Capital Equipment Record (CBR-03)

Capital projects defined under KRS 45.750(1)(f)4. and 5. (see definitions in Appendix F) must be requested on the Capital Budget Request: Capital Equipment Record (CBR-03).

Previously authorized Capital Equipment items procured through a multi-year lease or lease/purchase agreement may not require the completion of Capital Budget Request records. Annual lease payments consistent with the previous authorization should be included in the Operating Budget Request if funded from Restricted Funds or Federal Funds.

Newly-requested Capital Equipment items procured through a multi-year lease or lease/purchase agreement requires the completion of Capital Budget Request records based on the total cost to include ancillary expenses such as shipping, installation, interest and finance charges, structural modification costs, and any necessary expenses to make the equipment functional and operational. Annual lease payments for the project should also be included in the Operating Budget if funded from Restricted Funds or Federal Funds. **If funding is requested from any other fund source, the annual lease payments must be included in the Capital Budget Request.**

Capital Information Technology System Record (CBR-04)

Capital projects defined under KRS 45.750(1)(f)6. (see definitions in Appendix F) must be requested on the Capital Budget Request: Capital Information Technology System Record (CBR-04).

Previously authorized Capital Information Technology System line-item projects procured through a multi-year lease or lease/purchase agreement may not require the completion of Capital Budget Request records. Annual lease payments consistent with the previous authorization should be included in the Operating Budget Request if funded from Restricted Funds or Federal Funds.

Newly-requested Capital Information Technology System items procured through a multi-year lease or lease/purchase agreement require the completion of Capital Budget Request records based on the total cost to include ancillary expenses such as shipping, installation, interest and finance charges, structural modification costs, and any necessary expenses to make the equipment functional and operational. Annual lease payments for the project should also be included in the Operating Budget if funded from Restricted Funds or Federal Funds. **If funding is requested from any other fund source, the annual lease payments must be included in the Capital Budget Request.**

Real Property Lease Record (CBR-05)

Capital projects defined under KRS 45.750(1)(f)2. (see definitions in Appendix F) must be requested on the Capital Budget Request: Real Property Lease Record (CBR-05).

Agencies are encouraged to provide additional narrative if the Real Property Lease Record is not sufficient to include all of an agency's description or justification. Agencies must identify any potential new projects, which may be required pursuant to judicial or administrative order from the state or federal government.

The Capital Budget Request also includes the recommended program for major space rental. In accordance with KRS 48.111, the rental of any space for which the annual rental cost will exceed \$200,000 **must** be included in the Governor's executive branch budget recommendation to the 2024 Regular Session of the General Assembly; therefore, major space rental items must be included on

the Capital Budget Request: Real Property Lease Record (CBR-05). Funding for the lease costs **must** be included and identified in the Operating Budget Request. If new funds are requested to pay for the lease, funds should also be requested as an Additional Budget Request in the Operating Budget.

Project Amounts

Each capital project to be funded totally with state funds, other than an agency's own Restricted Funds or Agency Bonds, should be requested to be supported with General Fund dollars if the project is estimated to cost under \$1,000,000, or Bond Funds if the project is estimated to cost \$1,000,000 or more. If requesting Bond Funds, the associated debt service **must** be included within an Additional Budget Request in the Operating Budget.

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEXT \$1,000.

CAPITAL BUDGET REQUEST

Project Summary Record - Record CBR-01

Capital Budget Request: Project Summary Record (CBR-01) is a comprehensive summary listing, in priority order by fund source, of all capital construction, capital equipment, information technology equipment, and lease projects requested for 2024-2026. It also provides totals by fund source for each fiscal year of the biennium.

The information on this Record is generated based on the data entered on Records CBR-02, CBR-03, CBR-04, and CBR-05.

Please note that **all** project requests require a rank preference selection by the Agency head **and** the appropriate Cabinet/Branch Officer.

Newly approved capital projects authorized in the first year of biennium do not expire until the close of the 2022-2024 biennium – June 30, 2024. Current biennial projects expire June 30, 2024, with the exceptions noted previously.

ALL REQUESTED DOLLAR AMOUNTS MUST BE ROUNDED TO THE NEXT \$1,000.

CAPITAL BUDGET REQUEST

Capital Project Record - Record CBR-02

Each capital project request is reported on the Capital Budget Request: Capital Project Record (CBR-02) for the following:

- Each capital construction project costing \$1,000,000 or more, unless specified below.
- Each maintenance or other pool to fund multiple construction projects costing less than \$1,000,000. (Any individual project costing \$1,000,000 or more may not be included in a pool, but must be submitted as a separate project).
- Each pool containing multiple environmental projects (such as wetland and stream mitigation), infrastructure projects (such as water and sewer grant, state-owned dam repair, flood control projects), Guaranteed Energy Savings Performance Contract projects, land acquisition projects, and economic development projects, even if the individual projects cannot be identified at this time and if the individual project amounts may exceed \$1,000,000.
- Postsecondary Education Institutions Only – a pool to accommodate the grouping of like projects (such as repair, upgrade or improvement of electrical systems, mechanical systems, or other building systems) that may cost \$1,000,000 or more but are not identified at this time.
- Each new, expanded, or modified local court facility space, regardless of cost, paid for by the Judicial Branch through use allowance payments in accordance with KRS Chapter 26A.

CAPITAL BUDGET REQUEST PRIORITY – Each project is to be assigned a separate Capital Budget Request priority number.

Agencies and postsecondary education institutions are to enter priority numbers only on the "Agency" line. The "Cabinet/Function" line is reserved for cabinet level roll-up priorities and the Council on Postsecondary Education system-wide priorities.

List also the project priority as contained in the agency's Six-Year Capital Plan submitted to the Capital Planning Advisory Board.

PROJECT DOCUMENTATION

Project Title – If the project is currently authorized, cite the project title in the eMARS Financial System. If the project is new, use the same title as identified in the Six-Year Capital Plan.

County Location – Identify the county in which the project will be located. If not county-specific, use the appropriate code for the following designations:

- “**Undetermined**” is to be used if the location has not yet been specified.
- “**Multi-County**” is to be used if the location has been determined and the project will be located at sites in more than one county, including statewide.
- “**Out-of-State**” is to be used if the location is not in Kentucky.

Reauthorization – Is this an authorized project newly appropriated in the 2022-2024 biennium that is being requested for reauthorization or reauthorized with additional funding? (See Capital Budget Request General Instructions.)

- **Current Project, Reauthorization, No Additional Budget** – A project that is set to expire on June 30, 2024, due to one of the following reasons:
 1. A construction contract for a state- and/or postsecondary institution-administered project will not be awarded by June 30, 2024;
 2. A debt financed (bond) capital construction project will not have obtained permanent financing or a short-term line of credit sufficient to cover the total authorized project scope amount and an initial draw will not have been made on the short-term line of credit within the fiscal biennium immediately subsequent to the biennium in which the project was originally authorized;
 3. Grant or loan agreements will not be finalized and properly signed by all parties by June 30, 2024; and
 4. Equipment purchase authorizations will not have an executed purchase order by June 30, 2024, with the exception of executed lease or lease/purchase agreements.

(Note: With the exception of Bond Funds, all other funds authorized and remaining in maintenance pools will lapse at the end of the biennium and may not be reauthorized.)

- **Current Project, Reauthorization, Additional Budget** – A project newly appropriated in the 2022-2024 biennium for which there are not sufficient funds available for completion and for which the agency requests additional funds from the 2024 General Assembly. Only the amount of additional funds should be requested.
- If the request is for a currently authorized project, then the current project account number and the new project estimate including this request is also required.

Capital Project Type – Identify the project type from the list of categories below:

GL **Capital Grant/Loan Program**

A special purpose funding project that provides financial assistance to non-state agencies or entities, including development and public infrastructure projects, even if the individual projects cannot be identified at this time and if the individual project scopes might exceed \$1,000,000:

- Economic and community development grant and loan projects.
- State and federally-supported drinking water and wastewater loan and grant projects and local government agency infrastructure projects.
- Public school facilities in local school districts.
- Flood control projects.

DM **Demolition**

A project to raze a building because it is considered unsafe or structurally unsound and for which it is considered cost prohibitive to make the repairs necessary for occupancy. If the "Demolition" project is separate from, but related to, a "New Construction" project, the agency must make clear reference to the planned "New Construction" project in the description of the "Demolition" project.

MA **Major Alteration**

A project which may or may not enlarge an existing structure, but which will prepare the facility for a new and different purpose or function.

ME **Major Expansion/Addition**

A project which will enlarge an existing structure, but the current use is retained.

MM **Major Maintenance**

A non-routine improvement which will maintain a facility's condition and use, the cost of which equals or exceeds \$1,000,000.

MR **Major Renovation**

A project which will **not** enlarge an existing structure, and the current use is retained.

PP **Multiple Projects Pool**

A pool of funds to finance multiple projects, including:

- Multiple minor capital construction projects - projects estimated to cost less than \$1,000,000. These minor projects may be similar to the major projects categories outlined above in the type of work performed; however, they qualify as minor projects by virtue of their limited costs. (Any individual project costing \$1,000,000 or more may not be included in a pool, but must be submitted as a separate project.)
- Multiple environmental projects (such as hazardous waste cleanup and underground storage tank projects), even if the individual projects cannot be identified at this time and if the individual scopes might exceed \$1,000,000.

CS New Construction

A new, free standing facility. If a "New Construction" project requires the demolition of an existing structure, and the "Demolition" project is planned as a project separate from the "New Construction" project, the agency must make clear reference to the separate "Demolition" project in its description of the "New Construction" project.

AS Property/Structure Acquisition

The purchase or lease-purchase of land or a facility or other structure for the benefit of the agency's use in its operation.

Project Description – Describe the project to be undertaken. Information provided in this section should be comparable to the “Additional Description/Justification,” “Existing Facility,” “Existing Program Relocation,” “Phased Project,” and “Explanation of Project Budget” responses included in the agency’s Six-Year Capital Plan and should include square footage amounts if applicable. Itemized lists of projects, including individual project scopes, are to be provided to the extent practicable for project pools. Postsecondary education institutions are to indicate whether the project addresses an item or items listed in the institution's campus facilities maintenance plan. Indicate the planned method of procurement: purchase, lease, lease-purchase or other.

KRS 45.763 Projects – Any capital project to be financed with Other Funds through a third-party financing arrangement as described in KRS 45.763 must include information in the Project Description that specifies the type of financing arrangement planned and the source of funds the budget unit plans to use to make the payments. This includes public-private partnership and built-to-suit financing arrangements. For postsecondary education institutions, indicate whether the source of funds used to make the payments is pledged within the General Receipts Trust Indenture.

KRS 45A.077 Projects – Any capital project to be financed with Other Funds through a public-private partnership that does not involve a third-party financing arrangement as described in KRS

45.763 must include information in the Project Description that specifies the type of financing arrangement planned and the source of funds the budget unit plans to use to make payments, if any. For postsecondary education institutions, indicate whether the source of funds used to make the payments is pledged within the General Receipts Trust Indenture.

A new requirement that any capital project with an aggregate value greater than \$25 million must include an explicit statement if it is to be authorized as a P3 project, per KRS 45A.077(8). That provision is newly applied to FY 2023-24 and beyond:

“Beginning July 1, 2024, in the case of any public-private partnership for a capital project with an aggregate value of twenty-five million dollars (\$25,000,000) or more, the project shall be authorized by the General Assembly, by inclusion in the branch budget bill or by any other means specified by the General Assembly, explicitly identifying and authorizing the utilization of a public-private partnership delivery method for the applicable capital project. The authorization of a capital project required by this subsection is in addition to any other statutorily required authorization for a capital project.”

Agency Bond Projects – Projects requested to be financed with Agency Bonds shall indicate whether new or existing revenues will be dedicated to the repayment of the bonds. For postsecondary education institutions, indicate if any actions have already been taken by the Board of Regents/Board of Trustees regarding new revenues or the reallocation of existing revenue streams for the requested Agency bond project. Also, indicate if no action has been taken.

PROJECT BUDGET

(All dollar amounts must be rounded to the next \$1,000.)

Has this project been reviewed by the Department for Facilities and Support Services? (Yes, No, N/A)

All Executive Branch agencies are directed to furnish a copy of each capital project request estimated to cost \$1,000,000 or more to the Finance and Administration Cabinet’s Department for Facilities and Support Services for review and analysis. Projects should be submitted to the Department for Facilities and Support Services no later than August 1, 2023, to provide sufficient time for review of cost estimates for inclusion in each agency's budget request, unless agencies

have already conferred with the Department during the Capital Planning process. Projects are reviewed to provide realistic project cost estimates and for consultation regarding the availability of feasible alternatives such as an existing state-owned structure or property suitable for the project purpose. Requested projects costing less than \$1,000,000 do not require this review, but agencies are urged to consult with Facilities and Support Services.

Do not include Operating Budget expenses, such as personnel, utilities, and maintenance.

Fixed equipment is to be included in the "Construction Costs" cost element as well as utilities, roadway, and communications/network infrastructure.

Each project to be funded totally with state funds is to indicate source(s) of state funds; that is, identify General Fund, Phase I Tobacco Settlement funds, Road Fund, Restricted Funds, Bond Funds, or Agency Bonds for the project. If the most likely source for the requested state-funded project cannot be precisely determined, apply the following guideline:

Estimated to cost less than \$1,000,000 – General Fund, Phase I Tobacco Settlement funds, Road Fund, or Restricted Funds.

Estimated to cost \$1,000,000 or more – Bond Funds.

The following may not be used as fund sources for requested projects: General Fund Surplus, Capital Construction Surplus, or Investment Income.

Identify the source of funds for debt service for Agency Bonds. Include revenue source, fee type/amount if applicable, and estimated annual revenue, even if financed as General Receipts Indenture at postsecondary education institutions.

IMPACT ON OPERATING BUDGET

(All dollar amounts must be rounded to the next \$1,000.)

Provide the best estimate of the project completion date by month and year. Estimate, for the first five years of operations, the impact of the project on the agency's Operating Budget [personnel, operating, grants/loans/benefits, and capital costs] if it is funded and completed as requested. The impact may be: 1) increased costs, 2) cost savings, or 3) a combination of increased costs and

savings. Report the estimated amounts by cost elements. Enter eliminated costs as negative numbers. Please identify the percentage share of the total impact that is related to programmatic expenses rather than basic operations and maintenance expenses. Identify the fund sources for the Impact on Operating Budget.

NOTE: The impact of a capital project on the Operating Budget may result in savings or additional costs.

CAPITAL BUDGET REQUEST

Capital Equipment Record - Record CBR-03

Capital Budget Request: Capital Equipment Record (CBR-03) is to be submitted for the following, regardless of whether the equipment is procured through direct purchase (lump-sum or installment payments), lease-purchase, or rental arrangements.

- Each equipment item estimated to cost \$200,000, or more.
- Each pool totaling \$200,000, or more, to fund multiple (but not identical) equipment items costing less than \$200,000 each. (Any individual item costing \$200,000, or more may not be included in a pool, but must be submitted separately.)
- Postsecondary Education Institutions Only – each Postsecondary Education Institution may request a Capital Equipment Pool for the purchase of equipment items costing \$200,000 or more, and provide a listing of capital items of equipment that would make up that pool. Any equipment pool appropriated would likely be required to have each equipment item costing \$200,000 or more reported to the LRC Capital Projects and Bond Oversight Committee.

Multiple, identical items of equipment costing at least \$200,000 each should be submitted on a single Capital Equipment Record (CBR-03).

CAPITAL BUDGET REQUEST PRIORITY – **Each project** is to be assigned a separate Capital Budget Request priority number.

Agencies and postsecondary education institutions are to enter priority numbers only on the "Agency" line. The "Cabinet/Function" line is reserved for Cabinet-level roll-up priorities and the Council on Postsecondary Education system-wide priorities.

In addition, list the equipment item priority as contained in the agency's Six-Year Capital Plan submitted to the Capital Planning Advisory Board.

EQUIPMENT DOCUMENTATION

Equipment Title – Identify the equipment by generic label, **not** by brand name or model number. Use the same title as identified in the agency's Six-Year Capital Plan.

Location – Identify the county in which the equipment will be located. Otherwise, use the appropriate code for following designations:

- **"Undetermined"** is to be used if the location has not yet been specified.
- **"Multi-County"** is to be used if the location has been determined and the equipment will be placed in sites in more than one county, including statewide.
- **"Out-of-State"** is to be used if the location is not in Kentucky.

Equipment Description and Justification – Describe the equipment to be acquired. Information provided in this section should be comparable to the “Additional Description/Justification,” “Replace/Enhance/Expand Existing Equipment,” and “Explanation of Project Budget” responses included in the agency's Six-Year Capital Plan. For equipment pools, itemized lists of equipment, including individual project scopes (costs), are to be provided to the extent practicable. Explain why the equipment is needed; its relationship to the agency's mission and programs should be clearly stated, including references to the Kentucky Revised Statutes as appropriate.

Equipment Budget

(All dollar amounts must be rounded to the next \$1,000.)

Quantity of Identical Units – Agencies may aggregate multiple quantities of identical units of equipment having the same unit cost estimate. Unit cost should include all ancillary costs. If the Capital Equipment Record (CBR-03) is being submitted for multiple items which are **not identical** (a pool or system), enter **"0" (zero)**.

Equipment Price per Unit – If the Capital Equipment Record (CBR-03) reflects multiple quantities of identical units (previous item), indicate the price per unit.

Fund Sources – The estimated cost should reflect the agency's best estimate of all capital costs necessary to make the item or system operational and complete. Do **not** include Operating Budget expenses, such as personnel, training, utilities, and maintenance.

Previously-authorized equipment procured through a multi-year lease or lease/purchase agreement **may not** require the completion of capital records. Annual lease payments consistent with the previous authorization should be included in the Operating Budget Request if funded from Restricted Funds or Federal Funds. General Fund Surplus, Capital Construction Surplus, or Investment Income may **not** be used as fund sources for planned equipment.

IMPACT ON OPERATING BUDGET

(All dollar amounts must be rounded to the next \$1,000.)

Estimate, for the first five years of operations, the impact of the item or system on the agency's Operating Budget [personnel, operating, grants/loans/benefits, and capital outlay] if it is funded and completed as planned. The impact may be: 1) increased costs, 2) cost savings, or 3) a combination of increased costs and cost savings. Report the estimated amounts by cost elements. Enter eliminated costs as negative numbers. Identify the fund source(s) for the Impact on Operating Budget. Please identify the percentage share of the total impact that is related to programmatic expenses rather than basic operating and maintenance expenses.

NOTE: The impact of an equipment project on the Operating Budget may result in either savings or additional costs. If the impact is negative, enter negative dollar values.

CAPITAL BUDGET REQUEST

Capital Information Technology System Record - Record CBR-04

Capital Budget Request: Capital Information Technology System Record (CBR-04) is to be submitted for any capital information technology system, regardless of the method of procurement. A capital information technology system means any related computer or telecommunications components that provide a functional system for a specific business purpose and contains one or more of the following: hardware, software, professional services, or digital data products. Please see the definition of a capital information technology system in Appendix F.

CAPITAL BUDGET REQUEST PRIORITY – Each information technology system project is to be assigned a separate Capital Budget Request priority number.

Agencies and postsecondary education institutions are to enter priority numbers only on the "Agency" line. The "Cabinet/Function" line is reserved for cabinet level roll-up priorities and the Council on Postsecondary Education system-wide priorities.

List also the project priority as contained in the agency's Six-Year Capital Plan submitted to the Capital Planning Advisory Board.

SYSTEM PROJECT DOCUMENTATION

Information Technology System Project Title – If the project is currently authorized, cite the project title in the eMARS Financial System. If project is new, use the same title as identified in the Six-Year Capital Plan.

Reauthorization – Is this an authorized project newly appropriated in the 2022-2024 biennium that is being requested for reauthorization or reauthorized with additional funding? (See Capital Budget Request General Instructions.)

- **Current Project, Reauthorization, Additional Budget** – A project newly appropriated in the 2022-2024 biennium for which there are not sufficient funds available for completion and for which the agency requests additional funds from the 2024 General Assembly. Only the amount of additional funds should be requested.

- If the request is for a currently authorized project, then the current project account number and the new project estimate including this request is required.

Project Description – Describe the project to be undertaken. Information provided in this section should be comparable to the “Additional Description/Justification,” “Expand/Enhance/Replace an Existing System,” “Phased Project,” “Primary Program Purpose” (for Postsecondary Education institutions only), and “Explanation of Project Budget” responses included in the agency’s Six-Year Capital Plan.

PROJECT BUDGET

(All dollar amounts must be rounded to the next \$1,000.)

Identify the estimated cost of the system project by fund source and cost element. If the system is to be financed over time (other than with bond funds), use the Other category. The expenditure elements include: hardware services provided by the Commonwealth Office of Technology (COT) during the project (hardware services provided after implementation should be categorized as an operating expenditure); software, provided from a vendor or from COT; professional/implementation services, contract worker costs, and other. Indicate the planned method of procurement: purchase, lease, lease-purchase or other.

IMPACT ON OPERATING BUDGET

(All dollar amounts must be rounded to the next \$1,000.)

The Impact on Operating Budget section requires a five-year projection after implementation. The focus of the information is on the various cost elements associated with the implementation, support, and upgrade of new information technology systems. If the information technology system will have an impact on the agency’s operating budget after it is implemented, report that impact. The impact may be: 1) increased costs, 2) savings, or 3) a combination of increased costs and savings. Report the estimated amounts for the first five years of operations by cost element. Enter the eliminated costs as negative numbers.

Completion Date - Identify the anticipated date of full installation and utilization of the system.

Lease Type – Identify the type of lease using the following categories:

EI **Existing**

A lease for a location housing agency offices/activities under a lease agreement in effect as of July 1, 2022.

EE **Existing/Expansion**

A lease to increase the square footage in a location housing agency offices/activities under a lease agreement in effect as of July 1, 2022.

NE **New**

NR **New/Replacement**

A lease, for space which the agency did not occupy as of July 1, 2022, which will replace a single existing lease. The lease may or may not involve an increase in square footage over that occupied under the existing lease.

NC **New/Consolidation**

A lease, for space which the agency did not occupy as of July 1, 2022, which will replace multiple existing leases in order to consolidate offices/activities of the agency currently housed in multiple locations. The lease may or may not involve an increase in square footage over that occupied under the existing leases.

Lease Description and Justification – Describe the lease including its location, if available, and funding information such as Fund Source(s), Fiscal Year(s), and Amount(s). If the lease type is other than "New," PR#(s) of the lease should be identified. Explain why the lease is needed. The relationship of the lease to the agency's mission and programs should be clearly stated, including references to the Kentucky Revised Statutes as appropriate.

LEASE FEATURES

Specialized Requirements – Describe any special requirements of the planned lease such as an upgrade of utilities or modifications to accommodate information technology.

Relationship to Existing Space – Describe both the physical and programmatic relationship of the new or expanded lease space to existing program space. The description should include whether the program or activity to be housed in the space is a new or existing program. **If the space will house an existing program or activity, indicate where that program or activity is presently housed and how that space will subsequently be used.** (Reference other projects in this plan, if applicable.)

APPENDIX C

ORGANIZATION/PROGRAM CHART

The chart below identifies the basic characteristics of the Kentucky State government program structure. Shown parenthetically are the organizational units, which generally most closely correspond to the various levels of the program structure.

Program Structure (Corresponding Programmatic/Organizational Entity)	Characteristics
Branch	One of the three Branches of State Government established by the Constitution of the Commonwealth of Kentucky.
Cabinet/Function	The broad mission toward which a major component of state government is directed.
Agency	The Department, Office, Agency, Institution, or parent entity of an Appropriation Unit.
Appropriation Unit	A grouping of programs which is directed toward accomplishing various related aspects of a state government function. In most instances, this is the level at which appropriations are requested (budget unit) and appropriations enacted. This can be the same as the Agency.
Program/Service Unit	A set of related objectives directed toward the achievement of a specific goal with an identifiable beneficiary group. In some instances, this is an appropriation unit. In most instances, this is the level at which allotments are made.
Sub Program	A group of discrete, related activities aimed at achieving a specific program objective.
Posting Unit	The operational activities developed to carry out subprograms. The aggregate effort of the individual elements comprising a subprogram should result in the achievement of the subprogram objective.

This chart depicts the organization/program relationships in most of the areas of the Executive Branch in Kentucky State government. However, in a limited number of instances certain cabinets may have programs and/or subprograms, which cut across organization lines. In these cases, the crosswalk required in this manual will explain these variances.

eManagement Administrative and Reporting System

The eManagement Administrative and Reporting System (eMARS) utilizes a fund structure that enables the Commonwealth to prepare financial statements that are in compliance with generally accepted accounting principles (GAAP). The current eMARS fund structure consists of three “fund types”; governmental, proprietary, and fiduciary, which in turn, include the following different funds. The “fund types” and the fund titles, with attendant fund numbers for the governmental and proprietary funds, include the following.

Governmental Funds involve expendable resources and are used to finance most of the Commonwealth's operations.

General Fund (0100) – accounts for financial resources appropriated by the General Assembly which are not required to be accounted for in another fund.

Capital Projects Fund (0200) –formerly the Capital Construction Fund; accounts for financial resources appropriated by the General Assembly and used to acquire and construct major capital facilities, except those financed by proprietary and certain trust funds.

Debt Service Fund (0300) – formerly the Bond Redemption and Interest Fund; accounts for the payment of general long-term principal and interest, and also for the accumulation of financial resources transferred from other funds to make such payments.

Road Fund (1100) – accounts for General Fund transfers, agency receipts, federal receipts, and related expenditures of the Transportation Cabinet including the constitutional Road Fund.

Federal Fund (1200) – accounts for moneys received from the Federal Government.

Agency Revenue Fund (1300) – accounts for receipts and disbursements of restricted taxes, fees, and charges related to a particular function or activity and usually appropriated by the General Assembly.

Other Special Revenue Fund (1400) – accounts for receipts and disbursements of restricted taxes, fees, and charges related to a particular function or activity, which are not usually appropriated by the General Assembly.

Proprietary Funds involve the Commonwealth’s ongoing operations that are similar to private business.

State Parks Fund (2100) – accounts for the revenues earned and expenses incurred in the commercial operations of the Department of Parks.

State Fair Board Fund (2200) – accounts for the revenues earned and expenses incurred in the commercial operations of the State Fair Board.

Insurance Administration Fund (2400) – accounts for insurance risk pools operated by the state.

Health Self-Insurance Fund (2500) – accounts for public employees' health insurance program.

Kentucky Public Transportation Infrastructure Authority Fund (2600) – accounts for toll revenues

Kentucky Horse Park Commission Fund (2900) – accounts for the revenues earned and expenses incurred in the commercial operations of the Kentucky Horse Park.

Fleet Management Fund (3100) – accounts for expenditures related to purchase and operations of the state motor pool.

Computer Services Fund (3200) – accounts for expenses incurred and reimbursements received by the Commonwealth Office for Technology for computer and other communication related services.

Prison Industries Fund (3500) – accounts for expenses incurred and reimbursements received by the Department of Corrections' industrial prison operations.

Central Printing Fund (3600) – accounts for expenses incurred and reimbursements received by the Kentucky Transportation Cabinet.

Property Management Fund (3700) – accounts for expenses incurred and reimbursements received by the Finance and Administration Cabinet's space rental and maintenance operation.

Risk Management Fund (3800) – accounts for the claims, judgments, and self-insurance operations of the state.

Other Expendable Trust Fund (6300) – accounts for other fiduciary financial resources to be expended only for designated operations.

Tobacco Settlement Trust Fund (6350) – accounts for financial resources, received pursuant to the MSA Tobacco Settlement Phase I agreement, and appropriated by the General Assembly.

Facilities and Services

26A.090 Definitions for KRS 26A.090 to 26A.115.

26A.115 Operating costs allowance and use allowance payments.

Facilities and Services

26A.090 Definitions for KRS 26A.090 to 26A.115.

As used in KRS 26A.090 to 26A.115, unless the context otherwise requires:

- (1) "Operating costs allowance" means compensation equivalent to the annual expenses borne by the unit of government for utilities, janitorial service, rent, insurance, and necessary maintenance, repair, and upkeep of the court facility which do not increase the permanent value or expected life of the court facility, but keeps it in efficient operating condition, and, at the election of the Administrative Office of the Courts, capital costs of interior or mechanical renovations for the benefit of the court.
- (2) "Use allowance" means compensation equal to four percent (4%) annually of the total original capital costs and the cost of capitalized renovation of the court facility, except that if indebtedness has been incurred in respect to such capital costs at an interest rate equal to or greater than seven percent (7%), compensation shall be at a rate of eight percent (8%) annually of that portion of the capital costs for which the rate applies. For refinanced projects constructed or renovated prior to July 1, 1994, the use allowance payment shall not change for the term of the original bond issue, unless there is a change in the space occupied. For court facilities renovated or constructed after July 1, 1994, "use allowance" means the court's proportional share of the annual principal and interest cost in connection with the renovation or construction, but not to exceed eight percent (8%) annually of capital costs, or, if there is no debt, four percent (4%) annually of capital costs. Beginning with

court facility construction or renovation projects authorized by the 2000 Regular Session of the General Assembly, "use allowance" means the court's proportional share of the annual principal and interest costs in connection with the construction or renovation of the facility, not to exceed the authorized annual use allowance.

- (3) "Capital costs" means the costs borne by the unit of government, excluding grants, conditioned by the grantor agency specifically for court facility construction or renovation, for acquisition of property and for construction and capitalized renovation including interest accruing during construction or renovation, but no other interest of each court facility. If capital costs are not documented, reasonable estimates provided by qualified appraisers will suffice. After July 14, 2000, capital costs, for the purpose of computing the maximum annual use allowance, shall not exceed the project scope as authorized by the General Assembly in the judicial branch budget or as increased and approved under KRS 26A.164.
- (4) "Capitalized renovation" means all remodeling involving the structural or mechanical systems, except for remodeling that involves substantial demolition of the original structure. Remodeling involving substantial demolition of the original structure shall constitute construction resulting in a new court facility.
- (5) "Unit of government" means a county, city, urban-county government, special district, or corporate entity created for the purpose of constructing or holding title to a court facility.
- (6) "Court facility" means the land and buildings owned or operated by a unit of government in which space for the court of justice is provided. Judges' benches, jury and witness boxes, and fixed seating shall be considered as permanent building fixtures.
- (7) "Court facilities standards committee" means a committee consisting of the Chief Justice or his designee; one (1) judge each of the Court of Appeals, the Circuit Court, and the District Court appointed by the Supreme Court; the president of the Circuit

Clerks' Association; the chairmen of the House and Senate Judiciary Committees of the General Assembly; the secretary of the Finance and Administration Cabinet; the director of the Administrative Office of the Courts; and a county judge/executive appointed by the Governor. Each appointed member shall serve for a term of four (4) years from the date of his appointment or until he vacates the office in respect to which he was appointed, whichever is earlier.

26A.115 Operating costs allowance and use allowance payments.

- (1) Each unit of government providing space in a court facility to the Court of Justice under the provisions of KRS 26A.100 shall be paid an operating costs allowance plus a use allowance to be administered by the Administrative Office of the Courts.
- (2) The precise amount paid for operating costs allowance and use allowance shall be computed by allocating to the Court of Justice its proportionate share of each category according to the relative portion of the floor space in the facility which is occupied by the Court of Justice. Compensation shall be calculated on an annualized basis, may be in the form of rental per square footage, and shall be paid quarterly. Should the availability of space provided to the Court of Justice be limited by the governmental unit to a part-time basis, the compensation shall be apportioned according to the number of days or partial days per week in which it is made available, one (1) day or partial day per week being considered as one-fifth (0.2) of the time.
- (3) If requested by a unit of government, operating costs allowance and use allowance payments due in accordance with subsection (2) of this section shall be due and payable to the unit of government not less than ten (10) days prior to the interest due date for the bonds, notes, or other debt obligations issued to finance the capital costs for court facility space provided to the Court of Justice by the requesting unit of government.

judgment or settlement -- Applicability of Open Records and Open Meetings Laws -- Administration and disbursement of trust funds or assets by Office of the Controller -- Exceptions -- Costs of litigation -- Limitation regarding constitutional challenge.

- (1) The General Assembly hereby finds and declares that:
 - (a) Public accountability for funds or other assets recovered in a legal action by or on behalf of the general public, the Commonwealth, or its duly elected statewide constitutional officers is appropriate and required, whether the character of the assets or funds recovered is public or private;
 - (b) Accountability for assets or funds recovered by duly elected statewide constitutional officers is essential to the public trust, and is even more critical when that officer was a party to the action that resulted in the recovery by virtue of the public office he or she holds;
 - (c) Public accountability demands the applicability of the Kentucky Model Procurement Code, KRS Chapter 45A, Kentucky Open Records Law, KRS 61.870 to 61.884, and the Kentucky Open Meetings Law, KRS 61.805 to 61.850, so that the actions of individuals or agencies who are charged with the administration of funds or other assets are conducted in full view, and are open to public scrutiny; and
 - (d) The power to appropriate funds for public purposes is solely within the purview of the legislative branch of government, and the General Assembly, as a steward of the budgetary process, shall take steps to assure that future settlements are handled in a manner that assures maximum accountability to the citizens of the Commonwealth and their duly elected legislative representatives.
- (2) Therefore, any other provision of the common law or statutory law to the

contrary notwithstanding:

- (a) The provisions of subsection (3) of this section shall apply whenever the Attorney General or other duly elected statewide constitutional officer is a party or has entered his appearance in a legal action on behalf of the Commonwealth of Kentucky, including ex rel. or other type actions, and a disposition of that action has resulted in the recovery of funds or assets to be held in trust by the Attorney General or other duly elected statewide constitutional officer or a person, organization, or entity created by the Attorney General or the Commonwealth, through court action or otherwise, to administer the trust funds or assets, for charitable, eleemosynary, benevolent, educational, or similar public purposes;
 - (b) Except as otherwise provided in paragraph (a) of this subsection, the provisions of subsection (4) of this section shall apply when any funds or assets of any kind or nature whatsoever, including but not limited to public funds as defined in KRS 446.010 and private funds or assets are recovered by judgment or settlement of a legal action by or on behalf of the Commonwealth of Kentucky, including ex rel. or other type actions filed by a duly elected statewide constitutional officer under that officer's statutory or common law authority.
- (3) Whenever the Attorney General or other duly elected statewide constitutional officer is a party to or has entered his appearance in, a legal action on behalf of the Commonwealth of Kentucky, including ex rel. or other type actions, and a disposition of that action has resulted in the recovery of funds or assets to be held in trust by the Attorney General or other duly elected statewide constitutional officer or by a person, organization, or entity created by the Attorney General, or the Commonwealth, through court action or otherwise, to administer the trust funds or

assets, for charitable, eleemosynary, benevolent, educational, or similar public purposes, those funds shall be deposited in the State Treasury and the funds or assets administered and disbursed by the Office of the Controller.

- (4) The Office of Attorney General may first recover its reasonable costs of litigation, as determined by the court and approved by the secretary of the Finance and Administration Cabinet. After recovering the reasonable costs of litigation, any required consumer restitution or payments shall be made. All remaining funds shall be deposited in the general fund surplus account. Any costs recovered under this subsection shall be reported to the Interim Joint Committee on Appropriations and Revenue.
- (5) The common law, including the common law authority of any duly elected statewide constitutional officer, is specifically abrogated to the extent it is inconsistent with the provisions of this section.
- (6) Notwithstanding any statute or common law to the contrary, and except as provided in this subsection, an elected statewide constitutional officer or any other state official or agency shall not file or participate as a plaintiff, petitioner, party, intervening party, attorney, or amicus curiae in any litigation challenging the constitutionality of this section. State funds and employee time shall not be expended by any person or agency in support of such a challenge. If the constitutionality of this section is challenged, the Finance and Administration Cabinet shall be the sole named respondent in that litigation, and shall consult with the Legislative Research Commission regarding defense of that litigation.
