## ***Capital Construction Overview***

The Commonwealth's capital construction program for the 1998-2000 biennium is reflected in two separate parts. The first and largest of these is depicted in this document and Part II of the Appropriations Bill, House Bill 321, for the Executive Branch of government. The following narrative describes the treatment of capital construction projects, major items of equipment, and technology systems authorized for funding in the 1998-2000 biennium in the Budget of the Commonwealth for the Executive Branch.

A second tier of significant capital project expenditures involving additional funding for community development projects, infrastructure, the Budget Reserve Trust Fund, and technology initiatives is addressed in the General Fund Surplus Expenditure Plan outlined separately. Thus, Volume II of this document and the accompanying project descriptions focus on the "regular" budget and the capital construction priorities, policies, and information incorporated therein.

## ***Policy Emphases***

The capital construction budget for 1998-2000 includes significant financial and policy commitments to the following major areas :

- New policy, programmatic or project initiatives – the most prominent of which is postsecondary education improvement.
- Major investment in public safety including juvenile justice, corrections, law enforcement, and disaster and emergency services.
- Construction of a major new office building/complex in Frankfort.
- Maintenance and renovation of the existing capital investment and physical plant.
- Completing projects previously authorized or initiated.
- Technology advances.
- State matching funds needed to access federal funds and other non-state revenue resources.
- Critical one-time increases in capital outlay (equipment, furnishings, and vehicles) for selected programs and agencies.

## ***Resource Options: Source of Funds/Type of Approach***

A broad array of funding options to support all types of capital projects is authorized in the budget. The specific financing mechanism for an individual project has been tied to the character and useful life of that particular project or "pool." Bonded indebtedness and long-term financing is provided for the most significant, expensive, and long-lived projects with special emphasis accorded to investments in postsecondary education, elementary and secondary education, public safety, and infrastructure. The amount of General Fund-supported new capital project bonds approved is \$693,700,000, typically to be financed over a 20-year period (with some exceptions for shorter term issues involving equipment or technology initiatives). Some \$96,100,000 in agency fund-supported bonds selected for similar reasons of public purpose and useful life span have also been approved – concentrated in the areas of postsecondary education and infrastructure. Road Fund-supported bonds are approved for a new office complex to serve the Kentucky Transportation Cabinet. Additionally, a \$200,000,000 Turnpike Authority bond issue for highway and bridge construction (and an additional \$5,000,000 in investment income) is described elsewhere in the Executive Budget documents.

A significant number of medium to smaller size projects is approved for support from General Fund cash currently available. Individual projects of this type are detailed in the specific agency sections of this document.

In a few areas, the budget document references that a project is authorized to be undertaken from either a conventional state construction approach or by means of a built-to-suit or other similar "privatized" means. The term "conventional state construction" as used here means by the sale of tax exempt bonds through the State Property and Buildings Commission or the Kentucky Turnpike Authority or through a lease/purchase arrangement directly administered by the Finance and Administration Cabinet. The built-to-suit or privatized option broadly indicates that a private "design build," price contract, or other financing and/or construction method is sanctioned with less "hands on" attention or adherence to the procedural requirements of typical state construction administration. The projects eligible for this "option" include the new medium security state prison (authorized for design only in this biennium); the new maximum security juvenile justice facility; a new residential complex development at Murray State University; and the new state office building in Frankfort.

Another set of capital projects primarily involving "maintenance" as defined by statute (individual projects costing less than \$400,000) will be funded from Capital Construction Investment Income – most often in the form of "maintenance pools" for individual departments. A few projects of more complexity or cost receive direct funding from this same cash source reflecting the highest priority renovation and maintenance needs. Examples of such projects would be repair of the State Capitol Dome, essential aircraft maintenance, and support for the statutory Emergency Repair, Maintenance and Replacement Fund as well as the statutory Capital Construction and Equipment Purchase Contingency Fund.

Finally, numerous projects are provided for support from restricted funds (agency-generated resources) and/or federal funds. The vast majority of the purely agency (restricted) fund-supported projects are, as in previous budgets, in postsecondary education. Federal funds authorized which require a match of state funds have been accorded a high priority in a number of areas including the Kentucky Infrastructure Authority (KIA) program and the Corps of Engineers Flood Control (Department for Local Government) matching funds program.

### ***New Policy, Programmatic, or Project Initiatives***

The two most significant policy priorities for new capital construction financing are postsecondary education and public safety. Of the total new bonds approved, some \$380,999,000 is dedicated to General Fund-supported capital construction projects in postsecondary education. Another \$85,100,000 in agency fund-supported bonds will also go to postsecondary education projects, as well as numerous agency fund cash-supported projects. In the wake of the passage of House Bill 1 in the May 1997 Special Session, mandating postsecondary education improvements, a number of trust funds involving capital projects, research equipment, and technology initiatives were established. The detailed capital project listing approved for state General Fund bond support (including postsecondary education) is depicted on the following chart:

**EXECUTIVE BRANCH - ALL AGENCIES AND POSTSECONDARY EDUCATION**

**CHART I  
Bond Fund - Authorized

<b>TOTALS</b>		<b>74,102,000</b>	<b>693,700,000</b>	

**Postsecondary Education**

Chart I includes \$380,999,000 of state bonded indebtedness for postsecondary education construction projects including the nine individual capital projects representing the highest priorities for new construction or major renovation at each of the state's public universities. These nine total \$179,074,000 in state General Fund bond support. The new Kentucky Community and Technical College System (KCTCS) will receive line-items totaling \$114,675,000 (listed in Chart I above) for community colleges and Kentucky Tech projects on numerous campuses, including \$55,474,000 in new bond support for regional postsecondary education centers identified in Chart I. Beyond these specific line-item projects, three major initiatives are also endorsed with state General Fund-supported bonds. The first is a Deferred Maintenance and Government Mandates Pool including separately identified pools for both the university system and the KCTCS system (university projects - \$20,613,000; KCTCS - \$4,387,000; total \$25,000,000). The purpose of this new pool is to make substantial progress on a sizable backlog of statewide maintenance needs. To accomplish this, a dollar for dollar matching relationship is required from non-state funds for each project selected. The second major initiative is the creation of a Commonwealth Virtual University (CVU) Technology Pool in the amount of \$30,000,000. Kentucky's creation of a CVU was contemplated during the passage of House Bill 1 with the objective of broadening access to high quality postsecondary education through new technology. The third new initiative involves a \$26,250,000 pool of funds to be shared by the University of Kentucky and the University of Louisville for research equipment, major replacement and new acquisitions for scientific instruments.

**Chart II  
Bond Fund Authorization  
(Agency Fund Debt Service)**

<b>AGENCY</b>	<b>PROJECT</b>	<b>REAUTHORIZATIONS</b>	<b>PROJECT SIZE</b>	<b>FINANCE TERM</b>	<b>DEBT SERVICE</b>
Kentucky River Authority	Kentucky River Water Storage Enhancements	2,000,000	2,000,000	20 YR	388,000
KHEAA	KHEAA Building		9,000,000	20 YR	938,000
Postsecondary Education	Agency Bond Pool		35,000,000	20 YR	3,527,000
Postsecondary Education	UK Center for Rural Health		6,100,000	20 YR	528,000
Postsecondary Education	UK Stadium Expansion		24,000,000	20 YR	2,280,000
Postsecondary Education	EKU Law Enforcement Complex		20,000,000	20 YR	1,980,000
<b>TOTALS</b>		<b>2,000,000</b>	<b>96,100,000</b>		<b>9,641,000</b>

Chart II above identifies the specific projects for agency fund-supported bonds including a \$35,000,000 pool of bonds (identical in amount to that recommended in the 1996-98 budget) permitting universities to move forward selectively, on a priority basis from their own resources, during the 1998-2000 interim. Projects will be selected from among those identified in the budget document and Appropriations Bill for "restricted fund support." In addition, a line-item \$24,000,000 Football Stadium Expansion for the University of Kentucky is approved, as well as a new \$20,000,000 Law Enforcement Basic Training Complex at Eastern Kentucky University. Not included in the postsecondary education summary totals, but also authorized, is a new office building for the Kentucky Higher Education Assistance Authority funded by a combination of \$9,000,000 in agency fund-supported bonds plus \$1,710,000 in direct agency fund support.

## ***Public Safety***

The preceding charts also identify \$78,801,000 in approved public safety projects including: for the Department of Juvenile Justice – the construction of three new secure juvenile detention facilities; a replacement maximum security juvenile justice facility; expansion of the Breathitt County Detention Center; for the Department of Corrections – funding for design of a major new prison to hold approximately 1,800 inmates; a major expansion of the Kentucky Correctional Institution for Women; a replacement dormitory at Blackburn Correctional Complex for a unit that has been razed; a replacement for the Northpoint Training Center Water System; for the Kentucky State Police – support for a new radio system for the Kentucky State Police and for Disaster and Emergency Services (Military Affairs) operations; funds for the replacement of two State Police Posts - LaGrange and Hazard; as well as sophisticated new technology for the State Police including the Integrated Criminal Apprehension Program (ICAP) and Kentucky Accident Reporting System (CRASH). As noted previously, agency fund bonds (\$20,000,000) are provided to construct a Law Enforcement Basic Training Complex for the Department of Criminal Justice Training at Eastern Kentucky University. In addition to bond projects, General Fund (cash) support is provided for construction of a new execution building for the Department of Corrections. Also, the Northern Kentucky Juvenile Treatment Facility will receive funds for an HVAC replacement (\$558,000) and a maintenance pool increase of \$500,000.

## ***School Facilities Construction Commission (SFCC)***

This Commission is empowered to issue bonds, to act on behalf of local school districts to issue bonds in the name of the Commission, and to enter into lease arrangements with local boards of education to finance construction of new facilities or major renovations of existing facilities. The Commission is administratively attached to the Finance and Administration Cabinet. The remaining bond authorization from the 1996 Regular Session of the General Assembly in the amount of \$37,500,000 is reauthorized. New bonding capacity, limited to the amount that can be supported on an annual basis by the new debt service appropriation of \$9,520,000 is provided in fiscal year 2000. The total maximum amount of \$201,000,000 (as depicted in the Appropriations Bill and in this document) reflects the total "offers of assistance" that may be made by SFCC. It should be recognized that this amount differs from the approximately \$108,000,000 that is estimated to be supported from the annual debt service appropriation also authorized in the Appropriations Bill. Per House Bill 321, the annualized debt service appropriation in fiscal year 2000 is ultimately the controlling factor.

## ***New State Office Building***

Funding is authorized for the construction of the first major state office building in Frankfort in over 20 years. This project encompasses design, site preparation and construction of an approximately 420,000 square foot structure. The building will serve as the primary office building for the Transportation Cabinet, which is currently housed in the State Office Building and several smaller buildings in Frankfort. A new Road Fund bond authorization of \$68,100,000 is to be combined with \$18,900,000 of previously authorized General Fund-supported bonds for an all funds total project scope of \$87,000,000. The \$18,900,000 portion of the funding will be derived from the proceeds of previously authorized General Fund bonds for renovation projects relating to the existing State Office Building. The first phase of that renovation project was authorized in the 1994-96 biennial budget at \$10,000,000; phase two of the renovation project for the same building was authorized in the 1996-98 biennial budget at \$11,900,000 for fiscal year 1997. However, that original renovation project has now been temporarily halted due to major cost overruns encountered during the bid process and will be deferred until this new building project can be completed and the current occupants (primarily Transportation Cabinet employees) relocated. Expenditure commitments from the \$21,900,000 in previously authorized bond proceeds have been \$3,000,000 to date – leaving a residual of \$18,900,000 approved for authorization for this new project.

### ***Maintenance and Renovation***

As a matter of policy, the Executive Budget as enacted (i.e., "Budget of the Commonwealth") has continued, initiated, or improved maintenance pools for all Cabinets and Departments of the Executive Branch. These pools of maintenance funds are restricted for expenditure on projects costing less than \$400,000 each unless given separate line-item attention. Among the projects given that high priority attention are the aforementioned Emergency Repair, Maintenance and Replacement Fund at \$5,000,000 in new funding for the biennium, as well as \$7,500,000 in new funding for the Capital Construction and Equipment Purchase Contingency Fund. Importantly, the statewide Deferred Maintenance Fund, first established in the 1996-98 Executive Budget, is being approved for a new \$1,000,000 appropriation. Moreover, this fund has been given statutory status by the 1998 General Assembly (House Bill 110) as recommended by the Capital Projects and Bond Oversight Committee. It is used for maintenance projects (no new construction) of statewide import and/or to provide a source of maintenance funds when agency-specific resources are depleted or non-existent, upon selection by the Secretary of the Finance and Administration Cabinet.

Among line-item projects supported for maintenance and renovation funding are: repair of the State Capitol Dome - \$698,000 in additional funding in addition to \$1,802,000 provided by the 1996 General Assembly; Capital Plaza Complex Repairs Phase I - \$2,400,000 of what will be a multi-year, multi-million dollar renovation effort; Repair of the Capitol Complex Parking Structure - \$1,000,000 to repair the deteriorated six level structure that has seen only patchwork attention in previous biennia; replacement of the primary electrical line at the Kentucky Horse Park; a new roof replacement project pool for Mental Health/Mental Retardation facilities; fire alarm system replacements for the Department of Corrections; and emergency generators for both the Glasgow ICF/MR facility and Central State Hospital.

### ***Completing What We Have Started***

Another policy concern receiving major attention is the completion of projects already initiated by previous General Assemblies that require additional financial support for a variety of reasons. Projects in this category include the provision of \$958,000 for the network/communications component of the new Kentucky History Center. This important feature of the History Center had been deferred initially due to cost considerations when construction contracts were awarded. The Paducah Community College Engineering building will receive \$709,000 in infrastructure funding to complete and complement the private funding dedicated to its construction by the 1996 General Assembly. Related to this Paducah Community College initiative are appropriations for Engineering Labs (\$734,000) and the Paducah Community College Library (\$1,150,000). The completion of construction of additional horse stalls at the Kentucky Horse Park for the purpose of generating additional revenues associated with event activity has been funded in the amount of \$435,000 and Kentucky Educational Television's acquisition of Channel 15 in Jefferson County (already contracted) is finalized with a \$1,100,000 appropriation.

### ***Technology***

Another area of continued emphasis is the placement of new and replacement technology in universities, technical schools, state offices, and field operations. (The Empower Kentucky program authorized as the Technology Trust Fund in the 1996 General Assembly was approved for additional funding as part of the Surplus Expenditure Plan described elsewhere.)

Consistent with the national imperative to be computer ready for the "Year 2000 Conversion" phenomenon, Kentucky state government directed (early in the 1996-98 biennium) that all agencies and service units undertake Year 2000 Conversion efforts immediately. A number of agencies have indicated a need for some financial assistance in accomplishing that transition. Consequently, \$6,700,000 in General Funds is in the Surplus Expenditure Plan to facilitate the conversion on a highest priority basis. Smaller technology improvements are provided to the Revenue Cabinet (\$425,000) and the Department of Parks (\$244,000) with other technology improvements described in individual agency budget pages.

### ***Matching Federal Funds***

The budget also earmarks additional matching funds for federal/state partnership programs such as the Kentucky Infrastructure Authority (\$5,600,000 in the Fund A Wastewater program and \$5,000,000 for the Fund F Drinking Water program) in new bond authorizations and the Flood Control (Corps of Engineers) Matching program in the Department for Local Government (\$5,000,000 in new bond authorization). Each of these programs leverage significant federal appropriations and represent ongoing needs for statewide purposes.

***Capital Outlay***

A number of agencies including the Division of Forestry in the Natural Resources and Environmental Protection Cabinet and the Department of Parks, as well as the Kentucky Horse Park in the Tourism Development Cabinet, are authorized to receive non-recurring General Fund dollars to support equipment, vehicle, and furnishings acquisitions in the capital budget. These are provided in the following amounts: Forestry - \$500,000; Parks - \$2,000,000; and Horse Park - \$100,000. Similar infusions of capital outlay funds were provided in the 1996-1998 budget for these agencies to help them "catch up" with past deficiencies.

\$50,000

\$50,000

**Facilities Building Addition**

Reauthorization - This project will construct an addition to the existing Facilities Division building located on Boone National Guard Center in Frankfort. The expansion will provide administrative offices, conference room, storage spaces for supplies and files, restrooms, mechanical rooms, break room, and necessary corridors to access the functional areas. No additional privately owned parking is required at this time.

**Maintenance Pool - Bluegrass Station**

**\$762,000**

**\$1,324,000**

This maintenance pool represents capital expenditures requested to repair and improve buildings and infrastructure at Bluegrass Station. Modifications proposed under this pool are for smaller projects which are urgent in nature because of code enforcement, safety, or other occupancy concerns. Also anticipated and provided for are emergency infrastructure modifications that may arise (i.e., burst water mains or damaged transformers).

Restricted Fund

\$762,000

\$1,324,000

**Major Maintenance Pool**

**\$950,000**

**\$950,000**

The Major Maintenance Pool includes maintenance, alteration, and renovation projects to protect real property, adjust to changes in unit missions, lengthen facility life spans, and to keep facilities in working order by avoiding more costly major maintenance and repair projects. In the past, \$900,000 has been appropriated annually.

**Re-Roof Building 6 (4 bays)-Bluegrass Station**

Re-roof four bays of Building 6.

Restricted Fund

**\$749,000**

\$749,000

**Training Complex Development, Phase III NGB Project #0204**

**\$5,176,000**

Additional Funding - This represents an increase from the estimates made in the late 1980s and early 1990s. Phase III was authorized at \$4,145,000 for the 1996-98 biennium. The project description has changed from the original Phase III in numerous ways: increases in National Guard Bureau construction criteria for training and quality of life, additional environmental protection facilities, and updated priorities for the total training site development (Phases 1 through V). This would bring the total scope for Phase III to \$9,321,000.

**CURRENT AND NEW MISSIONS PHASE III**

Phase III includes facilities consisting of live fire and simulated fire ranges and 55,043 square feet of building space to support the training activities at the training site. This space will consist of educational and training support facilities, range facilities, troop barracks with unit support facilities, troop and student support facilities, site support facilities, and logistics facilities. Other improvements will include: site preparation, grading, seeding, erosion control, paving, utilities, signage, furniture, ancillary, and telecommunications equipment.

This facility will play a major state support role in the event of any New Madrid Seismic activity. It will be a multi-use facility available for state functions (training) in addition to the federal training missions.

Federal Fund

\$5,176,000

**MAJOR EQUIPMENT**

**Aircraft Maintenance Pool**

This aircraft maintenance pool represents capital expenditures required to maintain the existing fleet of aircraft owned and operated by the state. This incorporates major maintenance items such as engine overhauls and component replacements. Component replacements include transmissions, tail rotors, avionics, and gear boxes.

**INFORMATION TECHNOLOGY EQUIPMENT**

**Emergency Operations Center (EOC) Automation Upgrade**

**\$2,395,000**

The current system will be upgraded into a multi-hazard geographic information system consisting of: file servers, communications controller/file server PCs (as workstations and stand-alone systems), LAN circuits, video display system, closed circuit television broadcast television through the KET system, Federal Emergency Information Management Software (FEMIS), Chemical Stockpile Emergency Preparedness Program (CSEPP) software, and various audio and visual display systems. This system is used by DES and state agency representatives to coordinate and manage the state's response to disasters and emergencies.

Federal Fund

\$2,395,000

**Two-Way Communications for Statewide Emergency Responses**

**\$1,200,000**

Current console and radios are obsolete, unreliable, and require extensive maintenance and repair parts that are no longer commercially available. The replacement system will fulfill federal and state response mandates, and meet reasonable standards of public safety with serviceable two-way communications.

**Flood Control Matching Fund**

**\$5,000,000**

Additional Funding - In partnership with federal and local agencies, the matching program lessens flood damage losses by providing structural and nonstructural assistance to Kentucky communities. The fund ensures that matching funds required by the U.S. Corps of Engineers are available for vital projects. Federal financial participation in Kentucky projects typically results in up to a 95 percent/five percent federal/state project such that this \$5,000,000 could attract up to \$95,000,000 in federal matching funds. In the event that other federal agencies (outside of the Corps of Engineers) provide similar support, this authorization will enable the Commonwealth to take advantage of that federal financial support. There are approximately 20 local flood control projects across Kentucky in various stages of development under consideration by the U.S. Corps of Engineers.

**Channel 15 Acquisition**

**\$1,100,000**

This project provides for the purchase of the equipment and tower site currently under lease. Kentucky Educational Television (KET) has purchased the Channel 15 WKPC license for \$399,000. KET is presently leasing the equipment, tower and land and transmitter at \$10,000/month and plans to purchase for \$1.1 million. Under the terms of the lease agreements, the \$10,000/monthly lease is set until June 30, 1998; thereafter, the monthly lease will increase to prime (approximately \$23,000/month) to amortize the \$1.1 million over a five-year term costing an additional \$262,000 in interest.

**School Facilities Construction Commission (SFCC)**

**\$201,000,000**

Reauthorization and Additional Funding - The Commission is empowered to issue bonds, to act on behalf of local school districts to issue bonds in the name of the Commission, and to enter into lease arrangements with local boards of education to finance construction of new facilities or major renovations of existing facilities. The Commission is administratively attached to the Finance and Administration Cabinet. Reauthorization - Remaining bond authorization from the 1996 Regular Session of the General Assembly in the amount of \$37,500,000 is reauthorized. New Authorization - New bonding capacity, limited to the amount that can be supported on an annual basis by the new debt service appropriation of \$9,520,000 in fiscal year 2000. The amount of \$201,000,000 as depicted in the Appropriations Bill and in this document reflects the amount of "offers of assistance" that may be made by SFCC. It should be recognized that this amount differs from the approximately \$108,000,000 that can be supported from the debt service annual appropriation also authorized in the Appropriations Bill.

**INFORMATION TECHNOLOGY EQUIPMENT**

**Statewide Digital Basemap**

**\$2,352,000**

Commonwealth agencies who are using Geographic Information Systems (GIS) have a recurring need for a few common themes of data. The statewide digital basemap is a digital version of those needed themes of data created to a consistent set of accepted standards. A statewide digital basemap allows agencies to represent data that they collect as part of their mission on the surface of the earth where the data actually exist. After the data are "registered" to the earth, GIS software allows many kinds of analysis including "spatial or area analysis." Specific hardware includes a GIS server and workstations and additional mass storage devices to accommodate the considerable amount of data that require processing.

**MAJOR EQUIPMENT**

---

**Bar Code Printing and Sorting Equipment**

**\$73,000**

Additional Funding - The 1996 General Assembly authorized \$317,700 for this item of equipment from restricted funds. The Division of Postal Services now estimates the total cost of the equipment to be \$390,700. This equipment will allow the Commonwealth of Kentucky to take advantage of the increasing postage discounts for automation-compatible mail as the United States Postal Service moves toward 100 percent bar coded mail. This piece of equipment is expected to pay for itself within two years. The Finance and Administration Cabinet is reserving the option to purchase the equipment either with cash or through a lease-purchase agreement, not to exceed three years.

Restricted Fund

**\$73,000**

Statutory contingency fund for capital construction projects and major equipment purchases (KRS 45.770).

Investment Income

\$7,500,000

**Capital Plaza Complex - Repairs****\$1,374,000****\$1,026,000**

A recently completed master plan study has identified the entire Capital Plaza Complex as in need of a major and comprehensive renovation at an estimated total cost of \$17 million. This project will be the first phase and will address ADA issues, major structural problems, lighting, and various maintenance items. Changes in how the government delivers its services, changes in usage and needs, changes in building standards and codes, and changes in systems and data technology will serve as the guide for the first complete renovation of this government center.

Investment Income

\$1,374,000

\$1,026,000

**Caverna Memorial Hospital Renovation****\$350,000**

This project will contribute toward the renovation and expansion of the 30-year old hospital in Hart County, including the front entrance, admitting, waiting lobby, labs, medical records, radiology, physicians lounge, gift shop, ER, out-patient service clinic, and the HVAC. The total cost is estimated to be \$2.7 million.

General Fund

\$350,000

**Center for Women and Families Roof****\$75,000**

This project will result in the repair of the roof and shelter for this Spouse Abuse Center in Jefferson County.

General Fund

\$75,000

**Finance / Administration**

**Dept for Facilities Management**

Fiscal Year	Fiscal Year	Fiscal Year
1997-1998	1998-1999	1999-2000

**Children's Advocacy/Spouse Abuse Projects**

**\$1,500,000**

This project will result in the improvement of statewide facilities housing existing spouse abuse centers and contribute toward the creation of a number of new Children's Advocacy Centers through non-recurring capital improvements and renovations to existing Spouse Abuse Centers. New children's centers will be a state-of-the-art model for community response to child physical and sexual abuse. The public purpose served is to promote coordinated efforts of investigative agencies in child abuse cases in order to increase the efficiency of prosecution and reduce trauma for victims.

General Fund

\$1,500,000

**Emergency Repair, Maintenance and Replacement Fund**

**\$5,000,000**

Funds from the Emergency Repair, Maintenance and Replacement Fund are used (per KRS 45.780) to fund unforeseen statewide repair, maintenance and replacement projects for state-owned facilities throughout the Commonwealth.

Investment Income

\$5,000,000

**Estill County Courthouse - Renovation**

**\$200,000**

This project will result in the installation of an elevator to bring the courthouse in compliance with American with Disabilities Act requirements, as well as the replacement of windows and the steam pipe heating system.

General Fund

\$200,000

**Hancock County Emergency Vehicle Building**

**\$100,000**

This project will result in construction of a building to house emergency services vehicles and personnel. Hancock County has already allocated \$150,000 toward the project.

General Fund

\$100,000

**KY Advanced Technical Institute Wood Industries**

**\$100,000**

This project in Warren County will provide for a matching contribution to the allocation made by the West Kentucky Corporation and the Kentucky Wood Product Corporation for wood industries programs at the Kentucky Advanced Technical Institute (Kentucky Community and Technical College System).

General Fund

\$100,000

---

**Kentucky State Capitol - Dome Renovation/Restoration**

**\$698,000**

Reauthorization (\$1,802,000) and Additional Funding - A consultant's analysis showed the Capitol Dome to be in a deteriorated condition. The project includes partial replacement of the tile on the dome and lantern, followed by cleaning and tuckpointing both the dome and its base.

The \$698,000 in additional funds is attributable to an increase in area covered, increases in construction costs, the discovery of asbestos-laden materials, and the results of the preliminary investigative tests performed on the Capitol dome.

Investment Income

\$698,000

---

**Kentucky State Capitol - Master Plan/Programming**

**\$950,000**

This project will comprehensively and thoroughly address the work needed to restore and renovate the Capitol Building. It is imperative to examine all systems and areas of the Capitol for short and long term programs prior to any construction.

The programming and master plan will:

- record existing conditions, defects, and architectural features of the building;
- provide structural, mechanical, and space analysis;
- list prioritized restoration, renovation, and maintenance needs;
- detail preservation treatments and the basis for each recommendation;
- discuss standards for long term care, protection, and conservation; and
- landscape master plan.

The cost of restoring and renovating state government's centerpiece while maintaining its unique architecture and functionality could possibly be as high as \$100 million. Therefore, as a first step, this comprehensive review to more accurately estimate the total need and cost is necessary.

Investment Income

**Maintenance Pool**

**\$1,675,000**

**\$1,449,000**

The Finance and Administration Cabinet is responsible for the operation, management, and repair/maintenance of over 70 buildings in the Frankfort/Franklin County area, in addition to state office buildings in Madisonville, London, and Lexington. This pool provides funding for miscellaneous repair/maintenance/renovation projects. The \$500,000 in restricted fund appropriations in fiscal year 1999 will originate from the state Surplus Property program. This non-recurring revenue is the result of increased public auctions due to the closing of several warehouses identified through the Empower Kentucky program.

Restricted Fund

\$500,000

Investment Income

\$1,175,000

\$1,449,000

**Maintenance Pool - Statewide Deferred**

**\$1,000,000**

This pool of maintenance funds is provided for use on a priority basis for all state agencies. Priorities for funding will be selected by the Secretary of the Finance and Administration Cabinet in consultation with the State Budget Director and the Commissioner of the Department for Facilities Management pursuant to House Bill 110 as enacted during the 1998 Regular Session. Eligible Projects may include deferred maintenance and government mandates with the individual project cost not exceeding \$400,000. Funds may not be expended for new project construction.

Investment Income

**New Capitol Complex - Parking Structure Repairs**

**\$1,000,000**

The major portion of this project will consist of leakage control. The work needed will consist of repair and/or replacement of existing expansion joints, re-caulking, polymeric sealing of the top deck, and some crack and joint repair on other levels. Minor structural support problems should be corrected, as well as some preventive actions against possible future structural damage.

Investment Income

**\$1,000,000**

**Oak and Acorn**

**\$250,000**

This project will result in paying off the existing loan balance of \$250,000 and allow increased programming activities. This is Louisville West End property in the Russell neighborhood with a unique intergenerational facility combining child development programs with services to elderly. It opened in 1995. It is operated by a partnership of Louisville Central Community Centers, Inc. and ElderServe, Inc. Approximately one million dollars in private funds were raised in exchange for long-term leases for operating agencies. The state owns the property, after an investment of \$694,000. The property is valued at approximately two million dollars.

General Fund

**\$250,000**

**Scott County Vegetable Processing Project**

**\$50,000**

This project will result in a state contribution to the Central Kentucky Vegetable Marketing project. Matching contributions have also been solicited from numerous other groups. This will help support the construction and operation of a new vegetable processing facility (cooling, grading, purchasing) in the burley area, as well as facilitate vegetable production and economic diversification by tobacco farmers.

**The Casa Center/New Directions Housing**

**\$250,000**

This project will result in supporting low income families in need and assisting community based groups working with the New Directions Housing Corporation. New Directions has a 28-year history in Louisville. It channels public and private resources into three housing initiatives: "New Directions," Brandeis Apartments, and Roosevelt School apartments in Portland now under construction. Among the services provided are affordable housing, partnering with education, job training and violence prevention groups; resident services providing community linkages to social services for New Directions residents, including drug elimination, homeless counseling, after school programs; and Repair Affair, a program to help older low income homeowners with home repairs.

General Fund

\$250,000

**Winchester State Office Building**

**\$2,500,000**

This project will result in the acquisition of property and construction of a new state office building in Winchester. The proposed facility will house pre-trial services, social services, employment services, social insurance, probation and parole, highway resident engineer, vocational rehabilitation, office space suitable for leasing. A two story, 17,600 sq. ft., to house 75 or more persons is contemplated.

**CAPITAL CONSTRUCTION PROJECTS**

**Construction of KHEAA Office Building**

**\$310,000**      **\$10,400,000**

In addressing the agency's long-term needs, the Kentucky Higher Education Assistance Authority (KHEAA) is authorized for the construction of a 75,000 square foot office building using restricted agency funds (both cash and bonds). This investment will increase operational efficiency, while allowing for the growth of programs and services.

Preliminary estimates place land acquisition at \$50,000 an acre, with construction costs at \$110 per square foot. A site for the proposed capital construction project has not yet been identified.

During the interim, KHEAA has proposed a lease of 17,250 square feet of office space in addition to 39,600 square feet currently being leased to alleviate overcrowding and accommodate an expanding level of service.

---

**Agency Bond Pool**

**\$35,000,000**

This authorization creates an agency bond pool totaling \$35 million with debt service supported by restricted agency funds. This pool would provide funding for individual projects to be selected by the Council on Postsecondary Education (CPE) from the list of agency bond projects approved by the CPE for the 1998-2000 biennium. Also eligible for funding from this authorization is the "Deferred Maintenance Pool - Auxiliary Enterprise" project at Western Kentucky University. Recommendations will be made to the Secretary of the Finance and Administration Cabinet and subsequently reported to the Capital Projects and Bond Oversight Committee.

Agency Bond

\$35,000,000

---

**Commonwealth Virtual University Technology Pool**

**\$30,000,000**

The Postsecondary Education Improvement Act of 1997 makes student access through both traditional physical and electronic means a high priority. Implementation of this priority requires that access be reviewed from an electronic perspective to ensure that the appropriate educational support services are available to provide the greatest possible educational opportunity. For the 1998-2000 biennium, the Council on Postsecondary Education (CPE) will consider an approach that provides the necessary infrastructure for access. This would include policy review and further development of the Commonwealth Virtual University concept to identify necessary capital expenditures. Such an approach would best be addressed by a pool of funds available to CPE to address situations where gaps exist in electronic access points. CPE will use a process similar to the Agency Bond Pool process approved in previous biennia, i.e., CPE will recommend projects to the Secretary of the Finance and Administration Cabinet with subsequent reporting of approved projects to the Capital Projects and Bond Oversight Committee.

Bond Fund

\$3,000,000

**Residence Hall Major Renovation**

**\$10,000,000**

This authorization will allow the university to renovate residence halls to better accommodate the student population and improve the overall condition of the facilities. The modifications include conversion of some rooms to suites, upgrade of restroom facilities, repair/replacement of plumbing and electrical systems, repair of floors and ceilings, carpeting and furniture replacement.

Restricted Fund

\$10,000,000

**Student Service/Classroom Building**

**\$20,000,000**

This authorization will provide a new facility containing 20,000 square feet of general purpose classroom space and 95,000 square feet of faculty and administrative offices. This project will enhance the student services program and the instructional programs of the university by providing a facility centralizing all units that provide service to the students and will also contain several large classrooms. The student services portion of the building will house academic advising and counseling, with computer registration capability, at its core.

**CAPITAL CONSTRUCTION PROJECTS**

**ADA Projects Pool**

**\$650,000**

This authorization will allow the university to comply with the requirements of the Americans with Disabilities Act by addressing issues in all buildings except those most recently constructed. The project includes installation of elevators, architectural barrier removal, curb cuts, ramps, restrooms, alarms and signage.

Restricted Fund

\$650,000

**Chiller Additions**

**\$2,168,000**

This authorization adds a chiller at the central plant. This chiller will be the replacement and an upgrade to an existing chiller. The new chiller will bring the university into compliance with the CFC laws on the existing chiller and reduce the operating costs of the central plant while at the same time increasing the plant's capacity.

Restricted Fund

\$2,168,000

**Combs Hall Renovation**

**\$1,235,000**

This authorization will allow refurbishing of architectural finishes, furniture, and the mechanical system. Items that will be a part of the renovation include carpet replacement, furniture, doors, hardware, window coverings, HVAC fan coil units and other general interior furnishings.

Restricted Fund

\$1,235,000

**General Maintenance Projects**

**\$1,150,000**

This pool of projects includes items that are beyond the scope of general maintenance and includes items such as the replacement of concrete steps and walks, replacement of major pieces of mechanical equipment, interior refurbishing, replacement of fixtures, electrical systems and other major maintenance projects.

Restricted Fund

\$1,150,000

**Guard Houses**

**\$56,000**

This authorization allows the construction of two guard houses at the entrances to the university.

\$2,000,000

**West Liberty Extended Campus Building**

**\$6,000,000**

This authorization will allow the construction of an approximately 45,000 gross square foot facility for Morehead State University's Extended Campus Center in West Liberty. The facility in West Liberty will address various educational and economic development issues in the Licking Valley. The facility will provide additional space for the university's upper division and graduate programming and will permit the expansion of education, business, health science, corrections, and social work programs. The university's distance learning classrooms would be expanded to allow for the more efficient delivery of courses to the Licking Valley via the university's distance learning network and the developing Commonwealth Virtual University.

The facility will be available for technical training programs related to local employment opportunities. Sufficient space will be provided to address regional and/or statewide adult literacy issues.

**Replace Richmond Hall**

**\$6,500,000**

This authorization will allow the construction of a new student housing facility to replace Richmond Hall/College. The new construction of student housing facilities will focus on facilities designed to complement the Residential College concept of student housing/living. This project will result in the modernization and improvement of the student housing environment. This authorization includes approval for the university to pursue the built-to-suit option in addition to conventional construction.

Murray State University seeks to construct a residential/student housing facility development that will effectively house between 300 to 400 students. Student housing capacity estimates are based on a ratio of 70 percent double occupancy rooms and 30 percent single occupancy rooms. In an effort to better accommodate the Residential College concept on the university's campus, provide more cost effective student housing, and to provide students with an enhanced living experience, Murray State University intends to develop student housing facilities that will be constructed within small quadrangles. This planned development will be consistent with the Residential College concept for student housing facilities and student residence life. The mission statement of the Murray State University Residential College system embodies the collegiate living and learning experience at Murray State.

It is also the intent of the university to develop new student housing facilities in multiple phases. The first phase of new student housing facilities may be developed by utilizing a built-to-suit lease agreement. In the replacement of Richmond/College, the university believes it will need to develop seven small buildings within the Residential College quadrangle development approach. The initial phase of this project (two buildings are envisioned) may be developed by utilizing the built-to-suit lease agreement method while subsequent development of new student housing facilities may be funded via agency bonds.

**Athletic Fields - Phase I** **\$7,000,000**

This authorization will allow Phase I of an initiative to construct a softball field, soccer field, football field, practice field and small support facility for Northern's intercollegiate athletic teams. These facilities would be constructed with private funds.

Other Fund \$7,000,000

**Chiller Replacements/CFC** **\$7,100,000**

This authorization will allow replacement of three existing chillers and install a new 500 HP boiler and accomplish related, necessary upgrading of the Central Power Plant. Also included in this project is the conversion of the 400 ton chiller in Nunn Hall from refrigerant R-11 to R-123.

Restricted Fund \$4,500,000

Other Fund \$2,600,000

---

**Covington Campus - Urban Learning Center**

**\$10,000,000**

This authorization will allow construction of a facility on the university's Covington Campus which will better meet the university's instructional delivery needs at this location. Various options for achieving this goal will be pursued, including making the site available for private development in exchange for providing space in the facility for university programs at little or no cost.

---

Other Fund

\$10,000,000

---

**Energy Conservation/Management Pool**

**\$400,000**

This authorization will allow replacement of old pneumatic controls on air handling units in five Education & General buildings to address indoor air quality as well as energy efficiency.

---

Restricted Fund

\$400,000

---

**Fire Safety: E&G Sprinklers**

**\$400,000**

This authorization will allow the installation of sprinkler systems in two Education & General buildings, Nunn Hall and the Natural Science Building.

---

Restricted Fund

\$400,000

---

**Land Acquisition (1998-2000)**

**\$2,000,000**

The authorization will allow the university to acquire real property in support of educational programs and campus development during the 1998-2000 time period.

---

Restricted Fund

\$2,000,000

---

**Landrum Structural Safety Repairs**

**\$650,000**

This authorization will allow the elimination of the heaving of the slab-on-grade (or first floor) in Landrum Hall. The situation has worsened over the 17 years since it was first discovered and has now become a life safety issue requiring immediate attention.

---

Restricted Fund

\$650,000

**CAPITAL CONSTRUCTION PROJECTS**

**4KV to 12KV Electrical Conversion**

**\$400,000**

This authorization will complete the replacement of the existing 4KV high voltage system to a more economical and dependable 12KV high voltage system.

Restricted Fund

\$400,000

**Academic & Research Renovation (College of Medicine)**

**\$625,000**

This authorization will allow major renovation to approximately 3,000 net square feet of space located in the Medical Science Building.

Restricted Fund

\$625,000

**Administration Building - Exterior Repair**

**\$1,400,000**

This authorization will allow the repair of the exterior columns, cornice, gutter, and lintels of the Administration Building.

Restricted Fund

\$1,400,000

**Aging/Allied Health Building, Phase II**

**\$33,000,000**

This authorization for Phase II will permit the construction a single building of approximately 175,000 gross square feet to meet the space and program needs of two important programs of the Medical Center. The proposed building will contain multidisciplinary programs and a skilled nursing facility for patient care, medical education, and research. The building will contain classrooms, teaching labs, some research labs, approximately 90 nursing beds (similar to a nursing home), offices for administration, Allied Health College staff, Center on Aging program offices, study space, some general use space and training/therapy space. Limited parking spaces will be provided to meet the special needs of the nursing facility. Phase I of the Aging/Allied Health Building is currently under construction with a planned completion date of March 1998. Phase I will provide all the required research laboratory space needed for the Aging program, and therefore no additional research laboratories will need to be constructed for the Aging Program in Phase II. Phase I is being constructed as a laboratory wing addition to the Sanders-Brown Center of Aging Building, adjacent to the Aging/Allied Health Building Phase II site.

**Agricultural Plant Science Facility** **\$18,365,000**

This authorization will allow the construction of a facility for the College of Agriculture to include faculty and staff offices, administrative and support offices, three conference rooms, four lecture and five laboratory classrooms, and research laboratories. Additionally, the project will include separate space to house environmentally controlled plant growth chambers and support services for controlled plant growth.

Restricted Fund \$18,365,000

---

**Agricultural Science Greenhouses - Renovation** **\$750,000**

This authorization will allow for renovation of 11 greenhouses in the greenhouse complex in order to provide environmental control which is efficient and dependable for experimentation.

Restricted Fund \$750,000

---

**Agriculture Information Center** **\$800,000**

This authorization allows the renovation and refurbishing of the current Agriculture Library following the move of some collections to the new main library. Included in the information center will be a microcomputer lab, current periodicals area and reading room, individual and group study/meeting rooms, and a staff area.

Restricted Fund \$800,000

---

**Agriculture North Renovation** **\$3,150,000**

This authorization will allow replacement of the deteriorated solar screen facade around the entire perimeter of Agriculture Science North.

Restricted Fund \$3,150,000

---

**Agriculture Science South - Animal Care Facility Upgrade** **\$900,000**

This authorization will allow upgrading of the animal research facilities to meet current federal guidelines and requirements for animal research.

Restricted Fund \$900,000

---

**Bowman Hall Renovation**

**\$4,300,000**

This authorization will allow renovation of Bowman Hall including basic life safety and environmental improvements, such as, elevators, heating/cooling ventilation requirements, as well as basic refurbishing and upgrading of the building.

Restricted Fund

\$4,300,000

---

**Boyd Hall - HVAC**

**\$1,100,000**

This authorization will allow the installation of a new HVAC system which will allow the year-round utilization of the building for students, conferences and programs.

Restricted Fund

\$1,100,000

---

**Chemistry Laboratory Renovation**

**\$1,050,000**

This authorization will allow replacement of cabinets, hoods, ducts, hardware, overhead lights and other equipment in the organic chemistry and general chemistry laboratories located in the Chemistry Physics Building.

Restricted Fund

\$1,050,000

---

**Chilled Water Additions**

**\$700,000**

This authorization will allow installation of chilled water pipe additions to facilitate central chilled water system operation and will include system piping additions and related connections for new and existing buildings.

Restricted Fund

\$700,000

---

**Chiller Replacement - Cooling #3**

**\$1,000,000**

This authorization will allow replacement of the existing 1500 ton steam turbine driven chiller at Cooling Plant No. 3. adding reliability and capacity to the heavily loaded cooling plant.

Restricted Fund

\$1,000,000

---

**Postsecondary Education**  
**University of Kentucky-University System**

Fiscal Year	Fiscal Year	Fiscal Year
1997-1998	1998-1999	1999-2000

**Clinical Development Space (College of Medicine)**

**\$500,000**

This authorization allows renovations in existing clinical space to include creation of additional diagnostic and treatment areas to address the growing demands of customers and the healthcare system.

Restricted Fund

\$500,000

**Clinical Lab-Computer Assisted Learning Facility**

**\$450,000**

This authorization provides an additional 3,000 square feet of expansion space for the clinical laboratory in the Health Sciences Learning Center.

Restricted Fund

\$450,000

**Commonwealth Stadium Expansion**

**\$24,000,000**

This authorization will allow expansion of Commonwealth Stadium increasing the seating capacity to approximately 66,000. The project will include installation of sky/luxury box seating, additional seating, and merchandising space. Funding will be provided through issuance of State Property and Building and Commission bonds with the debt service being paid by university restricted funds.

Agency Bond

\$24,000,000

**Cooling #3 to Limestone Street Chilled Water Pipe**

**\$1,800,000**

This authorization will allow installation of chilled water piping from Cooling #3 to existing chilled water mains in front of College of Nursing/Health Science Learning Center, and to the Limestone Street portion of the loop system.

Restricted Fund

\$1,800,000

**Cooling Secondary Pumping**

**\$2,000,000**

This authorization will allow installation of secondary pumping in buildings connected to central cooling plants, including piping and control circuits to create a totally operational system. The project will include system piping additions to insure total effectiveness of system modifications over the past two years.

Restricted Fund

\$2,000,000

This authorization will renovate and realign space vacated by the Department of Landscape Architecture to update the facility for future use. This project includes basic life safety and environmental renovations as well as restoration of the building.

Restricted Fund \$750,000

---

**Cooperstown/Shawneetown III** **\$4,500,000**

This authorization will allow renovation of two buildings in Cooperstown Complex and two buildings in Shawneetown Complex to include air conditioning, upgraded electrical service and kitchen facilities and ADA improvements,

Restricted Fund \$4,500,000

---

**Crisp Building Replacement** **\$2,200,000**

This authorization will provide a replacement building for the Crisp facility which was made available to Murray State University as a home for its extended campus center pursuant to the provisions of the framework for a regional higher education center in Paducah as approved by the Council on Postsecondary Education in 1995.

Restricted Fund \$2,200,000

---

**Deferred Maintenance & Roof Replacement Project Pool** **\$9,297,000**

This authorization will allow refurbishment, repair, and/or replacement of building and facilities components on buildings owned by the university and which have gone beyond the point of normal routine maintenance.

Restricted Fund \$9,297,000

---

**Electrical Substation #1 and #2 Connections** **\$1,500,000**

This authorization will allow installation of electric transmission interconnect circuits between Substation #1 and Substation #2 including all associated breakers, air switches, relays, pads, manholes, duct banks, disconnects, electronic fuses, structure, bus bar, air disconnects and load monitoring and control equipment.

Restricted Fund \$1,500,000

**Energy Conservation Project (Medical Center)**

**\$2,000,000**

The Medical Center plans to use performance contracting through a private energy vendor to analyze the payback on some energy savings, such as plumbing, lighting, heat recovery, and controls. This will support a project selected jointly by the vendor and the university to be financed and installed by the vendor with repayment by the Medical Center to the vendor over a period of a few years from the energy savings.

Restricted Fund

\$2,000,000

---

**Engineering Information Center**

**\$650,000**

This authorization will allow the current Engineering Library space to be renovated following the relocation of the majority of the print collection to the new main library. The information center will place strong emphasis on providing electronic information resources to users. Additionally, it will include study areas for both individuals and groups, a microcomputer lab, public service areas, and a staff area.

Restricted Fund

\$650,000

---

**Erikson Hall Renovation**

**\$2,250,000**

This authorization allows major renovation of Erikson Hall, constructed in 1939, including correction of structural problems as well as space realignment and remodeling for more effective utilization.

Restricted Fund

\$2,250,000

---

**Gatton College Addition for Int'l Business & Mgmt. Center**

**\$1,500,000**

This authorization will allow the addition of a fourth floor to the existing classroom section of Carol Martin Gatton College of Business and Economics.

Restricted Fund

\$1,500,000

---

**Handicapped Access Pool**

**\$2,425,000**

This authorization will allow interior and exterior handicapped modifications to numerous buildings and will include modifications to doors, restrooms, drinking fountains, handrails, ramps, sidewalks, telephones, signage, and elevators.

Restricted Fund

\$2,425,000

**King South Renovation**

**\$10,365,000**

This authorization will allow renovation of the Margaret I. King Library south building. The original part of the building after renovation will house Special Collections. The 1963 addition to the building will become a physical sciences and engineering library which would consolidate the extensive map collection and the Geological Sciences, Mathematical Sciences, Chemistry/Physics, and Engineering Libraries' collections and staff.

Restricted Fund

\$10,365,000

---

**Lancaster Aquatics Center Expansion**

**\$2,573,000**

This authorization will allow expansion of the indoor training pool, constructed next to the Lancaster Aquatic Center, for instruction, training, rehabilitation and special aquatic programs

Restricted Fund

\$2,573,000

---

**Land Acquisition**

**\$4,000,000**

This authorization will allow the university to acquire land in the 1998-2000 biennium pursuant to the University's Physical Development Plan.

Restricted Fund

\$4,000,000

---

**Life Safety Project Pool**

**\$11,400,000**

This authorization will allow various life safety improvements in existing buildings to include: fire safety-exits, emergency lighting, detectors and alarm systems, and sprinklers, chemical leakage--prevention and containment, ventilation improvements in chemical or dusty areas, installation of emergency eye wash and shower equipment, installation of machine guards, PCB, asbestos and lead paint abatement, air duct system cleaning, lighting improvements, underground storage tank upgrades or replacements, and reduction of mercury contaminants in effluent.

Restricted Fund

\$11,400,000

---

**Long Range Utility Planning**

**\$600,000**

This authorization will allow the university to develop a long range utility plan for electric, steam, sanitary sewer, storm sewer, lighting, water and natural gas.

Restricted Fund

\$600,000

---

**Mechanical Engineering Building**

**\$23,600,000**

This authorization will allow construction of a new Mechanical Engineering Building which will consolidate the program currently housed in various areas throughout the campus. The new facility will allow for increasing enrollment, additional research, new technology, and space custom designed for changing engineering programs.

Restricted Fund

\$4,000,000

Bond Fund

\$19,600,000

---

**Medical Center Addition**

**\$11,400,000**

This authorization will allow the construction of a building (approximately 74,000 gross square feet) to house Medical Center programs whose space needs cannot be met within present university buildings.

Restricted Fund

\$11,400,000

---

**Medical Center Chilled Water Loop**

**\$500,000**

This authorization will allow installation of chilled water supply and return piping from Huguelet Drive to the Combs Building, from Huguelet Drive to the Roach Building, from the Roach Building to the Medical Center and connecting to the existing 12" chilled water piping system within the Medical Center.

Restricted Fund

\$500,000

---

**Medical Center Information Center**

**\$1,550,000**

This authorization will allow renovation of current Medical Center Library into a Medical Center Information Center emphasizing electronic access. The Information Center will supplement services at the main library and will enable Medical Center staff and other users to access information throughout the library system from their sector. Included in the facility will be current medical literature, increased individual and group study areas, access to audio-visual materials, a microcomputer laboratory and training area, public services, and staff offices and work space.

Restricted Fund

\$1,550,000

**\$2,000,000**

This authorization will allow renovation to provide a 20 station operatory facility with full-service dental capability.

Restricted Fund

\$2,000,000

**Parking Structure Expansion**

**\$5,654,000**

This authorization will allow the addition of approximately 400 new parking spaces as part of an addition and expansion to an existing parking structure.

Restricted Fund

\$5,654,000

**Patterson Hall Renovation**

**\$2,950,000**

This authorization will allow major renovation of Patterson Hall, to include upgrade of all architectural, mechanical and electrical elements in a manner consistent with the maximum restoration of the facility.

Restricted Fund

\$2,950,000

**Pharmacy Dispensing Lab**

**\$600,000**

This authorization will allow the College of Pharmacy to remodel its dispensing laboratory area into a state-of-the-art facility to teach pharmaceutical care to pharmacy students.

Restricted Fund

\$600,000

**Pollution Controls, Medical Center Heating Plant**

**\$1,333,000**

This authorization will allow replacement and/or installation of additional controls to meet current pollution standards.

Restricted Fund

\$1,333,000

**Publishing Services Building Addition**

**\$450,000**

This authorization will allow the addition of 3,214 gross square feet to the existing Publishing Services Building located on South Upper Street on the University of Kentucky's Lexington campus.

Restricted Fund

\$450,000

**Postsecondary Education**

**Renovation of Biological Sciences Research Space** **\$1,300,000**

This authorization will allow renovation of space, vacated by the move of the Biological Sciences Library to the new W.T. Young Library, into a group-use research laboratory and faculty offices.

Restricted Fund \$1,300,000

---

**Renovation of Funkhouser - Phase IV** **\$700,000**

This authorization will allow renovation of the Funkhouser Building which will allow the relocation of the Minority Affairs Program from the 5th floor of the Office Tower.

Restricted Fund \$700,000

---

**Seaton Center Addition/Renovation** **\$15,350,000**

This authorization will allow renovation and additional space to include a multi-purpose gymnasium space, an elevated jogging track, offices, storage area, racquet ball courts and a weight training conditioning area.

Restricted Fund \$15,350,000

---

**Singleary Center Renovation of Auditoria and Public Spaces** **\$1,850,000**

This authorization will allow major renovation or repair of the building technical systems as well as upgrading needed due to new technology, life safety and ADA requirements.

Restricted Fund \$1,850,000

---

**Slone Building Renovation** **\$3,900,000**

This authorization will allow the complete renovation of the Slone Building to provide laboratory and office space for the Department of Geological Sciences.

Restricted Fund \$3,900,000

---

**Postsecondary Education**  
**University of Kentucky-University System**

**South Campus Communications Infrastructure**

**\$2,294,000**

The project will extend the voice, data, and video communications infrastructure to the south campus. Installation will include conduit, fiber, and copper and all related labor to provide communications services.

Restricted Fund

\$2,294,000

---

**Specialized Greenhouses**

**\$3,550,000**

This authorization will allow the construction of specialized greenhouses designed to eliminate problems of air pollution that the present greenhouse space is facing. The space will provide an environmentally-controlled surrounding in which researchers can conduct their experiments in conditions that are unaffected by the air pollution and other undesirable conditions.

Restricted Fund

\$3,550,000

---

**Steam Line Expansion - Rose Street**

**\$700,000**

This authorization will allow installation of central steam piping consisting of high pressure steam and condensate return lines from Huguelet Avenue to the existing steam line on Rose Street in front of the College of Nursing/Health Science Learning Center and from H-46 in the main building to the new Critical Care Center in order to connect Central Heating Plant #1 and Central Heating Plant #2.

Restricted Fund

\$700,000

---

**Steam and Condensate Pipe Repair**

**\$2,100,000**

This authorization will allow replacement and repair of the deteriorated central underground steam and condensate piping.

Restricted Fund

\$2,100,000

---

**Storm Sewer Improvements - Funkhouser**

**\$800,000**

This authorization allows design and installation of a new storm system from the Funkhouser Building area to Limestone Street.

Restricted Fund

**REAL PROPERTY LEASES**

**College of Medicine - Clinical**

The space will be used to provide clinical outreach programs to a community. The site will also provide an opportunity for medical teaching and research. Parking spaces will need to be adjacent to the facility. The space required may be less than indicated herein, depending upon the needs of the community involved. University restricted funds will cover lease expenses. The lease period will likely extend over several years, at up to \$428,000 per year.

**College of Medicine - Clinical/Educational**

The creation of a Center for Rural Health was mandated by the General Assembly. It presently is located at 100 Airport Garden Courts Road, Hazard, Kentucky. The lease is currently funded through state funds (PR# 8082). The current lease cost is \$383,807.60 per year established in May 1991. The lease expansion will cost an additional \$76,500 per year increasing the total lease cost to \$460,300 per year.

<b>CAPITAL CONSTRUCTION PROJECTS</b>
--------------------------------------

<b>Belinda Mason Academic/Technical Building</b>		<b>\$5,000,000</b>	
--	--	--------------------	--

This authorization will allow construction of a 38,500 gross square foot facility on the Whitesburg Campus of the Southeast Community College. The new facility will contain science and technology labs, general classrooms, and faculty and administrative offices. Also included in the project is site development for parking, pedestrian circulation, utility and communication services, and landscaping.

Bond Fund		\$5,000,000	
-----------	--	-------------	--

<b>Central Regional Postsecondary Education Center - Phase I</b>		<b>\$13,452,000</b>	
--	--	---------------------	--

This Phase I project represents a coordination of effort between the Kentucky Community and Technical College System (KCTCS) and the Council on Postsecondary Education (CPE) to meet the postsecondary education and training needs of the Elizabethtown area. The \$5 million bond funding represents a portion of what was the CPE's \$25 million Physical Access Pool recommendation. Included in the project are a technology expansion for Kentucky Tech Elizabethtown and the Elizabethtown Community College, instructional space for use by other postsecondary institutions to meet the growing demand for postsecondary education in the region, and a regional service center for the Commonwealth Virtual University (CVU). Also included in the project is the renovation of 7,000 square feet of existing space at the Kentucky Tech Elizabethtown facility.

Bond Fund		\$13,452,000	
-----------	--	--------------	--

<b>Deferred Maintenance and Government Mandates Pool</b>		<b>\$8,774,000</b>	
--	--	--------------------	--

The Deferred Maintenance and Government Mandates Pool provides the Kentucky Community and Technical College System with a source of funds that will allow the institutions to address major plant maintenance needs such as roof replacements and HVAC System renovations, and life safety or building accessibility needs such as sprinkler system installations or elevator installations, that have been delayed due to a lack of available funding. This authorization will require each institution to match each pool dollar with one of their own. The projects as previously identified during the request process are restricted to less than \$400,000 each.

Restricted Fund		\$4,387,000

**Hazard Community College Classroom Building - Phase II**

**\$6,500,000**

This second phase of the Hazard Community College Classroom Building project will consist of approximately 35,000 gross square feet and will include specialized classrooms for science, math and technology, the East Kentucky Challenger Learning Center and a small science/technology museum, all designed to support KERA related activities in the region. In addition, the facility will include a child care and family life training center designed to be a center for the transition of welfare participants into the workforce. A family life and wellness center will be housed in the facility as well as several general classrooms, and faculty offices. The facility will be equipped with interconnectivity to other centers in the region via telecommunications. Needed parking will be included in the project.

Bond Fund

\$6,500,000

**Jefferson Community College: Interactive Television**

**\$100,000**

The Jefferson Community College Interactive Television Lab Project will provide video interconnection between Jefferson Community College and the regional universities, the research universities, and the other community college campuses in the state of Kentucky. The laboratory will be located on the downtown campus and will provide space for 24 students. Equipment will include a document camera with capacity for hard copy and electronic copy, automatic panning cameras, television monitors, smartboard, and microphones. Furnishings will include cabinet storage, instructor desk, and student work stations.

Restricted Fund

\$100,000

**Kentucky Advanced Technology Institute - Land Acquisition**

**\$265,000**

This authorization will allow the acquisition of land adjacent to and for use by the Kentucky Advanced Technology Institute in Bowling Green.

General Fund

\$265,000

**Postsecondary Education**  
**Kentucky Community and Technical College System**

Fiscal Year	Fiscal Year	Fiscal Year
1997-1998	1998-1999	1999-2000

**Kentucky Tech College of Arts & Crafts**

**\$4,100,000**

The authorization will allow construction a postsecondary education institution in Knott County where students can learn the skills necessary to produce and market high quality arts and craft products. The facility will potentially include laboratory space for hands-on instruction in craft making, classroom space for basic academic programs and business and entrepreneurial training, a distance learning and teleconferencing facility, and an academic resource center. This project will consist of approximately 20,943 gross square feet of new construction.

Bond Fund

\$4,100,000

**Ky. Tech Danville: Regional Technology Center - Phase I**

**\$6,985,000**

Phase I of this project will construct a new 33,465 square foot facility to address the workforce training needs of the U.S. 127 corridor and replace a lease of private property that currently houses the Danville Health Technology Center. The new facility will provide classroom and laboratory space for these health technology programs, and classroom and laboratory space for academic and technical training programs that will serve the training needs of area business and industry. It is anticipated that the building site will be donated.

Bond Fund

\$6,985,000

**Madisonville Comm. Coll. - Science / Technical Cl. Rm. Bldg.**

**\$5,400,000**

The project will provide for the design and construction of a 25,000 gross square foot Science/Technical Building located in proximity to the existing Academic/Administrative Building as indicated on the campus master plan. The facility will house general classrooms, laboratories, and office support space for the Physical and Biological Sciences divisions. It will include space for general studies courses such as biology and chemistry plus related technical programs which include engineering technology and CAD.

Federal Fund

\$500,000

<b>Madisonville Community College: Muhlenberg Co. Cl. Rm. Bldg.</b>		<b>\$3,500,000</b>	
---	--	--------------------	--

This authorization provides for the design and construction of a general purpose classroom building to be located in Central City on a 20 acre site donated to the university by the Everly Brothers Foundation. Site development including parking, lighting, sidewalks, utility development, communication services and landscaping will be included.

Restricted Fund		\$3,500,000	
-----------------	--	-------------	--

---

<b>Maysville C. C. &amp; Ky. Tech: Maysville New Technology Center</b>		<b>\$7,500,000</b>	
--	--	--------------------	--

This authorization will allow construction of a new 35,000 gross square foot facility on the community college campus for use by both branches of the KCTCS. The facility will be designed to include space for selected technical training programs which may include electronics technology, fluid power technology, computer applications and mechanical systems technology. Flexible-use laboratory space will also be provided for use by area business and industry for short-term and upgrade training programs.

Bond Fund		\$7,500,000	
-----------	--	-------------	--

---

<b>Maysville Community College: Interactive Television</b>		<b>\$100,000</b>	
--	--	------------------	--

The Maysville Community College Interactive Television Lab Project will provide video interconnection between Maysville Community College and the regional universities, the research universities, and the other community college campuses in the state of Kentucky. The laboratory will provide classroom space for 25 students and administrative office space for two persons. Equipment will include a document camera with capacity for hard copy and electronic copy, automatic panning cameras, television monitors, smartboard, and microphones. Furnishings will include cabinet storage, instructor desk, and student work stations.

**New Ky. Tech Shelby Co. Campus & Jefferson Comm. Coll. Ext.**

**\$10,758,000**

This authorization will allow construction of a new Regional Technology Center / Community College Extension Center in Shelby County. This project will consist of approximately 54,586 square feet and will be the first phase of an original project proposal to construct a new 88,500 square foot facility in the Shelbyville area for use by both branches of the KCTCS. Phase II of this project will be requested next biennium. This project is designed to respond to the increased demand by business and industry for advanced technical training, the amount of new business and industry that has been established within the community, the demand for a trained workforce within the geographic area, and the increased number of adults desiring to learn new skills.

Bond Fund

\$10,758,000

**Northeast Regional Postsecondary Education Center**

**\$6,650,000**

This authorization will allow construction of a 33,000 gross square foot facility to house a Regional Postsecondary Education Center on the campus of the Prestonsburg Community College that will represent a collaborative effort between all postsecondary institutions in the region to address the unmet postsecondary education and technical training needs of both the Prestonsburg community and the region. The \$5 million bond funding represents a portion of what was the CPE's \$25 million Physical Access Pool recommendation. The facility will also serve as a regional "hub" of activity related to the Commonwealth Virtual University (CVU).

Bond Fund

\$6,650,000

**Paducah C.C. Engineering Building Infrastructure Completion**

**\$709,000**

This authorization will allow completion of the remaining infrastructure needs associated with the new engineering facility at Paducah Community College including the purchase and installation of fiber optic lines; a mini-computer; computers for engineering students; two "electronic" classrooms and satellite or comparable switching devices. Funding will be provided in the form of a grant to complete this privately funded building initiated by Paducah Community College.

General Fund

\$709,000

<b>Paducah C.C. Engineering Building Instructional Labs</b>		<b>\$734,000</b>	
---	--	------------------	--

This authorization will allow completion of the chemical and mechanical engineering instructional laboratories. Funding will be provided in the form of a grant to complete this privately funded building initiated by Paducah Community College.

General Fund		\$734,000	
--------------	--	-----------	--

<b>Paducah Community College Library Renovation</b>		<b>\$1,150,000</b>	
---	--	--------------------	--

This authorization will allow renovation of the library at Paducah Community College considered to be an integral part of the engineering program planning from the outset. The library will be the hub of all campus-based information technology and the repository of engineering-related equipment, books, periodicals, and library staff and student learning (Internet-connected) spaces. Also included will be major renovations to the HVAC system.

General Fund		\$1,150,000	
--------------	--	-------------	--

<b>Somerset C. C. &amp; Ky. Tech - Academic Support/Tech Ed Complex</b>		<b>\$10,258,000</b>	
---	--	---------------------	--

This authorization will allow construction of a 48,321 square foot facility on the Somerset Community College Campus for use by both branches of the KCTCS. Also included is a renovation of 15,000 square feet of existing facilities which will update existing instructional space to meet today's technological training demands. Parking for 400 vehicles will be provided.

Bond Fund		\$10,258,000	
-----------	--	--------------	--

<b>South Central Regional Postsecondary Education Center</b>		<b>\$6,537,000</b>	
--	--	--------------------	--

The authorization will allow construction of a new, postsecondary technology center in the Albany area that will provide the citizens of Clinton and surrounding counties with an opportunity to pursue postsecondary education without having to travel a significant distance. The new facility will be designed and equipped to meet the educational and training needs of the population and the skills and abilities needed by regional business and industry. Both branches of the KCTCS will have a presence in the facility. This project will be approached in phases, with the first phase consisting of the core technology programs and industry training facilities. Classroom space, a resource center and counseling and placement services are also projected in this phase.

Bond Fund		\$6,537,000

1997-1998	1998-1999	1999-2000

**South Regional Postsecondary Education Center - Phase I**

**\$9,000,000**

This Phase I project represents a coordination of effort between the Kentucky Community and Technical College System (KCTCS) and the Council on Postsecondary Education (CPE) to meet the postsecondary education and training needs of the Glasgow/Barren County area. The \$3.5 million bond funding represents a portion of what was the CPE's \$25 million Physical Access Pool recommendation. Included in the project are a Business and Industry Training Complex, instructional space for use by other postsecondary institutions to meet the growing demand for postsecondary education in the region, and a regional service center for the Commonwealth Virtual University (CVU). The new facility will be 43,714 gross square feet in size.

Bond Fund

\$9,000,000

**Southeast Regional Postsecondary Education Center - Phase I**

**\$13,185,000**

This authorization for Phase I development represents a coordination of effort between the Kentucky Community and Technical College System (KCTCS) and the Council on Postsecondary Education (CPE) to meet the postsecondary education and training needs of the London/Corbin area. The \$5 million bond funding represents a portion of what was the CPE's \$25 million Physical Access Pool recommendation. Included in the project are a Business and Industry Training Expansion for the Laurel County Regional Technology Center and the local Community College, instructional space for use by other postsecondary institutions to meet the growing demand for postsecondary education in the region, and a regional service center for the Commonwealth Virtual University (CVU). The new, 68,678 square foot facility will be constructed on donated property. A second phase of this project will be requested next biennium.

Bond Fund

\$13,185,000

**West Regional Postsecondary Education Center**

**\$6,650,000**

This authorization will allow construction of a 33,000 gross square foot Regional Postsecondary Education Center on the campus of the Hopkinsville Community College that will represent a collaborative effort between all postsecondary institutions in the region to address the unmet postsecondary education and technical training needs of both the Hopkinsville community and the region. The \$5 million bond funding represents a portion of what was the CPE's \$25,000,000 Physical Access Pool recommendation. The facility will also serve as a regional "hub" of activity related to the Commonwealth Virtual University (CVU).

<b>INFORMATION TECHNOLOGY EQUIPMENT</b>
---

<b>Automated Administrative Systems</b>		<b>\$13,500,000</b>
---	--	---------------------

This authorization will allow the Kentucky Community and Technical College System (KCTCS) to purchase an information system that will provide for complete administrative functions across both branches of the KCTCS. The scope of this project includes software and hardware for a student records system, a financial resource system and a human resource system, installation of the communications backbone infrastructure for Kentucky Tech facilities, and the services required for implementation of the systems.

A balanced architecture will be utilized that splits processing demands logically between the client and one or more servers. The system will contain totally integrated software modules operating on a common hardware platform and network that allows for seamless transfer and sharing of information both internally within a branch and between branches. It will support current industry best practices and will be accessible to the customer (student) through avenues such as "interactive voice response" and the World Wide Web. A powerful graphic user interface will be utilized to take full advantage of the power of the desktop tools and applications such as word processors and spreadsheets. The system will facilitate workflow, which will automate the timely flow of information from one person to another across the organization.

The project will be funded over several years with the restricted funds representing transfers of operating budget appropriations (including General Fund) to the approved capital project.

Restricted Fund		\$10,300,000
Bond Fund		\$3,200,000

**1997-1998**      **1998-1999**      **1999-2000**

<b>CAPITAL CONSTRUCTION PROJECTS</b>
--------------------------------------

<b>Biohazard/Environmental Protection I</b>	<b>\$1,500,000</b>
---	--------------------

This authorization will allow the hospital to address increasingly stringent laws and regulations of state and federal environmental regulatory agencies.

Restricted Fund	\$1,500,000
-----------------	-------------

<b>Building Connectors II</b>	<b>\$2,200,000</b>
-------------------------------	--------------------

The authorization will allow the university to provide above ground "connectors" to improve connections between the various buildings on the Medical Center campus.

Restricted Fund	\$2,200,000
-----------------	-------------

<b>Building/Site Upgrade II</b>	<b>\$710,000</b>
---------------------------------	------------------

This authorization will allow the hospital to address anticipated maintenance related to its roof, roads, glazing, or possibly other infrastructure elements.

Restricted Fund	\$710,000
-----------------	-----------

<b>Data Systems Expansion I</b>	<b>\$595,000</b>
---------------------------------	------------------

This authorization will allow the hospital to respond to changes in computer technology and expansion of information systems services including wiring and hardware infrastructure to handle increased demand and multiple new devices.

Restricted Fund	\$595,000
-----------------	-----------

<b>Diagnostic Service Upgrade VII</b>	<b>\$1,100,000</b>
---------------------------------------	--------------------

This authorization will allow renovation of approximately 5,000 gsf of clinical, pharmaceutical, or imaging departments to accommodate changes in equipment, expanded interfaces between equipment, or improved patient management.

Restricted Fund	\$1,100,000
-----------------	-------------

**Postsecondary Education**  
**University of Kentucky-Hospital**

Fiscal Year	Fiscal Year	Fiscal Year
1997-1998	1998-1999	1999-2000

**Diagnostic Services Upgrade VIII**

**\$1,100,000**

This authorization will allow the renovation of approximately 5,000 gsf of clinical, pharmaceutical, or imaging departments to accommodate changes in equipment, expanded interfaces between equipment, or improved patient management.

Restricted Fund

\$1,100,000

**HVAC Upgrade**

**\$3,500,000**

Increasing demands on the Hospital's HVAC systems due to technology and patient care requirements (from JCAHO and OSHA standards) are outstripping the systems' capacity. Almost all renovations are requiring new, separate AHUs, adding significant renovation and maintenance costs.

Restricted Fund

\$3,500,000

**Hospital Kitchen Renovation I**

**\$1,000,000**

This authorization will allow major redesign of approximately 4,160 gsf of the Hospital kitchen and food preparation areas.

Restricted Fund

\$1,000,000

**Hospital Kitchen Renovation II**

**\$520,000**

This authorization will allow major redesign of approximately 3,000 gsf of the Hospital kitchen and food preparation areas

Restricted Fund

\$520,000

**Hospital Parking Expansion**

**\$3,100,000**

This authorization will allow the expansion of the current hospital garage by approximately 320 parking spaces.

Restricted Fund

\$3,100,000

**Postsecondary Education**

---

**Imaging Services** **\$3,500,000**

This authorization will allow the renovation of 19,500 gsf to consolidate imaging modalities which are now decentralized in surgery, endoscopy, radiology, and nuclear medicine.

Restricted Fund \$3,500,000

---

**Implementation of Land Use Plan II** **\$2,500,000**

This authorization allows the acquisition of nearby property in the 1998-2000 biennium in anticipation of the need to extend the Medical Center campus in the 1990's and after 2000.

Restricted Fund \$2,500,000

---

**Intra-Hospital Transportation Systems III** **\$700,000**

This authorization will allow the maintenance and upgrading of hospital's existing elevator, conveyor, and pneumatic tube systems.

Restricted Fund \$700,000

---

**Limited Stay Facility** **\$5,200,000**

This authorization allows the construction of a 45,000 gsf freestanding hotel-type facility for patients.

Restricted Fund \$5,200,000

---

**Markey 4th Floor Renovation** **\$3,800,000**

This authorization will allow renovation of the 4th floor of the Markey Cancer Center to return the 4th floor to patient care and patient care support. The project involves converting what is currently office space into inpatient rooms, nurses' stations, and other support space.

Restricted Fund \$3,800,000

---

**Materials Handling Storage/Distribution Center** **\$970,000**

This authorization will allow the construction of approximately 20,000 gsf of warehouse storage space and material handling and distribution facilities.

Restricted Fund \$970,000

**Postsecondary Education**  
**University of Kentucky-Hospital**

---

**Nursing Unit Modification VI** **\$940,000**

This authorization will provide for routine and periodic upgrade for approximately 6,500 gsf of hospital space.

Restricted Fund \$940,000

---

**Nursing Unit Modification VIII** **\$3,500,000**

This authorization will provide for routine and periodic upgrade for approximately 24,500 gsf of hospital space.

Restricted Fund \$3,500,000

---

**Outpatient Care Facility** **\$3,500,000**

This authorization will allow expansion of outpatient services to support the Medical Center's teaching and service missions. The project seeks to provide a limited range of services such as an outpatient surgery/procedure center or diagnostic and imaging services.

Restricted Fund \$3,500,000

---

**Outpatient Diagnostic and Treatment Center** **\$14,000,000**

This authorization will allow construction of a facility up to approximately 87,500 gsf for outpatient diagnostic and treatment services which may include a surgery center, capacity for invasive diagnostic procedures, a full range of imaging services, rehabilitation services, clinical laboratory services, screening services, and faculty offices in disciplines relevant to the services in the facility.

Restricted Fund \$14,000,000

---

**Outpatient Services** **\$3,600,000**

This authorization will allow construction of an approximately 20,000 gsf facility to provide outpatient services, such as exam rooms, diagnostic or therapeutic modalities, pharmacy or clinical labs.

Restricted Fund \$3,600,000

---

**Postsecondary Education**  
**University of Kentucky-Hospital**

---

**Parking Structure I** **\$6,600,000**

This authorization will allow construction of an additional parking structure capable of providing approximately 600 parking spaces.

Restricted Fund \$6,600,000

---

**Parking Structure II** **\$6,600,000**

This authorization will construction of an additional parking structure capable of providing approximately 600 parking spaces.

Restricted Fund \$6,600,000

---

**Patient Care Facility/Women's Cancer Center** **\$8,000,000**

This authorization will allow the construction of an approximately 33,000 gsf facility for the consolidation and expansion of existing services.

Restricted Fund \$8,000,000

---

**Primary Care Center** **\$13,200,000**

This authorization will allow construction of a 55,000 gsf free standing facility to provide primary care services.

Restricted Fund \$13,200,000

---

**Utility System Upgrade III** **\$1,500,000**

This project supports the coordinated, centralized approach to utility systems for the University. It provides a basis for addressing additional utility system capacity in support of Hospital projects should the need arise.

Restricted Fund \$1,500,000

---

**Fiscal Year  
1999-2000**

**CAPITAL CONSTRUCTION PROJECTS**

**Americans Disabilities Act (ADA) Project Pool**

**\$6,729,000**

This authorization will allow the university to upgrade its buildings to meet the requirements of the Americans with Disabilities Act (ADA).

Restricted Fund

\$6,729,000

**Chlorofluorocarbon Project, Phase II**

**\$1,325,000**

This authorization, Phase II, will allow the university to replace Chiller "E" in the central plant with a larger, more energy efficient chiller to accommodate the construction of new facilities and building expansions on Belknap Campus and to comply with the requirements of the Clean Air Act Amendments of 1990.

Restricted Fund

\$1,325,000

**Chlorofluorocarbon Project, Phase III**

**\$1,851,000**

This authorization, Phase III, will allow the university to replace Chillers "C" and "D" in the central plant with larger, more energy efficient chillers to accommodate the construction of new facilities and building expansions on Belknap Campus and to comply with the requirements of the Clean Air Act Amendments of 1990.

Restricted Fund

\$1,851,000

**Code Improvements - Fire Safety Pool**

**\$2,588,000**

This authorization will allow the university to upgrade its buildings to meet current federal and state life and fire safety building codes.

Restricted Fund

\$2,588,000

**Dental Clinic and Sterilization Renovation**

**\$3,000,000**

This project will reconfigure and re-equip the central sterilization area in the School of Dentistry and will also renovate one of the Dental Clinics to create state-of-the art operatories, refurbished waiting areas, and associated laboratory/examining areas.

Other Fund

\$3,000,000

**Postsecondary Education****University of Louisville****Fiscal Year  
1997-1998****Fiscal Year  
1998-1999****Fiscal Year  
1999-2000**

---

**Early Childhood "EDUCARE" Center****\$3,300,000**

This authorization will allow construction of a new facility to house an Early Childhood "EDUCARE" Center which is associated with the School of Education and closely tied to the University of Louisville's Challenge for Excellence initiatives. This center will serve as a model teaching and research facility in early childhood education, as well as, provide quality child care service to students, faculty and staff within the university community.

Restricted Fund

\$3,300,000

---

**Environmental Health and Safety Projects****\$1,224,000**

This authorization will address compliance with state and federal statutes for environmental protection for underground storage tank removal and remediation and hazardous waste management.

Restricted Fund

\$1,224,000

---

**HSC Parking Garage - Two Additional Floors****\$4,454,000**

This authorization will allow the addition of two additional floors to Health Sciences Center parking garage increasing the capacity from 820 parking spaces to 1,180 spaces.

Restricted Fund

\$4,454,000

---

**Humanities Classroom Renovation****\$721,000**

This authorization will allow the upgrading of all of the classrooms in the Humanities Building. The renovation will include cleaning ceiling tiles, lighting improvements; replacement of door hardware; floor tiles; carpet; installation of high quality chalkboards; project screens; teaching stations; and lecterns.

Restricted Fund

\$721,000

---

**Land Purchase East of University Hospital - HSC****\$5,000,000**

This authorization will allow the university to acquire land during the 1998-2000 biennium needed for expansion of the Health Sciences Campus and U of L Hospital.

Restricted Fund

\$5,000,000

---

**Postsecondary Education****University of Louisville****Fiscal Year  
1997-1998****Fiscal Year  
1998-1999****Fiscal Year  
1999-2000**

---

**MDR Renovation, Phase I, Bldg. 51****\$1,548,000**

This authorization will allow renovation of approximately 6,000 sq. ft. of laboratory space in the Medical/Dental Research (MDR) Building that will create laboratories more conducive to molecular research.

Restricted Fund

\$1,548,000

---

**MDR Renovation, Phase II, Building 51****\$1,595,000**

This authorization will allow the renovation of approximately 6,000 square feet of research space in the Medical/Dental Research (MDR) Building which will be vacated when the new Health Sciences Center Research Building is completed.

Restricted Fund

\$1,595,000

---

**MDR Renovation, Phase III, Building 51****\$2,583,000**

This authorization will allow the renovation of approximately 10,000 square feet of research space in the Medical/Dental Research (MDR) Building which will be vacated when the new Health Sciences Center Research Building is completed.

Restricted Fund

\$2,583,000

---

**Major Maintenance Pool, Phase I****\$6,142,000**

This authorization will allow the university to address the following types of major maintenance projects: roof replacement; elevator upgrades; electrical distribution of high voltage cable and switchgears; replacement of aged steam and chilled water lines in old tunnel; and occupant/environmental/mechanical upgrades.

Restricted Fund

\$6,142,000

---

**Postsecondary Education****University of Louisville****Fiscal Year  
1997-1998****Fiscal Year  
1998-1999****Fiscal Year  
1999-2000**

---

**Medical School Lab Renovation, Bldg. 55A****\$1,717,000**

This project will renovate approximately 8,000 sq. ft. of space on the third and fourth floors of the Medical School Tower Building, which is a 27-year old facility. The School of Medicine planned to recruit a new Chair for the Department of Microbiology and Immunology in 1997. It is anticipated that this recruitment will be concluded in 1998 with the need to renovate the two floors to accommodate new faculty. The renovation will include creating larger labs, common equipment rooms, tissue culture facilities, and support areas such as autoclave areas and glass-washing facilities. This facility was constructed in 1970 with no significant renovations since that time.

Restricted Fund

\$1,717,000

---

**New Residence Hall and West Utilities****\$18,277,000**

This authorization will provide replacement housing for approximately 300 graduate and undergraduate students. This project also includes the cost of connecting the residence hall to the central steam and chilled water plant.

Other Fund

\$18,277,000

---

**Purchase Parking Spaces on Health Sciences Campus****\$825,000**

This project entails the purchase of 109 parking spaces from Jewish Hospital Properties within their newly constructed parking structure to accommodate parking needs for university employees.

Restricted Fund

\$825,000

---

**Research Building (Belknap)****\$32,040,000**

This authorization will allow the construction of a new facility for research space for various graduate programs throughout the Belknap Campus to accommodate critically deficient research program needs. The following five areas of concentration will be housed in the new research facility: 1) bioengineering; 2) chemical catalysis and biohealth; 3) environmental sciences and engineering; 4) sensory, perception and cognitive psychology; and 5) supply chain management.

Bond Fund

\$32,040,000

**Postsecondary Education**

**University of Louisville**

Fiscal Year	Fiscal Year	Fiscal Year
1997-1998	1998-1999	1999-2000

**Research Resources Center Expansion**

**\$1,588,000**

This authorization will allow expansion of the number of surgical suites available to meet the demand for increased surgical research by expanding into the basement level of the MDR Building, #51.

Restricted Fund

\$1,588,000

**Social Work - Practice Center - Marine Hospital (Portland)**

**\$7,865,000**

The authorization will allow renovation of the historical Marine Hospital to house a division of the Kent School of Social Work. The division would be the Center for Social Work Practice - Training and Research. The renovation will include new offices and meeting rooms to accommodate social work activities. The university officials will be working with local government officials to seek funding and other arrangements for the Marine Hospital property.

Other Fund

\$7,865,000

**Support Services Land Acquisition (Northeast)**

**\$3,820,000**

This authorization will allow the university to continue the implementation of its land use plan during the 1998-2000 biennium to deal with the developmental and expansion needs of Belknap Campus. The land will be used to consolidate the support services programs of the university to the northeast side of campus.

Restricted Fund

\$3,820,000

**Transgenic Facility**

**\$2,261,000**

This project will create a Transgenic Facility on the Health Sciences Campus. Dedicated research space must be reconfigured to provide the capability of creating and housing transgenic animals. This involves the creation of a micro-injection facility, a founding room (birthing area), and separate housing facilities with hepa filtered capability for both the supply and exhaust systems.

Restricted Fund

\$2,261,000

**University Park - Parkway Field / Baseball Stadium**

**\$2,392,000**

This authorization will allow a phased project which will include relocation of the track, realignment of the baseball field and the addition of stadium seating at Parkway Field.

Other Fund

\$2,392,000

**Postsecondary Education**

**University of Louisville**

**Fiscal Year

**University Park-Track&Field, Soccer & Field Hockey Facility**

**\$4,987,000**

This authorization will allow construction of a Track & Field, Soccer and Field Hockey facility consistent with the long-range development plan for the consolidation of athletic facilities on Belknap Campus.

Other Fund

\$4,987,000

**Utility Distribution Improvements - South**

**\$6,541,000**

This project will connect the College of Engineering buildings, as well as the proposed new Belknap Campus Research Building and the Multi-Cultural Center Building to the central steam and chilled water plant.

Restricted Fund

\$6,541,000

**MAJOR EQUIPMENT**

**3-Dimensional Echocardiographic Package**

**\$140,000**

**Public Service Commission Building**

**\$1,100,000**

Reauthorization and Additional Funding for New Building - These "General Fund-supported bonds" will permit a consolidation of the Public Service Commission offices from current lease agreements in three locations. The agency will finance this project by assessing public utility companies within statutorily approved millage rates. The agency has reduced its estimated lease amount (shown below) in fiscal year 2000 in anticipation of relocating operations into the new building. The initial project authorization from the 1996 General Assembly was \$5,450,000 (\$776,000 - restricted funds; \$4,684,000 - bond fund). The revised estimate for the new building is \$6,550,000.

Bond Fund

<b>CAPITAL CONSTRUCTION PROJECTS</b>
--------------------------------------

**Bowling Green District Office**

**\$2,263,000**

Reauthorization, Modification, and Additional Funding - Funds are provided to construct a new district office building. This project was authorized in the 1994-96 biennial budget at \$1,400,000 for fiscal year 1995 as a renovation of the existing building. Due to deterioration, it has been determined that the building is now beyond renovating and the Cabinet should instead construct a new building. This intended change was reported to the Capital Projects and Bond Oversight Committee and the Transportation Cabinet was approved to proceed with the design work on the new construction using existing funds of \$275,000 from the renovation project. Total project funding - \$3,663,000.

Road Fund

\$2,263,000

**Building Renovation and Emergency Repairs**

**\$500,000**

**\$500,000**

Reauthorization and Additional Funding - Funds are provided for the general repair, emergency repair, maintenance, and renovation of older buildings. This pool was authorized in the 1996-98 biennial budget at \$500,000 and \$500,000 for fiscal years 1997 and 1998 with additional authorization for 1998-2000 of \$500,000 and \$500,000 for fiscal years 1999 and 2000. Total project funding - \$2,000,000.

Road Fund

**\$233,000**

Reauthorization and Additional Funding - Funds are provided to acquire a site and construct a new primary highway maintenance facility. This project was authorized in the 1994-96 biennial budget with a scope of \$857,000 but was delayed and funding reduced to \$399,000 due to difficulty in finding a suitable site. Additional funding is provided in the 1998-2000 biennial budget authorization of \$233,000 for fiscal year 1999. Total project funding provided is \$632,000.

Fiscal Year	Fiscal Year	Fiscal Year
1997-1998	1998-1999	1999-2000

---

#### Transportation Cabinet Office Building

\$68,100,000

Funding is provided for the construction of the first major state office building in Frankfort in over 20 years. This project encompasses design, site preparation and construction of an approximately 420,000 square foot structure. The building will serve as the primary office building for the Transportation Cabinet, which is currently housed in the State Office Building and several smaller buildings in Frankfort. A new Road Fund bond authorization of \$68,100,000 is to be combined with \$18,900,000 of previously authorized General Fund-supported bonds for an all funds total project scope of \$87,000,000. The \$18,900,000 portion of the funding will be derived from the proceeds of previously authorized General Fund bonds for renovation projects relating to the existing State Office Building. Expenditure commitments from the \$21,900,000 in previously authorized bond proceeds have been \$3,000,000 to date leaving a residual of \$18,900,000 for this new project. The first phase of that renovation project was authorized in the 1994-96 biennial budget at \$10,000,000; phase two of the renovation project for the same building was authorized in the 1996-98 biennial budget at \$11,900,000 for fiscal year 1997. However, that original renovation project has now been temporarily halted due to major cost overruns encountered during the bid process and will be deferred until this new building project can be completed and the current occupants (primarily Transportation Cabinet employees) relocated.

Bond Fund

\$68,100,000

#### Various Environmental Site Investigations/Remediations

\$500,000

Reauthorization and Additional Funding - Funds are provided to investigate known or suspected or contaminated sites, evaluate and design remedial measures, and implement the measures to clean up contamination from spills or releases of hazardous substances or non-hazardous pollutants. This applies to all cabinet properties (including but not limited to contamination on highways and right-of-ways, operation facilities at traffic barns, maintenance lots, equipment garages, rest areas, warehouses and any adjacent properties that may have been impacted.) This project was authorized in the 1996-98 biennial budget at \$1,500,000 for fiscal year 1997 and \$1,500,000 for fiscal year 1998. Additional funding is provided in the 1998-2000 biennial budget authorization at \$500,000 for fiscal year 2000. Total project funding provided is \$3,500,000.

Road Fund

**Vehicle Titling & Registration System (KVIS)-EMPOWER KY**

**\$1,714,000**

Provides Road Funds for the ongoing Kentucky Vehicle Titling and Registration System (KVIS) at \$1,714,000 for fiscal year 2000. Associated General Funds of \$2,800,000 and \$2,600,000 for fiscal year 1999 and 2000 are being sought through the Empower Kentucky process for completion of this system.

This project was endorsed by the Redesign Steering Committee established by House Bill 379 to oversee EMPOWER Kentucky initiatives in fiscal year 1996-98. It received \$400,000 in General Fund support combined with \$6,000,000 from the Road Fund operating budget in fiscal year 1997 and \$1,000,000 in fiscal year 1998. This previous total Road Fund commitment of \$7,000,000 was transferred to the Empower Kentucky initiative along with the General Fund Empower Kentucky commitment of \$400,000 for fiscal year 1998. The \$1,714,000 is expected to complete the Road Fund contribution to this project.

Total project authorized budget: General Fund - \$5,800,000; Road Fund - \$8,714,000; Total Funds - \$14,514,000.
