The Revenue Cabinet is the statutory agency of state government responsible for the thorough and equitable administration of all state revenue laws, and for the assessment and collection of 47 separate state taxes. In fulfilling this responsibility, the Cabinet seeks to ensure taxpayers' 'voluntary compliance with the revenue laws and regulations, to enforce such laws in those instances where necessary, and to supervise and assist county property valuation administrators in their implementation of the property tax laws. The principal beneficiaries of the programs managed by the Cabinet are all Kentucky taxpayers. Customers and stakeholders of Revenue include local taxing jurisdictions, other state agencies, tax preparers, businesses, county officials, and the legislature.

There are two separate appropriations included in the Revenue Cabinet: Revenue Cabinet and Property Valuation Administrators.

The Revenue Cabinet is the statutory agency of state government responsible for the thorough and equitable administration of all state revenue laws, and for the assessment and collection of 47 separate state taxes. In fulfilling this responsibility, the Cabinet seeks to ensure the taxpayer's voluntary compliance with the revenue laws, to enforce such laws in those instances where necessary, and to supervise and assist county property valuation administrators in their implementation of the property tax laws.

The Revenue Cabinet was reorganized in fiscal year 1997 under Executive Order 97-715 and codified by KRS 131.020. The new structure consists of: Office of the Secretary, Department of Law, Department of Tax Administration, Department of Information Technology, Department of Property Valuation, and the Property Valuation Administrators.

The Revenue Cabinet is the statutory agency of state government responsible for the thorough and equitable administration of all state revenue laws, and for the assessment and collection of 47 separate state taxes. In fulfilling this responsibility, the Cabinet seeks to ensure the taxpayer's voluntary compliance with the revenue laws, to enforce such laws in those instances where necessary, and to supervise and assist county property valuation administrators in their implementation of the property tax laws.

The Revenue Cabinet was reorganized in fiscal year 1997 under Executive Order 97-715 and codified by KRS 131.020. The new structure consists of: Office of the Secretary, Department of Law, Department of Tax Administration, Department of Information Technology, Department of Property Valuation, and the Property Valuation Administrators.

The Office of the Secretary is comprised of the Secretary's Office staff, the Office of Taxpayer Ombudsman, the Office of General Counsel, the Internal Auditor, the Office of Financial and Administrative Services, and the project manager of the Empower Kentucky initiative, the Kentucky Integrated Tax Entity System. These units provide leadership, management, and staff support to the Revenue Cabinet.

The Department of Tax Administration consists of three divisions: Field Operations, Compliance and Taxpayer Assistance, and Revenue Operations. The Division of Field Operations has 11 offices located throughout the state and is responsible for field audits and providing taxpayer assistance. The Division of Compliance and Taxpayer Assistance is responsible for conducting office audits of tax returns, administering compliance, providing liaison with federal and state agencies, and rendering taxpayer assistance. The Division of Revenue Operations duties include: the processing of all tax receipts, documents and correspondence; registration of businesses; individual income tax returns and refund processing; and maintaining appropriate storage, retrieval and management of all related tax records for the Commonwealth.

The Department of Information Technology provides the Cabinet with leadership and direction in the information technology arena. The Department of Information Technology consists of two divisions: Systems Planning and Development, and Technology Infrastructure Support.

The Department of Property Valuation administers and supervises the programs involved in state and local property tax assessment and state property tax collection, including mapping property throughout the state. Numerous provisions in KRS 131, 132, 133, 134, and 136 define and describe the Department's responsibilities. These include providing administrative support, technical assistance, and supervision to 120 Property Valuation Administrator (PVA) offices, and coordinating the property tax activities of sheriffs, county clerks, and other local officials. The Department directly assesses public service companies and several other classes of property. The Department also administers the centralized Motor Vehicle Tax System (MOTAX), the Personal Property Tax Assessment System, and a program to audit taxpayer compliance in listing tangible and intangible personal property.

The Department of Law is responsible for establishing tax policy, providing information to the public, conducting conferences, administering the legislative program, conducting tax research, and administering taxpayer protests. In addition, this department is responsible for collecting delinquent taxes through both legal and administrative methods. The Department of Law consists of five divisions: Legal Services, Tax Policy, Research, Protest Resolution, and Collections.

Policy

Notwithstanding KRS 134.400, the Revenue Cabinet may retain and expend penalties collected for administrative functions of the Cabinet as well as tax administration and enforcement.

Each of the state's 120 counties has a locally elected Property Valuation Administrator (PVA). The PVA and an appointed staff are responsible for locating, identifying, and assessing at fair market value all taxable real (land and improvements), tangible personal, and intangible personal property in the county. The Revenue Cabinet is responsible for the supervision and coordination of this program. Substantial portions of KRS 132 and 133 cover the duties of the PVAs and their offices.

Policy

Notwithstanding KRS 132.590 (3) (c) and 132.590 (4) and KRS 132.597 property valuation administrators may take necessary actions to manage expenditures within the budgeted amount.

The Tourism Development Cabinet was established by KRS 148.522 to promote the tourism industry in Kentucky. Estimates project tourism spending in excess of \$8.8 billion annually, making tourism Kentucky's third-largest industry. The tourism industry, Kentucky's second-largest private employer, provides employment for approximately 163,000 Kentuckians. In addition, tourism related industries and businesses generate approximately \$917 million of state and local tax revenues in the Commonwealth.

The Office of the Secretary of the Tourism Development Cabinet coordinates the various agencies within the Cabinet.

The Executive Policy and Management unit directs planning and management of the agencies within the Cabinet. This program develops plans to assure orderly growth and improved management, recommends executive actions and legislative measures, and evaluates agency budget requests. This program also markets and promotes Kentucky to the film industry to attract television and feature movie productions to the State.

The Administrative Services program oversees accounting, budget, and personnel functions, and provides purchasing controls and property management to other Cabinet agencies.

Funding of \$270,000 is provided in each year of the biennium for Outdoor Drama Grants.

The Appalachian/Kentucky Artisans Gateway Center Authority was created by KRS 148.560-569. The Authority was established as an independent, de jure municipal corporation and political subdivision of the Commonwealth to develop, operate, and manage the Appalachian/Kentucky Artisans Gateway Center. The authority is attached to the Tourism Development Cabinet for administrative purposes.

The Breaks Interstate Park, created by KRS 148.220 in 1954 by joint action of the Kentucky and Virginia legislatures, is governed by the Breaks Interstate Park Commission. The Commission is composed of three members from each state appointed by the respective governors. Kentucky provides financial support for the Park in the form of a grant to the Commission.

The Park, which contains 4,500 acres of woodlands, mountains, and the largest canyon east of the Mississippi River, attracts approximately 380,000 visitors each year. Breaks Interstate Park provides recreation for the people of Kentucky and Virginia in an area where recreational opportunities are limited.

The Tourism Services Division operates highway welcome centers in Florence, Franklin, Grayson, Hopkinsville, Paducah, Shelbyville, Shepherdsville, and Williamsburg; generates sales revenue to Kentucky's tourism industry through trade show participation and pursuit of group, commercial, and individual markets; and disseminates tourism information to tourists and potential visitors via a telephone system, direct mail, and the highway welcome centers.

The goal of the Tourism Services Division is to conduct a comprehensive travel promotion campaign and to serve Kentucky's private sector tourism industry.

The Marketing and Advertising Division develops and coordinates state tourism advertising and tourism media placement; coordinates and produces tourism brochures and sales promotion materials; assists non-profit private sector groups with advertising and promotion costs through matching funds and cooperative advertising programs; and develops and maintains a marketing and research data base on Kentucky's tourism industry.

The goal of this program is to develop, coordinate, and maintain a comprehensive advertising campaign to promote Kentucky as a tourism destination.

The Department of Parks administers and operates the Kentucky State Park System under the authority of KRS 148. The Department strives to provide quality recreational facilities and to preserve and protect historically significant sites and natural phenomena in the Commonwealth of Kentucky.

The activities of the Department include the operation and maintenance of 17 resort parks, 22 recreational parks, ten historic sites, and the Capitol Annex Cafeteria in Frankfort.

Policy

Notwithstanding the provisions of KRS 148.800-810 or any other statute or provision of law to the contrary, the Governor's recommended budget includes the use of the Park Capital Maintenance and Renovation Fund for any ongoing cost of the Department of Parks. Specifically, the Governor recommends \$400,00 from this fund as a current year restricted funds appropriation. Also, the Governor recommends \$923,000 in fiscal year 2003 and \$1,069,000 in fiscal year 2004 from this fund for custodial maintenance of new golf courses. Moreover, the Governor recommends \$803,000 from this fund be used to supplement the Department of Parks general operations. Finally, should these amounts prove to be insufficient to support the continuation

of other recommended programs of the Department, the Governor recommends this account be available as an authorized source of funds to be used for any unanticipated restricted funds revenue shortfall and/or unanticipated expenditure upon approval of the State Budget Director and proper reporting to the Interim Appropriations and Revenue Committee and the Capital Projects and Bond Oversight Committee.

The Resort Parks program encourages tourism and economic development in Kentucky by providing excellent overnight accommodations, quality food service, and recreational activities for visitors at the 17 resort parks. The resort parks and their locations are:

Barren River Resort Park - Barren County	Kenlake Resort Park - Marshall County
Blue Licks Battlefield State Park - Robertson County	Kentucky Dam Village Resort - Marshall County
Buckhorn Lake Resort Park - Perry County	Lake Barkley Resort Park - Trigg County
Carter Caves Resort Park - Carter County	Lake Cumberland Resort Park - Russell County
Cumberland Falls Resort Park - Whitley County	Natural Bridge Resort Park - Powell County
Dale Hollow Resort Park - Cumberland and Clinton Counties	Pennyrile Forest Resort Park - Christian County
General Butler Resort Park - Carroll County	Pine Mountain Resort Park - Bell County
Greenbo Lake Resort Park - Greenup County	Rough River Resort Park - Grayson County
Jenny Wiley Resort Park - Floyd County	

The Department estimates that in fiscal year 2003, the resort parks will provide overnight accommodations for 620,000 guests and serve 1.6 million meals.

The 1,032-acre Kentucky Horse Park is a recreational and educational park dedicated to mankind's relationship to the horse. It features an exclusive movie, farrier shop, tack shop, parade of breeds show, horse-drawn tours, the International Museum of the Horse, and the American Saddlebred Museum. Other attractions include: the Man O'War Memorial, Hall of Champions, Secretariat Memorial, a gift shop, an art gallery, food service facilities, and horseback riding. A 260-site campground features a grocery, souvenir shop, pool, croquet, tennis, two playgrounds, and basketball courts. There are 1,076 stalls for horse shows and some of the finest equine eventing facilities in the world, including a covered arena, six polo fields, show rings, and a steeplechase course. Central Kentucky Riding for the Handicapped and the National Horse Center Office Complex, which includes 14 horse-related organizations employing an additional 150 people, are also located at the Park.

The purpose of the Kentucky Horse Park is to be the world's definitive equestrian educational facility dedicated to all breeds of horses, to provide show facilities capable of hosting national and international equestrian competitions in many disciplines, and to provide a positive impact on both the local and state economies by establishing itself as a nationally recognized tourist attraction.

The Horse Park provides recreational and educational activities for over 800,000 visitors a year through its regular activities and special events. In addition, the Park serves as an educational facility for approximately 20,000 student visitors a year.

Policy

Included in the Governor's recommended budget is \$300,000 in fiscal year 2002 as a current year appropriation from the General Fund to pay for unanticipated expenditures related to the Chinese Exhibit. Figures from the Department for Travel Development estimate this exhibit generated approximately \$14 million in state economic activity.

The Kentucky State Fair Board authorized in KRS 247, is composed of 15 members: the Governor, the Commissioner of Agriculture, the Dean of the College of Agriculture at the University of Kentucky, and 12 members appointed by the Governor. Five of the 12 members appointed by the Governor are selected from nominations from the Kentucky Association of Fairs and Horse Shows, the Kentucky Livestock Improvements Association, the Kentucky State National Farmers Organization, the American Saddle Horse Breeders Association, and the Kentucky Farm Bureau Federation. The Board has control and custody of the funds, buildings, grounds, and equipment of the Kentucky Fair and Exposition Center and the Kentucky International Convention Center in Louisville. A president is appointed by the Board to manage the Centers.

The Kentucky Fair and Exposition Center provides facilities and services for conventions, trade shows, agricultural activities, athletic events, concerts, and cultural and commercial productions year-round. At this site, the State Fair Board produces its three major expositions during the year: the Kentucky State Fair, the National Farm Machinery Show, and the North American International Livestock Exposition.

The Kentucky Fair and Exposition Center is a completely air-conditioned complex that includes one million square feet of exhibit and meeting space at ground level. It includes the 19,000-seat Freedom Hall Coliseum, identical East and West Exhibit Halls, East and West Exposition Wings, the South Wing Exposition Facility and Conference Center, a smaller exposition Pavilion, a 600-seat amphitheater, a 5,000-seat Livestock and Horse Show Arena, and a 37,000-seat stadium. Also serving the Kentucky Fair and Exposition Center are the adjacent Executive Inn East, Executive Inn West, Executive Bowl, and the Kentucky Kingdom Amusement Park, all of which are long-term lessees of the State Fair Board.

Policy

Funding of \$407,000 from the General Fund is provided each year of the biennium for the North American International Livestock Exposition program.

The Kentucky International Convention Center provides facilities and services for intermediate-sized conventions, trade shows, association events, concerts, and cultural and commercial productions year-round. This facility is an integral and interdependent part of the overall redevelopment of downtown Louisville by both government and private enterprises.

All phases of the most recent renovation and expansion project at the Kentucky International Convention Center are completed. The Center includes approximately 200,000 square feet of exhibit space, a 30,000 square foot ballroom and nearly 70,000 square feet of meeting space. The new exhibit and meeting areas are linked to the existing facility by public concourses spanning Third Street.

The Center is served by the Hyatt and Cowger Parking Garages, which provide 1,300 enclosed parking spaces, and by the Hyatt Regency Hotel, which is a long-term lessee of the Board. The Cowger Garage also includes commercial space which is leased on a long-term basis.

The Debt Service program is responsible for the annual debt service payments on Fair Board bonds issued by the State Property and Buildings Commission.

Restricted funds (\$371,000) are included in each year of the 2002-2004 biennium for Project 55 debt service payments. Project 55 provided funding for an expansion of the new South Wing - Phase II, Access Road Completion, the new Maintenance Building, and the refinancing of Projects 21 and 38.

All currently authorized General Fund debt service costs are budgeted in the Finance and Administration Cabinet in the 2002-2004 biennium.

The Department of Fish and Wildlife Resources, as established by KRS 150, is responsible for the protection and improvement of fish and wildlife resources in Kentucky. The Department is headed by a Commissioner appointed by the Fish and Wildlife Commission. The Commission, which is responsible for Department policy, is a nine member bipartisan body appointed by the Governor from a list of five candidates provided by sportsmen's organizations in each of nine districts.

Financial support of the Department is derived from the sale of hunting and fishing licenses, miscellaneous licenses, federal grants, interest income, and fines and penalties assessed by the courts for violation of game and fish laws.

Currently, the Department owns approximately 120,000 acres of land in Kentucky which are used to further its program activities. This acreage includes the State Game Farm, 80 major wildlife management areas, two warm water hatcheries, and three summer camps. An additional 712,355 acres of land and water are under lease or license by the Department for wildlife management activities. The Daniel Boone National Forest provides an additional 600,000 acres of land for public use.

Administration and Support includes Public Affairs, Administrative Services and Engineering.

The Public Affairs Division facilitates public involvement in departmental policy and regulations. Administrative Services maintains accounting records, ensures that proper purchasing and inventory procedures are followed, and administers hunting and fishing license sales and revenue collections. The Engineering Division provides the labor and technical engineering services required for the Department's small construction projects. Duties include building small bridges, buildings, boat ramps, and roads. In addition, Engineering is responsible for surveying all property owned or being purchased by the Department.

The Wildlife Management program manages, develops, and maintains statewide game and non-game populations consistent with habitat capacity on state owned lands, licensed wildlife management areas, and privately owned lands. Additionally, Wildlife Management conducts statewide surveys to determine the relative abundance of game and non-game wildlife, formulates hunting regulations based upon biological data and recreational demands, restores viable native wildlife species by restocking in suitable habitat, and evaluates the impact of land, water resource, and other construction projects on wildlife resources. Technical guidance is provided to private land owners for improvement of wildlife habitat conditions. A fish and wildlife electronic information system is being developed that includes geographic information such as land types, vegetation conditions, and wildlife populations for use by state agencies.

Policy

Included in the Governor's recommended budget are \$350,000 in fiscal year 2003 and \$150,000 in fiscal year 2004 in increased Federal Funds from the Wildlife Conservation and Restoration Program (WCRP). The funding is intended for new or expanded programs in the areas of Wildlife Conservation, Education, and Recreation.

The Fisheries Management program manages Kentucky's fishery resources to provide optimum fishing opportunities for anglers through research, surveys, fish stocking, regulation, and technical biological guidance. Fishery biologists manage and develop fish populations and their associated habitats in major impoundments, streams, rivers, and 100,000 acres of small lakes and ponds. In addition, technical guidance is provided to private pond owners. Research biologists provide support to management through evaluation of stocking and regulatory practices.

The objective of the Information and Education program is to teach Kentuckians to enjoy safely the recreational opportunities provided by Fish and Wildlife Resources and to create an appreciation and understanding of the need to conserve these resources.

Conservation Education leaders teach approximately 1,200 classes each month for seven months of the school year to 85,000 students in the fifth and sixth grades. They conduct a summer conservation camp program for 6,500 students at Camp John Currie, Benton; Camp Earl Wallace, Monticello; and Camp Robert Webb, Grayson. Hunter training officers conduct hunter education courses throughout the state. Each year approximately 17,000 participants receive certification cards.

The Salato Wildlife Education Center at the Game Farm in Frankfort includes an exhibit facility, native landscaping, and live animal exhibits where visitors can learn to appreciate Kentucky's habitat and wildlife restoration efforts. The Game Farm and Education Center draw approximately 125,000 visitors annually.

The Public Information program is responsible for the publication and distribution of the bimonthly magazine, Kentucky Afield, and the production of the weekly Kentucky Afield television program. This program is responsible for providing information about all Department activities and programs to sportspersons and the general public.

The Law Enforcement program enforces fish, wildlife, and boating laws. Officers assist other federal, state, and local agencies in enforcement of all criminal laws in the Commonwealth. Officers also provide assistance to the public during times of natural disasters such as floods, forest fires, and severe winter weather.

Conservation officers contact approximately 190,000 resource users, initiate approximately 9,300 prosecutions, issue approximately 4,500 warning notices, and assist approximately 2,000 motorists each year. An officer's average patrol area is 250 square miles.

The Transportation Cabinet had its origin as an agency of the Commonwealth of Kentucky in 1912 when the General Assembly established the Department of Highways. The scope of this original unit was significantly broadened by Executive Orders 72-288 and 73-54, and ratified by the 1974 General Assembly. The 1974 legislation created the Department of Transportation as a consolidation of the Departments of Highways, Motor Transportation, and Aeronautics, plus certain transportation-related functions of the Department of Public Safety and the Department of Revenue. Subsequently, the 1982 General Assembly established the Transportation Cabinet as the successor to the Department of Transportation and assumed all of the duties formerly associated with the department. In 1998, KRS 12.250 codified the Transportation Cabinet as a program cabinet.

The Transportation Cabinet, under KRS 12.250, is responsible for maintaining and improving transportation services in the Commonwealth. All modes of transportation are addressed by the Cabinet, including air transportation, railroads, waterways, public mass transit, and highways. The Secretary of Transportation, who is appointed by the Governor, heads the organization. The duties and responsibilities of the Cabinet are found in Titles XV and XVI of the Kentucky Revised Statutes.

The Cabinet receives funding from the state Road Fund, proceeds from bonds issued by the Kentucky Turnpike Authority, and federal aid apportionments for highways. Other revenue sources are agency receipts, non-highway federal aid, and the state General Fund. The revenue components of the Road Fund are the motor fuels tax, motor vehicle usage taxes, license and privilege taxes, toll road receipts, interest income, and miscellaneous departmental fees, permits, and sales.

Seven major budget units comprise the Transportation Cabinet: General Administration and Support, Air Transportation, Public Transportation, Revenue Sharing, Highways, Vehicle Regulation, and Debt Service. Organizationally, the agency is divided into six departments and ten offices. The departments, each headed by a commissioner directly responsible to the Secretary, are Administrative Services, Fiscal Management, Human Resources Management, Vehicle Regulation, Rural and Municipal Aid, and Highways. The remaining units are the Office of Public Affairs, the Office of Internal Affairs and the Office of Policy and Budget, which are responsible to the Office of the Secretary. The Office of Transportation Delivery, the Office of General Counsel and Legislative Affairs, and the Office of Minority Affairs are responsible to the Deputy Secretary for Administration. The Office of Program Planning and Management, the Office of Project Development, the Office of Construction and Operation, and the Office of Intermodal Programs are responsible to the State Highway Engineer in the Department of Highways.

Policy

The Consensus Forecasting Group revised the Road Fund revenue estimate in December 2001 for fiscal years 2002, 2003, and 2004. The revised estimate of \$1,089,500,900 for fiscal year 2002, \$1,097,539,300 for fiscal year 2003, and \$1,131,218,300 for fiscal year 2004 are incorporated in the table below, as are the revised appropriations.

The Governor's recommendation provides expenditure authority from the following sources:

The General Administration and Support appropriation unit provides management and administrative capabilities, policymaking, and efficient day-to-day operations. This unit includes four departments: the Office of Secretary, Administrative Services, Fiscal Management, and Human Resources Management.

The Office of Secretary encompasses the Office of the Secretary of Transportation, the Office of Policy and Budget, the Office of Minority Affairs, the Office of General Counsel and Legislative Affairs, the Office of Public Affairs, the Office of Information Technology, the Office of Quality, and the Office of Internal Affairs. These units provide leadership, management, and staff support to the Transportation Cabinet and provide the Secretary the managerial tools necessary to operate the Cabinet. The Office of the Secretary is the central point of contact with the general public and external organizations. The Office of Policy and Budget manages the planning and use of the Cabinet's financial resources. The Office of Minority Affairs conducts programs to provide women and minorities an equal opportunity for employment and to compete for highway construction contracts. The Office of General Counsel and Legislative Affairs provides the agency with the required legal representation in matters before administrative boards and all levels of the court system. This Office is also responsible for drafting legislation and regulations for the Cabinet. The Office of Public Affairs is responsible for the Cabinet's communications with employees, the news media, and the general public.

The 2001 General Assembly codified the Office of Information Technology and the Office of Quality under KRS 174.020. The Office of Information Technology is responsible for all information technology functions within the Cabinet and serves as the Cabinet's liaison with the Governor's Office of Technology. The Office of Quality facilitates the Cabinet's strategic planning and performance measurement activities. Executive Order 2001-1517 established the Office of Internal Affairs, effective December 14, 2001. This Office is responsible for internal investigations and advises Cabinet programs on compliance issues.

The Department of Administrative Services includes Administration, Toll Facilities, Property and Supply Services, and Fleet Management. The Administration program area is directed by the Commissioner of Administrative Services to perform the administrative functions of the Cabinet and implement policies and programs as set forth by the Secretary. The Toll Facilities Division operates the collection facilities on toll roads. The Division of Property and Supply Services provide the supplies and equipment needed to operate the Cabinet's offices, laboratories, and garages. This Division maintains the Cabinet's real property, which totals some 900 buildings located throughout the state. Debt service on the new transportation office building and parking garage in Frankfort is included in the Division's budget. The Division of Fleet Management operates the statewide Motor Pool, which encompasses the passenger vehicles of all state agencies.

The Department of Fiscal Management is composed of the Office of the Commissioner of Fiscal Management, the Division of Accounts, the Division of Road Fund Audits, and the Division of Purchases. The Office of the Commissioner is responsible for the direction and oversight of the three divisions. It includes the Internal Audit Branch and External Audit Branch. The Internal Audit Branch audits the Cabinet's compliance with regulations, policies, and procedures and reports directly to the Secretary. The External Audit Branch performs financial and compliance audits of contractors doing business with the Cabinet and reports directly to the Division of Professional Services in the Department of Highways. These protocols assure maximum organizational independence for the auditors. The Division of Accounts is a service program providing general accounting, payroll, accounts receivable and payable processing, and financial reporting for the Cabinet. The Division of Road Fund Audits is responsible for auditing Kentucky Road Fund revenues. The Division of Purchases procures commodities and services for the Cabinet. This Division shares responsibility with other divisions in the Department for supporting MARS and the administrative processes relating to procurement.

The Department of Human Resources Management is responsible for the Cabinet's human resources policies and personnel utilization and development programs. The Department of Human Resources Management is composed of the Office of the Commissioner, the Division of Personnel Services, the Division of Employee Recruitment and Development, the Division of Employee Safety and Health, and the Division of Worker's Compensation. The Office of the Commissioner provides direction and oversight of the Divisions. The Division of Personnel Services provides personnel services for all the Cabinet's employees, as well as applicants seeking employment with the Cabinet. The Division of Employee Recruitment and Development provides computer and general employee training. The Division of Employee Safety and Health formulates safety programs, policies, practices, and procedures for all Cabinet employees. The Division of Worker's Compensation administers laws, policies, and procedures pursuant to KRS Chapter 342. The Transportation Cabinet is self-insured with regard to worker's compensation.

Policy

The Department of Administrative Services, Division of Property and Supply, is the unit responsible for the debt service on the new Transportation Cabinet Office Building and Parking Structure. The Governor's recommendation provides debt service for the new building and parking structure totaling \$7,165,600 in fiscal year 2003 and \$7,335,500 in fiscal year 2004.

The Governor's recommendation provides additional Road Fund support of \$750,000 in fiscal year 2004 for the Statewide Transportation Operations Center (STOC). This funding will provide a central operation facility for the Motor Vehicle Enforcement dispatch center; support the interconnection of regional operation centers and Intelligent Transportation System efforts; and coordinate weather related transportation operations, including cooperative efforts with other state agencies during emergencies.

In fiscal year 2004, the Governor's recommendation provides additional Road Fund support of \$250,000 to pay the license fees associated with the TRNS.PORT software, and license fees totaling \$360,000 for the Operations Management Systems software.

The Governor's recommendation provides an additional \$450,000 in Road Fund support for the purchase of hardware and a specialized software package to track and report information relative to Disadvantaged Business Enterprises, (DBE). The federal government is requiring a change in the state's reporting guidelines, and the hardware and software acquisition will enable the Cabinet to meet the requirements.

The Governor's recommendation provides additional Road Fund support totaling \$275,900 in fiscal year 2004 for additional security service to the existing State Office Building and the new Transportation Office Building and Parking Structure under construction.

The Transportation Cabinet, as mandated under Federal regulation 49 CFR 382, is required to conduct pre-employment, post-accident, reasonable suspicion, and random drug and alcohol testing on its commercial drivers license holders. The Governor's recommendation provides additional Road Fund support of \$30,000 in fiscal year 2003 and \$30,600 in fiscal year 2004 for the testing of Motor Vehicle Enforcement Officers, Vehicle Enforcement Inspectors, and other safety sensitive personnel.

In accordance with KRS Chapter 183, the Transportation Cabinet is supports the Commonwealth's Air Transportation program. There are two programs within Air Transportation, the Air Regulatory program and the Airport Development program. The Air Regulatory program is responsible for inspecting and determining the safety and efficiency of all 135 airport and heliport facilities in the state. Pursuant to KRS 183.861, the Kentucky Airport Zoning Commission protects the navigable airspace within the state by evaluating applications for construction, issuing permits and maintaining updated airport zoning maps. The Commission is attached to the Air Regulatory Program for administrative purposes.

The Airport Development Program provides for administration, planning and management of airport construction, and maintenance of local airports. Airport Development also provides technical and financial assistance to the state's 62 publicly owned airports, including updating and distributing the state aeronautical charts and airport directories.

KRS 183.525 provides the funding authority to operate the Air Transportation program. Since July 2000, the Sales and Use tax collected from the sale of aviation jet fuel funds the operation.

Policy

The provisions of KRS 183.525(5) are suspended during the 2002-2004 biennium, and available funds may be used for the operations of the Air Transportation program.

The three programs operating within Public Transportation are Public Transportation, Multimodal, and Human Services Transportation Delivery. The Public Transportation program offers technical and financial assistance to public transportation providers and the Metropolitan Planning Organizations throughout the state through the federal programs: Sections 503, 5307, 5309, 5310, and 5311. Federal funds, combined with General Fund and local matching funds, allow public transit authorities to acquire buses and vans.

The Multimodal programs assures that environmental, energy, safety, and economic impacts are considered in transportation decisions. Multimodal responsibilities include statewide rail planning, ferry operations, park and ride planning, bicycle and pedestrian planning and implementation. The Multimodal program acquired the additional responsibility of statewide rail activities when Kentucky voters abolished the Railroad Commission by a constitutional amendment in 2000. These responsibilities include regulating rail carriers operating on 2,900 miles of rail track in the state.

The Human Service Transportation Delivery program is a partnership of the Transportation Cabinet; the Cabinet for Health Services, Medicaid program; and the Workforce Development Cabinet, Department of Vocational Rehabilitation and Department for the Blind. This partnership is the result of an Empower Kentucky project that provides non-emergency medical transportation; jobs access transportation, and transportation to day care facilities.

Policy

The Governor's recommendation provides \$2,500,000 General Fund support in each year of the 2002 - 2004 biennium for the non-public school transportation program.

The Governor's recommendation provides \$15,500,000 federal funds in both years of the 2002 - 2004 biennium for Federal Transit Administration discretionary capital grants to purchase buses and vans for public transit entities. Most local transit entities apply for federal assistance through the Transportation Cabinet to request Federal Transit Administration funding.

The Governor's recommendation provides additional restricted fund support totaling \$1,650,000 in fiscal year 2003 to match Federal Transit Administration discretionary capital grants to purchase buses and vans for public transit entities.

The Governor's recommendation provides federal fund support totaling \$5,160,000 in fiscal year 2003 and \$3,648,000 in fiscal year 2004 for the TARC T 2 light rail study.

There are four components of the Revenue Sharing program: County Road Aid Program, authorized by KRS 179.410-179.430; the Rural Secondary Aid Program, authorized by KRS 177.320; the Municipal Road Aid Program, authorized by KRS 177.365; and the Energy Recovery Road Fund Program, authorized by KRS 177.976-177.990. Each program is funded based on the amount of certain taxes or fees collected.

The County Road Aid program and Rural Secondary Aid program receive a portion of the state's motor fuels tax collections. The County Road Aid program receives 18.3 percent of motor fuels tax collections. The County Road Aid program includes all of Kentucky's counties, municipalities, and qualified unincorporated urban areas. The Rural Secondary Aid program receives 22.2 percent of motor fuels tax collections and these funds are used to repair and maintain rural and secondary roads. Funds for both these programs are allocated through a formula known as the "formula of fifths," as stated in KRS 177.360. Each county receives a portion of the statewide total as follows: one-fifth is divided evenly among all counties, one-fifth is divided proportionately based on the amount of rural population in each county, one-fifth is distributed on the basis of rural road mileage in each county, and two-fifths is apportioned according to each county's share of the total land area in the state.

The Municipal Road Aid program is funded by 7.7 percent of motor fuels tax collections. Distribution is made through a formula based on the population contained in each city or unincorporated urban area.

Forty percent of the revenues collected from extended vehicle weight fees support the Energy Recovery Road System. Funds are distributed to the counties for the county-maintained portion of that system. The fund distribution is based on (1) the ratio of miles of roads in each county within this system to the total system miles, and (2) the ratio of the total tons of coal transported over the roads in each county to the total tons reported. The Transportation Cabinet has the authority to expend the remaining 60 percent on the roads in the system.

Policy

The Governor's recommendation includes language in the Appropriations Act, which provides funding to the Kentucky Transportation Center be increased \$100,000 above that provided in KRS 177.320(4). This funding is drawn from the Revenue Sharing programs in the same proportions as the Motor Fuel Tax receipts are statutorily dedicated to those programs. The appropriation to the Kentucky Transportation Center is contained in the Department of Highways Research program.

The Governor's recommendation for the Revenue Sharing program is the result of the December 2001 revision of the Official Road Fund Revenue Estimate for fiscal year 2002 and the 2002 -2004 biennium.

The Highways appropriation unit is the largest program in the Transportation Cabinet. There are seven individual program areas in this unit: Research, Construction, Maintenance, Engineering Administration, Highway Planning, Highway Operations, and Equipment Services. The Construction program is divided into three subprograms: Bond Funded Construction, State Funded Construction, and Federal Funded Construction.

The Department of Highways is responsible for the construction, reconstruction, and maintenance of the State Primary Road System through authority granted by KRS 177.020. The Department is headed by a Commissioner who is appointed by the Governor on recommendation of the Secretary of Transportation. This agency administers all of the programs listed within the Highways appropriation unit.

Motor vehicles travel some 47 billion miles per year on Kentucky's 73,000 miles of roads and streets. The State Primary Road System carries approximately 85 percent of all traffic. This network consists of approximately 27,500 miles of interstate highways, resource recovery roads, parkways, economic development roads, primary, secondary, rural, and unclassified roads, and some 8,800 bridges. Kentucky's parkway system, consisting of more than 700 miles of state roads built to interstate standards, is one of the largest in the nation.

The Research program is primarily a problem-solving service available to the Department of Highways. The program provides studies of traffic safety and operations, pavement mechanics and performance, materials characteristics and behavior, and transportation policies. The Research function is mandated by the Commonwealth's use of federal highway funds in accordance with Title 23 of the Federal Code. The Transportation Cabinet partners with the University of Kentucky Transportation Center to carry out research functions. The partnership conducts workshops on highway maintenance and management; publishes newsletters; provides technical assistance; and maintains a lending library, including both written and audio-visual materials.

The Research program funds the Kentucky Transportation Center at one-tenth of one percent of the motor fuels tax collections, not to exceed \$190,000 per year from the State Road Fund. An additional \$100,000 per year from the Revenue Sharing appropriation unit is transferred to the Kentucky Transportation Center.

Policy

The Governor's recommendation provides for a \$100,000 transfer each fiscal year from the Revenue Sharing program to fund the Kentucky Transportation Center at the annual rate of \$290,000.

The Construction program is the largest single funding component within the Highways appropriation unit. It encompasses all construction and major reconstruction of roadways in the State Primary Road System. The Construction Program is divided into three sub-programs: Bond Funded Construction, State Funded Construction, and Federal Funded Construction.

Several different road systems constructed in the Commonwealth over the last 40 years has used Bond Funded Construction. General Obligation Bonds were sold to finance the original construction of the Interstate System. The Turnpike Authority of Kentucky sold revenue bonds to fund construction of the Toll Road System that crisscrosses the state. Resource Recovery Bonds were sold in the late 1970's for construction of the Resource Recovery Road System, a network of highways over which coal resources could be efficiently hauled. The Turnpike Authority sold bonds in 1984, 1987, 1990, 1993, 1995, and 1999 for projects identified as part of the Economic Development Road System. All of the roads constructed using proceeds from Turnpike

Authority bonds are built by the Cabinet on behalf of the Authority, and then are leased to the Cabinet until the bonds are retired. At that time they are transferred to the Cabinet and become a part of the state highway system.

State Funded Construction provides for many highway improvement needs, emergency needs, industrial access roads, parkway and primary road pavement rehabilitation, and other projects for which federal funding is not available. The state resurfacing program is a part of this sub-program area and provides for resurfacing of roads in the state maintained highway system.

The Federal Construction program addresses the major construction, reconstruction, and rehabilitation needs for nearly 12,000 miles of Interstate, primary, secondary, urban systems, and Appalachian routes across the state. This funding is provided under Titles 23 and 40 of the US Code.

Policy

The Official Road Fund Estimate, revised in December 2001, increased the estimated revenues of the Road Fund by \$49,626,000 in fiscal year 2002, \$35,520,000 in fiscal year 2003, and \$32,900,000 in fiscal year 2004. The Governor's recommendation provides for a fiscal year 2002 appropriation increase totaling \$43,167,200 to the Highways, State Construction program. It also includes the additional \$28,482,800 in fiscal year 2003, and \$28,031,800 in fiscal year 2004 be programmed to the State Construction account. The difference between the official estimate revisions and the total recommendation applied to State Construction are the statutorily dedicated revenues of the Revenue Sharing program.

Included in the State Funded Construction program, the Governor's recommendation provides Road Fund support totaling \$66,000,000 in fiscal year 2003 and \$67,320,000 in fiscal year 2004 for state resurfacing projects; Road Fund supported specialized contracts totaling \$500,000 each year are provided; and the Highway Construction Contingency Account is Road Fund supported in the amount of \$37,000,000 in fiscal year 2003 and \$37,740,000 in fiscal year 2004.

The Governor's recommendation provides Road Fund support totaling \$108,900,000 in each year of the 2002 - 2004 biennium to match federal funds in the Federal Funded Construction program.

Kentucky has invested approximately \$15 billion in highway infrastructure that comprises right-of-way, roadways, and bridges. KRS 176.050 assigns the responsibility for operating and maintaining this highway infrastructure to the Department of Highways. The Maintenance program's role is to operate and maintain the roadways, bridges, rest areas, and traffic control devices on all state-maintained highways. Two organizational units, the Division of Operations and the Division of Traffic, administer this program.

The Division of Operations responsibilities are broken down into the following five categories:

- (1) Roadway Maintenance Program personnel in the twelve Highway Districts maintain 15,262 miles of state primary highways and 12,166 miles of rural secondary highways.
- (2) Pavement and Operations Management personnel inspect and evaluate pavement conditions on 27,428 miles of state-maintained roads, determine strategies for improvement, estimate funding needs, and recommend annual priorities.
- (3) The Intelligent Transportation Systems (ITS) organizational unit supports the objective of improving traffic flow and freight movement. The ITS provide technological resources that are being integrated into the highway infrastructure to improve the overall effectiveness and efficiency of the transportation system. From 1980 to 1995, the number of annual vehicle miles traveled in the United States increased by 58% while the capacity of the public road system increased by only about 1 percent. The goals of ITS are to save lives, reduce vehicle emissions, shorten travel times, increase fuel savings, and reduce lost time and costs associated with congestion, while having a minimal impact on the environment.

(4) The Bridge Maintenance Program is responsible for all state-maintained bridges, except those on the Rural Secondary system. Kentucky has 6,064 bridges of which 27 are Ohio River crossings and 74 are in-state bridges over major lakes and rivers.

(5) The Rest Area Operations/Maintenance Program provides sanitary and accessible restroom facilities and other convenience services for motorists traveling through the state. There are 21 rest area and welcome center locations and two truck rest haven locations operated and maintained through contracts with nonprofit agencies that hire and train individuals with disabilities. The remaining eight locations are operated and maintained by Cabinet personnel. All of the facilities are open 24 hours per day, seven days per week. The Department for the Blind maintains the vending operations at 11 locations, and the remaining vending operations are maintained by Cabinet personnel or by janitorial contractor personnel.

The Division of Traffic is responsible for the installation and maintenance of traffic control devices on approximately 25,000 miles of highways. This unit also maintains a traffic accident surveillance program with the objective of identifying locations having an abnormally high accident rate. The duties of this unit are set out in KRS 176.050, KRS 177.020, KRS 177.830-890, and KRS 177.905-990.

Policy

The Governor's recommendation provides additional Road Fund support of \$7,850,000 in fiscal year 2004 for several facets of the Maintenance program. Included in the funding recommendation are guardrail replacement and new installation, roadway slide repair, tree and brush removal, portland cement concrete (PCC) repairs, contract bridge repair, and site mitigation.

There are nine divisions organized under the State Highway Engineer's Office:

(1) The Division of Construction supervises highway construction projects, providing administrative support for central office and district construction projects. It also assists Division of Materials staff in sampling and testing materials used in construction projects.

(2) The Division of Materials establishes standards and controls relating to the quality of materials for the construction, maintenance, and operation of highways and bridges and performs soil and geological engineering required for the design, construction, and maintenance of roads and bridges.

(3) The Division of Bridge Design develops and prepares contract plans for all highway structures, as well as any special structures that the Transportation Cabinet builds as part of Kentucky's system of roads. The Division is also responsible for overseeing the County Bridge Replacement Program, which replaces bridges on locally maintained roadways of less than 13-ton load capacity and less than 100 feet in length.

(4) The Division of Highway Design, in conjunction with the District Design Offices, is responsible for the required design activities of the Cabinet's Six-Year Plan projects, including the preparation, assembly and reproduction of construction plans for a project's award. Currently, the division has 755 active Six-Year Plan highway design projects.

(5) The Division of Professional Services advertises for engineering services, administers the Cabinet's prequalification process for consultant engineering services, and contracts with consulting engineers.

(6) The Division of Environmental Analysis ensures the Cabinet is compliant with environmental laws, regulations, guidelines, and rules.

(7) The Division of Right of Way and Utilities acquires property required for the construction and reconstruction of highways. This function involves obtaining title reports, performing appraisals and appraisal reviews, conducting negotiations, providing relocation assistance, facilitating property management, and initiating condemnation procedures on properties affected by proposed projects.

(8) The Division of Program Management is responsible for developing Kentucky's Biennial Six-Year Highway Plan.

(9) The Division of Planning provides the day-to-day administration and support for personnel involved in the Highway Planning Program activities, including management, clerical support, training, and other overhead expenditures.

The Division of Planning provides administrative, clerical and technical support and implements transportation planning activities statewide. It also coordinates statewide rail planning, carpooling, alternative fuel, bikeway, pedway, and ferry operations. The division oversees the Cabinet's Enhancement Program, which is responsible for beautification, historic preservation, and rehabilitation of the Commonwealth's highways, historic transportation facilities, and bikeway projects.

The Highway Planning area conducts program evaluation of the state-maintained streets and highways to ensure that available federal and state funds are utilized to maximum efficiency. In cooperation with the Area Development Districts, it acquires roadway centerline locations and associated data for all public roads in Kentucky. It maintains an inventory of all roadway classifications and prepares city, county, and state road maps for distribution. The program also furnishes statistics required by the Federal Highway Administration and state and local government decision-makers.

Metropolitan Planning maintains and distributes federal funding to seven Metropolitan Planning Organizations (MPOs) to implement continuing, comprehensive, and cooperative (3C) planning process, which is mandated by federal law. The MPOs study the impact of transportation operations in urbanized areas concerning congestion management, air quality, environmental issues, public involvement, land use and development, and public transportation.

Area Development Districts (ADD) Assistance administers a regional planning and public participation process in the state's 15 Area Development Districts as part of the Cabinet's overall statewide transportation planning process, as required by 23 USC. The Cabinet contracts with each ADD for activities in support of the regional and statewide planning process, including public involvement, data collection, analysis, identification of needs, project recommendations, regional prioritization of projects, and technical assistance and review.

Policy

In fiscal year 2003, the Governor's recommendation provides \$28,800 in federal funds and \$7,200 in Road Fund to purchase two vehicles.

In accordance with KRS Chapter 176, this program provides leadership, management, and central administrative support and funding for central office and district operations for the Transportation Cabinet's Department of Highways. The Commissioner of Highways performs administrative functions for the Department, which governs the State Highway Engineer's Office, 15 divisions, and 12 district offices. In each of the 12 offices, the District Highway Operations Office manages and coordinates the engineering functions.

The State Highway Engineer's Office manages and coordinates the engineering functions of the Cabinet, reviewing management, engineering, and personnel reports and recommendations from the engineering and professional divisions, staff and Deputy State Highway Engineers. In addition, the Office administers the Cabinet's Engineering Scholarship Program and the Engineering Graduate Training Program, coordinates the Research Program and manages special projects, such as the Louisville Bridges, Industrial Parkway, and Paris Pike.

Contract procurement activities are also a part of the Highway Operations program and include prequalifying road contractors, advertising bids for road construction projects, awarding contracts, and issuing work orders and monitoring required contract provisions.

Each District includes a Legal Office that provides legal assistance on right-of-way acquisitions, relocation issues, and utility involvement for highway projects.

Policy

The Governor's recommendation provides additional Road Fund support of \$24,000 in fiscal year 2003 and \$24,500 in fiscal year 2004 for the Cabinet's 800 Customer Service number.

The Governor's recommendation provides additional Road Fund support of \$66,300 in each year of the biennium to fund the Engineering Scholarship program.

The mission of the Equipment Services program area is to provide highway construction and maintenance equipment for use by the Department of Highways. The unit purchases and maintains all the Cabinet's trucks, heavy equipment, and various pieces of support machinery. This program provides its services through a network of 18 repair garages located throughout the state.

The Department of Vehicle Regulation encompasses the Commissioner's Office and the following divisions: Driver Safety, Motor Carriers, Drivers' Licensing, Motor Vehicle Licensing, and Vehicle Enforcement. The Motor Vehicle Commission is also administratively attached to the Department.

The Division of Driver Safety conducts the Cabinet's statewide Child Passenger Safety Program. The mission is to educate and train parents, health departments, fire, police and other agencies and individuals in the proper installation of child seats, and provides for the safe transportation of children throughout the state.

The Division of Motor Carriers collects and processes fuel and highway use tax from commercial motor carriers, as authorized under KRS Chapter 138. Under KRS Chapter 186, it assigns apportioned license plates to interstate Kentucky motor carriers. The division qualifies all for-hire transportation within the state. It is also responsible for permitting and routing overweight and over-dimensional loads, maintaining a solid-waste permitting system, and regulating the Commonwealth's U-Drive-It rental and leasing operations.

Under KRS Chapters 186, 187, 189A, 218, and 281A, the Division of Drivers' Licensing maintains driver history records for approximately 2.7 million drivers. The Division issues licenses to commercial drivers who meet certain statutory standards. The Division also enforces driver license suspensions, revocations, and driver limitation programs. It operates State Traffic School programs and the Kentucky Motorcycle program, both of which promote driver safety and education.

The Division of Motor Vehicle Licensing provides for the titling and registration of motor vehicles and boats in accordance with KRS Chapters 186, 186A, and 235. It maintains the Automated Vehicle Information System (AVIS) and controls title distribution functions. Registration and title applications are initiated through local county clerks' offices. KRS 186.240(3) requires a new plate issuance every five (5) years for plates that do not expire annually. The next issuance begins in January of 2003 and will require plate production to begin in 2002. A fifty-cent (\$.50) fee for each reflectorized plate issued is retained in a restricted fund to fund the replating cycle.

The Division of Vehicle Enforcement is responsible for enforcing state and federal laws and regulations pertaining to the operation of commercial motor vehicles within the Commonwealth of Kentucky. Vehicle Enforcement operates the state's 17 weigh/inspection stations (KRS 189.227) and provides enforcement coverage on related bypass routes.

Pursuant to KRS 190, the Kentucky Motor Vehicle Commission licenses and regulates motor vehicle manufacturers, dealers, and salespersons. It is funded through license fees that are deposited into a restricted fund account.

Policy

The Governor's recommendation provides additional Road Fund support for the International Registration Plan (IRP) clearinghouse fee. Effective October 1, 2001 the federal funding for the pilot states is no longer available. Each participating state must pay its share to stay in the system.

The Governor's recommendation provides additional Road Fund support for the Cabinet to participate in the National Motor Vehicle Title Information System (NMVTIS). Beginning in 2002, a state funding formula was implemented to maintain a state's participation and share of the operating costs.

Vehicle Regulation – Motor Carriers
Performance Budgeting Pilot Project Information

Program Mission

The mission of the Motor Carriers program of the Department of Vehicle Regulation is to provide an expedient, efficient, and economical way to administer tax collections and the issuance of credentials, licenses, and permits for our customers in the motor carrier industry.

Objective: Continue to add more of the Division's processes to the Internet and increase the number of web filings made to the Division.

Performance Indicator: Have 15% of all International Fuel Tax Agreement (IFTA) tax filers submitting returns electronically by the end of the fiscal year 2004.

The Debt Service Program is the budget entity through which lease rental payments are made on the various revenue bonds the Commonwealth has issued to finance major highway construction projects.

KRS Chapter 175 authorizes the Turnpike Authority of Kentucky to issue revenue bonds to construct, maintain, repair, and operate designated roads of the Toll Road System, the Resource Recovery Road System, and the Economic Development Road System. The first of these systems, the Toll Road System, was constructed during the mid-1960s and early 1970s; most of the related bonds have now been retired, with the last remaining series projected to pay off in the year 2007. The Resource Recovery Road System was begun in the late 1970s. Most of this system's roads were built during the 1980s; the most significant project involving KY 80. The Economic Development Road System was established and funded through three series of bond issues: a \$300 million issue sold in 1984; a relatively small sale of \$36.6 million in 1987; and a \$600 million program which was implemented in bond sales during 1990, 1993, and 1995. The projects constructed with the \$600 million series were designated as "Revitalization Projects" and are now virtually complete. The most recent issue was \$200 million of Economic Development Road Revenue Bonds authorized by the 1998 General Assembly and sold in 1999.

Through lease agreements with the Turnpike Authority of Kentucky, the Transportation Cabinet provides funds to pay the Toll Road, Resource Recovery Road, and most of the Economic Development Road revenue bonds. In the Debt Service Program, funds are reserved exclusively for semiannual lease rental payments to meet the principal and interest requirements of these outstanding bonds, along with any administrative costs of the Turnpike Authority.

Policy

The Debt Service Acceleration Fund account, pursuant to KRS 175.505, is suspended in the Governor's recommendation during the 2002-2004 biennium. The funding made available by this suspension is proposed for use in the State Funded Construction program.

The Workforce Development Cabinet, authorized under KRS 151B, aims to align Kentucky's workforce development system more closely with individual and employer needs. Constituents who benefit from Cabinet programs include: Private Employers; dislocated workers; adults requiring basic education and literacy training; incumbent workers needing upgrade training; individuals making the transition from welfare to work; new job force entrants; persons with disabilities seeking employment; economically disadvantaged youth; youth preparing for postsecondary education or work; career transitioning workers; and other job seekers.

The Cabinet's primary objective is to preserve and advance principles that allow for Kentucky's economic opportunities, standard of living, and quality of life to exceed the national average in 20 years. The Cabinet actively pursues this goal by: emphasizing secondary vocational-technical education through programs at 52 area technology centers; empowering educationally disadvantaged workers through adult education and literacy services and other employment services; responding to permanent changes in traditional economic bases through workforce development, employment, and training activities; committing resources to build up human capital; enabling individuals with disabilities to participate in the workforce; and responding to the federal Workforce Investment Act of 1998, which promotes streamlined training and employment services, universal access to services, and increased accountability to ensure results.

General Administration and Program Support provides the central coordination and direction for the overall planning, management and oversight of the agencies within the Cabinet. The program is responsible for the provision of specialized support of Cabinet activities including: policy and budget development and personnel transactions; legal services including legislative and regulatory development and oversight; a communications strategy with the public, business, and industry; economic analysis and research; accounting, purchasing, facilities management, and computer services; and administrative support services. This entity is authorized by KRS 12 and KRS 151B.

The program includes the following units:

The Office of the Secretary provides strategic direction and leadership to establish the focus for policy development, implementation, and program priorities. The Office coordinates Cabinet activities among its departments and agencies to ensure continuous improvement in administration and efficient service to the citizens of the Commonwealth. The Secretary serves as the Chief Executive Officer of the Cabinet and is an advisor to the Governor and the General Assembly.

The Office of the General Counsel is responsible for providing legal advice and representation in all matters involving the Cabinet and its departments. The Office provides legal review and advice on contracts, memoranda of agreements, personnel legal actions, regulations, legislation, and policy review. The Office represents the Cabinet in federal and state courts and other legislative and administrative bodies.

The Office of Workforce Partnerships, formerly the Office of Development and Industry Relations, is responsible for providing support for a state-level Workforce Partnerships Resource Team, as well as a Services to Individual Customers Team. The office is also responsible for facilitating communication with the state Rapid Response Team. The Office provides support for local One-Stop Partnership Teams. This support will enable the teams to exchange information and share resources and expertise, increasing efficiency. The Office is also responsible for development of interdepartmental strategies to meet various needs.

The Office of Communication Services provides internal and external communications, marketing support, and media advisory services to the Cabinet. The Office interprets and disseminates information about the Cabinet and its components to employees, the media, and the general public. Response to media requests for information and the production and review of all departmental publications are duties of the Office. Specific responsibilities include the composition and distribution of news releases and newsletters; preparation of speeches for the Secretary, commissioners, and agency staff; coordination of media participation in press conferences and special events; and the production of audiovisual materials and videotapes.

The Office of Quality and Human Resource Services, formerly the Office of Personnel Services, is responsible for personnel activities which include processing personnel and payroll documents, providing benefit services to Cabinet employees, preparing an array of staffing reports, developing workshops and training programs for employees, and monitoring compliance with statutes and regulations. Attached to the Office is the ADA Branch. This branch assists people with disabilities and helps employers distill information regarding the federal American Disabilities Act (ADA). It also educates state government agencies and the public about the ADA.

The Office of Budget and Administrative Services (OBAS) provides assistance to the Cabinet Secretary by providing: coordination and analysis for policy formation and Cabinet management; preparation and oversight of the biennial budget; coordination and monitoring of state and federal legislative activities; technical support to departments and offices; internal auditing functions and a variety of programmatic and financial matters. Attached to OBAS are the Facilities Management Branch, the Division of Fiscal Services, and the Client Assistance Branch.

The Facilities Management Branch is responsible for the physical management of all state-owned/state-operated facilities, equipment, and property assigned to agencies within the Cabinet. Specific functions include: programming and planning for new facilities; providing a quality learning and work environment for students, clients, and staff through comprehensive Major Plant Maintenance, Safety, and Insurance programs; managing and accounting for all inventory owned or leased by the Cabinet; coordinating the leasing of space for use by Cabinet personnel and processing related payment documents; and mail and supply service management.

The Cabinet has responsibility for providing maintenance for 26 facilities owned and operated by the Cabinet. The Facilities Maintenance Fund within this unit is a centrally located pool of funds used to address maintenance needs for 24 Department for Employment Services facilities, the Department of Vocational Rehabilitation's Carl D. Perkins Rehabilitation Center, and the Department for the Blind's McDowell Center. These 26 facilities encompass approximately 500,000 gross square feet. This fund supports maintenance projects such as roof and mechanical system repairs/replacements, service contracts, painting, paving repairs, and modifications necessary to meet health and safety standards. In addition to the usual types of building maintenance projects, this fund also supports service contracts for elevators, fire alarm systems, and asbestos abatement projects.

The Division of Fiscal Services is responsible for all: central office purchasing, auditing, and processing financial documents; maintenance of the MARS accounting system; compliance with the Federal Cash Management Act; federal reporting, monitoring and reconciliation of all financial transactions; and compliance with state and federal guidelines.

The Client Assistance Branch has the authority for pursuing administrative, legal, and appropriate remedies to ensure the protection of rights of disabled individuals under the Rehabilitation Act of 1973.

The Office of Technology Services serves as the central location for all Cabinet data processing programs statewide. The Office is responsible for: reviewing all computer hardware and software requests prior to purchase; ordering all computer equipment; and coordinating with all users in development and maintenance of statewide computer systems and independent users. The Office is responsible for all data line connectivity to all central and field offices, and provides technical support for hardware/software.

The Office of Workforce Analysis, formerly the Office of Workforce Analysis and Research, has responsibility for all data collection and analytical research on economic and employment trends. Specific elements to be examined are job demands, supply changes, and other services necessary to ensure availability of comprehensive and integrated data for

program and planning decisions of the Cabinet. The Office serves as a clearinghouse for job training information provided to the business community.

Policy

The Governor's recommended budget uses restricted funds to support general administration activities throughout the Cabinet.

The Department for Technical Education was established in 1990 by KRS 151B. The Department has two major statewide roles: the management and operation of the 54 Area Technology Centers serving high school students and workers in business and industry; and serving as the sole state agency for federal funds through the Carl D. Perkins Vocational and Applied Technology Education Act of 1998 (Public Law 105-332).

The Department for Technical Education provides occupational specific education and training for Kentucky's citizens in order to develop a skilled and versatile workforce. The main responsibility is providing education and technical training to youth and incumbent workers that match the needs of Kentucky business and industry. Skill training is directed at high school students who go directly to work after leaving high school, while creating an avenue for continued education.

The Department consists of two divisions: the Division for School Services and the Division for Administrative Services.

The Division for Administrative Services is responsible for budget preparation and oversight for 54 Area Technology Centers. The Division implements the provisions of the Carl Perkins' federal grant for technical education and distributes federal funds to local school districts, Area Technology Centers, Kentucky Community and Technical College System, and public colleges and universities. The division also administers the student information system, all department contracts, the statewide information technology infrastructure, and administrative business offices.

The Division for School Services is primarily responsible for curriculum, program supervision, staff development, and programmatic technical assistance to the 54 area technology centers. The Division also has responsibility for liaison activities with local school districts and business and industry.

Area Technology Centers are located throughout the Commonwealth in small- to medium-sized counties. These schools are uniquely positioned to serve business and industries in close cooperation with KCTCS. This provides cost-effective measures for training needs of business and industry, and assists in local economic development initiatives. Area Technology Centers are not only vital in the overall scheme of Kentucky's efforts to better prepare secondary technical students for postsecondary education or employment, but also provide an additional avenue to skill upgrades by incumbent workers in the local businesses and industries.

The Department for Technical Education, under KRS 151B, is responsible for administering the 54 state operated Area Technology Centers. The Department is organized into two divisions: the Division for School Services, and the Division for Administrative Services.

The Division for School Services provides leadership and technical training program management: These duties include: establishing program standards; providing instructional supervision; and technical assistance; providing curriculum services including task list development and management; offering staff development including training for newly employed instructors; implementing federal program initiatives; and managing secondary student organizations. The Division for School Services also pursues and maintains articulation agreements with institutions at the secondary and postsecondary levels. Articulation agreements allow students to continue education at a higher level without duplicating previous course work.

The Division for Administrative Services consists of the Federal Programs Branch, the Information Technology Branch, and the Budget and Business Branch. Five Administrative Business Offices are assigned to the Budget and Business Branch to provide accounting, purchasing, and personnel services to schools.

In December 2000, Executive Order 2000-1623 moved the Office of School-to-Work to the Department for Technical Education and created the School-to-Work Branch to be headed by the Adult and Technical Executive Assistant. The responsibility of this branch is to implement the School To Careers system and augment the School-to-Work initiative with the carryover federal funds.

Policy

The Governor's recommended budget provides \$1,393,000 in a current year appropriation increase in SEEK funding. This increase is funded through agency fund balances that were previously not appropriated.

The Governor's recommended budget contains \$350,000 in fiscal year 2003 for the Cabinet to operate the new Jackson County Area Technology Center. The Center opened during the second half of the school year 2002.

In fiscal years 2003 and 2004 respectively, \$1,250,000 and \$521,000 in General Fund is available for operation of the new Lincoln County Area Technology Center. Additionally, \$149,000 in restricted funds is transferred from Continuing Education in fiscal year 2004. Classes are scheduled to begin in the fall of 2002.

The Governor's recommended budget utilizes restricted funds to maintain school support and administration for the Jackson and Lincoln County Area Technology Centers.

The Department for Technical Education is responsible for the state-operated system of Kentucky Tech area technology schools, in accordance with KRS 151B. The Department has a line item for equipment procurement and maintaining and/or replacing existing equipment.

The Department for Technical Education maintains and repairs existing equipment and upgrades instructional programs, using equipment funding. Funds are distributed to all Area Technology Centers in the system by a funding formula that considers inventory, age of equipment, number of programs, and enrollment.

KRS 151B establishes the responsibility of the Kentucky Tech System within the Department for Technical Education. The Kentucky Tech System provides continuing and customized technical education programs on an as-needed basis. This system serves business and industry, as well as adults in the community seeking to enhance their employment opportunities. Area Technology Centers provide opportunities in areas of the Commonwealth where continuing education is not available at a postsecondary institution.

Demand for training programs from business and industry may range from continuing education in computer applications to customized training programs such as robotics.

Training programs are also designed to meet the increasing demands of various state and local regulatory certification requirements. Examples include additional programs in water handling, blood and air borne pathogens and heating and cooling systems.

Policy

The Governor's recommended budget transfers restricted funds totaling \$149,000 in fiscal year 2004 to School Support and Administration.

The Federal Programs Branch coordinates the state plan for the Carl D. Perkins Vocational and Technical Education Act of 1998 (P. L. 105 332) and implements the provisions related to the distribution of federal funds. Other functions include: reviewing and approving the local plans; monitoring and evaluating program effectiveness; monitoring and auditing the expenditure of federal funds; implementing and reevaluating the statewide system of accountability; coordinating the development of the annual performance report; assuring compliance with all applicable Federal laws; and providing technical assistance. Additional functions related to the Perkins legislation include: serving as the liaison to occupational programs and related services in the community and technical colleges, the universities, and the Department of Education. Programs of leadership and professional development are coordinated and monitored for program effectiveness. An automated student information system, with selected characteristics for technical programs, is used in evaluating the effective preparation of students for continued education, employment, and service in the military. This automated system is a major factor in the accountability requirements of the Act. In addition, the operation and refinement of the Methods of Administration are components of the ongoing program evaluation.

The Act includes two major components: the Basic Grant and Tech Prep. The Basic Grant funds are for program improvement. Tech Prep funds are earmarked for the development of programs that combine at least two years of secondary education with at least two years of postsecondary education in a technical course of study leading to employment or further education. Tech Prep uses work-based and worksite learning where appropriate and available. The Department for Technical Education provides statewide direction, leadership, and supervision for this initiative.

The Kentucky Technical Education (KTE) Personnel Board was established by executive order in 2001 and the State Board for Adult and Technical Education was abolished. The Board consists of five representatives from the other departments in the Workforce Development Cabinet.

The KTE Personnel Board has the authority and responsibility to conduct personnel appeals procedures for employees subject to the personnel provisions in KRS Chapter 151B.

The KTE Personnel Board meets as necessary to comply with time frames for conducting personnel appeals, and at such other times as may be called by the chair. The office of the board is attached to the Cabinet for Workforce Development for administrative, budgetary, and support services.

The Department for Adult Education and Literacy (DAEL) was formed in 1993 as a result of the merger of the Kentucky Literacy Commission and the Office of Adult Education. The Department funds a network of local instructional programs statewide to assist adults in acquiring knowledge, and achieving their goals in the workplace, at home, and in society.

The federal Adult Education and Family Literacy Act specifies the administrative responsibilities of the state agency in regard to the supervision of federal adult education funds. KRS 151B governs the administration of adult education and literacy funds and places the responsibility of administering those funds with the Cabinet for Workforce Development. The Department for Adult Education and Literacy is designated to administer the federal adult education funds.

The United States Department of Education requires that the state agency receiving adult education funds submit a five-year state plan that establishes performance measures. The DAEL Commissioner serves as the State Director of Adult Education, prescribes administrative regulations of the Department, oversees activities in the Department, and administers adult education and literacy programs. The Department ensures that federal, state, and local program requirements are met including oversight and reporting.

State Senate Bill 1, passed during the 2000 legislative session, established a new structure for the adult education services in Kentucky. The legislation required the Council on Postsecondary Education (CPE) to establish a statewide mission for adult education and to develop a 20-year strategy in partnership with DAEL. Further, CPE is charged with leading a statewide marketing campaign, establishing standards for adult literacy, and administering the adult education and literacy trust fund. The legislation authorizes DAEL to carry out the mission and to implement the 20-year strategy. The CPE Board has approved the Adult Education Action Plan and this plan has been included in the revised state plan submitted to the US DOE.

The organizational structure of the Department supports the effective delivery of adult education services. DAEL is organized into three divisions:

The Division of Management Services oversees contracting and fiscal processes, collects and analyzes data, and develops policy recommendations.

The Division of Program Services provides regional consulting, offers curriculum and instructional support, coordinates professional development activities, and administers the General Educational Development (GED) diploma services.

The Division of Workforce Investment assists business and industry in improving the essential workplace skills of their employees and promoting economic growth and provides leadership to the Workforce Alliance.

The Kentucky Adult Literacy Survey (KALS) reports 1 million Kentuckians, age 16 to 65, function at the lowest levels of literacy. This number represents approximately 40 percent of the state's workforce. The lack of literacy skills is interconnected with unemployment, poverty, welfare, crime, health, and substance abuse. There is a strong relationship between low educational attainment and the state's per capita income. Kentucky's education and skill levels will increase along with its economic vitality as more adults engage in life-long learning.

The Department for Adult Education and Literacy (DAEL) administers a statewide, comprehensive adult education system using both federal and state funds. A portion of the state funds allocated to DAEL are devoted to matching the federal funds and providing the required maintenance-of-effort. The Department integrates federal and state adult education funds and grants funds through a competitive grant process open to eligible entities identified by statute. DAEL contracts with the various agencies selected through this process to provide adult education and literacy services in all 120 counties. Among these agencies are local boards of education, community and technical colleges, community-based organizations, education consortia, public and private non-profit organizations, and correctional institutions. DAEL delivers instruction to improve educational skills through several program types: literacy/ABE/GED; family literacy; workplace education; corrections education; and English as a second language (ESL).

Kentucky has provided funds beyond the required match, to increase program capacity and add service delivery models.

A new web site, Kentucky Virtual Adult Education (KYVAE), has been created to provide information to adult educators and to increase educational options for adult learners.

The federal Adult Education and Family Literacy Act specifies the administrative and oversight responsibilities of the state agency regarding to the federal adult education funds. KRS 151 governs the administration of adult education and literacy funds and places the responsibility of administering those funds with the Workforce Development Cabinet's Department for Adult Education and Literacy (DAEL). Integrating federal and state funds, DAEL administers a comprehensive adult education system designed to meet the varied needs of Kentucky's eligible adult learners.

Pursuant to the federal act, DAEL must provide direct and equitable access to adult education funds through a competitive grant process. DAEL contracts with the various agencies selected through this process to provide adult education and literacy services in all 120 counties. Among these agencies are local boards of education, community and technical colleges, community-based organizations, education consortia, public and private non-profit organizations, and correctional institutions.

The federal allotment is calculated using a formula based on the percentage of the state's population lacking a high school credential. The federal legislation requires DAEL to use not less than 82.5 percent of the federal dollars to fund grants for direct adult education and literacy services. Of this 82.5 percent, not more than 10 percent can be used for corrections education. The legislation allows for not more than 12.5 percent of the funds to be used for state leadership activities (such as professional development) and caps the amount that can be used for administrative expenses at five percent.

Policy

Included within the Governor's recommended budget is a current year appropriation increase in federal funds of \$3,646,600.

The Department for Adult Education and Literacy (DAEL) uses federal, state and agency funds to provide services to meet the basic educational needs of Kentucky's eligible adult population. This system provides services in a variety of settings and locations using instructional methods to best suit the adult learner's individual needs. Agency funds are derived from two sources-GED fees and the Council on Postsecondary Education's Adult Education Trust Fund.

GED Fees

The Department is the administering agency for the General Educational Development (GED) diploma program. DAEL oversees the GED Testing Program jointly with the GED Testing Service of the American Council on Education. The GED Testing Program provides statewide testing in the areas of: language arts, writing; social studies; science; language arts, reading; and mathematics. These tests measure the educational achievement of adults who have not graduated from high school and compare their competency with that of high school seniors. DAEL's state GED Administrator monitors GED testing centers; acts as liaison to the American Council on Education's GED Testing Service; coordinates training for GED test examiners; reviews applications for special accommodations on the GED tests; provides high school equivalency diplomas to examinees and processes requests for duplicate diplomas/transcripts; and reports Kentucky's annual GED test results. Fees received for duplicate diplomas and transcripts, as well as a portion of the testing fee, help to support some of these activities.

Adult Education Trust Fund

State Senate Bill 1, passed during the 2000 session, created new statewide opportunities to expand adult education efforts. The Council on Postsecondary Education (CPE) approved An Agenda for Adult Education in Kentucky and the Adult Education Action Plan as directed by SB 1. The agenda establishes a 20-year strategy and statewide mission for adult education in partnership with DAEL. The action plan authorized the release of Adult Education Trust Fund dollars to provide certain activities. DAEL is charged with implementing some of the activities and administering those funds. These activities are:

- Workforce Alliance-funds are available through an application process to facilitate workforce education and training services.
- Family Literacy Programs-Trust Fund dollars are blended with DAEL family literacy state funds to support family literacy programs in every county.

- Basic Grant Foundation Funds-foundation funding increases the allocation to the counties' base formula level. The formula is determined by multiplying a per learner cost by the total number of people residing in the county functioning at Literacy Levels 1 and 2.
- Rewards-local adult education programs that meet or exceed annual enrollment goals and a percentage of the key indicators of performance will receive a financial reward based on the percentage of performance goals met. Rewards are used for non-recurring costs that enhance local adult education services.

Audits-20 percent of the local adult education programs will be audited annually (both fiscal and programmatic).

The Department of Vocational Rehabilitation provides for and improves the vocational rehabilitation of citizens with physical and mental disabilities. The Department helps empower eligible persons with disabilities achieve suitable employment.

The Department uses vocational assessments, counseling and guidance services to match workers with disabilities to labor market needs. Job preparation activities include on-the-job training, vocational and classroom instruction. Job development and placement services assist the individual in obtaining and maintaining suitable employment. Transition activities support a move from the classroom to the workplace. Rehabilitation technology adapts the physical environment at work or home to meet employment needs. Follow-up services ensure that employment is progressing satisfactorily.

The Department also provides services for employers. The Department prepares job-qualified applicants, conducts job analyses, recommends job modifications, and conducts disability awareness programs. Other services include disability awareness training programs and affirmative action planning and services to employees with disability related problems. As a result, employers experience risk reduction, save resources spent on training new hires, and increase cash flow through access to tax incentives.

The Rehabilitation Act of 1973 authorizes and provides federal funding for state vocational rehabilitation programs. KRS 151B.180-210 complies with all provisions of the Acts. The Code of Federal Regulations (CFR Chapter 34) and Title 781 of the Kentucky Administrative Regulations establish functions of the program. The Department also complies with other relevant sections of the Education Department General Administrative Regulations.

Policy

Program Services Unit contains increased General Fund support of \$200,000 in each year of the biennium to address the extended, supported employment needs of some of Kentucky's most disabled citizens.

The Administrative Management Division provides all administrative, technical, and budget related services for the Department and is responsive to the needs of the direct service delivery program staff. Responsibilities include budgeting, purchasing, financial reporting, and federal grant accounting. The Division oversees the implementation and administration of the automated case management system and coordinates the development of application programs. Staff in the Division are also responsible for records retention and maintenance of the Department's inventory records.

The Division also coordinates the recouping of program income through the Social Security Administration (SSA). This is coordinated with the SSA for reimbursement of paid vocational rehabilitation services for individuals receiving SSI/disability benefits. The Division also negotiates on behalf of the Department and certain Community Rehabilitation Programs for the purchase of facility and community-based competitive employment outcomes and vocational evaluations. The staff then monitors the success of purchased services.

The Carl D. Perkins Comprehensive Rehabilitation Center (CDPCRC) at Thelma, Kentucky, is a multi-disciplinary residential rehabilitation facility located in the Eastern Kentucky Concentrated Program (EKCEP) service delivery area. The proportion of disabilities in the population of Kentucky, as analyzed by Area Development Districts (ADDs), is highest in the ADDs located in southeast Kentucky. Although the majority of referrals to the CDPCRC come from the eastern part of Kentucky, staff of the Center regularly provide services to consumers from the entire Commonwealth.

The CDPCRC's five major programs of operation (i.e. Vocational Evaluation; Work Adjustment; Vocational Training; Physical Restoration/Outpatient Medical Rehabilitation; and Brain Injury Community Re-entry) meet state of the art standards for program quality as documented by accreditation authorities for organizations serving consumers with disabilities (CARF). The CARF is the nationally recognized accreditation authority for organizations serving consumers with disabilities. The CARF standards require that accredited facilities provide consumers with timely, quality services that meet the needs of each individual. Center staff utilize CARF accreditation as a marketing tool to obtain new referrals for all programs. The Center's Outpatient Program is CORF (Comprehensive Outpatient Rehabilitation Facility) licensed.

Within these five programs the following professional services are available: comprehensive vocational assessment; vocational training; physical therapy; occupational therapy; speech therapy; nursing services; physician services; adjustment services; psychological and psychiatric services; adult therapeutic recreation; vocational rehabilitation counseling; social services; assistive technology; transportation; and administrative services. A wide range of educational programs and services including developmental math/reading/GED test preparation, and the External Diploma Program are also available. The CDPCRC offers individualized placement services through PACE (Preparing Adults for Competitive Employment) and an Employment Relations Specialist.

The Rehabilitation Act of 1973, as amended, provides statutory and regulatory authority for the Vocational Rehabilitation Program. Program Planning and Development provides administrative and staff functions to enhance equitable, efficient service delivery to eligible individuals with disabilities. The Division has statewide responsibility for program planning, program evaluation, policy development, human resource development, job development and placement, and development of new and innovative programs. The Division also provides staff support to the Statewide Advisory Council for Vocational Rehabilitation and the Statewide Independent Living Council. Federal regulations require an approved State Plan for Vocational Rehabilitation Services under Title I of the Rehabilitation Act as a condition for receiving federal funds. State plans, administrative regulations and policy development are housed in Planning and Development. Strategic, long-range planning addresses the economic and public policy needs of the identified 346,000 Kentuckians of working age with disabilities who are unemployed, as well as the more than 60,000 children with severe disabilities who will soon enter the vocational rehabilitation service delivery system.

The Program Services unit provides direct vocational rehabilitation services to eligible individuals who have physical or mental disabilities to enable them to achieve suitable employment. Program Services is responsible for the actual intake and client service delivery efforts of the Department and performs certain administration functions.

The Division implements the federal Rehabilitation Act of 1973 and must make available services appropriate to the needs of individuals with disabilities. The services enumerated in the Rehabilitation Act include: evaluation of vocational rehabilitation potential; counseling and guidance; physical and mental restoration services; vocational and other training services; maintenance; transportation; services to family members; interpreter services and note-taking services for persons who are deaf; reader services and note-taking services for persons who are blind; assistive technology and devices; personal assistance services; recruitment and training services; placement; post-employment services; occupational licenses, equipment, initial stock, and supplies; and other goods and services needed for employment.

Policy

In addition to continuation of existing services, the Governor's recommended budget increases General Fund support of the Supported Employment Funding Initiative by \$200,000 in each year of the biennium. This action addresses the needs of some of Kentucky's most significantly disabled citizens.

Pursuant to KRS 163.470, the Department for the Blind provides services to assist individuals with severe visual disabilities in preparing for and obtaining employment. The Department provides services to approximately 1,500 individuals with severe visual impairments so that they can receive the education and specialized training services needed to become independent and self-sufficient in the workplace.

Since its creation 20 years ago, the Department has provided for the vocational rehabilitation of blind and visually impaired Kentuckians. Departmental staff perform vocational counseling, evaluation, physical and mental restoration, vocational and higher education training, assistive technology training, adaptive devices, orientation and mobility training, and job placement services.

The Department accomplishes this mission through the following avenues:

- The Department has 11 field offices that provide direct vocational rehabilitation services to individuals with severe visual impairments.
- The Charles McDowell Comprehensive Rehabilitation Center for the Blind is a comprehensive rehabilitation facility in Louisville that provides training in vocational preparation, personal adjustment services, independent living skills, orientation and mobility skills, Braille, assistive technology, career assessment, vocational planning, work adjustment, and work experience.
- In Lexington and Paducah, the Department operates two volunteer recording units that provide audio-recorded materials statewide for blind and visually impaired individuals.
- The Business Enterprise Program trains blind individuals for self-employment at vending facilities located statewide.
- The Independent Living Program provides training to blind and visually impaired individuals in areas that will enable them to live and function independently.

The Kentucky Assistive Technology Service (KATS) Network is a federally funded project operating within the Department for the Blind. KATS is a statewide collaborative system of consumer-oriented organizations that provides services in the provision of assistive technologies.

The amount of annual awards to individual states under the Assistive Technology Act of 1998 (P.L.105-394) are determined by a formula administered by the Secretary of the U.S. Department of Education. This Act provided the Kentucky Tech Act Project with a sunset provision for three years funding that ends at the close of fiscal year 2002.

Policy

The Governor's recommended budget recognizes the sunset provision in the federal program and allows the remaining funds to be spent in fiscal year 2003.

Pursuant to KRS 163.470(12) and the federal Randolph-Sheppard Act, the Division of Business Enterprises Program (BEP) establishes vending facilities on state, federal, and other property to provide remunerative employment for licensed visually impaired merchants. This program provides management services and training to visually impaired individuals, identifies and develops new sites suitable for vending facilities, and repairs and replaces equipment in existing vending facilities.

The Department for the Blind receives a commission based upon the percentage of gross sales from vending operations located in all interstate highway rest areas. The visually impaired merchants contribute five percent of their net income to the Department. The funds received from the interstate vending contract are utilized exclusively in the Business Enterprise Program.

Pursuant to KRS 163.470 and Title VII of the Rehabilitation Act, independent living specialists provide short-term, individualized instruction for individuals who are blind so they may be able to function independently. Services include information, counseling, and skills training in activities of daily living. Mobility training, assistive devices, referrals to community resources in housing and transportation, and information on services offered by other agencies are provided. The service population consists mainly of individuals who are elderly or unable to work due to the severity of disabilities. The population of the Independent Living program makes up two-thirds of the blind population in the State.

The Department employs eight independent living specialists who are located throughout the state. The average caseload for an independent living specialist is currently 150 new cases annually. These specialists make home visits and provide specially-adapted aids and appliances such as Braille and talking watches, controls on stoves, writing guides, phone dials, and canes. They provide limited instruction in household tasks such as cooking, keeping time, and learning in the home. The specialists also work with families to educate them about blindness and how to promote independent living.

Pursuant to KRS 163.470 and the Federal Rehabilitation Act of 1973, the General Blind Services program provides vocational rehabilitation to individuals with severe visual disabilities that will result in gainful employment in integrated settings. The program consists of the Division of Client Services with ten statewide offices where qualified staff provide evaluation, vocational counseling, physical and mental restoration, college and vocational training, job placement, and other services which enable the visually disabled individuals to be more productive in the workplace.

The General Blind Services program includes the Charles McDowell Comprehensive Rehabilitation Center for the Blind and the Volunteer Recording Program. The Charles McDowell Comprehensive Rehabilitation Center for the Blind, located in Louisville, is a comprehensive rehabilitation facility that provides vocational preparation, adjustment services, Braille curriculum, assistive technology training, career assessment, and work experience. The Volunteer Recording Program in Lexington and Paducah provides audio-recorded materials needed by individuals throughout the state in vocational training.

KRS 161.550 requires each employer to match contributions made to the Teachers' Retirement System by its employees who are members of the System. For those Workforce Development Cabinet employees who are Teachers' Retirement System members, the contribution is 9.855 percent of salary. Additionally, each employer is required to pay a 3.25 percent overmatch to defray the System's unfunded liability.

Policy

The recommended budget includes the employer match for salaries paid to teachers and other Cabinet employees who participate in the System. This match will be forwarded to the Teachers' Retirement System.

The Department for Training and Reemployment (DTR) is responsible for the administration and implementation of the Workforce Investment Act of 1998. These responsibilities include:

- Conducting the day-to-day program operation of the Workforce Investment Act (WIA) and providing technical assistance to the local workforce development areas that administer WIA. The Financial and Program Operations Branch performs this duty and ensures compliance with the overall financial management functions required by WIA.
- Conducting oversight and monitoring of Title I of WIA and related activities. This includes annual on-site monitoring reviews of local areas' compliance with uniform administrative standards, the Act, and regulations. The Program Compliance and Support Branch performs these duties along with local board certification, development and issuance of eligibility policies, development and maintenance of a statewide training provider list, implementation of a mandated and optional performance management system, and the development of a Management Information System (MIS).

The Workforce Investment Act specifies three funding streams to the states and local areas: adults, dislocated workers, and youth.

- Of the total adult funds received by the state, 85 percent of the funds are allocated to Kentucky's 11 Workforce Investment Areas, ten percent of the funds are reserved for statewide programs, and five percent is retained for state administrative functions.
- Of the total dislocated worker funds received by the state, 60 percent of the funds are allocated to Kentucky's 11 Workforce Investment Areas, 25 percent of the funds are reserved for State Rapid Response activities, ten percent of the funds are reserved for statewide programs, and five percent is retained for state administrative functions.
- Of the youth funds received by the state, 85 percent of the funds are allocated to Kentucky's 11 Workforce Investment Areas, ten percent of the funds are reserved for statewide programs, and five percent is retained for State administrative functions.

The Department for Employment Services (DES) administers federally-funded programs that provide employment related services to the citizens of Kentucky. The DES provides a wide array of high quality, professional services to employers and job seekers which result in economic stability for the individual and further the economic well-being of the Commonwealth. These services include employment counseling, testing, assessment, job search assistance, and placement services to all citizens, as well as training programs for dislocated workers and other individuals who are economically disadvantaged.

The majority of the programs in the Department are funded by federal grants, with the principle revenue source derived from the Unemployment Insurance (UI) program. The federal government, through the employer-paid Federal Unemployment Tax (FUTA), provides the Department's operating and capital funding for the two programs.

The Department also receives funds to administer several smaller programs that are related to UI and ES, including: Veterans' Employment and Training Services, Labor Market Information, Alien Labor Certification, Agricultural Wage Surveys, Alien Farmworker Housing Inspections, and Temporary Assistance for Needy Families (TANF). The DES administers training programs under the Trade Adjustment Assistance Program, Title I of the Workforce Investment Act, and the North American Free Trade Agreement-Transitional Adjustment Assistance/Transitional Readjustment Allowances Programs. These programs are designed to provide temporary income maintenance through UI to individuals who are unemployed through no fault of their own, and to assist the unemployed, underemployed, and persons who wish to change occupations in finding suitable employment. Additional benefits include the reduction of public burden through the early placement of welfare recipients and UI claimants.

The Department is also responsible for assessing and collecting taxes from employers to distribute benefits to those who qualify for unemployment compensation.

Policy

In the Governor's recommended budget, Facility Replacement/Renovation policy authorizes the Department to develop and implement a facility replacement and renovation program to improve the quality of Workforce Development Cabinet facilities used by the Department and its clients, and to reduce departmental reliance on lease/rental properties. The Department is directed to coordinate this program with the Secretary of the Finance and Administration Cabinet and the Department for Facilities Management in the Finance and Administration Cabinet. Proceeds acquired from the sale, transfer, or other disposition of existing facilities may be expended toward the purchase, construction, renovation, and equipping and furnishing replacement of these facilities. Expenditures authorized by this provision are limited to the use of funds solely derived from the sale of Cabinet-owned facilities, which equity rights are shared between both the state and the federal government. Any project estimated to cost over \$400,000 shall be reported to the Capital Projects and Bond Oversight Committee by the Secretary of the Finance and Administration Cabinet.

Notwithstanding KRS 341.835, the Department shall use funds from the Unemployment Insurance Penalty and Interest Account during the 2002-2004 biennium for Employment Services.

Funds are appropriated under the Kentucky Social Security Act Section 903 as amended to be used under the direction of the Department for Employment Services for administration of its unemployment compensation law and public employment office.

There are two objectives of the Employer and Placement Services program. The first is to assist individuals who are unemployed, underemployed, or simply seeking to change their employment situation. The second is to assist employers in obtaining qualified workers to fill job openings as quickly as possible. This program provides counseling, employment testing, job development, referral, and placement.

Policy

In the current fiscal year, the Governor's recommended budget contains \$1,467,100 in increased federal appropriations for Job Placement Services.

During the 2002-2004 biennium, Governor's recommended budget provides General Fund support of \$686,000 in fiscal year 2003 and \$344,600 for continuation of existing services. Additionally, the recommended budget provides \$3,000,000 in fiscal year 2003 and \$3,489,000 in fiscal year 2004 from the Unemployment Insurance Penalty and Interest Account. Notwithstanding KRS 341.835, these funds shall be used during the 2002-2004 biennium to maintain current services in Job Placement Services.

The Special Projects Program covers three contractual programs which are offered by the Department for Employment Services.

Under Title I of the Workforce Investment Act (WIA), dislocated worker services are funded through 11 workforce investment areas across the state. In two of the areas, the administrative entity has contracted with the Department to provide a full range of applicant services to dislocated workers.

The Department for Employment Services receives funding from the U.S. Department of Labor under a National Reserve Grant to provide services to dislocated workers from the garment industry. The grant was written to serve affected garment workers whose jobs were impacted by foreign trade. Under this grant, the Department provides assessment, counseling, testing, brokers for retraining, and assists in job placement to eligible dislocated workers.

The Department contracts with the Cabinet for Families and Children (CFC) to implement a strategy and program to help adult Kentuckians make the transition from welfare dependency to long term self-sufficiency.

The Department performs an employment assessment on each participant referred by CFC, Department for Community-Based Services, to determine needs and skills. An "Employability Development Plan" is created for each participant that includes an employment goal and a series of activities necessary to reach that goal, including high school and equivalency programs, basic and remedial education, work readiness activities, and job skills training.

The purpose of the Unemployment Insurance (UI) program is to provide temporary financial assistance to workers who become unemployed through no fault of their own, in the form of regular UI benefit payments in an amount determined by the claimant's wage history. Regular UI benefits are funded entirely through payment of the state unemployment taxes by employers within the state determined liable under KRS Chapter 341 based upon the size and duration of payroll.

Policy

The Governor's recommended budget contains a \$5,125,800 increased appropriation in federal funds to support continuing services within the Department for Employment Services and Unemployment Insurance Administration.

Notwithstanding KRS 341.835, the Governor's recommended budget provides that the Department for Employment Services to operate employment and training programs shall use funds from the Unemployment Insurance Penalty and Interest Account in the Unemployment Compensation Administration Fund during each fiscal year of the biennium. In respective fiscal years, \$280,000 and \$630,800 is recommended to maintain current services within Unemployment Insurance Administration. Additionally, \$310,400 in General Fund is provided during fiscal year 2003 to maintain current services in Unemployment Insurance Administration.

Within the Department, the Division of Unemployment Insurance supports the claims activities initiated in the local offices of the Division of Field Services. In the central office, the Benefit Branch ensures and accounts for the proper payment of regular Unemployment Insurance (UI) and federal program benefits, including the determination of chargeability to a specific employer for the cost of each regular UI claim. In cases where benefits have been drawn in error, the branch pursues restitution and, if fraud is involved, pursues prosecution of the claimant. The Benefits Branch also operates an interstate claims "local office" to serve claimants covered under Kentucky law but filing from other states.

In addition to regular UI benefits, the program also administers payment of federal benefits to unemployed federal employees and discharged military personnel, those affected by changes in international trade, those affected financially in federal disaster areas, and those covered under the Extended Unemployment Compensation program. With the exception of partial payment from State UI funds in the case of some extended benefits, these programs are financed in entirety by employer federal unemployment tax collected by the Internal Revenue Service.

The administrative component of the Unemployment Insurance program provides benefit payments based on earnings in a specific transaction period. Revenues for this program are derived from a federal unemployment tax on employers' payrolls.

KRS Chapter 341 provides the statutory authority and structure for the operation of the Unemployment Insurance (UI) program in Kentucky. With regard to most particulars involving worker coverage, benefit entitlement and employer liability, KRS Chapter 341 conforms to federal unemployment law derived from the Social Security Act of 1935. This state and federal statutory conformity is required in order for Kentucky employers to receive a credit against federal unemployment tax based on state tax payments, and in order for the agency to receive federal administrative funding.

Policy

Notwithstanding KRS 341.835, the Governor's recommended budget provides that the Department for Employment Services shall use funds from the Unemployment Insurance Penalty and Interest Account in the Unemployment Compensation Administration Fund during each fiscal year of the biennium. In respective fiscal years, \$280,000 and \$630,800 is recommended to maintain current services within Unemployment Insurance Administration. Additionally, \$310,400 in General Fund is provided during fiscal year 2003 to maintain current services in Unemployment Insurance Administration.

Senate Bill 296 was passed by the Kentucky General Assembly in 1998. The bill cut employer-paid Unemployment Insurance (UI) taxes, increased UI benefit payments for unemployed workers, and provided \$10 million per year over a three-year period to improve the Department for Employment Services' ability to deliver services to Kentucky employers and job seekers. This latter provision is referred to as the Service Capacity Upgrade Fund (SCUF).

While the bulk of SCUF monies are to be invested in automating unemployment insurance tax collection, benefits claims, work registration, and other processes, funding was also allotted to provide immediate and direct services to job seekers and employers. Specifically, funding was allotted to provide customized recruitment services for employers (Account Management), testing of job seekers to provide the most qualified workers to meet employer needs, and intensive job placement efforts on behalf of UI recipients (Case Management). These services were implemented in April 1999.
