Section 1 Introduction to KBUD

The Kentucky Budgeting (KBUD) system will be used to develop the 2022-2024 biennial budget. This manual will provide information on the KBUD system and how to use it to enter, change, report and submit the majority of their biennial budget request. This process will enable the Commonwealth to meet the statutory requirements of KRS Chapter 48 for preparing and submitting agency biennial budget requests to the Office of the State Budget Director/Governor's Office for Policy and Management (OSBD/GOPM) and the Legislative Research Commission (LRC). It will enable the Commonwealth to provide the information required for submission contained in the 2022-2024 Branch Budget Request Manual (Budget Instructions). It is essential that agencies read and understand the 2022-2024 Budget Instructions in order to complete and submit their biennial budget request accurately, on-time, and in the correct format. The 2022-2024 Branch Budget Request Manual along with other budget resources can be found on OSBD's Website at the following location: http://osbd.ky.gov/Pages/KBUD-Information.aspx

Section 1.1 Benefits of KBUD

Publish Budget Documents

The KBUD Reporting tool (Enterprise Business Intelligence or also known as EBI) will provide the budget reports necessary to produce or support the production of the various biennial budget documents. This will enable the Commonwealth to meet the statutory requirements for biennial budget documents and support the display and presentation of the Commonwealth's budget decisions to the public.

Data Consolidation

KBUD will provide automatic data consolidations or "roll-ups" of budget information. This function will enable the Commonwealth to consolidate budget information from the lowest level to the many and varied higher levels. The Commonwealth will be able to produce budget reports and information that consolidate Programs, Funds, Projects, Expenditures, Revenues and other budgetary information within KBUD.

Record the Trail of Changes

KBUD will provide an audit trail of all changes made to a budget request prior to its submission. This function will enable the Commonwealth to track and record the many changes that occur to a biennial budget request during its development process. This will provide a valuable troubleshooting aid in a process that is large and complicated.

Section 1.2 KBUD Setup Summary

The section is a summarized version of the technical setup requirements necessary for an user to create an agency budget submission. For technical help with KBUD, you can contact the KBUD Administrator at <u>KBUDAdministrator@KY.GOV</u>.

The Commonwealth uses two separate applications to complete the full development of an agency's budget:

- KBUD application has built-in forms and tables for users to enter the budget data information necessary to create the KBUD reports. The link to the application is <u>https://kbud.ky.gov/</u>. Each user requires a separate KBUD account to utilize the application. Contact the KBUD Administrator at KBUDAdministrator@KY.GOV to request access instructions.
- 2) KBUD Reporting is hosted on SAP's Enterprise Business Intelligence (EBI) platform and allows user to run and print pre-built budget reports designed for the budget preparation process. The link to this application is <u>https://ebi42.ky.gov/BOE/BI/logonNoSso.jsp</u>. Each user requires a separate EBI account to utilize the application. Contact the KBUD Administrator at <u>KBUDAdministrator@KY.GOV</u> to request access instructions.

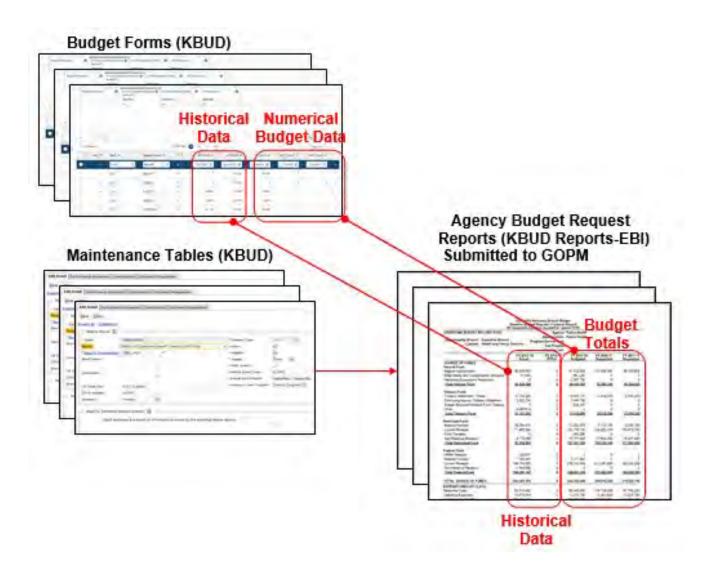

NOTE: Users can access both applications through compatible Web browsers (Microsoft's Edge, Google Chrome, or Mozilla Firefox). Only certain versions of these browsers will work with KBUD or EBI.

Section 2 Baseline Budget Request

Section 2.1 Budget Form Overview

Budget forms and maintenance tables are the primary tools within KBUD used to produce the agency budget request reports. The budget request reports are the final output used by agencies to submit their formal budget request to GOPM. The numerical budget data entered on the agency's forms is translated into budget totals on the budget request reports. In addition to the budget request forms, the information entered into the maintenance tables is also used to produce the budget request reports.

The 2224_PS_A2-A3-A4-A5, Post Sec - A2/A3/A4/A5 Baseline Budget Request form is the primary form used to produce your agency's 2224 baseline budget request.

Section 2.2 Creating a Baseline Budget Request

This section includes an overview of the baseline creation process along with the detailed instructions to create a baseline budget request required by the 2022-2024 Budget Instructions.

Section 2.2.1 Assumptions, Conditions, and Directions

The following is a list of helpful assumptions, conditions, and directions that should be followed and understood prior to creating a 2022-2024 baseline budget in KBUD:

- The user should review and understand the LRC's 2022-2024 Budget Instructions located on OSBD's Website (Link to Webpage - <u>http://osbd.ky.gov/Pages/KBUD-</u> <u>Information.aspx</u>).
- All budget requests outside of the baseline budget requests needs to be separately requested as an Additional Budget Request.
- There are several aids (tools) to assist in the budget request calculations located on OSBD's Website (Link to Webpage - <u>http://osbd.ky.gov/Pages/KBUD-</u> <u>Information.aspx</u>).
- The user has an active KBUD and EBI (KBUD Reports) accounts with the correct agency security to perform the actions required. If not, contact the KBUD administrator at <u>KBUDAdministrator@ky.gov</u> to obtain a copy of the KBUD Security form and instructions.
- For postsecondary agencies, users will also need a Citrix account from CPE Technical Support to access the KBUD and EBI (KBUD Reports) applications behind the state's firewall.
- Any specific budget preparation-related questions should be addressed to the agency's assigned GOPM policy and budget analyst, not to the KBUD Administrator.
- Any KBUD technical questions should be addressed to the KBUD administrator at KBUDAdministrator@ky.gov.
- The use of every function and/or feature within KBUD or EBI (KBUD Reports) will not be demonstrated in this section of the manual, only the ones necessary to produce a baseline budget request. Any other questions concerning additional functions or features within KBUD can be addressed to the KBUD administrator at <u>KBUDAdministrator@ky.gov</u>.

Section 2.2.2 Process Overview

Section 2.2.5 Entering Budget Data in the 2224_PS_A2-A3-A4-A5 Form

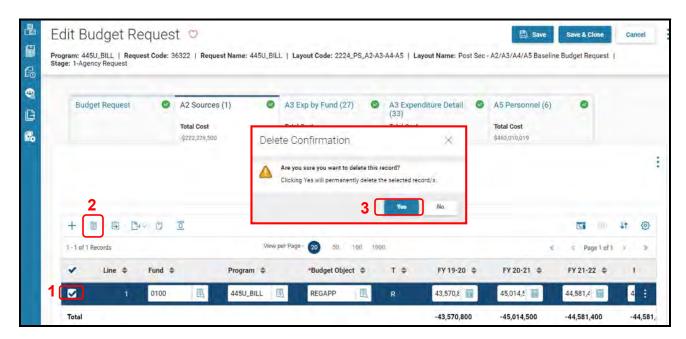

- Once the new form is created, you will be able to access all the necessary tabs within the form. You can follow these steps to **manually** add line-by-line information to each tab.
 - 1. Click on the A2 Sources tab (NOTE: You can now add your baseline Sources of Funds)
 - Click the Plus sign + to add a new blank line NOTE: Continue to add new blank lines for each line of budget data you need to enter for this program. Enter a separate budget line for each fund/budget object combination required by the 2022-2024 Budget Instructions for the two historical years (FY20 and FY21 Actuals), the current fiscal year (FY22 Budgeted), and the two budget request years (FY23 and FY24 Requested)
 - 3. Enter the appropriate budget data on the line. Every line will require a fund, program, and a budget object. To use the search feature for these items, follow these steps:
 - 3-1) Click on the Search icon for the Budget Object
 - 3-2) From the Budget Object Search page, either use the search fields to refine your search results or leave all the fields blank to see all the available codes
 - 3-3) Click the Search button to execute the search
 - 3-4) Click on and highlight the desired code, and click the OK button
 - 4. Once you have finished entering all your budget lines for this tab, click the Save button
 - 5. Click one of the next tabs to add more budget lines or click the Save & Close button to exit the form

New 2224_PS_A2-A3-A4-A5 Form for 445U_BILL

- KBUD also has the ability to import an Excel spreadsheet (XLS) to load all the budget lines automatically instead of manually adding each budget line one at a time. In these next steps, we will delete the single budget line entered in the previous steps and import all of the necessary budget lines using KBUD's import feature. To delete the single budget line, follow these steps:
 - 1. Click on the checkbox next to the budget line needing to be deleted
 - 2. Click the Delete icon, and KBUD will confirm the deletion.
 - 3. Click the Yes button and KBUD will confirm the Action was successful and permanently delete the line

	Program 🗢	*Budget	Object \$	т ф	FY 19-20 \$	FY 20-21	\$	FY 21-22 \$	FY 22-23	\$	FY 23-24	\$

 Now that the single budget line has been deleted, we will import all the budget lines using the KBUD import feature and Excel to create the import file (spreadsheet) as an Excel file. You will need to open the Excel file and add your budget lines into a worksheet and edit the cells by following the formatting rules (IMPORTANT NOTES: For the import process to be successful, you will need to ensure your Excel import file complies with all of the following formatting rules):

The first row of the Excel file needs to exactly match the column headers on the form tab in terms of name, case, and order from left to right (see the comparison below). It is recommended to use the Export feature in KBUD to download the tab's column headings in an Excel file to be used as a template for your import file. Once you have downloaded the headers, then you can add your budget lines to the Excel file and use the file to import the budget lines into KBUD.

2. Any fund cells with fund types that begin with a leading zero must include this zero. Excel will drop the leading zero if the cell is formatted as a currency or accounting format. To resolve this issue, highlight the affected column or cell, change the format to Text format, and add the "0" back to the fund "100", so that it appears as "0100". You will need to fix all fund cells.

- 3. Utilize numerical data for the five budget data columns and ensure those cells are formatted in Excel <u>text</u>, <u>general</u>, or <u>number</u> format and not in the <u>currency</u> or <u>accounting</u> format. Do not include the \$ sign in the cell or do not use any formulas or total rows. (NOTE: All dollar values for the requested fiscal years should be rounded to the nearest \$100. KBUD does not prevent the user from entering non-rounded values, but the 2022-2024 Budget Instructions request the values be rounded).
- 4. Utilize only valid KBUD fund types and budget objects codes combinations for this specific tab. For example, you would not use Fund Type code 1200 (Federal Funds) and Budget Object code REGAPP (Regular Appropriations) as a combination because federal funds are not included in regular appropriations. Also ensure the budget object names are all in upper case format, REGAPP. Refer to the 2022-2024 Budget Instructions for the appropriate budget objects that would apply to each Fund Type (NOTE: You can go to OSBD's Website, <u>http://osbd.ky.gov/Pages/KBUD-Information.aspx</u>, to view a copy of the Budget Instructions, 2022-2024 Branch Budget Request Manual). Below are some of the more common budget objects that may be included in your budget request:

General Fund ONLY

- Regular Appropriation
- Postsecondary Ed Performance Fund

Restricted and Federal Funds ONLY

- Balance Forward
- Current Receipts

- Once you have populated your Excel worksheet with all budget lines and formatted it correctly, save the file as an Excel (XLS) file with a meaningful name and in a location where you will remember to find it.
- Once you have saved the Excel import file, return to A2 Sources tab in the 2224_PS_A2-A3-A4-A5 form. To import the budget lines, follow these steps:

To complete the 2224_PS_A2-A3-A4-A5 form, you will need to repeat the
procedures previously described in this section for the A3 Exp by Fund, A3
Expenditure Detail, and A5 Personnel tabs (NOTE: Each tab may have different
number of columns and different names, so if you are using Excel import files to
upload the budget lines, please be aware of these differences. You will need to
modify the Excel file headers and budget line columns to compensate for these
differences).

The A3 Exp by Fund tab needs to include budget data for each Fund/Program (as determined by your Budget Request Structure) for the two historical years (FY 19-20 and FY 20-21 Actuals), the current fiscal year (FY 21-22 Budgeted), and the two budget request years (FY 22-23 and FY 23-24 Requested). The total expenditures by each fund (EXPBYFUND) must agree with the total sources by each fund on the A2 Sources tab and the program narrative. Click on the A3 Exp by Fund tab and enter the necessary budget lines for your request. Click the Save button when you have finished entering your budget lines.

- The total expenditures on the A3 Expenditure Detail tab must agree with the total expenditures by fund (EXPBYFUND) on the A3 Exp by Fund tab and the program narrative.
- The specific expenditure budget objects each agency will be required to use are reflected in the 2022-2024 Budget Instructions or will be determined through discussions with GOPM and LRC.
- For the remaining expenditures in your request that are not required or specified by your GOPM Analyst, you can choose any detailed budget object codes or summary expenditure codes, such as EOSWM (Other Salaries and Wages – use these for Part-Time Board Member pay), EOPSCM (Other Professional Services Contracts), EOPRSM (Other Personnel Costs), or budget object group codes such as E210M, E250M, and E340M from the Budget Object Search list.
- For **Debt Service** lines, you will choose EDSGEN (General Fund), EDSRES (Restricted Fund), EDSFED (Federal Fund), EDSTOB (Tobacco) or EDROAD

(Road). **Operating Transfer** lines are also available for each of the major object classes: T113, T60C, etc.

- The following is a list of typical Budget Object codes you will use for expenditures:
 - E111 Regular Salaries and Wages
 - E121 Employer Social Security Rates

The A5 Personnel tab is used to identify the number of Full-Time, Part-Time and Other Positions (including Federally Funded Time Limited (FFTL) and Interim positions). For fiscal years 22-23 and 23-24, the number of personnel positions that may be requested in the Baseline Budget Request A-5 Personnel tab is limited to the personnel targeted positions (Funded Personnel Cap) for FY 2022.

- In addition, the A5 Personnel tab includes the amount of funding by fund source for the total personnel positions in each program or sub-program for Baseline Budget Requests.
- When Budget Objects FULLTIME, PARTTIME and OTHERPOS are selected, the Status column must be completed. The available values for the Status column are FILLED and VACANT. If any other Budget Objects are used, the Status column will be 0 (NOTE: The Total row should be ignored since its value has no meaning in this budget form).
- Click on the A5 Personnel tab and enter the necessary budget lines for your request. Click the Save button when you have finished entering your budget lines.

A5 Personnel tab

The final step to complete the 2224_PS_A2-A3-A4-A5 form is to use the Budget Request tab to upload a comprehensive program narrative created in Microsoft Word. The template for the program narrative is named 2022-2024 Baseline Budget Record A4, and it is located on OSBD's Website (Link to Webpage - <u>http://osbd.ky.gov/Pages/KBUD-Information.aspx</u>).

Section 2.2.6 Login to KBUD Reports (EBI) to Access Baseline Reports

In this section, we will login to SAP's Enterprise Business Intelligence Version 4.2 (EBI 4.2) which houses the KBUD Reports and navigate to the 22-24 Biennium folder to access the necessary budget request reports. Reports are the final output of the budget request process. It is important to understand that the data entered directly into the KBUD forms and maintenance tables are used to populate KBUD reports.

Math Check Purpose These three line amounts should never be negative because expenditures cannot exceed sources of funds. In other words, you cannot spend more than what you receive in revenues. What to Do If Math Check Fails If the expenditures by fund source exceed the source of fund totals, adjust the budget data in either the 2224_PS_A2-A3-A4-A5 Form. Either Revenues need to be increased or expenditures by fund decreased.

The Math Check Section is used to check the following for the total of all funds: 1. In this example, the check ensures Total Expenditures did not exceed its Total Source of Funds for all funds combined in each FY

Math Check Purpose These line amounts should never be negative because total expenditures cannot exceed the total sources of funds. In other words, you cannot spend more than what you receive in revenues.

<u>What to Do If Math</u> <u>Check Fails</u> If the expenditures by fund source exceed the source of fund totals, adjust the budget data in either the 2224_PS_A2-A3-A4-A5 Form. Either Revenues need to be increased or expenditures by fund decreased.

- The Math Check Section is used to check the following for the total of all combined funds:
 - 1. In this example, the check ensures Total Expenditures by Funds equal the Total Expenditures by Class for all funds combined for each FY

Math Check Purpose This line ensures the Total Expenditures by Class equals the Expenditures by Fund. What to Do If Math Check Fails If these two totals do not match, either adjust the EXPFYFUND budget data in the 2224_PS_ A2-A3-A4-A5 Form/A3 Exp by Fund or adjust the expenditure detail budget data in the A3 Expenditure Detail tab.

- In the previous Math Check Section, we were checking to ensure Total Expenditures by Funds equaled the Total Expenditures by Class for all funds combined for each FY. If the two amounts do not equal, you may need to adjust the expenditures in the A3 Expenditure Detail tab. The A3 Exp All Detail Report may be a very helpful to determine exactly what expenditures need to be adjusted. This report shows each expenditure amount for each expenditure category along with their total amounts, so it may help you quickly determine where to make the necessary adjustments.
 - 1. Double click on the A3 Exp All Detail report to open up the report
 - 2. Click on Question Mark icon at to ensure the Enter Program Code textbox is visible. This will allow you to enter the required parameter/variable
 - 3. Enter the required parameter/variable into the text box (NOTE: The program code can also be found on the 2224_PS_A2-A3-A4-A5 form in KBUD)
 - 4. Once the proper parameter/variable is entered, the Run icon will be enabled. Click the Run icon to run the report

Section 3 **Additional Budget Requests**

Section 3.1 Budget Form Overview

The two tools within KBUD used to create your Additional Budget Requests (ABRs) are the ABR Maintenance table and the 2224 B2-B3-B4-B5, B2/B3/B4/B5 Additional Budget Request form. These tools are the components necessary to produce the B1B2 Financial Record Report and B3 Expenditure Detail Report in EBI. The narrative data entered in the ABR Maintenance dimension table along with the numerical budget data entered on the agency's 2224 B2-B3-B4-B5 forms are translated into informative budget request reports. These reports are the final output used by agencies to submit their formal budget request to GOPM.

ABR Maintenance

The 2022-2024 Budget Instructions requires agencies to complete Additional Budget Request Records when requesting budget authority from any budgetary fund source in excess of the calculations guidelines provided in the Baseline Budget Request and the Defined Calculations Budget Request. Requests for additional funding must be submitted on Additional Budget Request Records. Requests for current year appropriations for FY 2021-22 must be submitted as an Additional Budget Request. For Executive branch agencies, prior approval by the State Budget Director is required for current year appropriation requests. Additional funding requests fall into these categories:

- 1. **Growth** Requests for additional funding to support the current scope of programs/activities, beyond the Baseline Budget Request and the Defined Calculations Budget Request.
- 2. **Expansion** Funds required to finance proposed expanded agency activities, services, or programs.
- 3. **New** Funds required to finance new operations, programs, and activities; and increases in new services delivered.
- 4. **Fund Source Replacement** Funds required to replace the loss of or reduction in Federal and Restricted Funds.

The Additional Budget Request forms (B Forms) display and function much like the Baseline Budget Request forms (A Forms).

For each agency, there are at least ten blank Additional Budget Request codes in the ABR Maintenance tables that can be used for each B2/B3/B4/B5 Additional Budget Request form. These 10 codes are available, but if additional ABR codes are needed, agencies will need to contact the KBUD Administrators (<u>KBUDAdministrator@ky.gov</u>) to request additional blank codes.

In KBUD, the 2224_B2-B3-B4-B5 form will be used to produce your agency's Additional Budget Request.

B2/B3/B4/B5 Additional Budget Request

The 2224_PS_B2-B3-B4-B5 Additional Budget Request form contains multiple tabs to perform different functions to record the various components of your ABR data:

Section 3.2 Creating an Additional Budget Request (ABR)

This section includes an overview of the Additional Budget Request (ABR) creation process along with the detailed instructions to create an Additional Budget Request required by the 2022-2024 Budget Instructions when a request meets the conditions of an ABR.

Section 3.2.1 Process Overview

The following is a summarized description of the steps involved in the process to create an Additional Budget Request in order to help users understand the flow of the detailed instructions:

- Login to KBUD and navigate to the ABR Maintenance table to update the information for the blank ABR codes that will be used with the 2224_B2-B3-B4-B5 Budget Request forms
- 2) Navigate to the Budget Layout Selection Page to choose the 2224_PS_B2-B3-B4-B5 Budget Request form
- Create an instance of the 2224_PS_B2-B3-B4-B5 Budget Request form for an ABR
- 4) Manually enter the appropriate budget lines (data) into the budget line tab
 - 2224_PS_B2-B3-B4-B5 Budget Request Form Tabs
 - B2 Sources

- B3 Exp by Funds
- B3 Expenditure Detail
 - B5 Personnel
- Login to KBUD Reports (EBI) and navigate to the 22-24 Biennium folder to run and/or print the necessary ABR budget request reports necessary for official budget submission to GOPM
 - B1B2 Financial Record Report (Run this report for each individual ABR)
 - B3 Expenditure Detail Report (Run this report for each individual ABR)

Section 3.2.2 Login to KBUD and Navigate to the ABR Maintenance Table

- Open your browser and enter the URL for the KBUD application into the browser's address bar: <u>https://kbud.ky.gov/</u>.
- Enter your KBUD user ID and password.
- From the Home page, follow these steps:

- 1. Enter the ABR code assigned to this request in the Code textbox
- 2. Click the Search button to search for the fund (If no records are returned, you need to redefine your search. You may want to try using a wildcard search: Example 527A22*)
- 3. Check the 3 dot menu and select the Edit function
- 4. The Edit ABR screen will appear
- 5. Update any of the ABR information not greyed out
- 6. Click either the Save or the Save & Close button

Section 3.2.6 Login to KBUD Reports (EBI) to Access Additional Budget Request Reports

In this section, we will login to SAP's Enterprise Business Intelligence Version 4.2 (EBI 4.2) which houses the KBUD Reports and navigate to the 22-24 Biennium folder to access the necessary budget request reports. Reference Section 5, KBUD Reports, for more in depth explanation of reports.

Reports are the final output of the budget request process. It is important to
understand that the data entered directly into the KBUD forms and ABR
Maintenance tables are used to populate KBUD reports. You can directly trace
the ABR Maintenance data to the data heading on the report. You can also trace
the form's budget data amounts to the budget totals on the report.

• We will run the two ABR reports for Program 445U_BILL, Murray State University and ABR 445U22X001 that are required for your budget submission (NOTE: There are no supportive math check reports for ABRs).

Required ABR Reports

- 1. B1B2 Financial Record Report (Run this report for each individual ABR)
- 2. B3 Expenditure Detail Report (Run this report for each individual ABR)

Supportive ABR Report

Section 4 Capital Budget Request

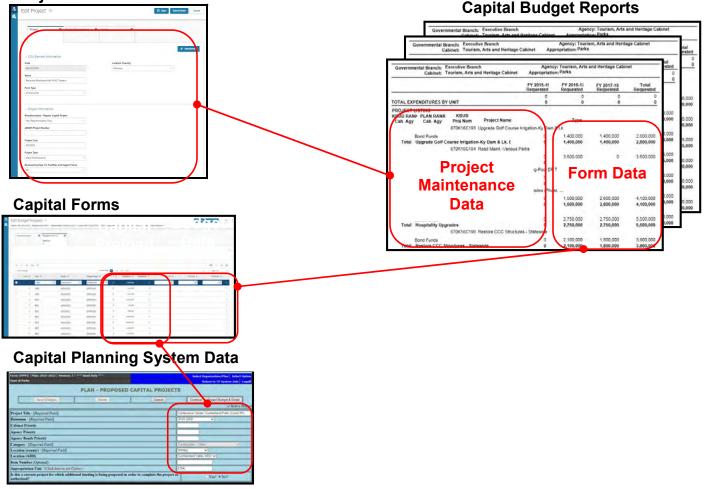

Section 4.1 Budget Form Overview

The tools within KBUD used to create your Capital Budget Requests are the Project Maintenance table and the three Capital Budget Request forms:

- 2224_CAPITAL_FUND, Capital Request by Fund Source
- 2224_CAPITAL_EXPEND, Capital Request Expenditures
- 2224_CAP_IMPONOPBUD, Capital Request Impact on Operating Budget

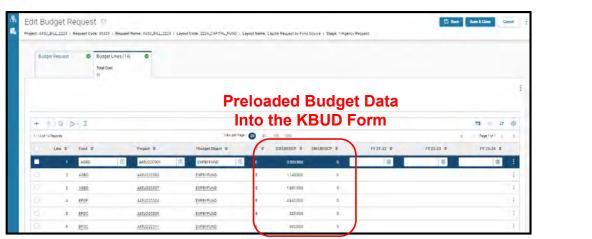

<u>These tools along with a Capital Data Load to KBUD from the Capital Planning System are all</u> <u>the components necessary to produce the Capital Budget Reports required by the budget</u> <u>instructions.</u> The narrative and numerical data are preloaded into the Project Maintenance table from the Six Year Capital Planning System. The budget data also preloads into the three KBUD forms. All these components are needed to create the informative budget request reports. These reports are the final output used by agencies to submit their formal Capital budget request to GOPM.

Project Maintenance

In KBUD, there is preloaded project (Capital) budget data that automatically loads into the KBUD Capital Forms and project data prepopulated in the Project Maintenance tables which originates from the Six-Year Capital Planning system. This transfer of data avoids the re-entry of all of the information for each project into KBUD after having entered it into the Six-Year Capital Planning system. KBUD will be loaded with Six-Year Capital Planning System's data (Version 3 data as of June 29, 2021), so if any changes were made to the project's budget amounts or it's descriptive data in the Six-Year Capital Planning System after this date, the Project Maintenance table and/or the budget amounts will need to be manually updated by the agencies with these same changes. IMPORTANT NOTE: If an agency wants to prepare a capital budget request for a project that is not in the Six-Year Capital Planning system, the agency will need to utilize one of the "blank" project codes assigned to their agency. It is possible that an agency may need multiple project codes. If that occurs, contact the KBUD Administrators (KBUDAdministrator@ky.gov) and request that additional Project codes be added.

Here is some guidance concerning the data from the Six-Year Capital Planning system:

- Only information on projects identified in the 2022-24 biennium with the Capital Plan will be transferred to KBUD.
- Real Property Lease projects and Maintenance Pools were not included in the Capital Plan, so these projects will have to be entered directly into KBUD.
- Real Property Lease projects and Reauthorized projects with no request for additional Funds must have a \$0.01 entered into the FY 2021-22 column in the Capital Request by Fund Source form.

There are three KBUD Capital Budget Request forms:

- Capital Request by Fund Source form
- Capital Request Expenditures form
 - Completed only for Construction and Information Technology System projects (not for Capital Equipment or Capital Lease projects)
- Capital Request Impact on Operating Budget form
 - Completed only on Capital Projects that have an impact on the Operating Budget

Capital Budget Request Forms

Code 🗢	Name 🌲	
2224_CAPITAL_FUND	Capital Request by Fund Source	Select
2224_CAPITAL_EXPEND	Capital Request Expenditures	Select
2224_CAP_IMPONOPBUD	Capital Request - Impact on Operating Budget	Select

The Capital Budget Request forms will include the amounts, fiscal years, fund sources and expenditure codes or cost elements required by the 2022-2024 Budget Instructions. These three forms will be completed at the appropriation unit level and include all the individual projects associated with the appropriation unit.

Typically, the most common changes agencies will need to make in these forms include the following:

- Capital Projects transferred from the Six-Year Capital Plan that should not be included as part of the budget request. For those projects, all of the financial data in all three forms must be changed to \$0 (zero).
- Changing the amount for a Capital Project.
- Changing the Fund source for a Capital Project.
- Changing the fiscal year requested for a Capital Project.
- Adding a Capital Project or Lease.

• Once all the projects' maintenance data have been updated and the Capital forms have been updated, the associated Project reports can be created and printed.

Section 4.2.8 Login to KBUD Reports (EBI) to Access Capital Reports

In this section, we will login to SAP's Enterprise Business Intelligence Version 4.2 (EBI 4.2) which houses the KBUD Reports and navigate to the 22-24 Biennium folder to access the necessary budget request reports. Reference Section 5, KBUD Reports, for more in depth explanation of reports.

• Reports are the final output of the budget request process. It is important to understand that the data entered directly into the KBUD forms and Project Maintenance tables are used to populate KBUD reports.

- In this scenario, we will run the CBR01 Project Summary Report for 455U_BILL_2022 to determine the Form Type (Construction, Equipment, Information Technology System, or Lease) for each project. Based on the results of this report, we can determine which other CBR reports are needed for this submission:
 - 1. CBR-02, Capital Project Record
 - 2. CBR-03, Capital Equipment Record
 - 3. CBR-04, Capital Information Technology System Record
 - 4. CBR-05, Real Property Lease Record
- There are two ways to access the login webpage to EBI 4.1 which contains KBUD reports:
 - 1. Either click on the EBI 4.2 tile located on the KBUD Home page to access the webpage, or open your web browser and enter the direct link to EBI 4.2 and paste it into the URL: <u>https://ebi42.ky.gov/BOE/BI/logonNoSso.jsp</u>

• You should now have the understanding on how to use KBUD and EBI (KBUD Reports) to create the necessay electronic and paper copies of the Capital Budget Requests reports required for your budget submission.

Section 5 KBUD Reports

Section 5.1 Reports Overview

The budget request reports are the final output used by agencies to submit their formal budget request to GOPM. It is very important to understand the relationship between KBUD's maintenance tables and forms to their associated reports. Knowing how to map KBUD data to reports will be extremely helpful for troubleshooting incorrect budget totals on reports. The illustration below should assist you in understanding these important relationships.

KBUD Reports are hosted in a Web-based application named Enterprise Business Intelligence (EBI) developed by the vendor SAP. KBUD uses EBI Version 4.2 as its platform. EBI is used to run pre-developed reports. To log into EBI, each user has to have a separate EBI account setup by KY's Commonwealth Office of Technology (COT). Once an EBI account is established, users can request permission to access KBUD Reports by submitting a KBUD Security Form to the <u>KBUDAdministrator@ky.gov</u>.

• Link to KBUD Reports (EBI 4.2) - https://ebi42.ky.gov/BOE/BI/logonNoSso.jsp

Once logged into EBI, KBUD has several folders with hundreds of reports. Many of the folders are maintained for historical reasons, and most people will never have a need to access those older reports. KBUD reports are organized into two different folder structures: 1) Agency Budget Preparation, and 2) Agency Budget Execution.

- The Commonwealth has a formal budget preparation process that is accomplished prior to the new biennium and is referred to as Budget Preparation. Therefore, there are specific reports developed for this process. The Agency Budget Preparation folders are labeled with each specific Biennium. These folders house the reports necessary for each Agency to produce their Biennial Operating and Capital Budget Request.
- Once a biennial budget is enacted through KY's legislative process, there is an
 official appropriation and allotment process required for each fiscal year. This is
 referred to as Budget Execution. To support Budget Execution, there are unique
 budget actions and reports required for each FY, so there is an associated FY folder
 which contains those reports. These reports are used at the beginning of the FY to
 submit the original allotments, and they are also used throughout the FY to perform
 appropriation and/or allotment modifications.

Section 5.2 Biennial Budget Preparation Reports Overview

There are many reports available for the biennial budget prep process, and it may be hard to understand their purpose if you do not understand their relationship to one another. Here are the most common operating budget reports.

- A Reports are referred to as the Baseline (BL) Reports and are associated with data entered on the A Forms in KBUD.
 - A1A2 Report is the summary report for baseline Source of Funds and Expenditures by Fund
 - A3 Expenditure Detail Report is the baseline expenditure report that provides detailed expenditures by object codes
 - A5 Personnel Summary Report is the baseline summary report for personnel totals and associated personnel costs by funds
- B Reports are referred to as the Additional Budget Request (ABR) Reports and are associated with data entered on the B Forms in KBUD.
 - B1B2 Report is the Summary Report for ABR Source of Funds and Expenditures by Fund
 - B3 Expenditure Detail Report is the ABR expenditure report that provides detailed expenditures by object codes
 - B5 Personnel Summary Report is the ABR summary report for personnel totals and associated personnel costs by funds
- C Reports are referred to as the Combined Reports because they include the baseline totals and the defined calculations from the A Forms and the totals for the Additional Budget Requests from the B Forms. Maybe an easy way to think of this is like a math equation (A + B = C) or (BL + ABR = C).
 - C1C2 Report is the summary rollup report for combined (Baseline & ABR) Source of Funds and Expenditures by Fund
 - C3 Expenditure Detail Report is the combined (Baseline & ABR) expenditure report that provides detailed expenditures by object codes
 - C5 Personnel Report is the combined (Baseline & ABR) summary report for personnel totals and associated personnel costs by funds

Another important consideration for budget preparation and submission is the Program Consolidation Levels, which is a hierarchical structure used to rollup up information into meaningful program levels. These contain the program codes used to build your budget.

1st Level	
* Level Code: 1	Description: Commonwealth of Kentucky
2nd Level	
Level Code: 2	Description: Branch of Government
3rd Level	
Level Code: 3	Description: Cabinet
4th Level	
Level Code: 4	Description: Combined Appropriations
5th Level	
Level Code: 5	Description: Appropriations
6th Level	
Level Code: 6	Description: Allotments
7th Level	
Level Code: 7	Description: Sub-Programs
8th Level	
Level Code: 8	Description: Posting Units

Program Consolidation Levels

Here is an example of six different levels of consolidation. Biennial budgets are required to be submitted at the Bill or Appropriation Unit Level. In this example below, the budget request would be submitted at the 552H_BILL level and would include the two programs under the bill level.

- USTATE	- Commonwealth of Kentucky - Program -
- 🛈 EXE	C - Executive Branch - Program -
+ 😒	50 - Tourism, Arts and Heritage - Program -
(+	S0_CMAP - Tourism, Arts and Heritage - Program -
	- 🔟 552H_BILL - Kentucky Center for the Arts - Program -
	552E_PG - Kentucky Center for the Arts - Program -
	552S_PG - Governor's School for the Arts - Program -

So if you were submitting a budget request for $552H_BLL$, the actual report submission would involve submitting a full compliment of reports (A + B + DC = C) for all three programs below, and the two lower levels should roll up to the BILL Level.

- 1 552H_BILL - Kentucky Center for the Arts - Program -552E_PG - Kentucky Center for the Arts - Program -552S_PG - Governor's School for the Arts - Program

• The User Prompt Input textbox will accept any kind of parameter/variable (good or bad), so the Run icon being enabled is not an indication of whether the parameter/variable will work with the query. If you run the query and receive the error below, you have either entered a bad value and therefore no records were returned, or you entered a good value, and there were no records that matched your value. The best course of action is to redefine your query parameter by using the Advanced Search feature.

Section 5.5 Printing Reports

• If you need to print a paper copy of the report, EBI cannot print to a local or network printer. To print a paper copy, use the Export tool and/or the Print feature to export the report to PDF. Once it is created as a PDF document, open up Adobe Reader and use the print feature within Reader to print to a local or network printer.
