MEMORANDUM

TO: Agency Budget Contacts

FROM: L. Joe McDaniel, Controller

Office of the Controller

SUBJECT: Fire and Tornado Premium Rate Increase

Due to the significant number and severity of the storms and flooding impacting the Commonwealth and the necessity of procuring a new reinsurance contract, there is a significant increase in the cost of insuring state property through the Fire and Tornado Fund.

This communication is to provide your agency's cost estimates and the basis for the significant premium increase proposed for the upcoming 2024-2026 budget request process. This increase is necessary to maintain the financial viability of the Fund, while ensuring an adequate response to risk and provide the necessary coverage to all participants.

The context for this significant increase includes the property and casualty insurance market which has undergone considerable instability, largely due to an upsurge in catastrophic events. These events have created a ripple effect across the insurance industry, influencing pricing and coverage terms. For policy years 2022 and 2023, the Fire and Tornado Fund has experienced a total of four catastrophic events. This unusual frequency of events has had significant impacts on our claim expenses.

While the Commonwealth is self-insured, it mitigates risk by obtaining reinsurance. The reinsurance renewal for the next biennium presented a considerable challenge. The cost of renewal escalated due to the Commonwealth's claim history and the reinsurance market's decision to reduce risk exposures both domestically and globally.
