Capital Projects Overview

The Commonwealth's capital projects program for the Executive Branch for the 2008-2010 biennium is presented in this single volume – Volume II of the <u>Executive Budget</u>. This overview section of the volume focuses on the capital projects priorities, policies, and fund sources for the next two years.

Total Bonded Indebtedness

The <u>Executive Budget</u> includes a total of **\$1,182,853,000** in debt financing. The **\$1,182,853,000** in budgeted debt includes **\$609,631,000** in bond funded capital projects from the General Fund, **\$523,222,000** in bond funded capital projects to be financed from Restricted Funds, and **\$50,000,000** in Highway bonds.

Restoring Vetoed Bond Projects

To honor the commitments made by the 2006 Session of the General Assembly, Governor Beshear is recommending the restoration of the 25 vetoed capital projects funded from General Fund supported bonds. The 25 projects total \$165,932,000. Nearly two-thirds (\$108 million) of the amounts are for 15

postsecondary education projects. The Governor is also recommending the restoration of all of the vetoed University Agency bond projects as reconstituted and requested by the institutions.

RESTORED GENERAL FUND VETOED PROJECTS

Agency	Project	Amount
Governor's Office for Local	Community Development Projects - Lake Malone State Park	
Development	Improvements	\$200,000
Governor's Office for Local		
Development	Community Development Projects - Pikeville Medical Center	\$1,500,000

Technical College System	Rowan County Campus - Planning and Design	\$1,500,000
Kentucky Community and		
Technical College System	Advanced Technology Center - Owensboro CTC	\$14,055,000
	TOTAL	\$165,932,000

Bond Financed Capital Policy Emphasis -Bonds for Education and Economic Development and Infrastructure

By far, the largest proportion of new bond-financed project activity, \$651.4 million (55 percent), is directed to education purposes, postsecondary education and elementary and secondary education. Of that amount, \$633.2 is appropriated for postsecondary education purposes.

Postsecondary Education

Collectively, the postsecondary education system received \$113.7 million in General Fund-supported bonds as well as \$519.5 million in Restricted Fund-supported bonds (agency bonds) for a total of \$633.2 in bonded indebtedness. The University agency bond total represents all of the agency bond projects requested by the Universities.

Governor Beshear also has included in the <u>Executive Budget</u> the necessary authority to enable Murray State University to complete its unfinished Chemistry building utilizing existing budgeted funds for its Science Complex.

Bucks for Brains

Governor Beshear is proposing \$60 million for the Commonwealth's "Bucks for Brains" program. The Research Excellence Trust Fund for the University of Kentucky and the University of Louisville will receive \$50 million. These funds are used for an endowment matching program. By statute, the University of Kentucky will receive two-thirds of the \$50 million, approximately \$33.35 million, and the University of Louisville will receive one-third, approximately \$16.65 million. The other \$10 million will be devoted to the Regional University Excellence Trust Fund, a program that allocates the Bucks for Brains funding to the six regional, comprehensive universities.

Capital Pools for Maintenance, Information Technology, and Research Lab Renovation/Equipment

The restoration of the vetoed projects will enable the postsecondary education institutions to have several project pools devoted to capital renewal and maintenance (\$13.9 million), information technology and equipment (\$10 million), and research support for lab renovation and equipment (\$6 million). The postsecondary education system has not received a pool of state funds for capital renewal and maintenance since the 2000-2002 biennial budget. The \$13.9 million will leverage some of the institutions' own funds to enable a larger investment in deferred maintenance on the campuses. The \$10 million information technology and equipment acquisition pool will provide funds to upgrade and replace technology supporting the Kentucky Virtual University and Virtual Library, and also provide funds to institutions to purchase new campus based information technology and instructional equipment. The \$6 million for research lab renovation and equipment will provide additional funds to UK and UofL to improve the support of the research missions of the two universities.

Elementary and Secondary Education

School Facilities

The School Facilities Construction Commission (SFCC) was authorized by the 2006 General Assembly to make offers of assistance to local school districts for new construction and renovation projects. The 2008-2010 Executive Budget recommends \$100 million in new bonds to honor these offers of assistance to local school districts. The 2008-2010 Executive Budget also authorizes SFCC to make an additional \$100 million in offers of assistance over the next two years, to be funded in the 2010-2012 budget.

Education Technology

The 2008-2010 <u>Executive Budget</u> provides \$18.3 million in bond funds for two information technology projects. The On Line Assessment project provides \$15 million to enhance the testing program for elementary and secondary schools by providing an online platform for quicker turnaround time for test score results, the ability to provide an online statewide student assessment, and the introduction of diagnostic assessments in the classroom. A Knowledge Management Portal project, funded with \$3,250,000, will enable the development of a rich set of curricula, lesson plans, resource materials, and other instructional tools that will be easily accessed by teachers, students and parents.

Economic Development – Fort Knox Impact, Bluegrass Airport Runway, Horse Park Roads, and Bluegrass Station

The <u>Executive Budget</u> includes \$50 million in new Economic Development bond funds supported from the General Fund. These bond funds will provide for critical infrastructure needs, including water and sewer projects needed to accommodate growth in the area around Fort Knox. The changes resulting from the 2005 recommendations of the Base Realignment and Closure Commission (BRAC) will significantly impact

Fort Knox and nearby local communities. To address the expected increase in traffic congestion of the roads in proximity to the army base at Fort Knox, the <u>Executive Budget</u> includes \$50 million in Highway bonds for the costs of preconstruction activities for road projects deemed necessary by the Secretary of the Transportation Cabinet.

The <u>Executive Budget</u> includes \$9 million from the Road Fund to contribute to the reconstruction of runway 9-27 at Bluegrass Field in Lexington. This funding is part of a larger expansion project at Bluegrass Field. The runway replacement will relocate runway 9-27 to eliminate the overlap with runway 8-26, improving safety for both runways. The Road Fund investment is solely for the construction of the runway and is not dedicated to any other component of the overall project.

The <u>Executive Budget</u> includes \$10,300,000 in Road Funds to upgrade the roads and pedways at the Kentucky Horse Park in preparation for the 2010 World Equestrian Games.

The <u>Executive Budget</u> includes \$3,700,000 in Agency Bonds for the renovation of water and electrical system infrastructure at Bluegrass Station in Fayette County. Bluegrass Station, formerly an Army Depot, is a state-owned facility managed by the Department of Military Affairs that provides leased space for private industry and governmental agencies, serving 37 tenants and containing over 2 million square feet of leased space. This investment is necessary to upgrade the fire suppression, drinking water, and electrical capacity at Bluegrass Station.

Corrections – Expansion of the Little Sandy Correctional Complex

The <u>Executive Budget</u> includes \$39,799,000 in bond funds to construct an expansion of the Little Sandy Correctional Complex, a medium security correctional facility in Elliott County, by 816 beds. The project will consist of constructing two 408- bed dormitories, and costs for additional road development, site development and design. The growing inmate population and the projections for future years support the need for this project. The infrastructure of the existing facility was completed with the intent of the eventual expansion. Support areas are already in place for the expansion: the dining facility, programming areas, and recreational areas were all designed so that little addition would be required to accommodate the 816-bed expansion. The support areas are normally a substantial cost factor when constructing a new facility. These costs are negated when the expansion of Little Sandy Correctional Complex is considered.

Infrastructure Development and Community Development

The <u>Executive Budget</u> provides a \$50,000,000 Infrastructure for Economic Development pool for Coal-Producing counties. The debt service for these bonds is funded from coal severance revenues within the General Fund.

The Governor's recommendation also includes \$17.5 million in bonds for the Kentucky River Authority's Dam and Lock Renovation Pool. These funds will be used for critically needed repairs to several dams and locks on the Kentucky River. The renovation of Dam 9 in Jessamine County is currently underway. The Authority's capital improvement plans include the reconstruction of Dam 3 in Owen County, continuing to make progress with the Army Corps of Engineers on the design and construction of replacing Dam 10 near Boonesboro, and the renovations and improvements to Locks 1 through 4.

Human Services – Glasgow State Nursing Facility and Eastern State Hospital

The <u>Executive Budget</u> provides \$20,000,000 to replace the Glasgow State Nursing Facility operated by the Department for Mental Health/Mental Retardation on the current campus site. Glasgow State Nursing Facility is a 100-bed nursing facility for the mentally ill and mentally retarded geriatric population. Admission to the facility is by referral or transfer from psychiatric facilities, and referrals of individuals with a history of treatment in the state mental health system. Examinations of the building have uncovered structural damage in the roof and support columns which can compromise the integrity of the building. The consulting engineers and the Finance and Administration Cabinet have recommended the replacement of the facility.

Governor Beshear has included in the <u>Executive Budget</u> a directive to the Secretary of the Cabinet for Health and Family Services to continue the planning process for the replacement of Eastern State Hospital, a psychiatric hospital in Lexington. He has asked the Secretary to evaluate options around the planning and financing of a replacement facility, and to propose that plan to the Governor by December, 2008.

Information Technology – Public Safety Communications Improvements and the Automated Vehicle Information System (AVIS) Replacement

Additional investment is proposed for information technology (IT) programs and upgraded business systems. The IT system replacements recommended in this budget replace IT systems dating back twenty or more years. These include the remaining phase of the public safety communications infrastructure known as KEWS (Kentucky Emergency Warning System), which was developed in the wake of the 1974 tornadoes that rampaged through Kentucky (\$18 million in bonds). The additional funding will enable this critical public safety system to complete the installation of the statewide system in the remaining 48 counties in the western half of the state. The Transportation Cabinet and the 120 County Clerks have been providing motor vehicle licensing services to the public through an outdated statewide vehicle registration system. This system is known as the Automated Vehicle Information System (AVIS). The 2006 General Assembly added an additional \$1 to vehicle registration fees to generate a fund source to replace the AVIS system. The Executive Budget includes a \$25 million bond funded project to replace the old AVIS system with a modern system that will streamline and improve the vehicle registration process throughout the Commonwealth. The proceeds from the \$1 fee will be transferred to the General Fund to support the debt service on the bonds.

Bond Project Implementation Timing Limitations

The <u>Executive Budget</u> provides authorization in fiscal year 2009 for most General Fund-supported bond financed projects, but provides practical limits on the timing of the implementation of the projects resulting from the appropriation of less than a full-year's debt service for the majority of projects in fiscal year 2010.

Maintenance Projects

The <u>Executive Budget</u> also includes funding for maintaining and restoring state owned assets, and to protect existing investments in important facilities. Agency Maintenance Pools finance maintenance and renovation projects costing less than \$600,000 each and keep minor problems from escalating into more costly major maintenance or renovation needs. The 2008-2010 <u>Executive Budget</u> provides approximately \$37.8 million for state agency maintenance pools. These pools are funded from a combination of cash sources (\$17.8 million) and bond funds (\$20 million). The cash funding is critical to enable the hundreds of small maintenance projects to be executed without the limitation that bonding imposes to fund only those projects with a useful life of at least 20 years. Another key investment in maintenance is \$5,700,000 in bond funds for the Replacement of the Power Plant Pollution Control System at Morehead State University.

Life Safety - Protection of the Public

The <u>Executive Budget</u> includes capital projects that protect life safety and improve the general welfare of Kentuckians, including: funds for Flood Control and Dam Repair projects (\$5 million), Funds in the capital budget will be used to assist local communities to meet the matching fund requirements for federal flood control projects, and to repair high-hazard state-owned dams to protect property and the lives of citizens living in the flood plain downstream from these dams. The <u>Executive Budget</u> also includes additional funding for the Drinking Water and Wastewater Revolving Loan funds within the Kentucky Infrastructure Authority's budget (\$8 million in bonds to match \$40 million in Federal Funds).

Military Affairs		
Construct Phase VII WHFRTC	20,000,000	
This project is the next phase of construction at Wendell H Ford Regional Training Center (WHFRTC). This phase will provide additional training facilities for the premier mechanized infantry and armor facility east of the Mississippi River. Phase VII will construct a new Regional Training Institute (RTI) facility consisting of administrative, education, dining, and billeting space and the related infrastructure needed to support military education courses and training on this site. Project is a priority item on the federal National Guard Long Range Construction Plan but has not yet been		
included in the federal Five Year Defense Plan (FYDEP). Federal Funds	20,000,000	
Maintenance Pool 2008-2010	2,000,000	2,000,000
The Armory Installation Facility Maintenance Pool includes maintenance, alteration, and renovation projects to protect real property, lengthen facility lifespans, adjust to changes in Kentucky National Guard units missions, and to keep department facilities in working order by avoiding more costly major maintenance and repair projects. Classifications of projects include but are not limited to roof repairs and replacements, HVAC and electrical upgrades, code compliance, mold and asbestos abatement, and maintenance of roads.		
Investment Income	1 000 000	1 000 000
Federal Funds	1,000,000 1,000,000	1,000,000 1,000,000
Renovate Bluegrass Station Infrastructure	3,700,000	1,000,000
This project will allow Bluegrass Station to upgrade its fire suppression, drinking water distribution system and electrical systems. These upgrades are required so that Bluegrass Station can continue to provide adequate services to its tenants. Bluegrass Station is a quasi-commercial, for-profit activity that currently has 37 tenants, 2,250 full time occupants, and leases 2,224,429 square feet of space. Agency Bonds	3,700,000	
Construct Pole Barns at Bluegrass Station	2,200,000	
This project will construct twelve (12) wooden barns to be used as warehouses at Bluegrass Station. Each barn will be 5,000 square feet and independently constructed on a concrete foundation with minimal utilities. The barns will provide critical additional storage space for Bluegrass Station tenants needed to maintain essential government operations.	_,,	
Restricted Funds	2,200,000	
Bluegrass Station Maintenance Pool 2008-2010	1,000,000	1,000,000
This maintenance pool funds projects that repair and/or improve World War II-era buildings and infrastructure at Bluegrass Station. Bluegrass Station is a self-sustaining, semi-commercial economic development operation located at the old Avon Army Depot in Fayette County. Projects to be funded by the pool are necessary because of safety, code enforcement, and/or tenant concerns. Classifications of projects will include, but will not be limited to, emergency roof or other structural repairs, upgrade of sprinkler and heating systems, and maintenance and repair of roadways.		
Restricted Funds	1,000,000	1,000,000

General Government	Fiscal Year 2007-2008	Fiscal Year 2008-2009	Fiscal Year 2009-2010
Military Affairs			
Expansion of Military Dining Facility WHFRTC		1,300,000	
This project will construct a 4,100 gross square feet expansion to the existing	dining		
hall at the Wendell H Ford Regional Training Center. The expansion is neede	d to		
adequately support the additional troops being trained at the facility, and the c	current		
size and design is inefficient for rapid movement and feeding.			
Federal Funds		1,300,000	
Construct Field Maintenance Shop 8 Conversion		1,200,000	
This project will provide an additional 10,000 square feet of new space to the	existing		
Field Maintenance Shop 8 in Louisville. The additional space will convert Field	d		
Maintenance Shop 8 to a modern facility that can provide needed maintenance	e		
capability and meet new Department of Defense maintenance standards.			
Federal Funds		1,200,000	
Construct Field Maintenance Shop 1 Conversion		1,200,000	
This project will provide an additional 10,000 square feet of new space to the	existing		
Field Maintenance Shop 1 in Ashland. The additional space will convert Field	-		
Maintenance Shop 1 to a modern facility that can provide needed maintenance	e		
capability and meet new Department of Defense maintenance standards.			
Federal Funds		1,200,000	
Construct Multi-Purpose Machine Gun Range WHFRTC		850,000	
This project will construct a five lane 600 meter machine gun range at the We	ndell H		
Ford Regional Training Center in Greenville. The range is needed to meet the)		
expanding training requirements for troops being sent overseas in the war on			
terrorism.			
Federal Funds		850,000

Nursing Summary

General Government	Fiscal Year 2007-2008	Fiscal Year 2008-2009	Fiscal Year 2009-2010
Kentucky River Authority			
Ky River Locks & Dams Maintenance & Renov Pool		17,500,000	
This pool is for reconstruction of Dam 3 located near Monterey in Owen Cou	nty and		
modifications to Locks 1 through 4. Due to deterioration of lock walls, cut-off	walls		
will be constructed in the lock chambers of Locks 1 and 2. Locks 3 and 4 are	е		
undergoing renovation simultaneously to achieve economies in design and			
construction. Dam 3 will be renovated due to the fact that the offsetting pres	sure of		
the water created in Dam 3 helps to stabilize the next upstream dam (Dam 4). A loss		
of Dam 3 would cause the water level to drop by 13 feet below Dam 4 and th	nus		
jeopardize the water supply for Frankfort. In addition, Dam 10 is in the prelin	ninary		
design state for interim stabilization of the lock and installation of a transfer v	alve.		
The bond funds in this pool can be utilized to match a federal appropriation to	o enter		
the construction phase for the Dam 10.			
Bond Funds		17,500,000	
Dam 10 Design & Interim Stabilization - Add'I		625,000	250,000
The renovation of Dam 10 is a federal Corps of Engineers project authorized	l for \$24		
million dollars, \$19.2 of this being federal funds. Federal appropriations have	not		
been made as orignally anticipated and thus constuction has been delayed.	То		
safeguard the current structure and enable water transfers during drought we	е		
propose installation of a cut-off wall with a transfer valve in the lock structure	, as a		
direct state project costing \$500,000. The funding requested also includes the	he		
required state share of design costs (25% of Federal Appropriations) to comp	plete		
final design in the next biennium. The project will eventually increase the heigh	ght of		
Dam 10 by 6 feet, adding approximately 1.7 billion gallons of new water stora	ige.

Vocational Rehabilitation

Fayette County - Lease

The leased space in Fayette County houses two districts and 47 staff, forty of which are field staff who served 4,643 individuals with significant or most significant disabilities in nine Central Kentucky counties throughout FY 2007. The additional seven staff have statewide responsibilities including the administration and services of a nationally recognized drivers rehabilitation program, marketing, rehabilitation engineering, social security reimbursement, and deaf and hard of hearing administration for the eastern half of the state. The space also houses the PACE program which provides academic and work trait assessment, classroom instruction on job search techniques, resume development, work behaviors, and community work experiences and job placement to assist Kentuckians with significant disabilities to enter or re-enter the workforce.

Commonwealth Office of Technology			
Public Safety Comm. Infrastructure - KEWS add'I		18,000,000	
The Kentucky Emergency Warning System (KEWS) is a highly survivable and redundant wireless communications system providing network inter-connectivity carrying radio control, data, video and emergency voice traffic for public safety and emergency agenices. Once the conversion of the KEWS system from an analog to digital network is complete, this project will allow the Commonwealth to begin carrying critical services such as voice and data transmission on the digital network.			
The KEWS upgrade is comprised of two major phases: 1.) East Kentucky, and 2.) West Kentucky. Previous capital budgets only authorized enough funds to complete the overall planning/design and the Eastern Kentucky phase of the project, currently in progress. The additional \$18M requested for 2008-2010 will allow COT to complete the second half of the KEWS upgrade which includes the entire western half of the state.			
Bond Funds		18,000,000	
Enterprise Infrastructure 2008 -2010		2,400,000	2,400,000
As COT consolidates infrastructure services that were previously housed in program cabinets and agencies, more centralized facilities and capacity are required. These same types of equipment would have been purchased individually by the client agencies; in the consolidated environment, volume discounts and shared use of common assets allow COT to provide better service at a lower cost. This project provides funding for new equipment and upgrades for all of the core competencies of the consolidated infrastructure: LAN/WAN; voice, data and video; KIH II network services; server platform offerings; storage solutions; desktop services and a consolidated data center.			
Restricted Funds		2,400,000	2,400,000
Enterprise Data Integration 2008-2010 The enterprise data integration project will establish a centralized infrastructure from which the Commonwealth can provide information for a variety of uses including enterprise reporting and predictive analysis. Enterprise data integration will provide government agencies with a "company-wide" view of their information, along with related information from other agencies. Because data is created and stored in disparate locations, combining this data through translation, cleansing and integration processes allows for a more consistent informational view and often points out inconsistencies in the operational data.		1,000,000	1,000,000
Restricted Funds		1,000,000	1,000,000
Enterprise Application Integration 2008-2010 This initiative will address basic software engineering needs, allowing COT to improve enterprise software support. Source code versioning tools and configuration management will allow parallel development, and multiple testing environments will allow various types of testing to occur at the same time, accelerating the software development lifecycle. The result will be reduced maintenance costs, increased customer confidence and easier upgrades and modifications of well-designed, low-defect software.	n	500,000	500,000
Restricted Funds		500,000	500,000

Research Challenge Trust Fund		50,000,000	
This debt authorization provides \$50 million in General Fund-supported, tax	xable debt		
to finance the Endowment Match Program of the Research Challenge Trus	t Fund.		

to finance the Endowment Match Program of the Research Challenge Trust Fund. The Research Challenge Trust Fund is authorized by KRS 164.7911 and KRS 164.7917. The Endowment Match Program matches gifts with state funds to create new endowments or expand existing endowments for chairs, professorships, fellowships, and research-related mission support at the two public research institutions. The insitutions must match the bond proceeds dollar-for-dollar resulting a total of \$100 million for endowments. Only the investment income from the endowments may be expended. The principal of the endowments shall not be expended. In accordance with KRS 164.7917, the University of Kentucky will be eligible to match two-thirds of the \$50 million (approximately \$33.4 million) and the University of Louisville will be eligible to match one-third (approximately \$16.6 million).

Bond Funds 50,000,000

Capital Renewal & Maintenance Pool

The Capital Renewal and Maintenance pool will provide funds to upgrade and replace building systems and the infrastructure that supports the education and general programs of an institution as those systems reach their expected life cycles. The Council on Postsecondary Education will allocate these funds to the postsecondary education institutions which will match these funds with their own resources. The Capital Renewal, Maintenance and Maintenance Pool provides funds to address the significant backlog of system replacement, upgrades and modifications required for education and general facilities. Because a majority of the facilities were built 30-40 years ago and many components and systems have reached the end of their useful life, this project will provide funds to begin to address the backlog, including building components, infrastructure, utility distribution systems, security systems, and other components in danger of failure. A list of specific projects to be completed will be identified by institutions from the Statewide Facilities Assessment and associated reports and certified by the Council on Postsecondary Education. The Council will determine the allocation of the funds from the Pool to the postsecondary education institutions and will incorporate a matching fund requirement.

Bond Funds 13,927,000

Information Technology & Equipment Acquisitions

The Information Technology and Equipment Acquisitions Pool will provide funds to upgrade and replace technology supporting the Kentucky Virtual University and Virtual Library, and also provide funds to institutions to purchase new and replace old campus based information technology and instructional equipment.

Purchase KYVL Portal - Statewide License Ph. II	600,000	
KYVL's federated search portal provides one point of entry for anytime/anywhere access to all of the information available through KYVL including commercial databases, state produced digital collections, library catalogs, proprietary databases, and other resource. The software and interface that provides this seamless access is powerful enough for the most advanced user and simple enough for the youngest student; meaning access is flexible and customizable for application to a variety of environments.		
Restricted Funds	600,000	
Purchase KYVL Interlibrary Loan Sys - Additional	550,000	
This project was authorized in the 2006-08 budget in the amount of \$700,000, and this is a request to reauthorize the project and provide an additional \$550,000, for a total appropriation of \$1,250,000. KYVL needs to replace its original interlibrary loan software and hardware purchase in 1999 for document delivery. The interlibrary loan functionality needs to be integrated into the common library management system used throughout the state but KYVL and participating institutions cannot make the ILL process more seamless due to limitations of the current software.		
Restricted Funds	550,000	
Upgrade CPE Technology Infrastructure Ph I This project addresses the need for a proactive monitoring and disaster recovery capability, increased power availability and distribution. It also provides a more robust centralized storage, faster backup capability, and a more secure, scalable,	500,000	
and fault tolerant infrastructure. Restricted Funds	500,000	
	<u></u>	
Expand UCAN System Statewide Ph I This project will install the University Coordinated Advising Network (UCAN), a collaborative program to help transition students in middle school, high school, and college, online students, and adult learners, to postsecondary education by providing distributed and coordinated call center services.	500,000	
Restricted Funds	500,000	
Expand GoHigher Portal This project provides site and message management approach for the Council on Postsecondary Education. It supports future development of the gohigherky.org site, and will integrate responsive technologies and customized content to reflect the expectations of the visitor.	500,000	
Restricted Funds	500,000	
Purchase Statewide Lifelong Learning Portal Ph I The statewide lifelong learning portal will provide a platform that allows a learner to create her own portal to access online courses, community activities, teaching and learning tools, advising and career services, Kentucky Virtual Library, and other resources and services. The portal will provide single sign-on capability for ease of access and convenient for learners.	500,000	
Restricted Funds	500,000	

Postsecondary Education	Fiscal Year 2007-2008	Fiscal Year 2008-2009	Fiscal Year 2009-2010
Council on Postsecondary Education			
Install Assistive Technology for Teaching Ph I		500,000	
This project will install assistive technologies (ADA Compliance) for systems the	hat		
deliver instructional and academic support content to teachers, faculty and lea			
in order that all can participate fully in the teaching and learning environment.			
Restricted Funds		500,000	
Purchase Adult Education Skill/Mobile		500,000	
This project will provide for the purchase of a thirty-eight foot mobile training la	abs with		
12 workstations used to provide statewide workplace essential skills training for	or the		
Adult Education program.			
Restricted Funds		500,000	
Purchase KYVL Interactive Library Tools		300,000	
The project will update the existing elementary tutorial and build similar interact	ctive		
and gamelike interfaces and tutorials for Kentucky's middle and high school st	udents		
including computer and information literacy tutorials and assessments for all a	iges,		
and create research games for middle and high school.			
Restricted Funds		300,000	
Purchase Portable Training Labs		300,000	
This project will support the purchase hardware and software needed for three	9		
separate training labs for the Kentucky Virtual Campus (KYVC), the Kentucky	Virtual		
library (KYVL), and Kentucky Adult Education. These training labs would be p	ortable		
and would increase each entity's ability to respond to the increased demand for	or		
training on curriculum and management software used in their daily operations	S.		
Restricted Funds		300,000	
Purchase Interactive Television Sys - Additional		200,000	
This project was authorized in the 2006-08 budget in the amount of \$800,000,	and	,	
this is a request to reauthorize the project and provide an additional \$200,000,			
total appropriation of \$1,000,000. This project supports the statewide IP-based			
interactive videoconference system by unifying videoconference networks at			
postsecondary institutions across the state. It will re-design and implement a	single,		
unified IP-based interactive videoconference system that can be integrated int	to not		
only teaching and learning but also health care and economic development ac	ctivities.		
Restricted Funds		200,000	
Franklin Co - Lease			
This project allows the Council on Postsecondary Education to continue the ex	xistina		
lease of real property that house the offices of KYVU/KYVL, Adult Education,	· 9		
Governors Scholars, and the CPE operations.

Ky Higher Education Student Loan Corporation

Jefferson County - Lease

The Kentucky Higher Education Student Loan Corporation (KHESLC) leases 51,125 square feet of office space at 10180 Linn Station Road, Louisville, Kentucky, at a cost of \$900,000 per year. The leased space houses the central office for KHESLC, which was established by KRS 164A.050 (2) for the purpose of improving and promoting the educational opportunities of citizens of the Commonwealth by financing, making, and purchasing insured student loans. Funding for this lease is provided by KHESLC's operation as a lender and servicer under the Federal Family Education Loan Program (FFELP).

Eastern Kentucky University			
Renovate Baseball Complex			2,000,000
Eastern Kentucky University's baseball field was constructed in the 1960's	and		,,
requires extensive upgrading to bring it to the standards commonly found i			
college baseball venues. Safety, field conditions, player and fan amenities			
addressed by the project. Additionally, lighting for evening and night play			
added to extend the fields operating season and hours.			
Other Funds			2,000,000
Renovate Property		2,000,000	
It is anticipated that Eastern Kentucky University may acquire adjacent pro	perties		
during this planning cycle. This project is to provide for the restoration of the	-		
structures on these properties.			
Restricted Funds		2,000,000	
Renovate Women's Softball Complex		1,500,000	
EKU's Women's Softball Complex requires renovation to maintain parity w	ith the	,,	
men's baseball program as required by Title IX.			
Other Funds		1,500,000	
Library Studio Academia Creativity Additional			750,000
Library Studio - Academic Creativity Additional	th at		750,000
This project was authorized in the 2006-2008 Budget of the Commonwealt			
\$1,500,000 from Restricted funds. This additional \$750,000 increases the project scope to \$2,250,000 to compensate for inflation and revised project.			
The Studio, located in the Crabbe Library, will be a renovation and upgrade			
support a program for the advancement of effective communication and lite			
development. The design incorporates collaboration in all directions, and it			
emphasize idea development and the full integration of research, critical th			
reading, and communication skills in one location.			
Other Funds			750,000
Purchase Minor Projects Equipment		500,000	
This project addresses minor equipment purchases of equipment under \$1	00 000	000,000	
These are the equipment purchases that are the ongoing needs of the inst			
and administrative departments of the university.			
Restricted Funds		500,000	
Expand Indoor Tennis Facility			
This project was authorized in the 2004-06 budget in the amount of \$1,000) 000 and		
an additional \$100,000 was added in the 2006-08 budget, and this is a req			
reauthorize the project at that amount. The University's indoor tennis facili	•		
courts) has not been renovated since 1977, and this project will refurbish the			
facility and add two additional courts using private funds.	·		

Fiscal Year

Postsecondary Education

Eastern Kentucky University

Expand and Renovate Presnell Building

This project was re-authorized in the 2004-06 budget in the amount of \$1,000,000 and an additional \$1,200,000 was added in the 2006-08 budget to bring the total authorization to \$2,200,000 (Restricted Agency Funds), and this is a request for reauthorization of that amount. Included in this project is a renovation/reconstruction of the locker, shower, and meeting room space at the University's football practice fields. The building has not had a major renovation since its construction in 1973.

Guaranteed Energy Savings Performance Contracts

House Bill 639, enacted during the 1998 session, enabled state agencies to implement quaranteed energy savings performance contracts. Such projects are structured so that a contractor installs or retrofits various energy consuming devices with more efficient items and the resulting savings pay for the project and the energy service contractors (ESCO) fees. Typically, warranties are built into such a contract where ESCO pays a penalty commensurate with any failure to perform.

Construct E & G Life Safety Begley Elevator

This project was authorized in the 2006-08 budget in the amount of \$750,000, and this is a request to reauthorize the project at that amount. The project involves installation of an elevator in a high-rise classroom building to provide access for handicapped students, faculty and staff to instructional and academic support programs. The Begley Building does not meet ADA guidelines for accessibility and this project will substantially improve accessibility in this nine story classroom building.

Eastern Kentucky University Summary	_54,100,000	9,250,000

Implement Emergency Notification System		1,000,000	
This will be a campus wide emergency notification system to alert student, and staff of developing emergencies or events in progress. The emergency notification will consist of a number of communication methods, wireless(in with student cell phone), digital signage, VOIP, e-mail, etc.	/		
Restricted Funds		1,000,000	

Upgrade Online Security

This project was authorized in the 2006-08 budget with Restricted Funds in the amount of \$1,500,000, and this is a request to reauthorize the project at that amount. The project involves implementing smart card technology for student services and educational delivery, such as, debit and smart card system, registration, grades and transcripts, and account balances. The card will be used for building access, food service, photocopy duplication, lab use and a host of other services that are available today using a smart card system. Access, physical security, as well as financial security measures will be a priority in the delivery of this service.

Guaranteed Energy Savings Performance Contracts

This project will perform energy saving retrofits in various campus buildings and is necessary in reducing energy consumption in campus buildings. Energy Conservation measures will be determine by the successful contractor and will included lighting changes and water conservation measure in buildings not included in the past performance contract.

Morehead State University			
Construct Campus Recreation Center		39,000,000	
Construction of new 107,000 sq. ft. campus recreation center will assist the		,,	
University in efforts to recruit and retain students. It will address the increasing	ng		
demand for student recreational services and will provide a variety of recreation	-		
opportunities and services to the campus community in a centralized location			
Agency Bonds		39,000,000	
Construct Athl Admin & Sports Performance Bldg		23,589,000	
This project will provide modernized, much-needed administrative and meetin	ig space	.,,	
for MSU Athletics. All but five sports and all administrative functions, includin	-		
medicine and strength training will move into this space, which is the keystone			
athletics facilities master plan. The space will encompass approximately 78,0			
square feet.			
Restricted Funds		19,201,000	
Other Funds		4,388,000	
Construct Morehead/Ro Co Public Safety Complex		10,853,000	
This project will construct a 27,000 sq. ft. facility located at a portal to the MoS	SU		
campus. The facility would serve as a law enforcement complex housing the			
Police Department, Morehead city Police Department, and the Rowan County	Sheriff		
Department. These agencies are currently housed in facilities that can no long	ger		
support technology and comply to new federal guidelines from the Office of			
Homeland Security.			
Federal Funds		10,853,000	
Construct Food Srvcs Facility in Housing Complex		8,251,000	
The University's student housing complex currently contains food service faci	lities		
designed and built in the 1960's. The facilities are undersized and not design	ed to		
accommodate a 21st century collegiate dining service.			
Agency Bonds		8,251,000	
Construct Parking Structure		7,000,000	
Construction of a 400 vehicle parking facility near the central area of campus	is		
essential to meet the parking requirements of faculty, staff and visitors. Incre-	ased		
vehicular traffic resulting from increased enrollment and an increase in the nu	mber of		
campus events will be accommodated by this facility.			
Agency Bonds		7,000,000	
Replace Pwr Plnt Pollution Cntrl Sys&Boiler Tube	5,700,000		
This project is the replacement and upgrading of the heating plant bag house			
pollution control system and re-tubing of the coal fired boilers. The University	is		
currently under a Division of Air Quality Notice of Violation for exceeding parti	culate		
matter emission standards regulations. The University is operating under a			
temporary natural gas boiler solution. This project will allow the University to	· ·		
the boilers in compliance with regulatory standards and perform needed main	tenance		
on the boilers in a more economical manner.			
Bond Funds	5,700,000

Construct/Acquire New Residence Hall		30,000,000	
A new 350-400 bed residence hall will be needed to provide additional on-ca	ampus	,,	
housing opportunities. A new building may be constructed or an existing fac	=		
be purchased and renovated. On campus housing enriches the collegiate	. , .,		
experience, positively impacting student retention and graduation rates.			
Agency Bonds		30,000,000	
Acquire & Renovate Residence Halls	23,500,000		
This project would allow for the financing of acquisition and renovation of the	9		
Lakeside nursing home property, which will be renovated to create a resider			
for about 443 students. In addition, if university resources permit, renovation			
campus residence hall facilities will be accomplished.			
Agency Bonds	23,500,000		
Construct Ctr for Informatics Phase II		15,000,000	
The Center for Informatics was authorized by the 2006 General Assembly w	rith a		
scope of \$35.5 million. It will house the new College of Informatics, including			
Communication, Computer Science, Business Informatics and the Infrastruc	ture		
Management Institute. This project is the second phase and is proposed to be	oe a \$15		
million private and federally funded enchancement to this important state fur	nded		
project, potentially adding about 25,000 square feet to the project.			
Other Funds		10,000,000	
Federal Funds		5,000,000	
Acquire Land/Master Plan		12,000,000	
The purpose of this project is to allow the university to take advantage of rea	al		
property acquisition opportunities during the 2008-2010 biennium to support			
educational programs and campus development.			
Restricted Funds		12,000,000	
Construct Parking Garage #4		11,500,000	
This project proposes to complete Phase II of the Kenton Drive parking gara	ige		
project. This addition will house 500 cars in 200,000 gross square feet. Cor	nstruction		
of proposed new academic buildings outlined in this Plan will likely involve e	limination		
of existing surface parking; this new garage will help alleviate campus parkir	ng		
deficiencies. Phase I of the Kenton Drive parking garage was completed in	fall 2004.		
Agency Bonds		11,500,000	
Construct New Baseball Stadium		8,400,000	
A new Baseball Stadium will be constructed on university property south of	Johns Hill		
Road on a site identified in the recently completed Sports Complex Master F			
new facility will include seating for 2,000, parking, a batting cage facility and			
amenities. The project will be financed from private funds.			
Other Funds		8,400,000

Restricted Funds 500,000 A mobile science lab would be very useful. It would be used for off-site instructional activities as well as community outreach within the university's service region. Restricted Funds 500,000 A new large format Color press is needed to replace the university's only large format color press, which is 18 years old. New technology will improve quality and lower cost of printing. Restricted Funds 510,000 A new field emission electron microscope is needed to serve the instructional and applied research needs of biology, chemistry and physics students and faculty.	The Mobile TV Production vehicle will replace the university's existing produc unit, which is 22 years old and in disrepair. A new unit with current technolog		223,222	
Improve Customer Service Systems and Technology This project involves the puchase of hardware and software needed to provide a vanguard IT customer service center. The goal is to supply faculty, staff and students with a 24-hour one stop solution for information technology needs. Restricted Funds 600,000 Construct Intramural Fields-Additional This project was authorized in the 2006-08 budget in the amount of \$1,900,000, and this is a request to reauthorize the project and provide an additional \$400,000, for a total appropriation of \$2,300,000. This project involves construction of new intramural fields on university property south of Johns Hill Road. Existing intramural fields are inadequate to meet the university's need for outdoor recreational activity. In addition, the 1-275 to AA Highway Connector Road will bisset the existing intramural field area, potentially resulting in the loss of one-half of the field area. New intramural field locations are identified in the 2005 Sports Complex Master Plan. Restricted Funds 400,000 Lease Purchase DNA Analyzer System A DNA analyzer system is needed for instruction and research in biology. DNA sequence information is critical to a wide variety of research and instructional activities. Restricted Funds 300,000 Lease Purchase Mobile Science Lab A mobile science lab would be very useful. It would be used for off-site instructional activities as well as community outreach within the university's service region. Restricted Funds 320,000 Lease Purchase format Color Press A new large format Color Press A new large format color press is needed to replace the university's only large format color press, which is 18 years old. New technology will improve quality and lower cost of printing. Restricted Funds 810,000			650 000

Northern Kentucky University			
Lease Purchase ICP - Mass Spectrometer		300,000	
An inductively coupled plasma-mass spectrometry system will increase the		·	
spectroscopy capabilities for instructional and applied research activities in the			
departments of Chemistry, Biology and Physics and Geology.			
Restricted Funds		300,000	
Lease Purchase Materials Strength Testing Equip		275,000	
Materials strength testing equipment will be used in various courses in the			
Technology Department to test the structural integrity of various materials and			
assemblies.			
Restricted Funds		275,000	
Lease Purchase FT-IR and Raman Microscope		275,000	
The FT-IR and Raman microscope would be used by faculty members and stude	ents		
in chemistry, biological sciences and physics & geology for instruction and applie	ed		
research. This microscope provides fast, accurate and reliable sample analysis.			
Restricted Funds		275,000	
Lease Purchase Opto-Paramagnetic Oscillator		250,000	
An opto-paramagnetic oscillator is needed for instruction and research in chemis	stry.		
This device will improve the functionality and increase the usefulness of existing equipment.	laser		
Restricted Funds		250,000	
Lease Purchase Direct Analysis Mass Spectrometer		250,000	
A direct analysis mass spectrometer is needed for instruction and research in			
chemistry. This instrument permits high resolution mass measurements of gase	s,		
liquids and solids.			
Restricted Funds		250,000	
Lease Purchase Concrete Testing Equipment		215,000	
Concrete testing equipment will be used in various courses in the Technology			
Department to test various concrete samples and for analysis of concrete design	1		
mixes.			
Restricted Funds		215,000	
Lease Purchase Calorimetry Instrumentation		215,000	
This project to purchase calorimetry instrumentation includes two pieces of			
equipment to study the thermodynamics of reactions. This equipment will expar	nd the		
teaching and applied research capabilities of the chemistry and physics departm			
by providing measuring capacities not previously available on campus.

University of Kentucky		
Expand Patient Care Facility-Hospital Phase 3	250,000,000	
This project further develops the Patient Care Facility (PCF) space built as shell in		
the initial phase of the PCF currently under construction and will include beds,		
surgery, diagnostic, treatment and support space.		
Restricted Funds	250,000,000	
Lease Purchase New Housing	75,000,000	
This project will authorize a lease-purchase of newly constructed student housing.	. 0,000,000	
Total new construction will include new student residential space (313,400 gross		
square feet) as well as parking and service facilities for approximately 800 additional		
beds.		
Other Funds	75,000,000	
Construct Col. of Medicine-Hospital Offices	66,341,000	
Development of office building to relocate services located in the Hospital or	22,011,000	
Kentucky Clinic to make way for patient services, as well as provide office space for		
future clinical offices.		
Restricted Funds	66,341,000	
Repair, Upgrade & Expand Central Plants 1	55,000,000	
This project will repair, upgrade and expand, as needed, the campus heating and	,,	
cooling plant capacity at any of the University's existing central heating and cooling		
plants and/or construction of a new heating and cooling plant as well as repairs,		
upgrades or expansion at any of the University's electrical sub-stations.		
Restricted Funds	55,000,000	
Lease Purchase Data Center	40,000,000	
This project lease purchases a data center allowing for the merger of the Medical		
Center and the main campus data centers into one location. Currently, the Medical		
Center Computing Center resides in the basement of the Hospital and the main		
campus computing center resides in McVey Hall. Both spaces are grossly		
inadequate to accommodate the growing computing needs of the University of		
Kentucky. The exisiting data centers have insufficient space, and insufficient		
electrical power (both normal and emergency) and cooling for the University's		
supercomputer, IRIS servers, and many other servers supporting the students,		
faculty and staff of the University of Kentucky.		
Restricted Funds	40,000,000	
Upgrade Reynolds Building	35,000,000	
This project will primarily upgrade Reynolds Building #1, as well as Reynolds #4, and		
depending upon programmatic needs of Fine Arts, renovating portions if not all of		
Reynolds #2. The work will include but not limited to, electrical upgrade, ventilation,		
HVAC, new restrooms and reconfiguration of studio spaces to better serve the		
current and future students in Fine Arts.		
Restricted Funds	35,000,000

Implement Land Use Plan - Hospital		10,000,000	
The Hospital intends to continue to acquire property in the vicinity in anticipation	of	,,	
the need to extend the Medical Center campus in the 2000's.	0.		
Restricted Funds		10,000,000	
Construct Equine Campus		10,000,000	
The Equine Campus will provide facilities for equine science and management			
including a new B. S. degree program. The facilities will consist of an Equine			
Education Cluster, an Equine Health Research Cluster and an Animal Sciences			
Research Cluster with support infrastructure such as utilities, fencing and farm			
roadways. The Equine Education Cluster will consist of a teaching pavilion and	а		
Learning Center with state-of-the-art classroom technology and a multipurpose			
laboratory in which horses can be contained for enhanced undergraduate instruc	ction.		
The Equine Health Research Cluster will consist of two Biosafety Level 2 facilities			
and a small cluster for Strangles and infectious disease research. The Animal			
Sciences Research Cluster will consist of two new 12-stall research barns and			
renovation of existing barns.			
for education in equine science and management is at an all time high. In responsible to this demand, he College of Agriculture at the University of Kentucky plans to initiate a Equine Science and Management degree program beginning Fall 2007 Facilities are required to provide hands-on activities and demonstrations, a capa that does not currently exist.			
Other Funds		10,000,000	
Sanitary Sewer Expansion		10,000,000	
The city owned sanitary sewer lines serving the University of Kentucky are at pe	ak		
capacity. This project would be a joint project with the city to address adding sa	nitary		
sewer lines to address current needs and for additional capacity for future building	ngs.		
Agency Bonds		10,000,000	
Expand Coldstream Research Campus, 1		10,000,000	
The Coldstream Research Campus anticipates that its University owned facilities	S		
(roads, grounds, utilities, buildings, interior spaces, and other infrastructure			
elements) will require upgrading/modification to meet the needs of the Research			
Campus's commercial occupants. The University needs capital authority to quick	dy		
deal with space and infrastructure upgrades or modifications required for contract	cts		
with commercial and private companies locating to Coldstream. In order for			
Coldstream to be successful as a research and economic development enterprise			
the University must have the flexibility to negotiate, sign, and implement contrac	tual		
arrangements with private corporations in a very timely manner.		40.000.000	
Restricted Funds		10,000,000	

Postsecondary Education Fiscal 2007-2	Fiscal Year 2008-2009	Fiscal Year 2009-2010
University of Kentucky		
Construct Multi-Purpose Room/Stadium Kitchen Fac	8,000,000	
This project will construct a multi-purpose room addition to the Nutter Fieldhouse		
which will house the athletic training table and will include a full kitchen with the		
capacity to service football game day catering needs. The facility will also host		
recruiting, Athletic Department and University functions.		
Other Funds	8,000,000	
Renovate King Library South - 1962 Section	8,000,000	
Renovation of the King Library South 1962 addition will provide that the space is		
utilized as effective library and study space. This renovation will combine the 3		
separate libraries that currently constitute the Science/Engineering collection into one		
central facility. Upon completion, space currently occupied by the libraries in		
Anderson, C/P, and Patterson would return to the academic departments to support		
enrollment expansion.		
Restricted Funds	8,000,000	
Relocate Greenhouses	7,506,000	
This project will relocate the greenhouses and headhouses located behind the		
Thomas Hunt Morgan Building to south campus, near the Ag buildings and		
greenhouses. The facility must be relocated to upgrade the use of the land and to		
clear the area for construction of multi-use, multi-disciplinary buildings that should be		
located in this zone to comply with the University's Master Plan.		
Restricted Funds	7,506,000	
Lease Purchase Wireless/Cellular Infrast	7,000,000	
The project will provide the inbuilding infrastructure to provide cellular and data		
wireless services to the academic builidngs campus wide.		
Restricted Funds	7,000,000	
Lease Purchase Hosp. Dining Facilities & Equipmt	7,000,000	
The project is for the fit-up of the dining facilities (cafeteria, kitchen and cafe) to be		
located in the new Patient Care Facility. The dining facility may be contracted to a		
private vendor who will fit-up and manage the dining facilities.		
Restricted Funds	7,000,000	
Upgrade Existing Dorms for Housing	7,000,000	
This project will renovate suite bathrooms and install exhaust systems in 80	, ,	
bathrooms in Keeneland Hall, abate Asbestos and replace with drywall and paint in		
Boyd Hall, general building renovations and replace furniture in Boyd Hall, Jewell		
Hall, Blazer Hall, Haggin Hall and Keeneland Hall.		
Agency Bonds	7,000,000	

Postsecondary Education Fiscal Year 2007-2008	Fiscal Year 2008-2009	Fiscal Year 2009-2010
University of Kentucky		
Construct Library Depository Facility	7,000,000	
Construct a shared, fee-based, depository storage facility that would house and service University library materials that are seldomly used yet valuable for research purposes. It would also house University Archives and other University departmental documents and collections. This facility would be owned and administered by UK Libraries, but use of its space and services would be extended to other UK and non-UK departments and libraries for a fee.		
Restricted Funds	7,000,000	
Lease Purchase High Performance Research Comp. It will be necessary to upgrade or replace the the current high performance research computer system within the next two years to maintain and enhance the University's	6,500,000	
research computing capability. This environment is changing rapidly and enhancing large scale research computing provides the high speed parallel and cluster computing facilities required to solve today's research problems.		
Restricted Funds	6,500,000	
Lease Purchase UK/UofL/Frankfort Research Networ	6,000,000	
The project builds a private fiber network linking the data centers at the University of Kentucky, the University of Louisville and the Governor's Office of Technology. The network will provide backbone services for the Kentucky Post Secondary Education Network and as a direct link from the University of Kentucky to nationwide carriers located in Louisville.		
Restricted Funds	6,000,000	
Financial & Banaciata WIKV & Bakinaan Otation	ii	
Expand & Renovate W.KY & Robinson Station This project includes facility renovations at the West Kentucky and Robinson Station properties, and the purchase of sixty (60) acres of land contiguous to the existing farm at the West Kentucky site. Because Plant Science has been identified as one of UK's strongest research and graduate programs and selected for Research Challenge Trust Fund (RCTF) funds to achieve international distinction, it is necessary to provide expanded land area and improved facilities for plant science research at these two locations. These renovations also will improve the capacity of extension programs and economic development initiatives at both locations.	6,000,000	
Restricted Funds	6,000,000	
Design Student Center Expansion/Renovation	6,000,000	<u> </u>
This project will be the 'design only' portion of the expansion and renovation of the Student Center. There will be two subsequent construction phases in future biennia. The Student Center, originally constructed in 1938 and expanded in 1963 and 1982, is inadequate for providing the state-of-the-art programs and services necessary to UK's efforts to increase its enrollment and improve its retention and graduation rates. Restricted Funds	6,000,000

University of Kentucky			
Purchase Telemedicine/Virtual ICU		5,000,000	
Purchase software, hardware, and services to implement a virtual ICU which employes principles of telemedicine to monitor and deliver care to intensive c patients. ICU patients require around-the-clock specialized care. With this care providers can be facility linked via telemedicine and computer monitors t rooms. A center is staffed with an intensivist-led care team that can monitor a for hundreds of patients. The care team uses software alerts to track patient trends and intervene earlier-before complications occur. Studies show that this of care model can reduce ICU mortality by 25%, reduce clinical complications save costs. The keys are constant surveillance, providing the patient with impolysician access and arming the physician with the patient information needed make the right decisions, quickly. It also has been shown to improve quality, operating efficiency, and economic performance.	sytem to ICU and care vital is type s, and nediate

Construct Facilities Storage Building		4,806,000	
This project is for the construction of approximately 20,000 gross square feet of warehouse storage space and materials handling and distribution facilities to repla space in Reynolds Buildings #1, #2 & #3 which is desired by Fine Arts and other academic departments for teaching space. The facility is to include overhead door dock levelers, and a mix of bulk storage and shelf storage space. Office and restroom facilities are included.		, ,	
Restricted Funds		4,806,000	
Expand KGS Well Sample & Core Repository		4,741,000	
The project will construct additional space and complete the laboratory facilities, loading dock, office space, and extend the entrance drive. This project will bring the space requirements up to approximately the total space needs requested in the initiouilding design by adding an extension to the facility and the necessary perimeter paving.			
Restricted Funds		4,741,000	
Purchase Patient System Enterprise		4,640,000	
This is a patient registration system to support a statewide integrated delivery system.			
Restricted Funds		4,640,000	
Purchase Dig. Medical Record Expansion		4,640,000	
Technology is currently being developed to allow the automation of the current paper medical record system. This system will have the advantage of decreasing the resources necessary to manage our current paper record system as well as broad dissemination of medical record information.			
Restricted Funds		4,640,000	
Convert Taylor Ed. Space to Offices & Classroom		4,500,000	
This project will convert the old gymnasium (currently used as a storage and TV studio) into offices and a 200 seat lecture hall. An intermediate floor structure will added to create a two story facility with offices and support spaces on the lower lever and offices, support spaces, and a lecture hall on the upper level. The project will include one two-story elevator. Additional office space and large classrooms are needed to meet the needs of the University's growing enrollment. This project will increase the utilization of the space and increase useable square footage without expanding a building.			
Restricted Funds		4,500,000	
Renovate Mineral Industries Building This project will renovate/convert the Mineral Industries Building into classroom, class labs, and research labs. Included in the work will be upgrades to the restrooms, communication closets, and other support spaces. The renovation of the building is necessary to meet the immediate space demands associated with the increase in enrollment and faculty. The current office use must be converted to instructional space and research space.	nis	4,450,000	
Restricted Funds		4,450,000

Lease Med College Off-Campus Clinic - Fayette Co			
The Med Center requires space to house an off-campus clinic similar to KY South. The leased space is located in Fayette County. The space will be approxomately 50,000 gross square feet. The annual cost is esimated at \$40			

Lease Health Affairs Office #2 - Fayette County

The University Hospital requires space to house its administrative and business offices to support the Clinical Enterprise and allow for expansion of clinical and research functions on campus. The program for this leased space may be for both new and relocated business and administrative functions and dry lab research. The leased space is located in Fayette County. The leased space is approximately 60,000 sq. ft. The annual cost is estimated at \$1,200,000. Funding for the lease will come from revenues generated from patient fees. The space will include offices, clerical, dry lab research and support space

Funding for the lease will come from revenues generated from patient fees. The

leased space will include clinical, offices, clerical and support space.

Lease - E-Cavern

The University requires space of a secure, underground technology facility. This lease is required with e-Cavern, LLC by the US Deaprtment of Treasury as part of a research project to improve the resiliency of the financial sector to recover from disaster scenarios through development of new secure, remote, financial transaction backup storage systems. The space is approximately 4,200 square feet. The annual cost is approximately \$729,140. The space is funded entirely with federal funds

Lease Kentucky Utilities Building - Fayette Co.

The University requires space to house overcrowded units. The leased space is located in Fayette County. The space is estimated to be 55,000 gross square feet. The annual cost of the lease is estimated to be \$1,000,000. The space includes offices, clerical, support, and instructional space. Funding will be from university funds.

University of Kentucky

Lease Administrative Office - Fayette County

The University and University Hospital require space to house a data center to support the academic, research and clinical functions now located on campus. The leased space is located in Fayette County. Funding for the lease will come from institutional funds including revenues generated from patient fees. The leased space will be approximate 100,000 gross square feet. The annual cost is estimated to be \$2,000,000. The leased space will include a data center and support space

Lease Blazer Parkway - Fayette County

The College of Medicine requires space to house an off-campus clinic similar to KY Clinic South. The leased space will be located in Fayette County. The space will be approximately 50,000 gross square feet. Funding for the lease will come from revenues generated from patient fees. The leased space will include clinical, offices, clerical, and support space. The annual cost of the lease will be approximately \$1,000,000.

Lease Med Center Off-Campus Fac #1 - Fayette Co.

The UK Med Center requires space to house an off-campus patient facility. The leased space will be located in Fayette County. The space will be approximately 20,000 gross square feet. The leased space will include clinical, offices, clerical, and support space. The annual cost is estimated to be \$360,000. Currently, this space is not available on campus and the University must seek leased space off campus.

Lease Med Center Grant Project #2 - Fayette Co

The Med Center requires space to house contract sponsored programs. The leased space will be located in Fayette County. The space will be approximately 15,000 square feet. Funding for the lease will come from the contracts. The leased space will include include offices, clerical, support and research space. The annual cost is estimated to be \$270,000.

Lease Med Center Grants Projects #1 - Fayette Co

The Med Center requires space to house research grant projects. The leased space will be located in Fayette County. The space will be approximately 20,000 square feet. Funding for the lease will come from the grants. The leased space will include offices, clerical, support, research space and other. The annual cost is estimated to be approximately \$360,000.

Lease Health Affairs Office #4 - Fayette Co.

The UK Healthcare requires space for the replacement and expansion of administrative and business offices to support the clinical enterprise currently located in Chandler Hospital. Current space will be reallocated for other uses until disposition of building is determined. The space will be located in Fayette County. The space will be approximately 10,000 square feet. The annual cost will be approximately \$250,000.

University of Kentucky

Health Affairs Office Lease #3 - Fayette County

The UK Healthcare requires space to house its administrative and business offices to support the Clinical Enterprise and allow for expansion of clinical and research functions on campus. The program for this leased space may be both new and relocated business and administrative functions and dry lab research. The leased space will be in Fayette County. Funding for the lease will come from revenues generated from patient fees and will include offices, clerical, dry lab research, and support space. The lease will be approximately 60,000 square feet. The annual cost will be approximately \$1,200,000.

Lease Health Affairs Office - Fayette County

The UK Healthcare requires space to house its administrative and business research functions to support the Clinical Enterprise and allow for expansion of clinical and research functions on campus. The program for this leased space may be both new and relocated business and administration functions and dry lab research. The leased space will be located in Fayette County. Funding will come from revenues generated from patient fees and will include offices, clerical, dry lab research and support. The space will be approximately 40,000 square feet. The annual cost is estimated to be approximately \$800,000.

Lease Good Sam - Hospital - Fayette County

The UK HealthCare-Good Samaritan requires space to house certain clinical functions including its Diagnostic Imaging Center. The leased space will be located in Lexington. The space will be approximately 36,000 square feet. The leased space will include clinical, offices, clerical and support space; and will provide for additional employees and/or functions. The annual cost of the lease is estimated to be approximately \$720,000.

Lease Grants Projects #2 - Fayette Co.

The University requires space to house new research grants and contracted programs. The leased space will be located in Lexington within a reasonable distance from the main campus. The space will be approximately 25,000 square feet. Funding for the lease will be realized by the grants and/or contracts. The annual cost is estimated to be \$450,000. The leased space will include offices, clerical, support, and research space.

Lease Off Campus #3 - Fayette Co.

The University requires the space to accomodate functions moved off campus for research grants and contracts and/or off-campus patient/clinic facility. The leased space will be located in Fayette County. The space will be approximately 25,000 square feet. The annual cost is estimated to be \$450,000. Funding will be realized by grants and/or contracts and/or revenues from patient fees. The space is intended to be used for offices.

University of Kentucky

Lease Off Campus #2 - Fayette Co

The University requires the space to accommodate functions moved off campus to free-up campus space for increased enrollment, faculty and staff. The leased space will be located in Fayette County. The space will be approximately 20,000 square feet. The estimated annual cost will be \$360,000. Funding will come from university funds.

Lease Off Campus #1 - Fayette Co.

The University requires space to accommodate functions moved off campus to free-up campus space for increased enrollment, faculty and staff. The lease space will be located in Fayette County. The space will be approximately 80,000 square feet. The estimated annual cost is \$1,440,000. Funding will come from university funds.

Lease Rural Health Expansion-Hazard Perry Co

The University requires space that will provide for an expansion of the Rural Health Facility. The leased space will be located in Hazard, Kentucky. The space will be approximately 20,000 square feet. The estimated annual cost is \$320,000. Funding will be from the university funds and clinical revenues.

Lease Grants Projects #1 - Fayette Co

The University requires space to provide for new research grants and contracts that will be awarded . The space will be approximately 20,000 gross square feet. Funding for the lease will be realized by the grants and/or contracts. The leased space will include offices, office support and research space. The annual cost of the lease is estimated at \$450,000.

Lease Med Center Off Campus Fac #2-Fayette Co

The University requires space for off-campus patient/clinic facility. The space will include offices, clerical, support, research labs and clinical. The space will be located in Fayette Co. The space will be approximately 25,000 gross square feet. The annual cost will be approximate \$450,000. Funding will be from clinical revenues.

Guaranteed Energy Savings Performance Contracts

This project is for the implementation of an Energy Performance Contract. Implementation of such a contract will result in potential significant savings in the utility budget for the Hospital.

Postsecondary Education	Fiscal Year 2007-2008	Fiscal Year 2008-2009	Fiscal Year 2009-2010

University of Louisville

Expand - Papa John's Cardinal Stadium

72,000,000

The project will expand Papa John's Cardinal Stadium with addition of 45 private boxes including 810 box seats, construction of a 16,100 seat upper deck with access concourse, 2,400 additional lower deck seats in the NE/NW corners, and a "walk-around" concourse on the south side allowing access from new east side to existing west side upper decks. Additional construction includes access ramps, stair/elevator towers, concession, toilet and other support areas serving the new concourse. The \$67 million in third-party financing authorization will be executed as industrial revenue bonds through the Louisville Metro government.

Restricted Funds 5,000,000
Other Funds 67,000,000

Expand - Ambulatory Care Bldg. Academic Addit

60,000,000

Fiscal Year

2008-2009

Fiscal Year

2009-2010

This addition to the Ambulatory Care Building will house most of the clinical departments for the School of Medicine and educational and administrative offices for the UofL Hospital. The School of Medicine has not built educational facilities since 1972, and the clinical departments' faculty numbers have more than doubled in the interim. This will allow University Medical Center, Inc. (lease UofL Hospital) to renovate the Ambulatory Care Center to become a more efficient and effective outpatient care center. The university plans to use a private developer to build this addition. The university will lease back a portion of the space from the developer.

Other Funds 60,000,000

Expand & Renovate - Dental School

42,700,000

This authorization will allow the university to renovate approximately 92,000 gross square feet of the Dental School and construct a 14,300 gross square foot addition to create state-of-the-art operatories and refurbish waiting areas and associated laboratory/examining areas. Also included will be a total renewal of the building's infrastructure including electrical, mechanical, plumbing and data network upgrades.

Restricted Funds 4,000,000 Agency Bonds 38,700,000

Construct - 500 Bed Residence Hall

40,130,000

This authorization will allow the University to construct a new 500 bed residence hall on the Belknap Campus. The new hall would also provide approximately 15,000 square feet for development of a west campus food service and approximately 5,000 square feet for the relocation of the Residence Life administration office from Stevenson Hall. Third-party financing will be used to fund the project.

Other Funds 40,130,000

Construct - HSC Parking Structure III

38,735,000

This project will construct a third parking garage on the Health Sciences Campus with 2,100 spaces at Chestnut & Clay Streets.

Agency Bonds 38,735,000

	iscal Year 2007-2008	Fiscal Year 2008-2009	Fiscal Year 2009-2010
University of Louisville			
Purchase - Land Near HSC - Parcel I		34,246,000	
This project will purchase property adjacent to the Health Sciences Campus. University of Louisville will purchase, should it become available, 3.38 acres that currently have a 106,428 gross square foot office building. The existing building house offices for faculty and staff in the School of Medicine.			
Other Funds		34,246,000	
Construct - HSC Parking Structure II		30,700,000	
This authorization will allow the construction of a 440,000 gross square foot parl facility with 1,712 parking spaces. The new structure will be along Hancock Structure Muhammad Ali Boulevard and Flexner Way. A total of 220 existing superking spaces are being displaced by new construction.	eet		
Agency Bonds		30,700,000	
Purchase - Land Near Belknap Campus South		30,000,000	
Since 1984, the Belknap Master Plan has included approximately 32 acres immediately south of the campus along the CSX and Norfolk Southern rail line. There is a time limited opportunity to acquire this essential property for campus expansion. We are looking to State and Metro resources to complete this transaction.			
Other Funds		30,000,000	
Construct - HSC Steam/Chilled Water Plant II		29,668,000	
This project will construct a 30,000 gross square foot steam and chilled water pl serve the Health Sciences Campus, including a 6,000-ton chiller and boilers with capacity to produce 50,000 pounds of steam per hour.			
Other Funds		29,668,000	
Renovate - Capital Renewal Pool		28,265,000	
The Capital Renewal Pool will allow the university to address approximately ten of projects: roof replacement, windows, exterior building upgrades, interior build upgrades, walking surfaces, electrical upgrades, data collection and security paremergency generators, mechanical upgrades, and carpet/floor tile.	ding		
Restricted Funds		28,265,000	
Construct - HSC Research III		15,800,000	
This authorization will revise the funding sources for the Health Sciences Camp Research Facility III which is currently in construction. The project was originally authorized in the 2004-2006 biennium on HB267 for \$65,200,000, including \$39,150,000 in state bonds, \$15,800,000 in restricted funds, and \$10,250,000 ir federal funds. The university was unable to secure the proposed restricted funds authorization will replace that shortfall with \$15,800,000 in agency bonds. Agency Bonds	, n	15,800,000

Fiscal Year 2008-2009 2009-2010

University of Louisville

Student Health Facility Lease

Lease for Student Health Facility and counseling center. Lease needed to relieve current overcrowding and relocate offices. Need approximately 15,000 square feet. This lease will allow demolition of existing building.

Med Center One Lease

Med Center One, 501 East Broadway, Louisville, KY from the Louisville Medical Center Development Corporationm (LMCDC) for office space for the School of Medicine.

Purchase - Digital Communications System

This project was authorized in the 2006-08 budget in the amount of \$4,000,000, and the project is being reauthorized. Equipment for digital transmission of data, voice, and video. To upgrade and enhance the university communications network. It meets the demand for integrated voice, data, and video technology on both a local and state-wide basis. The systems are necessary to meet the increased communications needs of the university faculty, staff, students, and administrators.

Purchase - Enterprise Application System

This project was authorized in the 2006-08 budget in the amount of \$2,000,000, and this reauthorizes the project for that amount. Enterprise software applications to support University operations. Enterprise application will provide academic and institutional support in the delivery of instruction and research.

Guaranteed Energy Savings Performance Contracts

This project will allow U of L to enter into an agreement with a Performance Contractor to reduce our energy usage. Energy savings will be used to pay for facility upgrades/modifications - this will apply to several campus buildings.

University of Louisville Summary	72,000,000	475,734,000	18,593,700

Kentucky Community and Technical College System			
Capital Renewal & Deferred Maintenance Pool		38,000,000	
The intent of this project is to provide the Kentucky Community and Technical			
College System (KCTCS) a source of funds with which to address the replacen	ent of		
building systems, i.e. roofs, HVAC systems, electrical systems, that have reach	ed or		
exceeded their expected useful lives. These projects are known as capital rene	ewal.		
In addition, the pool will be used to fund major maintenance projects that have	not		
exceeded expected useful lives but which must be replaced or repaired becaus	е		
funding to maintain the systems over the course of their lives has been deferred	t		
causing premature system failure. Finally, the pool will be used to fund projects	that		
must be undertaken to achieve compliance with ADA guidelines, life safety cod	es,		
environmental codes, and other government mandates.			
Restricted Funds		38,000,000	
Advanced Technology Center Owensboro CTC		14,055,000	
This project provides for the completion of the Owensboro Advanced Technology	ЭУ		
Center, the first phase of which was authorized for the 2004-06 biennium by the	2005		
General Assembly. This Center represents a partnership between Owensboro			
Community and Technical College and Western Kentucky University to provide			
postsecondary education opportunities from the certificate level through the ma	sters		
degree level. This facility is needed to meet the training and education needs of	f the		
region's business and industry community as well as its citizens. This proposed	t		
second phase of approximately 40,000 gross square feet adds the remaining			
technology programming needs and provides facilities for Western Kentucky			
University's Owensboro Campus.			
Bond Funds		14,055,000	
Construct Carrollton Campus Jefferson CTC		12,000,000	
Construct an approximately 40,000 gross square foot facility on a site to be acc	uired		
in Carroll County that will become the Carrollton Campus for Jefferson Commu	nity		
and Technical College. The new campus will expand on the programming curre	ently		
offered at a leased facility in downtown Carrollton, provide testing and assessm	ent		
services, and will provide technical training and business and industry training			
facilities to expand postsecondary education opportunities in the region.			
Bond Funds		12,000,000	
KCTCS Property Acquisition Pool		5,500,000	
Creates a pool of funding that KCTCS can use to purchase property parcels ad	jacent		
to college campuses as they come on the market, or other properties deemed			
essential for future expansion of college activities. Acquisition of such parcels			
provides a vehicle for campus expansion when needed. These parcels can als	0		
provide short-term relief for parking shortages currently being experienced at vi	rtually		
all KCTCS campuses as enrollments continue to increase.			
Restricted Funds		5,500,000

Maysville CTC Montgomery County Center Lease			
To meet the immediate need for postsecondary education and training in			
Montgomery County, Maysville CTC plans to lease up to 15,000 - 20,000 squa	re feet		
of space.			

Kentucky Community and Technical College System

Bullitt County Campus Lease

Jefferson Community and Technical College has identified an urgent need for postsecondary education programming in Bullitt County, which is the largest county in Kentucky without a public postsecondary education facility. To meet the immediate need for postsecondary education and training in Bullitt County, Jefferson CTC is exploring possibilities for leasing space to begin offering classes as soon as possible. The amount of space to be leased is as yet undetermined, but due to the expected demand it could be substantial, i.e 15,000 - 20,000 square feet, thereby potentially making it a capital lease.

Advanced Manufacturing Training Center Lease

This space may be needed in Scott County to provide customized training in manufacturing processes for all of the automotive-based manufacturing companies located in Kentucky until such time as the Advanced Manufacturing Center facility that is currently being designed and for which construction funding is being requested in the 2008-10 capital budget is completed. Currently limited programming is being offered on-site at the Toyota plant in Georgetown in about 14,000 square feet at an annual cost of approximately \$108,000 per year.

KCTCS System Office Lease Purchase

This is a lease-purchase agreement with the City of Versailles whereby the City has secured funding to renovate a vacant manufacturing building located at 300 North Main Street in downtown Versailles to create office and conference space for the KCTCS System Office, which was previously located in four separate buildings at two locations in Fayette County. In turn, KCTCS agrees to repay the City for its costs in acquiring and renovating the property over 20 years, at which time KCTCS will assume ownership of the property. The annual cost of the lease-purchase is \$895,020 for the entire term of the agreement, including maintenance and operations costs but not including utilities.

Jefferson CTC - Jefferson Education Center Lease

This lease encompasses approximately 62,244 square feet of office, service and storage space in downtown Louisville adjacent to the Downtown Campus of Jefferson Community and Technical College. The leased space has been used to relocate and consolidate all student services functions for the college. Previously those functions had been dispersed among several buildings on multiple campuses. This was very inefficient for college staff and extremely inconvenient for students. The space vacated in other buildings has, in most instances, been converted back into instructional space; in other instances it has permitted departments to expand into more suitable and less cramped quarters. The annual cost of the lease is \$369,000.

Fiscal Year 2008-2009

Fiscal Year 2009-2010

Kentucky Community and Technical College System

Henderson CC Lease for Applied Technology Prgm

This lease provides classroom and laboratory space for Henderson Community College's Applied Technology Program which provides high demand technical training programming. Training offered includes Manufacturing Technology and Industrial Maintenance. The college does not yet have on campus the type of space needed to provide these types of training. The Tri-County Technology Center (now called the William J. Sullivan Technology Center) is under construction. When that facility is completed, the programming will be moved to that building and this lease will be cancelled. The annual cost of the lease is \$240,000.

Guaranteed Energy Performance Savings Contracts

The intent of this project is to request the authority to undertake guaranteed energy savings projects as outlined in House Bill 639 and passed by the 1998 General Assembly. The types of projects and their locations are to be determined subsequent to energy audits and feasibility analyses of KCTCS facilities. Some or all of the projects identified can be expected to exceed \$600,000 in scope. The projects should result in substantial energy savings for the institutions undertaking them. These savings will be used to pay for the projects over a 10 to 12 year period via payments to the project contractor. No state capital funds are involved.

Kentucky Community and Technical College System Summary		89,190,000	
Restricted Funds		49,943,000	
Bond Funds	32,555,000		
Other Funds	6,692,000

General Administration and Support		
Replace Automated Vehicle Information Sys (AVIS)	25,000,000	
Bond funds are provided to replace the Automated Vehicle Information System (AVIS) which has been in use since the early 1980s. The replacement of the existing system will streamline and improve efficiencies within the Department of Vehicle Regulation, the Division of Motor Vehicle Licensing, and the county court clerk's		
offices throughout the state.		
Bond Funds	25,000,000	
Kentucky Horse Park Roads & Pedways - FEI Games	10,300,000	
Funds are provided for roadway infrastructure improvements and construction at the Kentucky Horse Park in preparation of the FEI World Equestrian Games.		
Road Fund	10,300,000	
Bluegrass Airport Runway	9,000,000	
Funds are provided for the reconstruction of runway 9-27 at Bluegrass Field in Lexington, Kentucky.	, ,	
Road Fund	9,000,000	
Road Maintenance Parks	1,500,000	1,500,000
Funds are provided for the upgrading and resurfacing of state park roads and parking		
areas, including striping, culverts, bridges, shoulders, ditches, curbs, and guardrails.		
Road Fund	1,500,000	1,500,000
Repair Loadometer & Rest Areas	900,000	600,000
Funds are provided for general repairs, emergency repairs, maintenance, renovation		
and improvements of existing loadometer stations and interstate rest areas.		
Road Fund	900,000	600,000
Purchase TRNS*PORT Upgrade	1,300,000	
Funds are provided to purchase a newer version of the TRNS*PORT software suite which was developed under the guidance of the American Association of State		
Highway and Transportation Officials (AASHTO). The upgrade will provide better		
assistance to the Cabinet in managing and analyzing project estimation, contract		
proposals, contract lettings and awards, and construction and materials management.		
Road Fund	1,300,000	
Building Renovations & Emergency Repairs	600,000	600,000
Funds are provided for building maintenance, renovation, and emergency repairs to	, -	,
Transportation Cabinet owned buildings throughout the Commonwealth.		
Road Fund	600,000	600,000

Transportation Fiscal 2007-2		Fiscal Year 2008-2009	Fiscal Year 2009-2010
General Administration and Support			
Aircraft Maintenance Pool 2008-2010		500,000	500,000
Funds are provided to perform all maintenance for agency aircraft in accordance with Federal Aviation Regulations. The funding includes major maintenance items such as engine overhauls and component replacements including transmissions, helicopter main and tail roter systems, avionics and gearboxes, etc. Also, included is contract maintenance for avionics repair and/or other items that are beyond the capability of agency personnel.			,
Investment Income		500,000	500,000
Various Environmental Compliance		500,000	500,000
Funds are provided to comply with EPA requirements by investigating known or suspected contaminated sites, evaluate, and develop corrective measures to abate contamination from spills or releases of hazardous substances or non-hazardous pollutants.			
Road Fund		500,000	500,000
Const. Henderson Maint. Fac. & Salt Str.			960,000
Funds are provided to acquire land and construct a new Henderson County Maintenance Facility. The new facility will replace the existing facility in Henderson County.			,
Road Fund			960,000
Construct Crittenden Co. Maint. Facility			910,000
Funds are provided to acquire land and construct a new Crittenden County Maintenance Facility. The new facility will replace the existing facility in Crittenden County.			,
